*Families Caring for an Aging America* National Academies of Sciences, Engineering, and Medicine, Health and Medicine Division, Board on Health Care Services, Committee on Family Caregiving for Older Adults. 2016-11-08 Family caregiving affects millions of Americans every day, in all walks of life. At least 17.7 million individuals in the United States are caregivers of an older adult with a health or functional limitation. The nation's family caregivers provide the lion's share of long-term care for our older adult population. They are also central to older adults' access to and receipt of health care and community-based social services. Yet the need to recognize and support caregivers is among the least appreciated challenges facing the aging U.S. population. *Families Caring for an Aging America* examines the prevalence and nature of family caregiving of older adults and the available evidence on the effectiveness of programs, supports, and other interventions designed to support family caregivers. This report also assesses and recommends policies to address the needs of family caregivers and to minimize the barriers that they encounter in trying to meet the needs of older adults.

**Revision Decisions** Jeff Anderson, Deborah Dean. 2023-10-10 Revision is often a confusing and difficult process for students, but it's also the most important part of the writing process. If students leave our classrooms not knowing how to move a piece of writing forward, we've failed them. *Revision Decisions: Talking Through Sentences and Beyond* will help teachers develop the skills students need in an ever-evolving writing, language, and reading world. Jeff Anderson and Deborah Dean have written a

book that engages writers in the tinkering, playing, and thinking that are essential to clarify and elevate writing. Focusing on sentences, the authors use mentor texts to show the myriad possibilities that exist for revision. Essential to their process is the concept of classroom talk. Readers will be shown how revision lessons can be discussed in a generative way, and how each student can benefit from talking through the revision process as a group. *Revision Decisions* focuses on developing both the writing and the writer. The easy-to-follow lessons make clear and accessible the rigorous thinking and the challenging process of making writing work. Narratives, setup lessons, templates, and details about how to move students toward independence round out this essential book. Additionally, the authors weave the language, reading, and writing goals of the Common Core and other standards into an integrated and connected practice. The noted language arts teacher James Britton once said that good writing floats on a sea of talk. *Revision Decisions* supports those genuine conversations we naturally have as readers and writers, leading the way to the essential goal of making meaning.

Students at Risk of School Failure José Jesús Gázquez, José Carlos Núñez. 2018-10-18 The main objective of this Research Topic is to determine the conditions that place students at risk of school failure, identifying student and context variables. In spite of the fact that there is currently little doubt about how one learns and how to teach, in some countries of the “developed world,” there is still there is a high rate of school failure. Although the term “school failure” is a very complex construct, insofar as its causes, consequences, and development, from the field of educational psychology, the construct “student engagement” has recently gained special interest in an attempt to deal with the serious problem of school failure. School engagement builds on the anatomy of the students’ involvement in school and describes their feelings, behaviors, and thoughts about their school experiences. So, engagement is an important component of

students' school experience, with a close relationship to achievement and school failure. Children who self-set academic goals, attend school regularly and on time, behave well in class, complete their homework, and study at home are likely to interact adequately with the school social and physical environments and perform well in school. In contrast, children who miss school are more likely to display disruptive behaviors in class, miss homework frequently, exhibit violent behaviors on the playground, fail subjects, be retained and, if the behaviors persist, quit school. Moreover, engagement should also be considered as an important school outcome, eliciting more or less supportive reactions from educators. For example, children who display school-engaged behaviors are likely to receive motivational and instructional support from their teachers. The opposite may also be true. But what makes student engage more or less? The relevant literature indicates that personal variables (e.g., sensory, motor, neurodevelopmental, cognitive, motivational, emotional, behavior problems, learning difficulties, addictions), social and/or cultural variables (e.g., negative family conditions, child abuse, cultural deprivation, ethnic conditions, immigration), or school variables (e.g., coexistence at school, bullying, cyberbullying) may concurrently hinder engagement, preventing the student from acquiring the learnings in the same conditions as the rest of the classmates.

