Successful Program Management Wanda Curlee, Robert Lee Gordon. 2013-10-21 Complexity theory is a great, untapped resource in the field of management. Experts agree that it can be a powerful tool for managing complex and virtual programs, but there is little material available to guide program managers on how to use complexity theory to communicate and lead effectively. Filling this void, *Successful Program Management: Complexity Theory, Communication, and Leadership* identifies the best leadership types for complex program environments. It goes beyond what is currently available in program management standards to outline powerful solutions to the macro and micro program issues facing program managers. Using language that is easy to understand, the book describes practical complexity theory techniques for establishing clear and effective communications in a virtual environment. It explains what it takes to communicate strategically to all parties involved and addresses the communication issues common to most programs, including

stakeholder communication, project team communication, and shareholder communication. The information presented in this book is supported by peer review research. Each section includes a case study, section quiz, and discussion questions to reinforce learning. The book includes numerous tools, templates, and techniques that can be helpful to the seasoned program manager as well as program managers who are leading for the first time. Clarifying the nuances of complexity theory, the text will help you focus your strategic energies on the right things and arm you and your team with the skills, tools, and techniques needed to succeed in today's program environment.

The Challenge of Children's Rights for Canada, 2nd edition

Katherine Covell, R. Brian Howe, J.C. Blokhuis. 2018-08-30

More than a quarter of a century has passed since Canada promised to recognize and respect the rights of children under the United Nations Convention on the Rights of the Child. Ratification of the Convention cannot, however, guarantee that everyone will abandon proprietary notions about children, or that all children will be free to enjoy the substance of their rights in every social and institutional context in which they find themselves, including—and perhaps especially—within families. This disconnect remains one of the most important challenges to the recognition of children's rights in Canada. The authors argue that social toxins are as harmful to children's independent welfare and developmental interests as environmental toxins, and that both must be eradicated if Canada is to fulfill its commitments under the Convention. They also argue that if Canada wishes to ensure the substance of the rights outlined in the Convention are socially guaranteed, an attitudinal or cultural shift is required concerning the moral and legal status of children. This revised, expanded, and updated edition of the bestselling *Challenge of Children's Rights for Canada* will be of interest to academics, policymakers, parents, teachers, social workers, and human service

professionals—indeed to anyone who cares about and for children.

Theoretical Perspectives for Direct Social Work Practice, Third Edition Nick Coady, PhD, Peter Lehmann, PhD,

LCSW, Peter Lehmann, PhD. 2016-05-15 This expanded third edition of a popular textbook provides a completely revised and updated overview of the theories, models, and therapies that inform direct social work practice. The text is grounded in generalist social work principles and values and promotes a problem-solving model of social work practice as a framework for the eclectic use of theory, as well as for integrating the artistic, reflective elements of practice. It provides in-depth coverage of select psychodynamic, cognitive-behavioral, humanistic, critical, and postmodern theories. The third edition features a new section on Critical Theories, where a new chapter on Empowerment Theory is included with a completely revised chapter on Feminist Theory. A new chapter on Strengths-based Social Work has been added to the section on meta-theories for social work practice.

Other new chapters include Emotion-focused Therapy and Collaborative Therapy. These revisions are based on suggestions from an extensive survey of professors. New to the Third Edition:

- A new section on Critical Theories
- New chapters on Strengths-based Social Work, Emotion-focused Therapy, Empowerment Theory, and Collaborative Therapy
- Updated research on the debate about the importance of theory/technique versus common (e.g., relationship) factors, and on the critique of the empirically supported treatment movement
- Key Features:
 - Grounds direct practice firmly in the principles and values of generalist social work
 - Promotes a problem-solving model of social work as a flexible structure for integrating the eclectic use of theory with the artistic, reflective elements of practice
 - Organizes direct practice theories into like groupings and provides an overview of the main characteristics of each grouping
 - Provides in-depth coverage of topics in a clear, logical, and

