Channeling Moroccanness Becky L. Schulthies. 2020-12-01 Honorable Mention, 2022 L. Carl Brown AIMS Book Prize in North African Studies What does it mean to connect as a people through mass media? This book approaches that question by exploring how Moroccans engage communicative failure as they seek to shape social and political relations in urban Fez. Over the last decade, laments of language and media failure in Fez have focused not just on social relations that used to be and have been lost but also on what ought to be and had yet to be realized. Such laments have transpired in a range of communication channels, from objects such as devotional prayer beads and remote controls; to interactional forms such as storytelling, dress styles, and orthography; to media

platforms like television news, religious stations, or WhatsApp group chats. Channeling Moroccanness examines these laments as ways of speaking that created Moroccanness, the feeling of participating in the ongoing formations of Moroccan relationality. Rather than furthering the discourse about Morocco's conflict between liberal secularists and religious conservatives, this ethnography shows the subtle range of ideologies and practices evoked in Fassi homes to calibrate Moroccan sociality and political consciousness.

Becoming the 'Abid Marta Scaglioni. 2020-09-14 In 2011, after the popular uprising overthrew former President Zine el-Abidine Ben Ali, in Tunisia several issues came to the fore: among them, racism targeting "black" individuals. Few black rights associations emerged, and their struggle culminated in the promulgation of a law punishing racist acts and words in October 2019. The step is historical, and stems from Tunisia's foreseeing policy concerning human and civil rights. In 1846,

Tunisia was the first country to abolish slavery and the slave trade in the Ottoman Empire and in the Middle Eastern world. Becoming the 'Abid addresses the issue of the legacy of slavery in a southern Tunisian governorate, where racism towards "black" individuals is still a painful experience and takes the form of professional, educational, and marital discrimination. Referring to the concept of "structural inequality", the book goes beyond the simplistic idea that race is only related to phenotype, taking distance from the Western racial concepts, and highlights how processes of racialization are contextual, processual, and changing constructions.

Jihadism Transformed Simon Staffell, Akil N. Awan. 2016 Jihadist narratives have evolved dramatically over the past five years, driven by momentous events in the Middle East and beyond; the death of bin Laden; the rise and ultimate failure of the Arab Springs; and most notably, the rise of the so-called Islamic State. For many years, Al-Qaeda pointed to an aspirational future Caliphate as their utopian end goal - one which allowed them to justify their violent excesses in the here and now. The rise of Islamic State turned that aspiration into a dystopic reality, and in the process, usurped the Jihadist narrative from them almost completely, breathing new life into the global Salafi-Jihadi movement. Despite air-strikes from above, and local disillusionment from below, the new Caliphate has stubbornly persisted and has been at the heart of ISIL's growing global appeal. This timely collection of essays examines how jihadist narratives have changed globally, adapting to these turbulent circumstances. Area and thematic specialists consider transitions inside the Middle East and North Africa as well as in South Asia, sub-Saharan Africa and Europe. As these analyses demonstrate, the success of the ISIL narrative has been as much about resonance with local contexts, as it has been about the appeal of the global idea of a tangible and realised caliphate. *Yearbook of International Organizations 2014-2015, Volumes 1a & 1b (Set)* Union Of International

Sacred Place and Sacred Time in the Medieval Islamic Middle East Talmon-Heller Daniella Talmon-Heller. 2020-03-18 This book offers a fresh perspective on religious culture in the medieval Middle East. It investigates the ways Muslims thought about and practiced at sacred spaces and in sacred times through two detailed case studies: the shrines in honour of the head of al-Husayn (the martyred grandson of the Prophet), and the holy month of Rajab. The changing expressions of the veneration of the shrine and month are followed from the formative period of Islam until the late Mamluk period, paying attention to historical contexts and power relations. Readers will find interest in the attempt to integrate the two perspectives synchronically and diachronically, in a discussion of the relationship between the sanctification of space and time in individual and communal piety, and in the religious literature of the period.

