Alternatives to Convergence? Jacob Kornbeck.2014-09-18 How does professional education for future social workers and social pedagogues in one country compare with other countries? What happened in Germany, Denmark and French-speaking Belgium during the years 1989-2004, starting with the year when an EU Directive laid down common rules for the mutual recognition of higher education qualifications? And which lessons may English and British academics, policy-makers, employers and unionists draw from this European material? Are social work and social pedagogy bound to converge as they did in Germany? Or are there Alternatives to Convergence? Did professional education in the countries examined show signs of Europeanisation? These are some of the questions which readers will be able to explore in this book.

After working in the European Commission (Sport Unit) (2001-14) Jacob Kornbeck recently joined the Secretariat of the European Data Protection Supervisor (Policy and Consultation Unit). His part-time research interests cover a range of policy areas, often involving transnational comparisons. Apart from social work and social pedagogy he has written and lectured on various aspects of sports policy, in particular anti-doping and athletes' rights, as well as health-enhancing physical activity (HEPA). Jacob holds degrees from German and British universities. This book is the slightly reworked text of his doctoral thesis (University of London). Following *Inspiration from Brussels: the European Union and Sport* (published by EHV Academic Press in 2013), this is his second book.

Social Responsibility and Corporate Governance Matjaž Mulej, Grażyna O'Sullivan, Tjaša Štrukelj.2020-10-03 Connecting Corporate Social Responsibility (CSR) with Corporate Governance (CG) is a 21st Century challenge. This edited volume illustrates that CSR can be used as a tool to improve Corporate Governance in organizations and improve the relationship between business and society. Moreover the book argues that they should be treated together in synergy in management literature. This two volume work connects these two crucial business functions, describing the preconditions for successful integration and the tools for practical implementation. Volume 2 puts forward eight recommendations for practice. Contributors put forward research and implications for policy and practice including coverage of knowledge management strategy, socially responsible banking operations and transparency procedures in the context of emerging economies.

Handbook of Research on European Business and

Entrepreneurship Leo Paul Dana.2008 This book is an important contribution to the field of international entrepreneurship. . . it provides a comprehensive account of internationalization strategies adopted by SMEs in a wide range of European countries, and by drawing on a number of empirical studies, it enriches the theory of SME internationalization with a new theoretical framework that can be useful for understanding the complexity of SME internationalization processes in Europe. Julia Korosteleva, Thunderbird International Business Review From Andorra to Wales with stops in more than 35 other European countries along the way, this comprehensive collection of articles is required reading for scholars interested in international entrepreneurship. It provides information on how entrepreneurs and their firms go international from virtually every country in Europe. This unique volume permits researchers to compare how the process of entrepreneurial internationalization is affected by differences in culture, location, technology, and other influences within Europe. Furthermore, the various authors consider a range of theoretically important issues, such as cooperation and trust, venture capital, research and development, learning, networks, and government policy. This book serves as an essential departure point from which scholars can embark on their study of international entrepreneurship in Europe. Benjamin M. Oviatt, Georgia State University, US This is a timely and interesting book that brings together some of the most insightful contributions on the internationalization of new ventures, with an emphasis on the

European experiences. Assembling some of the best scholars, the book offers a distinctively European perspective one that deserves recognition, analysis, and discussion. I applaud the editors for doing such a masterful job in bringing a great group of researchers and ideas together. I highly recommend this book for any serious researcher and scholar. Shaker A. Zahra, University of Minnesota, US This remarkable book provides valuable contributions on how the process of SMEs internationalization is operating in 37 different European countries. Researchers in international entrepreneurship will find new materials for theorization. Numerous facets of international business are carefully documented by a great many well-known scholars. Also, given the variety of situations typical of the European small business sector, the book may prove to be helpful to small-scale entrepreneurs wishing to take steps towards internationalization. Overall, this coordinate work makes you realize why Europe is so fascinating. Jean-Jacques Obrecht, University Robert Schuman, Strasbourg, France This unique comparative study of the internationalization of small firms is a milestone in international business research. It compares the internationalization strategies of fast-growing firms across nearly forty different European countries. It shows that the growth trajectories of firms reflect the investing country's geographical location, natural resource endowments, legal and financial institutions and local culture. There are many important new insights to be gained from a careful study of this important new research resource. Mark Casson, University of Reading, UK This unique Handbook illustrates how entrepreneurs across Europe tackle internationalization. This timely and important book identifies patterns and builds a theory of international entrepreneurship in Europe. The contributors discuss the performances of SMEs on the road to internationalization. Each chapter emphasizes how the process of internationalization of SMEs operates, the challenges and opportunities that arise due to each country's

specific political and economic situation, and their subsequent internationalization performance. These processes, challenges and performances can be understood through theories of international business and entrepreneurship. Although at times these theories cannot fully

The Kurdish Question Revisited Gareth Stansfield, Mohammed Shareef.2017-08-15 The Kurds, once marginal in the study of the Middle East and secondary in its international relations, have moved to centre stage in recent years. The contributors to *The Kurdish Question Revisited* offer insights into how this once seemingly intractable, immutable phenomenon is being transformed amid the new political realities of the Middle East.

