**New Work New Culture** Frithjof Bergmann.2019-06-28 The "job system" for organizing work has only existed for around 200 years - since the industrial revolution. Always problematic, it now approaches collapse, and what follows, either for good or ill, depends on decisions made and executed in current times. Many people are filled with dismay, and turn for succor to political opportunists. Prescient of the looming disaster, Frithjof Bergmann began to devise alternatives to the job system in the 1970s. He started with the fostering of dialogue, about ameliorating the impacts of layoffs in times of recession, among the workforce in the auto industry and community, in Flint, Michigan. What has evolved, over years, is his proposed alternative to the job system. *New Work, New Culture* recounts the development of his ideas, and describes one course which humanity might follow, that all might live better lives.

**The Stechlin** Theodor Fontane. 1995 Theodor Fontane (1819-98), widely regarded as Germany's most significant novelist between Goethe and Thomas Mann, pioneered the German novel of manners and upper-class society, following a trend in European fiction of the period. The Stechlin is Fontane's last book and his political testament. Like Effi Briest, his great work on the place of women in Bismarck's empire, it is set at the apex of the Wilhelmine era, both in Berlin and on the estate of a Prussian Junker on the shores of Lake Stechlin. It is a significant historical and cultural document, probably the finest chronicle of the life style of the German upper classes in the late nineteenth century; Fontane portrays the best in the life and ways of the passing Prussian aristocrats, while describing his hopes for the future of Germany and its nobility, which were never to be fully realized. Although this novel has been translated into many languages, it has never before been available in English; this edition thus fills an important gap in the significant works of European literature accessible to English readers.