consistent format • Includes editors and contributors from the U.S. and Canada

Chinese Education Models in a Global Age Chuing Prudence Chou,Jonathan Spangler.2016-04-06 China's rise, an increasing emphasis on international education benchmarking, and a global recognition of East Asian countries' success in this regard have brought the issue of Chinese education to the forefront of public consciousness. In particular, the concept of a "Chinese education model" is one that has sparked debate and quickly become a major focus of education research around the world, especially in light of regional achievements vis-à-vis university rankings, bibliometric indices, the Programme for International Student Assessment (PISA), Trends in International Mathematics and Science Study (TIMSS), and other such benchmarks. *Chinese Education Models in a Global Age* tackles this controversial issue head on by synthesizing a diversity of analyses from a world-class team of twenty-seven authors. It reveals that Chinese education models, which are present in many different geographic and institutional contexts, have an important influence on social and institutional norms as well as individual belief systems and behaviors in China and beyond. The first of its kind, this edited volume establishes a foundation for future research while providing a nuanced and tightly integrated compilation of differing perspectives on the role and impact of Chinese education models worldwide. It is essential reading for all scholars, policymakers, students, parents, and educators interested in the rising demographic and economic influence of people of Chinese descent on education around the world.

History of Education: Debates in the history of education

Roy Lowe.2000 This major work brings together some of the most significant and influential writing on the history of education during the past thirty years. It illustrates key themes and their

relevance for our understanding of the development of schooling.

The Boomerang Age Barbara Mitchell.2011-12-31 * The

Boomerang Age was named an Outstanding Academic Title of 2007 by Choice Magazine. Domestic changes are taking place in the lives of young adults in Western industrialized societies.

Today's young people often experience less permanency and more movement in a variety of family-related roles, statuses, and living arrangements. Among the most prominent changes is the phenomenon of boomerang kids, young adults returning to the parental home after their initial entrance into the adult world.

The Boomerang Age, explores the implications of this development in a changing sociocultural, economic, and demographic landscape. Mitchell begins by addressing definitional, conceptual, and measurement issues relevant to the boomerang age. She then places the issues in historical

perspective by considering trends in family organization--the nuclear family, marriage and divorce rates and fertility--over the past hundred years with emphasis on the 1950s family as a cultural benchmark. The book then turns to the contemporary trajectory of home leaving and returning, analyzing the launch and return phases with regard to economic factors, regional differences, and racial and ethnic backgrounds. Mitchell then explores the more personal dimensions of how a return to the family is complicated by partnership (marriage, divorce, cohabitation, homosexuality) and parenthood among young couples. Moving outside the home, she looks at how public issues such as globalization, the decline of the welfare state, and various forms of social inequality affect the circumstances of young adulthood. Here Mitchell offers specific social policy recommendations pertaining to education, housing and dependency issues, childcare, and gender and racial equality. The book concludes by critically evaluating the advantages and drawbacks of two possible future scenarios: increased

individualization in the pursuit of social goals, or a more or less permanent return to the traditional, extended family.

Diversity, Culture and Counselling, 3rd Ed. M. Honore France, Maria del Carmen Rodriguez, Geoffrey G. Hett. 2021-09-27

A uniquely Canadian approach to multicultural counselling In a country as diverse as Canada, a multicultural counselling approach provides an essential starting point for working with people from different ethnicities, sexualities, gender identities, abilities and religious backgrounds. Bringing Canadian perspectives to the field of multicultural counselling, this collection provides practical approaches to counselling in Indigenous, Asian, Black Canadian, Hispanic, South Asian and LGBTQ2+ communities, among others, along with advice for treating migrant and refugee clients. The third edition of Diversity, Culture and Counselling addresses crucial issues such as systemic racism, immigration policy, climate change, and discriminatory policies, reflecting the many changes that have arisen in Canada since the publication of the second edition. Along with an all-new chapter on counselling during a national crisis, each chapter has been revised to reflect the current state of diversity in Canadian counselling with contributors from a range of backgrounds.