ISIS Brian L. Steed. 2016-06-20 Providing up-to-date information for general readers as well as those well-informed about the Islamic State, this book offers an essential understanding of the rise of ISIS and its current influence in the Middle East as well as worldwide. ISIS—also referred to as ISIL, the Islamic State, or Daesh—began to assert its power and gain recognition for its militant and terroristic activities in April 2013. After the coordinated attacks in Paris on November 13th, 2015, ISIS has captured the full attention of observers in the West. This accessible book explains what ISIS is, what the group's goals are, what their members believe, and why their ranks are growing. Readers will gain an understanding of how ISIS is a unique group—one seeking to be the army of the righteous fighting to defeat the unbelievers and usher in the end of days—but that the extremist views of ISIS are an expression of a growing frustration with life in the Middle East and elsewhere

shared by a larger community of non-state and post-state actors. The book provides an introduction that documents the origins of ISIS within the larger Al Qaeda organization during the Iraq War. The following chapters discuss the origins, development, and territorial expansion of ISIS in Syria and Iraq and examine the ideological motivations behind the emergence of ISIS, thereby enabling a nuanced understanding of the importance of ISIS in contemporary history. Other entries discuss individuals, events, and organizations that put ISIS in historical context in terms of contemporary events since the Iraq War into the present and explain the group's position within the complex conflict currently boiling in the Middle East.

Islamic Law and Society Emine Enise Yakar.2021-09-30 This book places context at the core of the Islamic mechanism of *iftā'* to better understand the process of issuing *fatwās* in Muslim and non-Muslim countries, thus highlighting the connection between context and contemporaneity, on one hand, and the adaptable perception of Islamic law, on the other. The practice of *iftā'* is one of the most important mechanisms of Islamic law that keeps Islamic thought about ethical and legal issues in harmony with the demands, exigencies and developments of time. This book builds upon the existing body of work related to the practice of *iftā'*, but takes the discussion beyond the current debates with the intent of unveiling the interaction between Islamic legal methodologies and different environmental contexts. The book specifically addresses the three institutions (Saudi Arabia's *Dār al-Iftā'*, Turkey's *Diyanet* and America's *FCNA*) and their Islamic legal opinions (*fatwās*) in a comparative framework. This demonstrates the existence of complex and diverse ideas around similar issues within contemporary Islamic legal opinions that is further complicated by the influence of international, social, political, cultural and ideological contexts. The book thus unveils a

more complicated range of interactive constituents in the process of the practice of iftā' and its outputs, fatwās. The work will be of interest to academics and researchers working in the areas of Islamic law, Middle Eastern studies, religion and politics.

Unlocking SME Finance in Asia Naoyuki Yoshino, Farhad Taghizadeh-Hesary. 2019-07-01 There is limited access for small and medium-sized enterprises (SMEs) to bank credit. This book proposes new and sustainable models to help ease the access of SMEs to finance and boost economic growth and job creation in Asia. It suggests how we can develop credit information infrastructures for SMEs to remedy the asymmetric information problem and to utilize credit rating techniques for the development of a sustainable credit guarantee scheme. The book provides illustrations of various Asian economies that implemented credit guarantee schemes and credit risk databases and is a useful reference for lessons and policy recommendations.

The Islamic Interfaith Initiative John Andrew Morrow.2021-09-15 When ISIS reared its ugly head in the last decade, God had already prepared a “vaccine” against the contagion of extremism that created it: the re-discovery of the Covenants of the Prophet Muhammad with the Peoples of the Book, which firmly place the actions of groups like ISIS under the curse of God and His Prophet. This was largely due to the exhaustive scholarship of Dr John Andrew Morrow, leading to the publication in 2013 of *The Covenants of the Prophet Muhammad with the Christians of the World*. Not only was this a scholarly triumph, but it also inaugurated an international, interfaith movement throughout the Muslim world known as the Covenants Initiative, which culminated in the acquittal of the Christian woman Asia Bibi on charges of blasphemy by the Pakistani Supreme Court in 2018. The book was quoted by the justices in their decision. This volume of speeches, articles and interviews is a chronicle of the first, activist phase of the Covenants Initiative, proving that socially committed scholarship is alive and well in the twenty-first century.

