The Hundred Dresses Eleanor Estes. 2004 Eleanor Estes's *The Hundred Dresses* won a Newbery Honor in 1945 and has never been out of print since. At the heart of the story is Wanda Petronski, a Polish girl in a Connecticut school who is ridiculed by her classmates for wearing the same faded blue dress every day. Wanda claims she has one hundred dresses at home, but everyone knows she doesn't and bullies her mercilessly. The class feels terrible when Wanda is pulled out of the school, but by that time it's too late for apologies. Maddie, one of Wanda's classmates, ultimately decides that she is never going to stand by and say nothing again. This powerful, timeless story has been reissued with a new letter from the author's daughter Helena Estes, and with the Caldecott artist Louis Slobodkin's original artwork in beautifully restored color.

English Linguistic Imperialism from Below Leya Mathew. 2022-07-11 Imperialism may be over, but the political, economic and cultural subjugation of social life through English has only intensified. This book demonstrates how English has been newly constituted as a dominant language in post-market reform India through the fervent aspirations of non-elites and the zealous reforms of English Language Teaching experts. The most recent spread of English in India has been through low-fee private schools, which are perceived as dubious yet efficient. The book is an ethnography of mothering at one such low-fee private school and its neighboring state-funded school. It demonstrates that political economic transitions, experienced as radical social mobility, fuelled intense desire for English schooling. Rather than English schooling leading to social mobility, new experiences of mobility necessitated English schooling. At the same time, experts have responded to the unanticipated spread of English by transforming it from a second language to a first language, and earlier hierarchies have been produced anew as access to English democratized.

Schooling the National Imagination Shalini Advani. 2009-09-02 What is the nature of textbooks produced by a postcolonial society and how do they shape the national citizen? How do they define social roles in society, and influence the way people look at themselves and others? In what way do textbooks reflect the framing visions about societal change? By exploring how language is critical to the development of a postcolonial nation and its shifting responses to global modernity, *Schooling the National Imagination* reflects on these profoundly important questions. Discussing the national education policy in general and the English language policy in particular, Shalini Advani tracks the inner dilemmas of a postcolonial society like India and the troubled history of its language politics. She looks at state-produced school textbooks, traces how English curriculum both reflects and constructs identity in particular ways, and examines classroom practice in schools. Advani goes on to consider the ways in which ideology shapes pedagogic practice, and how classroom transactions define the meaning of what is taught. Sensitive to theoretical discussions on how power and culture are made visible in textbooks and practice, the book moves between study of policy, textbooks, and classroom ethnography to provide a richly textured account of what language education does.