Education in Germany David Phillips.2013-04-15 The German education and training system has been the subject of considerable attention from other nations, and has often been used as a model. David Phillips' book brings together articles from some of the best known names in the field including Mitter, Glowka, Hearnden, Fuhr, Robinsohn and Prais and wagner. The book is organised into four sections. Section one examines the historical inheritance of the present education system. Section two covers standards and assessments and section three discusses vocational education and training, and area of the German education system which has received much admiration. Finally, and crucially, section four addresses questions about the future of the current system in a unified Germany.

Vichy, Resistance, Liberation Hanna Diamond, Simon Kitson.2005-02-01 Bringing together key international scholars, *Vichy, Resistance, Liberation: New Perspectives on Wartime France* offers original insight into this critical period of modern France. It shifts the focus away from straightforward political

history to reflect the current interest in socio-cultural aspects of the Second World War and breaks down traditional chronological barriers. In seeking to understand war from a social perspective, the contributors focus on individuals and communities. Wars are moments which forever alter the emphasis of social expression. Rumours emerge as a major aspect of daily life. Wars are also periods offering new possibilities to individuals. Several contributors explore the lives of previously little known individuals in Vichy France Paulette Bernge, Daniel Gurin, Georges Mauco, Francois Perroux. Other contributors emphasize some of the forgotten actors of the period, most notably the anarchists. Other contributors uncover new information about womens experience in Vichy France. Vichy, Resistance, Liberation moves away from the trend of synthesis history and presents path-breaking research and new trajectories of interest in the field. The collection pays tribute to the work of H.R. Kedward, the world-renowned specialist on Occupied France.

Performance In The Age Of Irresponsibility - Cross National Perspective is authored by a range of international experts with a diversity of backgrounds and perspectives and provides a collection of ideas, examples and solutions on CSP implementation in the time of irresponsibility. Although Corporate Social Performance (CSP) has become important part of the management agenda of many enterprises and many companies adding socially responsible statements to their websites and mission statements some firms behave irresponsibly while at the same time acting positively on some dimensions— “corporate social irresponsibility (CSI) and responsibility can exist at the same time in the same firm.” (Gonzalez-Perez, 2011). This volume is aimed at presenting Corporate Social Performance concept from distinct cultural perspectives with the reference to responsible and irresponsible practices of various entities from different parts of the world.

It was a new paradigm at the time and continues to be the dominant model for all texts. Physics is the most realistic option for schools looking to teach a more demanding course. The entirety of Volume 2 of the 5th edition has been edited to clarify conceptual development in light of recent findings of physics education research. End-of-chapter problem sets are thoroughly over-hauled, new problems are added, outdated references are deleted, and new short-answer conceptual questions are added.

The Gospel of Matthew Craig S. Keener.2009-07-24 This commentary on Matthew offers a unique interpretive approach that focuses on the socio-historical context of the Gospel and the nature of Matthew's exhortation to his first-century Christian audience. / By merging a careful study of Matthew's Gospel in relation to the social context of the ancient Mediterranean world with a detailed look at what we know of first-century Jewish-Christian relations, Craig Keener uncovers significant insights into the Gospel not found in any other Matthew commentary. / In addition, Keener's commentary is a useful discipleship manual for the church. His approach recaptures the full shock effect of Jesus' teachings in their original context and allows Matthew to make his point with greater narrative artistry. Keener also brings home the total impact of Matthew's message, including its clear portrait of Jesus and its call for discipleship, both to the Gospel's ancient readers and to believers today. / Thoroughly researched, the book includes a 150-page bibliography of secondary sources, and more than 150 pages of indexes.

which hinder sustainable SME growth in South-East Europe. Finance is identified as a critical barrier to growth, and the role of commercial banks, micro-finance institutions and credit cooperatives in assisting growth is addressed. Yet finance alone is not enough. A rebuilding of social capital, a reduction of the unofficial or grey economy, and the promotion of inter-firm networks and clusters are also of vital importance in promoting sustainable growth. The book concludes with critical analyses of SME policies in Albania, Croatia, and Macedonia, countries which hitherto have received little attention in the literature. Small Enterprise Development in South-East Europe will be of great interest to policy makers, business consultants, and academics and post-graduate students working on economic development and reconstruction in South-East Europe.