The Report: Saudi Arabia 2015 Oxford Business Group.2015-09-22 While Saudi Arabia's economy remains dominated by its hydrocarbons sector, several other sectors have emerged in recent years as key propellers of economic growth. The Kingdom's financial services industries have continued to expand steadily despite the liquidity challenges posed by falling oil prices. Trade and investment are being treated as key priorities as the government looks to negotiate this altered economic landscape, aiming to leverage its large population, high per capita income and many sea and air links. The country's capital markets sector meanwhile is poised for a period of significant growth on the back of the opening of Tadawul to international investors in 2015 and the raft of regulatory upgrades implemented as result. The domestic insurance industry, which remains dominated by the motor and medical segments, has enjoyed double-digit growth over the past five years in both revenue and net profit. Elsewhere the targets outlined in Vision 2030 indicate that a period of greater opportunity and integration is on the horizon for private players operating in core sectors such as health care, utilities, industry and ICT.

Cultures of Crisis in Southeast Europe Klaus Roth,Asker Kartari.2016 Southeast Europe's history of

the last two centuries is marked by deep transformations and upheavals: the emergence and disappearance of states; ethnic conflicts and wars; changes of political systems; economic crises; migration movements; and natural disasters. Most of these upheavals have been experienced as deep crises forcing people to adapt to often radically new situations. This can cause crisis management to become a permanent way of life. The book focuses on the cultures of crisis. It analyzes the reactions of societies or individuals to them, their impact on everyday life, on peoples' strategies of coping, on the processes of adaptation, and on peoples' attitudes. Focus is placed on crises relating to migration and post-socialist transformation, to politics and religion, and to labour relations. (Series: Ethnologia Balkanica, Vol. 18) [Subject: Sociology, Southeast European Studies, Politics]

Hadhramaut and its Diaspora Noel Brehony.2017-06-30 The Hadhramis of Yemen have migrated for centuries in large numbers, establishing a diaspora that extends around the Indian Ocean, Saudi Arabia and the other Gulf States. This migration has deeply affected the host countries as well as Hadhramaut itself. Yet the region has not been able to use its population size, capabilities or resources to wield significant political influence in successive Yemeni regimes. This book examines the people of the Hadhrami diaspora, who travelled as religious scholars, traders, labourers and soldiers, to understand their enduring influence and identity. In doing so, the book explores key aspects of their history, including the impact of Yemeni nationalist movements, the significance of land reforms, the importance of social and tribal origins and how the Hadhrami resisted European domination as a Muslim community. Although a distinctive part of geographical Yemen, Hadhramaut was not regarded as a Yemeni political entity until the twentieth century. This research asks if the recent turmoil in Yemen following the Arab Spring, the growth of Al-Qa'ida and ISIS, and war

involving a coalition led by Saudi Arabia, will produce even greater instability in the region or perhaps lead to a united Yemen, a restored South Yemen or even to Hadhramaut as an independent state.

Religion and Gender-Based Violence Brenda Bartelink, Chia Longman, Tamsin Bradley. 2022-09-15

This book takes religion as an entry point for a deeper exploration into why practices of gender-based violence continue and what possible actions might help to contribute to their eradication. International donors are committed to reducing and ending gender-related harm, particularly violence against women, but clear answers as to why harmful practices persist are often slow to emerge. Theological research struggles to find strong links, yet religion is often referred to by local people as the reason for practices such as female cutting, male circumcision, early and forced marriage, nutritional taboos and birth practices, mandatory (un)veiling, harmful spiritual practices, polygamy, gender unequal marital and inheritance rights and so-called honour crimes. This book presents empirical cases of religious, non-religious and secular actors, including local and international governmental and non-governmental agencies in the fields of development, health and equality policies. Tracing their different understandings of how religion is entangled with gender-based violence both contextually as well as historically, the book sheds light on helpful and unhelpful as well as erroneous and harmful understandings of such practices in local and global perspectives. Centralising the perspectives of women themselves, this book will be an important read for development practitioners and policy makers, as well as for researchers across religious studies, gender studies, and global development.

