Half Life Jillian Cantor.2021-03-23 The USA Today bestselling author of *In Another Time* reimagines the pioneering, passionate life of Marie Curie using a parallel structure to create two alternative timelines, one that mirrors her real life, one that explores the consequences for Marie and for science if she'd made a different choice. In Poland in 1891, Marie Curie (then Marya Skłodowska) was engaged to a budding mathematician, Kazimierz Zorawski. But when his mother insisted she was too poor and not good enough, he broke off the engagement. A heartbroken Marya left Poland for Paris, where she would attend the Sorbonne to study chemistry and physics. Eventually Marie Curie would go on to change the course of science forever and be the first woman to win a Nobel Prize. But what if she had made a different choice? What if she had stayed in Poland, married Kazimierz at the age of twenty-four, and never attended the Sorbonne or discovered radium? What if she had chosen a life of domesticity with a constant hunger for knowledge in Russian Poland where education for women was restricted, instead of studying science in Paris and meeting Pierre Curie? Entwining Marie Curie's real story with Marya Zorawska's fictional one, *Half Life* explores loves lost and destinies unfulfilled—and probes issues of loyalty and identity, gender and class, motherhood and sisterhood, fame and anonymity, scholarship and knowledge. Through parallel contrasting versions of Marya's life, Jillian Cantor's unique historical novel asks what would have happened if a great scientific mind was denied opportunity and access to education. It examines how the lives of one remarkable woman and the people she loved – as well as the world at large and course of science and history—might have been irrevocably changed in ways both great and small.

Jonestown Survivor Laura Johnston Kohl.2010-03 Laura Johnston Kohl was a teen activist working to integrate public facilities in the Washington, D.C., area. She actively fought for civil rights and free speech, and against the Vietnam War throughout the 1960s. After trying to effect change single-handedly, she found she needed more hands. She joined Peoples Temple in 1970, living and working in the progressive religious movement in both California and Guyana. A fluke saved her from the mass murders and suicides on November 18, 1978, when 913 of her beloved friends died in Jonestown. Soon after this, Synanon, a residential community, helped her gradually affirm life. In 1991, she got to work, finished her studies, and became a public school teacher. On the 20th anniversary of the deaths in Jonestown, she looked up fellow survivors of the Jonestown tragedy and they have worked to put the jigsaw puzzle together that was Peoples Temple. Her perspective has evolved as new facts have cleared up mysteries and she has had time to reflect. Her mission continues to be to acknowledge, write about, and speak about why the members joined Peoples Temple, why they went to Guyana, and who they were. She lives with her family in San Diego. Laura appreciates feedback about her book, and especially likes clarifying information or answering questions that come up as you read. Contact her through her new website: www.jonestownsurvivor.com

The Birthday of the World Ursula K. Le Guin.2009-10-13 For more than four decades, Ursula K. Le Guin has enthralled readers with her imagination, clarity, and moral vision. The recipient of numerous literary prizes, including the National Book Award, the Kafka Award, and five Hugo and five Nebula Awards, this renowned writer has, in each story and novel, created a provocative, ever-evolving universe filled with diverse worlds and rich characters reminiscent of our earthly selves. Now, in *The Birthday of the World*, this gifted artist returns to these worlds in eight brilliant short works, including a never-before-published novella, each of which probes the essence of humanity. Here are stories that explore complex social interactions and troublesome issues of gender and sex; that define and defy notions of personal relationships and of society itself; that examine loyalty, survival, and introversion; that bring to light the vicissitudes of slavery and the meaning of transformation, religion, and history. The first six tales in this spectacular volume are set in the author's signature world of the Ekumen, my pseudo-coherent universe with holes in the elbows, as Le Guin describes it -- a world made familiar in her award-winning novel *The Left Hand of Darkness*. The seventh, title story was hailed by *Publishers Weekly* as remarkable . . . a standout. The final offering in the collection, *Paradises Lost*, is a mesmerizing novella of space exploration and the pursuit of happiness. In her foreword, Ursula K. Le Guin writes, to create difference-to establish strangeness-then to let the fiery arc of human emotion leap and close the gap: this acrobatics of the imagination fascinates and satisfies me as no other. In *The Birthday of*

the World, this gifted literary acrobat exhibits a dazzling array of skills that will fascinate and satisfy us all.

In this quest for Truth, spanning many centuries and diverse civilizations, organized religion has shaped human life and determined to a large extent, the course of history. While some religions have been based on books, claimed by their adherents to be divinely inspired, others have relied solely on human experience. Al-Qur'an, the main source of the Islamic faith, is a book believed by Muslims, to be of completely Divine origin. Muslims also believe that it contains Divine guidance for all humankind. Since the message of the Qur'an is believed to be for all times, it should be relevant to every age. Does the Qur'an pass this test? In this booklet, I intend to give an objective analysis of the Muslim belief regarding the Divine origin of the Qur'an, in the light of established scientific discoveries. There was a time, in the history of world civilization, when "miracles", or what was perceived to be a miracle, took precedence over human reason and logic. But how do we define the term "miracle"? A miracle is anything that takes place out of the normal course of life and for which humankind has no explanation. However, we must be careful before we accept something as a miracle. An article in `The Times of India`, Mumbai, in 1993 reported that "a saint" by the name "Baba Pilot" claimed to have stayed continuously submerged under water in a tank for three consecutive days and nights. However, when reporters wanted to examine the base of the tank of water where he claimed to have performed this "miraculous" feat, he refused to let them do so. He argued by asking as to how one could examine the womb of a mother that gives birth to a child. The `Baba" was hiding something.
