**A Guide to Palmistry** Shanker Adawal. There have been innumerable requests for writing a book on Palmistry. The author has written a book that gives the basics of this science. Palmistry has been there from the early ages and we find literature where Sanskrit language has been used in explaining issues of this science in the early Vedic ages. In this book the author has tried to explain the uniqueness of each hand and as to how it helps in deciphering characteristics. In the science of hand reading importance is given to the shape, size, lines and the marks on hand. These have been dealt in details through various chapters in the book. Palmistry is in no way related to the science of Occultism but can be divided into two parts viz the art of reading character from the shape of hands/ fingers and the science of reading the actions and habits. Also it gives an insight of the future if one is able to correlate the shape of the hand with the lines marked thereon. The author has in the various chapters tried to explain various factors like the size, shape, texture, lines and marks that help in deciphering character and the actions that a person is prone towards. This is a basic book on Palmistry which will be useful reading to all. One could develop on these basics for a greater understanding of the subject.

The hand tells a story about your talents, relationships, health, and how you feel about yourself. It reveals periods of ease or challenge in your life, and it speaks about your weaknesses and the traits you need to develop. As you change, so do your hands, reflecting the progress you have made. The book presents the character traits and personality archetypes associated with each of the seven mounts of the palm and shows how to determine which are most influential in the nature of the individual. The mount archetypes reveal the lifestyle, love,sex, and marriage preferences; the best career choices; and the unique strengths and weaknesses for each person. The book also examines other factors that enhance the qualities revealed by the mount types, including the flexibility of the hand, texture of the skin, and the shapes of the fingers, fingertips, and nails. The meaning of each major and minor line is described in detail as well as the influence the person's own mind has in healing defects and obstacles found on their lines. The authors also provide accurate timing guides for each line, making it possible to locate specific events and to see how your lines change over time. **The Hand Reveals** Dylan Warren-Davis.2021-04-26 A practical guide to the fascinating art of reading hands. Cheiromancy is the art of handreading in which all aspects of a person's hand are considered in order to gain an accurate picture of their inner nature, distinct from the fortune telling of palmistry. What has come down to us as palmistry today is a rather degenerate and effete form of the ancient discipline of chiromancy. The word cheiromancy comes from the Greek chir meaning 'hand', and manteia meaning 'divination', literally meaning 'divination through the hand'. The Hand Reveals is not merely theoretical: at various points throughout the book readers are encouraged to try and apply this knowledge at every opportunity to find confirmation of the ideas. There is a considerable amount of knowledge and information compressed into these pages, and even the most diligent student would have difficulty in digesting it in one reading. It is recommended that you refer back as often as necessary to go the material you have read, to allow your understanding of cheiromancy to grow gradually. Originally published in 1993, this edition has been revised and updated with new material.

*Palmistry* Julian Moore. One of the best, most practical guides for learning this ancient divination technique that's ever hit the market. THIS BOOK IS A MUST! - Craig Browning In his new book, 'Speed Learning ~ Palm Readings In Your Own Words', Julian Moore teaches the basics of palmistry using proven techniques which mean that you could be reading palms in less than 48 hours! This ebook and ten accompanying FLASH CARDS can get you up to speed quicker than you ever thought imaginable, while still creating your own style and being true to yourself without having to pretend that you're a great showman or anything other than yourself. 'Speed Learning ~ Palm Readings In Your Own Words' shows you how to give REAL readings that CONNECT with people. Most people who decide to learn palmistry are easily put off when they first pick up a palmistry book, there's so much information and more often than not, no clear description of even what ORDER to read the different elements of the hand in. This is not like those other books. It teaches you a step-by-step way of reading people's palms that's almost impossible to forget, and as it encourages you to create YOUR OWN way of describing what the lines and fingers mean, the speed of learning is greatly increased. You're not just learning 'parrot style', you're creating your OWN versions of how to talk about the meanings of the hand, which makes them entirely memorable! REVIEWS No hype...just plain good! You can't go wrong if you just DO what Julian describes. I've always shied away from palmistry because I thought the system was too complicated. Julian has changed all that. And, the memory cues are an added bonus. It just can't get any easier. - Nicholas After reading Julian's book, and going through the flash cards a couple of times, I have a practical knowledge of palm reading that I didn't have 48 hours ago. My progress is clear and tangible. Today, I was able to improvise a palm reading session with one of my regular clients, and it went very well. I'm excited! That's why I'm writing this review, hoping that some of you also take advantage of this beautiful tool that Julian is sharing with us. - Enrique Enriquez - member of Kenton Knepper's S.E.C.R.E.T. school and co-author of the groundbreaking book 'Mind Reading' A very useful tool for both learning and reviewing palmistry basics. For learning you have taken the concept of flash cards and made the cue cards much more of a memory exercise; thereby, challenging the mind to create rather than just repeat. For the pro you have given some interesting slants on certain traits that add further dimension and depth to a reading. The cards provide an excellent review tool for all practicing palmists as it allows them to review traits and characteristics that may not appear commonly in their practice. - Charles Green & Eugene Bourgal An excellently laid out summation of the essence of palmistry, designed to teach you as you go along. I can certainly see how one can get this today and start giving mini-readings tomorrow night. Better yet, learn it all easily in a week and give real readings and be able to answer questions. This book actually teaches easily, speedily the essence of palmistry. Nice job. I'd recommend this to anyone starting out in the field. Well worth the money. - Tom Jorgenson OTHER KINDLE BOOKS IN THE SPEED LEARNING SERIES BY JULIAN MOORE Speed Learning: Graphology - The Art Of Handwriting Analysis Speed Learning: Cartomancy - A Playing Card Reading Primer Speed Learning: The James Bond Cold Reading

*Palm Reading* Bridget Giles, Jane Johnson.2005 Collins Gem Palm Reading reveals the ancient art of palm reading. With easy-to-follow diagrams accompanying clear and concise text, this book lays bare the complexities of hand reading. The book provides an introduction to how to read palms so that a beginner will soon be able to uncover the hidden truths of the hand. It first examines the whole hand, analysing the variety of hand shapes, including the compatibility of different hand shapes and the influences of hand shape on health and careers. It then examines the fingers and thumb in detail. Palmists look at the shape of the fingers, their flexibility and their position in relation to one another and make predictions about an individual and their compatibility with others. This examination is followed by looking at the 'mounts' (the fleshy pads on the palm) and their predictive power and then studying the lines on the palm (an important aspect of palm reading but not the sole element, as suggests by popular myth). By pulling all these aspects of palm reading together this book will enable you to start drawing up predictions from studying palms. To help you the book is heavily illustrated with diagrams and photographs.