Gender, Sexuality, Decolonization Ahonaa Roy. 2020-12-28 This book presents a new approach to

the understanding of non-normative sexuality and gender transgressive modes in South Asia and South Asian diaspora. It reconceives sexual representation from the point of view of the theoretical, political and empirical trajectories of decolonization, provincialization and neoliberalism to look at the role of historical contingency, postcolonial sexual politics and gender and sexual diversity. The volume brings together anthropological, historical, material and political analyses around South Asian sexual politics by exploring a range of themes, including culture, class, ethnicity, identity, intersectionality, migration, borders, diaspora, modernity and cosmopolitanism across various local, regional and global contexts. By using southern/non-Western and subaltern theorizations of gender and sexuality, the book discusses South Asian sexualities through issues such as the sexual politics of indeterminacy; sexual subculture, iconography and political decision-making; religious identity; queer South Asian diaspora; decolonizing the postcolonial body; sexual politics, gender and feminist debates; discrimination, and socio-political violence; the political economy of empowerment; and critical appropriation of the 377 Indian Penal Code. It also builds forms of dialogues to bridge the gap between academic and development practitioners. With diverse case studies and a fresh theoretical framework, this book will be an essential read for scholars and researchers of South Asian studies, gender studies, sexuality studies, sociology and social anthropology, political studies, diaspora studies, postcolonial and global south studies.

Governance of Islam in Pakistan Sarah Holz.2022-10-15 Modern states increasingly seek to regulate religious expression, practice and discourse. This is profoundly evident at many levels of Islamic policy interaction: from debates about the banning of the Muslim face-veil in Europe to civic re-education programmes for Muslim citizens in China. *Governance of Islam in Pakistan* provides a systematic account of how interactions between multiple public and private bodies direct the

regulation and standardisation of Islam in one of the largest Muslim-majority states in the world. Analysis centres on the institutional development of the Council of Islamic Ideology, a constitutional body tasked with issuing advice to the executive and legislature about the compatibility of laws with Islamic principles. Based on archival material that has been subject to little scholarly attention, and interviews with Council members and staff of other state bodies, Sarah Holz proposes governance as an analytical framework to study the negotiation of religious expression, practice and discourse. In contrast to the established Islamisation narrative which generally labels such religious institutions as mere rubberstamps in the process of policy-making, the study of governance offers an alternative approach that enables examination of the dynamic competition and cooperation among multiple actors. Through collective interaction the Council and other relevant bodies are active players in the governance of Islam. Insights gained from analysis of the ideational, structural and functional evolution of the Council offers a Global South perspective on liberal democratic ideas about the functionality of the modern state and its institutional structure. Issues of economic, cultural and local/international political influence bear strongly in governance analysis. Engagement with the governance policy tool has applicability across the social sciences, but is particularly relevant for South Asian/Near and Middle East Studies.

Tourism in Iran Siamak Seyfi,C. Michael Hall.2018-10-11 Iran has long been regarded as an international pariah state in some parts of the international community. However, its negative image in many countries disguises its history of tourism and rich cultural and natural heritage. Following the July 2015 nuclear deal and the reduction in sanctions, Iran is focusing on international tourism as a means to generate economic growth in addition to its substantial domestic tourism market. Given the significance of tourism in the Middle East and in international politics, as well as restrictions on international mobility, this volume brings together the first contemporary collection of research on tourism in Iran. Written by experts based both within and outside of Iran, the chapters engage with a number of crucial issues including the importance of religion, the role of

women in society, sustaining Iran's cultural heritage, Iran's image and the resistive economy to provide a benchmark assessment of tourism and its potential future in a troubled political environment. The book will undoubtedly be of interest not only to those readers who focus specifically on Iran but also those who seek a wider understanding of Iran's role in the region and how tourism is utilised as part of national and regional economic development policies.

Placing Islam Timur Warner Hammond.2023 A free ebook version of this title is available through Luminos, University of California Press's Open Access publishing program. Visit www.luminosoa.org to learn more. For centuries, the Mosque of Eyüp Sultan has been one of Istanbul's most important pilgrimage destinations, in large part because of the figure buried in the tomb at its center: Halid bin Zeyd Ebû Eyûb el-Ensârî, a Companion of the Prophet Muhammad. Timur Hammond argues here, however, that making a geography of Islam involves considerably more. Following practices of storytelling and building projects from the final years of the Ottoman Empire to the early 2010s, *Placing Islam* shows how different individuals and groups articulated connections among people, places, traditions, and histories to make a place that is paradoxically defined by both powerful continuities and dynamic relationships to the city and wider world. This book provides a rich account of urban religion in Istanbul, offering a key opportunity to reconsider how we understand the changing cultures of Islam in Turkey and beyond.

