Lippincott Williams & Wilkins' Comprehensive Medical Assisting
Judy Kronenberger, Laura Southard Durham, Denise Woodson. 2013 We're pleased to introduce the fourth edition of Lippincott Williams & Wilkins' Comprehensive Medical Assisting, the medical assisting text designed to meet your challenges. This dynamic package of text and resources represent more than just a textbook, instead providing a suite of learning resources. This is the one text aimed at making sure that every graduate can quickly change their cap and gown for a set of scrubs and immediately be a vital member of the medical office. We do this by: Providing the content in an engaging style that speaks to students. Putting pedagogy to work in the text through key features like patient education boxes, competency checklists, procedure boxes, etc. Placing students in the real environment in through our web-based EMR and PMS software package. Showing what we teach through skills videos that demonstrate the procedures and skills described. Constantly reinforcing the learning through additional online ancillaries including animations, ESL resources, etc. Helping instructors lessen planning time, with robust instructor resources. A competency spreadsheet helps faculty members and students track their

progress through the material. New content in the fourth edition focuses on addressing crucial changes in policy and technology. Without changing the engaging writing style we're known for, we've made sure that the content is up-to-date and in-line with the needs of the market. We've added content on emergency preparedness, a crucial topic in today's medical office. In addition, instructors will be happy to find the latest CAAHEP and ABHES competencies clearly addressed throughout the text.

Africans in Exile Nathan Riley Carpenter, Benjamin N.

Lawrance. 2018-09-10 "This rich volume will interest scholars and students of Africa, the African diaspora, world history, legal history, and international affairs." —Lorelle Semley, author of *To Be Free and French: Citizenship in France's Atlantic Empire* The enforced removal of individuals has long been a political tool used by African states to create generations of asylum seekers, refugees, and fugitives. Historians often present such political exile as a potentially transformative experience for resilient individuals, but this reading singles the exile out as having an exceptional experience. This collection seeks to broaden that understanding within the global political landscape by considering the complexity of the experience of exile and the lasting effects it has had on African peoples. The works collected in this volume seek to recover the diversity of exile experiences across the continent. This corpus of testimonials and documents is presented as an "archive" that provides evidence of a larger, shared experience of persecution and violence. This consideration reads exiles from African colonies and nations as active participants within, rather than simply as victims of, the larger global diaspora. In this way, exile is understood as a way of asserting political dissidence and anti-imperial strategies. Broken into three distinct parts, the volume considers legal issues, geography as a strategy of anticolonial resistance, and memory

and performative understandings of exile. The experiences of political exile are presented as fundamental to an understanding of colonial and postcolonial oppression and the history of state power in Africa.

of learners in all types of Medical Assisting programs. Trusted Kinn’s content supports the following exam plans: CMA from the American Association of Medical Assistants; RMA and CMAS from American Medical Technologist; CCMA and CMAA from the National Healthcareer Association; NCMA from the National Center for Competency Testing; and CMAC from the American Medical Certification Association. Emphasis on anatomy and physiology — along with pathology, signs/symptoms, diagnostic procedures, and treatments — enables you to meet key competencies. Strong focus on medical terminology includes feature boxes that highlight chapter-related medical terminology to help you learn word parts, pronunciation, and definitions. Math exercises embedded throughout the text challenge you to sharpen your math skills. Procedures are mapped to CAAHEP and ABHES accreditation standards down to the step, offer rationales for each step, and can be conveniently performed in the classroom. Customer Service boxes in appropriate chapters help you develop the soft skills that employers seek when hiring Medical Assistants. Applied learning approach introduces a case scenario at the beginning of each chapter and then revisits it throughout the chapter to help you understand new concepts as they are presented. Chapter learning tools include vocabulary with definitions, critical thinking applications, and content that ties directly to the order of learning objectives. Pharmacology glossary of the top 100-150 most common over-the-counter and prescription medications gives you quick access to pronunciation guides, generic and trade names, and drug classification.

easy to review core concepts and competencies; realistic practice tests simulate the exam experience and help you build test-taking confidence. This edition adds coverage of three certifications — CMAS, CCMA, and CMAA. Written by medical assisting educator Deborah Holmes, this review includes an Evolve companion website with over 1,500 practice questions, additional practice exams for each of the certifications, flashcards, and crossword puzzles. Comprehensive content includes increased coverage of study skills and test-taking, EHR, ICD-10, and diseases and disorders. Convenient outline format provides at-a-glance review and streamlines the subject areas typically found on the certification exams. An Evolve companion website provides practice taking exams electronically, chapter review questions, crossword puzzles, and flashcards. A Professionalism and Career Development chapter emphasizes the importance of presenting yourself in a professional manner. UPDATED content covers the top 50 drugs most commonly encountered in practice, the latest standards from CAAHEP, ABHES and the NHA, and topics such as emergency preparedness and the electronic medical record. UPDATED laboratory tests and normal values reflect current practice. NEW! 3 more certifications are covered in this edition and include practice examinations on the Evolve companion website — CMAS (AMT), CCMA (NHA), and CMAA (NHA). NEW! Correlation grids to certification test outlines and competencies align with current test outlines from certifying organizations. NEW! 10 review questions per chapter are available on Evolve for additional practice. NEW! Rationales are included on all practice exams to reinforce understanding. NEW! Additional illustrations reinforce concepts and show equipment and supplies.
