Cultural Techniques Bernhard Siegert. 2015-05-01 In a crucial shift within posthumanistic media studies, Bernhard Siegert dissolves the concept of media into a network of operations that reproduce, displace, process, and reflect the distinctions fundamental for a given culture. *Cultural Techniques* aims to forget our traditional understanding of media so as to redefine the concept through something more fundamental than the empiricist study of a medium's individual or collective uses or of its cultural semantics or aesthetics. Rather, Siegert seeks to relocate media and culture on a level where the distinctions between object and performance, matter and form, human and nonhuman, sign and channel, the symbolic and the real are still in the process of becoming. The result is to turn ontology into a domain of all that is meant in German by the word *Kultur*. *Cultural techniques* comprise not only self-referential symbolic practices like reading, writing, counting, or image-making. The analysis of artifacts as cultural techniques emphasizes their ontological status as "in-betweens," shifting from first-order to second-order techniques, from the technical to the artistic, from object to sign, from the natural to the cultural, from the operational to the representational. *Cultural Techniques* ranges from seafaring, drafting, and eating to the production of the sign-signal distinction in old and new media, to the reproduction of anthropological difference, to the study of trompe-l'oeils, grids, registers, and doors. Throughout, Siegert addresses fundamental questions of how ontological distinctions can be replaced by chains of operations that process those alleged ontological distinctions within the ontic. Grounding posthumanist theory both historically and technically, this book opens up a crucial dialogue between new German media theory and American postcybernetic discourses.

The Argonauts Maggie Nelson. 2015-05-05 An intrepid voyage out to the frontiers of the latest thinking about love, language, and family Maggie Nelson's *The Argonauts* is a genre-bending memoir, a work of autotheory offering fresh, fierce, and timely thinking about desire, identity, and the limitations and possibilities of love and language. It binds an account of Nelson's relationship with her partner and a journey to and through a pregnancy to a rigorous exploration of sexuality, gender, and family. An insistence on radical individual freedom and the value of caretaking becomes the rallying cry for this thoughtful, unabashed, uncompromising book.

Painting on Light Barbara Butts, Lee Hendrix.2001-03-01 The names Albrecht Dürer and Hans Holbein the Younger evoke the dazzling accomplishments of Renaissance panel painting and printmaking, but they may not summon images of stained glass. Nevertheless, Dürer, Holbein, and their southern German and Swiss contemporaries designed some of the most splendid works in the history of the medium. This lavish volume is a comprehensive survey of the contribution to stained glass made by these extraordinarily gifted draftsmen and the equally talented glass painters who rendered their compositions in glass. Included are discussions of both monumental church windows and smaller-scale stained-glass panels made for cloisters, civic buildings, residences, and private chapels. The subjects of these rarely seen drawings and panels range from religious topics to secular themes, including love, planets, hunts, and battles. Focusing on stained glass produced in Germany and Switzerland from about 1495 to 1530, *Painting on Light* includes drawings by Dürer, Holbein, Albrecht Altdorfer, Hans Baldung Grien, Jörg Breu the Elder, Hans Burgkmair, Urs Graf, Hans von Kulmbach, Hans Leu the Younger, Niklaus Manuel Deutsch, Hans Schäufelein, Hans Weiditz, and others. This informative book is published in conjunction with an exhibition at the Getty Museum from July 11 through September 24, 2000, and from November 7, 2000, to January 4, 2001, at the Saint Louis Art Museum.

The Second Rider Alex Beer.2018-10-02 An internationally acclaimed crime novel set in post-WWI Vienna: "A thrilling, deeply satisfying debut" by "the new star of Austrian crime fiction" (Kronen Zeitung). Vienna, 1919. In the desperate years after World War I, the Habsburg Empire is a fading memory and most of Vienna's remaining population survives by its wits, living hand to mouth in a city rife with crime, prostitution, and grotesquely wounded beggars. There are shakedowns on every street corner, the black market is the only market, and shortages of vital goods create countless opportunities for unscrupulous operators. Into this cauldron of vice comes Insp. August Emmerich. A veteran himself, Emmerich is determined to join the Viennese major crimes unit, and he's more than willing to break the rules in pursuit of his ambition. When a corpse is found in the woods outside the city and immediately labeled a suicide, Emmerich sees a chance to prove his mettle. His investigations into the suspicious death soon reveals an insidious and homicidal urge lurking in the city. *The Second Rider* is the "outstanding series launch" of Alex Beer's international-best-selling novels featuring police agent August Emmerich (Publishers Weekly, starred review).

Interactive and Sculptural Printmaking in the Renaissance Suzanne Kathleen Karr Schmidt.2018 Suzanne Karr Schmidt's 'Interactive and Sculptural Printmaking in the Renaissance' tells the story of a hands-on genre of prints: how innovative paper engineering redefined the relationship of early modern viewers to art, humanism, and science. Interactive and sculptural prints pervaded the European reading market of the sixteenth and seventeenth centuries. Single sheets and book illustrations featured movable flaps and dials, and functioned as kits to build three-dimensional scientific instruments. These hybrid constructions - part text, part image, and part sculpture - engaged readers; so did the polemical, satirical, and, occasionally, erotic content. By manipulating dials and flaps, or building and using the instruments, viewers learned to think through images as well as words, interacting visually with desires, social critique, and knowledge itself.

The Young Hitler I Knew August Kubizek.2011-05-31 August Kubizek met Adolf Hitler in 1904 while they were both competing for standing room at the opera. Their mutual passion for music created a strong bond, and over the next four years they became close friends. Kubizek describes a reticent young man, painfully shy, yet capable of bursting into hysterical fits of anger if anyone disagreed with him. The two boys would often talk for

hours on end; Hitler found Kubizek to be a very good listener, a worthy confidant to his hopes and dreams. In 1908 Kubizek moved to Vienna and shared a room with Hitler at 29 Stumpergasse. During this time, Hitler tried to get into art school, but he was unsuccessful. With his money fast running out, he found himself sinking to the lower depths of the city: an unkind world of isolation and "constant unappeasable hunger". Hitler moved out of the flat in November, without leaving a forwarding address; Kubizek did not meet his friend again until 1938. *The Young Hitler I Knew* tells the story of an extraordinary friendship, and gives fascinating insight into Hitler's character during these formative years. This is the first edition to be published in English since 1955 and it corrects many changes made for reasons of political correctness. It also includes important sections which were excised from the original English translation.