New Approaches to Islam in Film Kristian Petersen.2021-04-26 Many global film industries fail in expanding the role of Muslims on screen. Too often they produce a dichotomy between good and bad Muslims, limiting the narrative domain to issues of national security, war, and terrorism. Naturally, much of the previous scholarship on Muslims in film focused on stereotypes and the politics of representation. This collection of essays, from an international panel of contributors, significantly expands the boundaries of discussion around Muslims in film, asking new questions of the archive and magnifying analyses of particular cultural productions. The volume includes the exploration of regional cinemas, detailed analysis of auteurs and individual films, comparison across global cinema, and new explorations that have not yet entered the conversation. The interdisciplinary collection provides an examination of the multiple roles Islam plays in film and the various ways Muslims are depicted. Across the chapters, key intersecting themes arise that push the limits of how we currently approach issues of Muslims in cinema and ventures to lead us in new directions for future scholarship. This book adds new depth to the matrix of previous scholarship by revisiting methodological structures and sources, as well as exploring new visual geographies, transnational

circuits, and approaches. It reframes the presiding scholarly conventions in five novel trajectories: considering new sources, exploring new communities, probing new perspectives, charting new theoretical directions, and offering new ways of understanding conflict in cinema. As such, it will be of great use to scholars working in Islamic Studies, Film Studies, Religious Studies, and Media. *Islamophobia and Racism in America* Erik Love. 2017-05-23 Choice Top Book of 2017 Confronting and combating Islamophobia in America. Islamophobia has long been a part of the problem of racism in the United States, and it has only gotten worse in the wake of shocking terror attacks, the ongoing refugee crisis, and calls from public figures like Donald Trump for drastic action. As a result, the number of hate crimes committed against Middle Eastern Americans of all origins and religions have increased, and civil rights advocates struggle to confront this striking reality. In *Islamophobia and Racism in America*, Erik Love draws on in-depth interviews with Middle Eastern American advocates. He shows that, rather than using a well-worn civil rights strategy to advance reforms to protect a community affected by racism, many advocates are choosing to bolster universal civil liberties in the United States more generally, believing that these universal protections are reliable and strong enough to deal with social prejudice. In reality, Love reveals, civil rights protections are surprisingly weak, and do not offer enough avenues for justice, change, and community reassurance in the wake of hate crimes, discrimination, and social exclusion. A unique and timely study, *Islamophobia and Racism in America* wrestles with the disturbing implications of these findings for the persistence of racism—including Islamophobia—in the twenty-first century. As America becomes a “majority-minority” nation, this strategic shift in American civil rights advocacy signifies challenges in the decades ahead, making Love’s findings essential for anyone interested in the future of universal civil rights in the United States.

The Weekly Khutbah Volume 2: 2014-2015 Saiyan Islam.2016-08-20 Every week Friday comes and for us Muslims, Friday is very crucial in the sense we have our Jummah prayers. Along with the Jummah prayers we have our weekly sermons. What happens is that most of us tend to forget the sermons delivered by the Imams. So I thought of this system of writing down all the sermons so that the knowledge we gain gets preserved. Furthermore the sisters who are mostly unable to attend the Jummah prayer in many country do not get the chance to learn from the weekly sermons. The males can easily record their learning and teach the women at their home. All the sermons are from the Imams from the Masjids I attend weekly and the Hadiths mentioned are from their own sermons. Sometimes the Imams may tend to refer to weak Hadiths, I have tried my best to classify them as much as possible. It will be highly appreciated if I get to hear all my readers' feedback. This is the second volume in The Weekly Khutbah Series. Please do pray for me so that I get to continue with this series. May Allah have mercy upon us all and may we get guided to the Straight Path, Ameen.
