A Very Profitable War Didier Daeninckx.2012-12-26 A rollicking noir set in Paris, during the anarchic days following World War One In January 1920, in the aftermath of "the war to end all wars," private detective René Griffon is hired to investigate the marital infidelities of the wife of a war hero.

But what he uncovers is more than shabby behavior, and more than a sex scandal—what he uncovers is a scandal with devastating national implications. And as Griffon's investigation plunges him into the murky world of blackmail, murder, anarchists, profiteering, and the repercussions of the war's dark secrets, he discovers that the people who helped France win the war are being made to pay for the peace. Both homage to its American predecessors and critique of the Americanization of French—and global—culture, *A Very Profitable War* is a tense and evocative book that will linger long after its startling conclusion.

Recoding World Literature B. Venkat Mani.2016-12-01 Winner, 2018 Aldo and Jeanne Scaglione Prize for Studies in Germanic Languages and Literatures, Modern Language Association Winner, 2018 German Studies Association DAAD Book Prize in Germanistik and Cultural Studies. From the current vantage point of the transformation of books and libraries, B. Venkat Mani presents a historical account of world literature. By locating translation, publication, and circulation along routes of "bibliomigrancy"—the physical and virtual movement of books—Mani narrates how world literature is coded and recoded as literary works find new homes on faraway bookshelves. Mani argues that the proliferation of world literature in a society is the function of a nation's relationship with print culture—a Faustian pact with books. Moving from early Orientalist collections, to the Nazi magazine *Weltliteratur*, to the European Digital Library, Mani reveals the political foundations for a history of world literature that is at once a

philosophical ideal, a process of exchange, a mode of reading, and a system of classification. Shifting current scholarship's focus from the academic to the general reader, from the university to the public sphere, *Recoding World Literature* argues that world literature is culturally determined, historically conditioned, and politically charged.

Chemistry and Technology of Flavours and Fragrances David Rowe. 2009-02-12 Modern flavours and fragrances are complex formulated products, containing blends of aroma compounds with auxiliary materials, enabling desirable flavours or fragrances to be added to a huge range of products. From the identification and synthesis of materials such as cinnamaldehyde and vanillin in the 19th Century to the current application of advanced analytical techniques for identification of trace aroma compounds present in natural materials, the flavour and fragrance industry has developed as a key part of the worldwide specialty chemicals industry. With contributions mainly coming from industry based experts, *Chemistry & Technology of Flavours and Fragrances* provides a detailed overview of the synthesis, chemistry and application technology of the major classes of aroma compounds. With separate chapters covering important technical aspects such as the stability of aroma compounds, structure - odour relationships and identification of aroma compounds, this book will be essential reading for both experienced and graduate level entrants to the flavour & fragrance industry. It will also serve as an important introduction to the subject for chemists and technologists in those industries that use flavours and fragrances, eg food, cosmetics & toiletries, and household products. David Rowe is Technical Manager at De Monchy Aromatics Ltd., Poole UK

Grassroots Postmodernism Gustavo Esteva, Madhu Suri Prakash. 2014-08-14 With the publication of this remarkable book in 1998, Gustavo Esteva and Madhu Suri Prakash instigated a complete epistemological rupture. *Grassroots Post-modernism* attacks the three sacred cows of modernity: global thinking, the universality of human rights and the self-sufficient individual. Rejecting the constructs of development in all its forms, Esteva and Prakash argue that even alternative development prescriptions deprive the people of control over their own lives, shifting this control to bureaucrats, technocrats and educators. Rather than presuming that human progress fits a predetermined mould, leading towards an increasing homogenization of cultures and lifestyles, the authors argue for a 'radical pluralism' that honours and nurtures distinctive cultural variety and enables many paths to the realization of self-defined aspirations. This classic text is essential reading for those looking beyond neoliberalism, the global project and the individual self.

The Strategy of Desire Ernest Dichter. 2017-07-12 Ernest Dichter is famous as one of the founding fathers of motivational research. In applying the social sciences to a variety of problems, Dichter emphasized new approaches to problem solving, advertising, politics, and selling, and issues of social significance such as urban renewal, productivity, and drug addiction. As an author and corporate adviser, he used psychoanalytic theory and depth interviewing to uncover unconsciously held attitudes and beliefs. His goal was to help explain why people act the way they do and how positive behavioral change might be achieved. In *The Strategy of Desire*, Dichter both counters the argument that motivational research amounts to manipulation, and shows how the understanding and modification of human behavior is necessary for progress. Dichter's survey and analysis of behavior ranges widely. He examines everyday matters of product choice, as well as such broad civic issues as voter participation, religious toleration, and racial understanding. He shows that in order to achieve socially constructive goals, it is necessary to move beyond theological exhortation, which takes an unrealistic view of human morality, as well as beyond the limits of empirically oriented social science research, which only deals in appearances. Dichter sees human action as rooted in irrational and often unconscious motivation, which can usually be uncovered if the correct approach is used. In his consumer research, he analyzes the nonutilitarian importance of objects in everyday life, as well as how products and materials become bound with emotional resonance or acquire different meanings from different contexts or points of view. Dichter shows that success depends on the satisfaction of desires and a movement beyond the ethic of work and saving. Arguing that in an increasingly technological world, progress and social harmony are materially based, he advocates a morality of the good life in which prosperity and leisure lead to greater happiness.

The Eternal Philistine Odon Von Horvath. 2012-03-27 This never-before translated work by a major yet overlooked mid-20th century writer is a brutally funny look at the human comedy on the eve of Europe's descent into Fascism. It tells the tale of a failed used car salesman who wants to live the high life, and so decides to travel by train from Munich to Barcelona to attend the World's Fair — in hopes of meeting a beautiful, rich woman who will provide for his every whim. It's a highly-stylized and, at times, raucously funny tale of the almost-absurd: a dark and satiric look at Europeans, and especially Germans, on the brink of cataclysm. Adrift in their acquisitive desires, they are vulnerable to the propaganda of the State — making this novel brilliantly foresightful in its understanding of politics and human nature at a crucial point in modern history. Ödön von Horváth's scathing insight, in fact, led to his having to flee the very society he depicted when, living in Berlin, he drew the wrath of the Nazis. And yet this hilarious tour-de-force — written just after his escape, and just before his death in a tragic accident — eschews bitterness for rambunctious

perseverance and compassion, and provides ample evidence of why von Horváth deserves renewed appreciation.

Contemporary Nostalgia Niklas Salmose.2019-09-23 Some of the most pressing contemporary issues (ecological crisis, migration and integration, fragmented worldviews, social media, fake news, extremist politics and terrorism) can be understood more profoundly through how they interact with both individual and collective forces of nostalgia. Nostalgia is politics, but these politics are also interwoven with media and culture. Notwithstanding how nostalgia is used or contextualized in terms of politics and social practices, commodification or personal development, its power is primarily situated within its efficacy as a governing, influential human emotion. The vast and luminous contributions to this special issue on contemporary nostalgia are all investigating the role different aesthetic media formats (film, music, literature, computer games) plays in nostalgic negotiations with style, history, migration, love, nationalism, diaspora, irony, modernity, colonial and postcolonial discourses, and adoption. Mutually, these essays stand out as important, original, critical contributions to the expanding field of nostalgia studies and offer a valued insight on our world.