Rise Above Greg Little. 2011-09-01 Rise Above is a detailed description of one man's journey of conquering adversity. You will read how the writer survived a near-fatal motor vehicle accident, which resulted in three skull fractures, a bruised brain, an eight-day coma and having to relearn how to walk and talk - made all the more challenging by a lingering speech impediment acquired in childhood. Stuttering is an awful burden for a person to carry throughout life. Children can be cruel. The writer's utmost fear, speaking in public, would one day be an ally and allow him to present programs extensively throughout the United States. This book is not about surviving adversity. It's about thriving beyond adversity. **Notes on Grief** Chimamanda Ngozi Adichie.2021-05-11 From the globally acclaimed, best-selling novelist and author of *We Should All Be Feminists*, a timely and deeply personal account of the loss of her father: "With raw eloquence, *Notes on Grief* ... captures the bewildering messiness of loss in a society that requires serenity, when you'd rather just scream. Grief is impolite ... Adichie's words put welcome, authentic voice to this most universal of emotions, which is also one of the most universally avoided" (The Washington Post). *Notes on Grief* is an exquisite work of meditation, remembrance, and hope, written in the wake of Chimamanda Ngozi Adichie's beloved father's death in the summer of 2020. As the COVID-19 pandemic raged around the world, and kept Adichie and her family members separated from one another, her father succumbed unexpectedly to complications of kidney failure. Expanding on her original *New Yorker* piece, Adichie shares how this loss shook her to her core. She writes about being one of the millions of people grieving this year; about the familial and cultural dimensions of grief and also about the loneliness and anger that are unavoidable in it. With signature precision of language, and glittering, devastating detail on the page—and never without touches of rich, honest humor—Adichie weaves together her own experience of her father's death with threads of his life story, from his remarkable survival during the Biafran war, through a long career as a statistics professor, into the days of the pandemic in which he'd stay connected with his

**The Cult of Smart** Fredrik deBoer.2020-08-04 Named one of Vulture’s Top 10 Best Books of 2020! Leftist firebrand Fredrik deBoer exposes the lie at the heart of our educational system and demands top-to-bottom reform. Everyone agrees that education is the key to creating a more just and equal world, and that our schools are broken and failing. Proposed reforms variously target incompetent teachers, corrupt union practices, or outdated curricula, but no one acknowledges a scientifically-proven fact that we all understand intuitively: Academic potential varies between individuals, and cannot be dramatically improved. In *The Cult of Smart*, educator and outspoken leftist Fredrik deBoer exposes this omission as the central flaw of our entire society, which has created and perpetuated an unjust class structure based on intellectual ability. Since cognitive talent varies from person to person, our education system can never create equal opportunity for all. Instead, it teaches our children that hierarchy and competition are natural, and that human value should be based on intelligence. These ideas are counter to everything that the left believes, but until they acknowledge the existence of individual cognitive differences, progressives remain complicit in keeping the status quo in place. This passionate, voice-driven manifesto demands that we embrace a new goal for education: equality of outcomes. We must create a world that has a place for everyone, not just the academically talented. But we’ll never achieve this dream until the *Cult of Smart* is destroyed.

**The Coddling of the American Mind** Greg Lukianoff, Jonathan Haidt. 2019-08-20 New York Times Bestseller • Finalist for the 2018 National Book Critics Circle Award in Nonfiction • A New York Times Notable Book • Bloomberg Best Book of 2018 “Their distinctive contribution to the higher-education debate is to meet safetyism on its own, psychological turf . . . Lukianoff and Haidt tell us that safetyism undermines the freedom of inquiry and speech that are indispensable to universities.” —Jonathan Marks, Commentary “The remedies the book outlines should be considered on college campuses, among parents of current and future students, and by anyone longing for a more sane society.” —Pittsburgh Post-Gazette Something has been going wrong on many college campuses in the last few years. Speakers are shouted down. Students and professors say they are walking on eggshells and are afraid to speak honestly. Rates of anxiety, depression, and suicide are rising—on campus as well as nationally. How did this happen? First Amendment expert Greg Lukianoff and social psychologist Jonathan Haidt show how the new problems on campus have their origins in three terrible ideas that have become increasingly woven into American childhood and education: What doesn’t kill you makes you weaker; always trust your feelings; and life is a battle between good people and evil people. These three Great Untruths contradict basic psychological principles about well-being and ancient wisdom from many cultures. Embracing these untruths—and the resulting culture of safetyism—interferes with young people’s social, emotional, and intellectual development. It makes it harder for them to become autonomous adults who are able to navigate the bumpy road of life. Lukianoff and Haidt investigate the many social trends that have intersected to promote the spread of these untruths. They explore changes in childhood such as the rise of fearful parenting, the decline of unsupervised, child-directed play,

and the new world of social media that has engulfed teenagers in the last decade. They examine changes on campus, including the corporatization of universities and the emergence of new ideas about identity and justice. They situate the conflicts on campus within the context of America's rapidly rising political polarization and dysfunction. This is a book for anyone who is confused by what is happening on college campuses today, or has children, or is concerned about the growing inability of Americans to live, work, and cooperate across party lines.

