On Trails Robert Moor.2017-07-04 In 2009, while thru-hiking the Appalachian Trail, Robert Moor began to wonder about the paths that lie beneath our feet: How do they form? Why do some improve over time while others fade? What makes us follow or strike off on our own? Over the course of the next seven years, Moor traveled the globe, exploring trails of all kinds, from the miniscule to the massive. He learned the tricks of master trail-builders, hunted down long-lost Cherokee trails, and traced the origins of our road networks and the Internet. In each chapter, Moor interweaves his adventures with findings from science, history, philosophy, and nature writing--combining the nomadic joys of Peter Matthiessen with the eclectic wisdom of Lewis Hyde's *The Gift*. Throughout, Moor reveals how this single topic--the oft-overlooked trail--sheds new light on a wealth of age-old questions: How does order emerge out of chaos? How did animals first crawl forth from the seas and spread across continents? How has humanity's relationship with nature and technology shaped the world around us? And, ultimately, how does each of us pick a path through life? With a breathtaking arc that spans from the dawn of animal life to the digital era, *On Trails* is a book that makes us see our world, our history, our species, and our ways of life anew--Book jacket flap.

The Agony of Bun O'Keefe Heather Smith.2017-09-05 Little Miss Sunshine meets Room in this quirky, heartwarming story of friendship, loyalty and discovery. It's Newfoundland, 1986. Fourteen-year-old Bun O'Keefe has lived a solitary life in an unsafe, unsanitary house. Her mother is a compulsive hoarder, and Bun has had little contact with the outside world. What she's learned about life comes from the random books and old VHS tapes that she finds in the boxes and bags her mother brings home. Bun and her mother rarely talk, so when Bun's mother tells Bun to leave one day, she does. Hitchhiking out of town, Bun ends up on the streets of St. John's, Newfoundland. Fortunately, the first person she meets is Busker Boy, a street musician who senses her naivety and takes her in. Together they live in a house with an eclectic cast of characters: Chef, a hotel dishwasher with culinary dreams; Cher, a drag queen with a tragic past; Big Eyes, a Catholic school girl desperately trying to reinvent herself; and The Landlord, a man who Bun is told to avoid at all cost. Through her experiences with her new roommates, and their sometimes tragic revelations, Bun learns that the world extends beyond the walls of her mother's house and discovers the joy of being part of a new family -- a family of friends who care.

The Continental Divide Trail Barney Scout Mann.2018-09-25 The Continental Divide Trail explores this iconic crown jewel of America's trails with more than 250 spectacular contemporary images, historical photos and documents from the Continental Divide Trail Coalition archives, and detailed maps. Readers can experience the trail as if their boots were on the 3,100-mile path. This photo- and information-packed book is a must-have for anyone who has ever caught the magic of the nation's rooftop, the Great Divide. It's an inspirational bucket list for everyone who wants to get outdoors--day hiker, backpacker, fisherman, hunter, and those rare souls--thru-hikers--who dare to attempt hiking it all in one go. With text by Barney Mann, who has thru-hiked all three Triple Crown trails, and a foreword by two-time Pulitzer Prize-winning New York Times columnist Nicholas Kristof, this book makes the trail come alive for both veteran hikers and armchair travelers alike.

Hiking Appalachian Trail from Georgia to Maine Alan Greenfield.2017-01-15 Hiking Appalachian Trail from Georgia to Maine 49 Day Challenge to Hike 12 Greatest Sections of A.T. It was 1994, on my 23rd birthday my father gave me an envelope, which I figured would be a gift certificate for something outdoor or even a golf club coupon. But to my surprise, it was an airline ticket to Atlanta! I was utterly confused, looking at my face he knew I was, but that confusion soon turned into a huge excitement when he said: we are going to hike the Appalachian Trail in less than 50 days, get ready son. I was excited, I asked him, why he hasn't hiked this trail ever, he said he always had the dream of hiking it with me, in his word, I saved the best for you. That was a trip I will never forget, I think to date that is one of most fun and the adventurous thing I have ever done. We were able to finish it in 49 days too, we both were very proud of each other. Soon after that trip, my dad was diagnosed with a severe case of arthritis, even though the doctors said it was not because of that trip but they think it was too many hiking trips through many rough and rugged terrain that contributed to his condition. He still hikes, but we only take him to mini half-day trails. When I originally had the idea to write a guide book on how to hike on the great Appalachian Trail, at first, I thought I should just write it like a journal of what we did, but then my father told me that might not help every reader. He suggested, I should write it like a guide book that can help anyone from a beginner to an advanced hiker, this way we cover a broad range of hikers. So this book is not about my hiking trips, but yours, my main focus in this book is to get you familiarized with the trail and get you prepared for it. This book is truly a guidebook which is divided into 2 parts where I start off with some basic facts and information about the great Appalachian Trail, then give my readers a clear overview of the trail in every region and state it crosses. Next, I talked about how to get started on hiking the Appalachian Trail, along with all different options like a day hike, multi-day hike and through hike. Next, I spoke about what to expect on the trail, what kind of help and supports are out there, what and how weather can affect your hiking, what wild animals you have to be aware of. Then I discuss how you can find sanitation, restroom, shower, etc. on the trail, how to deal with various illness while on the trail. Next up is how you should pack, what gears you need, how to plan a through-hike and how to actually get started on this amazing trip. In the second part of the book, I share how to hike each section day by day and what you can expect, what you need to be looking for, what you need to be aware of one each section of your hike. After hiking through this great Appalachian Trail twice, I can assure you it can be done, and no it is not a monumental task, but yes it will take effort and a strong willingness to go through with it. I know if I could do it anyone can. I know you can do it too. Good luck! Alan Greenfield

Man and Dog Justin Barbour. 2019 One man, one dog, and a grand adventure across the rugged and mystical interior wilderness of Newfoundland. In April of 2017, Justin Barbour and his dog, Saku, arrived on the Rock's west coast to begin their quest to live the ways of old and see parts of the province's woods that few will ever get to see. A late winter lingers, and the duo must push over the Long Range Mountains and toward the interior of the island, where they hope lakes and rivers will be thawed to allow them to continue by inflatable raft. From sunrise to sunset, the reader will follow the companions as they navigate against the dangerous and unforgiving elements from west to east in an attempt to reach Cape Broyle, some 700 kilometres away. It was an adventure that spanned sixty-eight days and would push their limits further than they could have ever imagined. You'll see the island in a unique way, become enlightened about outdoor life, and learn more about Newfoundland and Labrador as a whole. Complete with photos, maps, and interesting facts from the journey, you will feel the heat of the campfire roasting your cheeks, the tug of a trout on your line, and the breath of a black bear on your neck. It's an experience for nature lovers everywhere.--

Ten Million Steps M. J. Eberhart. 2007-04-11 M. J. Eberhart, aka the Nimblewill Nomad, was a 60-year-old retired doctor in January 1998 when he set off on a foot journey that carried him 4,400 miles (twice the length of the Appalachian Trail) from the Florida Keys to the far north of Quebec. Written in a vivid journal style, the author unabashedly recounts the good (friendships with other hikers he met), the bad (sore legs, cutting winds and rain), and the godawful (those dispiriting doubts) aspects of his days of walking along what has since become known as the Eastern Continental Trail (ECT). An amazing tale of self-discovery and insight into the magic that reverberates from intense physical exertion and a high goal, Eberhart's is the only written account of a thru-hike along the ECT. Covering 16 states and 2 Canadian provinces, *Ten Million Steps* deftly mixes practical considerations of an almost unimaginable undertaking with the author's trademark humor and philosophical musings.
