Chip Carving Daniel Clay. The Art Of Chip Carving is an easy to follow, step-by-step guide to one of the world's most ancient and widely practiced forms of woodcarving. Anyone, from the completely inexperienced beginner to the veteran craftsman, can learn to use simple, inexpensive tools and techniques to carve striking decorative designs in wood. Chip carving is an especially good introduction to working wood for the inexperienced because of its low cost-of-entry, and because it puts the most essential concepts of woodworking front and center: safety, precision, and how understanding the nature of the wood itself leads to successful results. This guide is loaded with the technical information you need to start chip carving--the few tools you need and how to sharpen them, how to select and prepare wood for carving, how to transfer carving patterns, how to carve safely and precisely, and how to read and understand wood grain. Clay also teaches the basics of good carving technique, provides step-by-step guidance through two practice boards to build your skills, and then walks you through ten beginner projects that allow you to put your skills to use. The Art Of Chip Carving goes beyond any other how-to manual by introducing techniques and projects

for learning freehand carving, and how to use the simple shape-vocabulary of chip carving to create your own carving designs in the style of traditional European folk carvings--Amazon.

Migration, Gender and Social Justice Thanh-Dam Truong,Des Gasper,Jeff Handmaker,Sylvia I. Bergh.2013-09-06 This book is the product of a collaborative effort involving partners from Africa,

Asia, Europe and Latin America who were funded by the International Development Research Centre Programme on Women and Migration (2006-2011). The International Institute of Social Studies at Erasmus University Rotterdam spearheaded a project intended to distill and refine the research findings, connecting them to broader literatures and interdisciplinary themes. The book examines commonalities and differences in the operation of various structures of power (gender, class, race/ethnicity, generation) and their interactions within the institutional domains of intra-national and especially inter-national migration that produce context-specific forms of social injustice. Additional contributions have been included so as to cover issues of legal liminality and how the social construction of not only femininity but also masculinity affects all migrants and all women. The resulting set of 19 detailed, interconnected case studies makes a valuable contribution to reorienting our perceptions and values in the discussions and decision-making concerning migration, and to raising awareness of key issues in migrants' rights. All chapters were anonymously peer-reviewed. This book resulted from a series of projects funded by the International Development Research Centre (IDRC), Canada.

Chainsaw Sculptor Sharon R. Sherman.1995 In the ponderosa pines of central Oregon, J. Chester Skip Armstrong carves breathtaking eagles and other finely crafted animals. His choice of materials and methods of creating shape, texture, and detail have much in common with both regional vernacular western chainsaw art and delicately tooled wood sculpture. This fascinating book explores the processes of creativity, raises questions about the differences between folk art and fine art, and captures Armstrong's unique aesthetic sensibilities, his outlook on life, his surroundings, and his growing reputation.

Women Artists of the American West Susan R. Ressler.2003 Profiles more than 150 women artists of

the nineteenth and twentieth centuries from the American West, offers fifteen interpretive essays, and includes nearly three hundred reproductions of their works.