You need to learn the science of people. As a human behavior hacker, Vanessa Van Edwards created a research lab to study the hidden forces that drive us. And she's cracked the code. In *Captivate*, she shares shortcuts, systems, and secrets for taking charge of your interactions at work, at home, and in any social situation. These aren't the people skills you learned in school. This is the first comprehensive, science backed, real life manual on how to captivate anyone—and a completely new approach to building connections. Just like knowing the formulas to use in a chemistry lab, or the right programming language to build an app, *Captivate* provides simple ways to solve people problems. You'll learn, for example... · How to work a room: Every party, networking event, and social situation has a predictable map. Discover the sweet spot for making the most connections. · How to read faces: It's easier than you think to speed-read facial expressions and use them to predict people's emotions. · How to talk to anyone: Every conversation can be memorable—once you learn how certain words generate the pleasure hormone dopamine in listeners. When you understand the laws of human behavior, your influence, impact, and income will increase significantly. What's more, you will improve your interpersonal intelligence, make a killer first impression, and build rapport quickly and authentically in any

For your classes in Public Speaking McGraw-Hill introduces the latest in its acclaimed M Series. The M Series started with your students. McGraw-Hill conducted extensive market research with over 4,000 students to gain insight into their studying and buying behavior. Students told us they wanted more portable texts with innovative visual appeal and content that is designed according to the way they learn. We also surveyed instructors, and they told us they wanted a way to engage their students without compromising on high quality content. Freedom of speech and public speaking are critical components of a healthy democracy. iSpeak promotes this declaration by using examples that reflect vital personal, social, and political themes that portray campus communities across the country. iSpeak consistently demonstrates that public communication is directly related to what people care about, what people want, and what people do. More current, more portable, more captivating, plus a rigorous and innovative research foundation adds up to: more learning. When you meet students where they are, you can take them where you want them to be.

Just Mercy Bryan Stevenson. 2014-10-21 #1 NEW YORK TIMES BESTSELLER • NOW A MAJOR MOTION PICTURE STARRING MICHAEL B. JORDAN AND JAMIE FOXX • A powerful true story about the potential for mercy to redeem us, and a clarion call to fix our broken system of justice—from one of the most brilliant and influential lawyers of our time. “[Bryan Stevenson’s] dedication to fighting for justice and equality has inspired me and many others and made a lasting impact on our country.”—John Legend NAMED ONE OF THE MOST INFLUENTIAL BOOKS OF THE DECADE BY CNN • Named One of the Best Books of the Year by The New York Times • The Washington Post • The Boston Globe • The Seattle Times • Esquire • Time Bryan Stevenson was a young lawyer when he founded the Equal Justice Initiative, a legal practice dedicated to defending those most desperate and in need: the poor, the wrongly condemned, and women and children trapped in the farthest reaches of our criminal justice system. One of his first cases was that of Walter McMillian, a young man who was sentenced to die for a notorious murder he insisted he didn’t commit. The case drew Bryan into a tangle of conspiracy, political machination, and legal brinkmanship—and transformed his understanding of mercy and justice forever. *Just Mercy* is at once an unforgettable account of an idealistic, gifted young lawyer’s coming of age, a moving window into the lives of those he has defended, and an inspiring argument for compassion in the pursuit of true justice. Winner of the Carnegie Medal for Excellence in Nonfiction • Winner of the NAACP Image Award for Nonfiction • Winner of a Books for a Better Life Award • Finalist for the Los Angeles Times Book Prize • Finalist for the Kirkus Reviews Prize • An American Library Association Notable Book “Every bit as moving as *To Kill a Mockingbird*, and in some ways

While modern books are born digital, books old enough to be in the public domain may never have seen a computer. Google has been scanning books from public libraries and other sources for several years. That means you've got access to an entire library of classic literature that you can read on the computer or on a variety of mobile devices and eBook readers. Free-Ebooks.net is a platform for independent authors who want to avoid the traditional publishing route. You won't find Dickens and Wilde in its archives; instead, there's a huge array of new fiction, non-fiction, and even audiobooks at your fingertips,

in every genre you could wish for. There are many similar sites around, but Free-Ebooks.net is our favorite, with new books added every day. Unlike Project Gutenberg, which gives all books equal billing, books on Amazon Cheap Reads are organized by rating to help the cream rise to the surface. However, five stars aren't necessarily a guarantee of quality; many books only have one or two reviews, and some authors are known to rope in friends and family to leave positive feedback. DailyCheapReads.com has daily posts on the latest Kindle book deals available for download at Amazon, and will sometimes post free books. Users can easily upload custom books and complete eBook production online through automatically generating APK eBooks. Rich the e-books service of library can be easy access online with one touch. Because this site is dedicated to free books, there's none of the hassle you get with filtering out paid-for content on Amazon or Google Play Books.

We also love the fact that all the site's genres are presented on the homepage, so you don't have to waste time trawling through menus. Unlike the bigger stores, Free-Ebooks.net also lets you sort results by publication date, popularity, or rating, helping you avoid the weaker titles that will inevitably find their way onto open publishing platforms (though a book has to be really quite poor to receive less than four stars). You can also browse Amazon's limited-time free Kindle books to find out what books are free right now. You can sort this list by the average customer review rating as well as by the book's publication date. If you're an Amazon Prime member, you can get a free Kindle eBook every month through the Amazon First Reads program.
