IAS/US GAAP Comparison David Cook.2002

IAS - International Accounting Standard Dr. Ashad ullah Qureshi.2022-06-01 U.S. private entities considering adoption of International Standards for Small- and Medium-sized Entities (IFRS for SMEs) need to understand how the new standards will modify financial reporting. However, there has been no determination of the significance of the financial statement impact of changing from United States Generally Accepted Accounting Principles (U.S. GAAP) to IFRS for SMEs. Without this knowledge, private entities in the United States will not be able to make an informed decision as to the benefits or consequences of adopting IFRS for SMEs. Based on stakeholder theory, this study sought to determine how adoption of IFRS for SMEs would affect the financial reporting of U.S. private entities. Using identified reporting differences between the 2 sets of standards, hypothetical 2010 IFRS for SMEs' financial statements were prepared for 3 participating entities. Analysis of variation between the hypothetical IFRS for SMEs' financial statements and the original U.S. GAAP financial statements provided a means to determine the financial reporting impact of IFRS for SMEs' adoption. In each of the 3 case studies, adoption of IFRS for SMEs did not significantly influence the financial reporting of U.S private entities, indicating that the communication of financial information would be fundamentally the same using the simplified IFRS for SMEs or the more complex U.S. GAAP. The results of this study suggest that IFRS for SMEs should be considered an acceptable set of standards for the preparation of quality financial statements by U.S. private entities. This study positively contributes to social change by providing new knowledge to assist private companies in the evaluation of the adoption of IFRS for SMEs; such knowledge could, in turn, reduce financial reporting costs and improve the SMEs' economic conditions.

WILEY IAS 2004 Barry J. Epstein. 2004 Your one indispensable guide to IAS/IFRS compliance International Accounting Standards (IAS) or International Financial Reporting Standards (IFRS), as they will be referred to henceforth, are receiving more attention than ever, having now been endorsed by the International Organization of Securities Commissions (IOSCO) and the European Union (EU). The EU will require that listed companies throughout the European Union apply IAS, instead of previously employed national accounting standards, by 2005, for consolidated financial reporting purposes. This, along with the growing list of nations (such as Australia, Russia, and Tanzania) either formally adopting IAS or basing national standards on them, and the ever-expanding group of major international companies choosing to report using that basis of accounting, will likely provide the impetus necessary to catapult IAS into truly global use and acceptance. Furthermore, the recent U.S. SEC's call for a fundamental shift in the philosophy underlying the U.S. accounting standard-setting process from the rules-based approach to the principles-based system (which has always been the hallmark of the International Accounting Standards) is generating a great deal of interest in these standards even in the U.S., thus paving the way for faster-than-expected global convergence. *Wiley IAS 2004* is the compact yet truly comprehensive quick-reference guide that accountants can depend on to assist in the understanding and preparing of financial statements presented in accordance with IAS/IFRS. This new edition includes complete coverage of all the standards and interpretations issued or revised by the International Accounting Standards Committee (IASC), as well as the International Accounting Standards Board (IASB). In addition, excerpts taken from published financial statements of companies around the globe reporting under IAS illustrate practical applications of the standards and provide comprehensive examples of footnote disclosures. Furthermore, appendices to the book incorporating illustrative financial statements presented under IAS/IFRS, an IAS/IFRS checklist, and a table outlining comparisons of the salient provisions of IAS/IFRS to both U.S. GAAP and UK GAAP requirements enhance the practical utility of this book. EU companies required to switch to IFRS in 2005 will find practical how-to advice and implementation guidance on IFRS 1, First-Time Adoption of International Financial Reporting Standards. In addition, the book offers in-depth coverage of the latest changes made to extant standards by the IASB's Improvements Project, which will become effective in 2005. This up-to-date 2004 edition covers important, complex requirements addressed by recent IAS/IFRS, including: IFRS 1, First-Time Adoption of international Financial Reporting Standards IAS 10, Events After the Balance Sheet Date IAS 32, Financial Instruments: Disclosure and Presentation IAS 33, Earnings Per Share IAS 34, Interim Financial Reporting IAS 35, Discontinuing Operations IAS 36, Impairment of Assets IAS 37, Provisions, Contingent Liabilities, and Contingent Assets IAS 38, Intangible Assets IAS 39, Financial Instruments: Recognition and Measurement IAS 39 Implementation Guidance: Questions and Answers IAS 40, Investment Property IAS 41, Agriculture New for 2004: Analysis and interpretation of other expected changes (Exposure Drafts) to IFRS: ED 2, Share-Based payments ED 3, Business Combinations ED 4, Disposal of Non-Current Assets and Reporting of Discontinued Operations ED 5, Insurance Contracts Plus: Other IAS, including the revised standards on Presentation of Financial Statements (IAS 1), Cash Flow Statements (IAS 7), Construction Contracts (IAS 11), Income Taxes (IAS 12), Segment Reporting (IAS 14), Property, Plant and Equipment (IAS 16), Leases (IAS 17), Revenue (IAS 18), Employee Benefits (IAS 19), Government Grants (IAS 20), Business Combinations (IAS 22), and the often contentious topic of Related-Party Disclosures (IAS 24), as well as coverage of specialized industry accounting rules-including Disclosures in Financial Statements of Banks (IAS 30). All currently effective Standing Interpretations Committee (SIC)/ International Financial Reporting Interpretations Committee