A Hard Place to Call Home Kiaras Gharabaghi. 2019-02-15 In this seminal resource, Dr. Kiaras Gharabaghi identifies an underlying absence of unifying theory and practice in Canada's child and youth residential care and treatment services. By drawing on organizational examples from across Canada, Gharabaghi exposes how the historical dynamics of mediocrity and complacency have led to inadequate standards and practices within the system. More assuredly, this resource exposes readers

to alternative ways of re-imagining a system that is designed from a space of care, healing, and growth that promotes autonomy for all young people. This well-timed resource offers the child and youth services community a positive, constructive, and revolutionary framework for residential care and treatment that is fundamentally based on a partnership between caregivers and young people, their families, neighbourhoods, and communities. Dr. Gharabaghi's sophisticated and provocative analysis of the system's key issues is an essential resource for students, practitioners, and educators in the field of child and youth care and in the human services more broadly.

Family Health Care Nursing Joanna Rowe Kaakinen, Deborah Padgett Coehlo, Rose Steele, Melissa Robinson. 2018-02-01 Prepare for the real world of family nursing care! Explore family nursing the way it's practiced today—with a theory-guided, evidence-based approach to care throughout the family life cycle that responds to the needs of families and adapts to the changing dynamics of the health care system. From health promotion to end of life, a streamlined organization delivers the clinical guidance you need to care for families. Significantly updated and thoroughly revised, the 6th Edition reflects the art and science of family nursing practice in today's rapidly evolving healthcare environments.

Canadian Community as Partner Ardene Robinson Vollman, Elizabeth T. Anderson, Judith M. McFarlane. 2007-10-01 This is the Canadian adaptation of the Fifth Edition of the AJN award-winning *Community as Partner* text. Focusing on public health promotion practices in Canada, this text examines the contemporary public health nurse's role as a hands-on caregiver, community detective, and epidemiologist. Part One provides a Canadian perspective on community nursing practice and legal, ethical, and sociocultural considerations. Part Two presents the *Community as Partner Model*, and Part Three contains case studies with Canadian examples. This edition places more

emphasis on supportive environments for health, the five strategies of the Ottawa Charter, primary health care, and rural communities.

Handbook of Dynamics in Parent-Child Relations Leon Kuczynski.2003 This handbook provides an interdisciplinary perspective on theory, research and methodology on dynamic processes in parent-child relations. It focuses on cognitive, behavioural and relational processes that govern immediate parent-child interactions and long-term relationships.

Socioeconomic Inequality and Student Outcomes Louis Volante,Sylke V. Schnepf,John Jerrim,Don A. Klinger.2019-08-31 This book examines socioeconomic inequality and student outcomes across various Western industrialized nations and the varying success they have had in addressing achievement gaps in lower socioeconomic status student populations. It presents the national profiles of countries with notable achievement gaps within the respective school-aged student populations, explains the trajectory of achievement results in relation to both national and international large-scale assessment measures, and discusses how relevant education policies have evolved within their national contexts. Most importantly, the national profiles investigate the effectiveness of policy responses that have been adopted to close the achievement gap in lower socioeconomic status student populations. This book provides a cross-national analysis of policy approaches designed to address socioeconomic inequality.

The Canadian Family in Crisis John F. Conway.2003-08 In this book, sociology professor John F. Conway looks at families past, present and future and examines the changing nature of family. Figures from the first decade of the new millennium tell us that one marriage in two may well end in divorce. Conway considers the implications of divorce, the impact of social changes on men, women and children, and suggests how these issues might be better addressed through family policy. The new edition addresses the harsh new reality facing Canadian families,

especially those most vulnerable as a result of the crisis of the family. The Canadian Family in Crisis is the first book to examine the drastic changes in the Canadian family over the last thirty years.

Canadian Social Policy, Fifth Edition Anne Westhues, Brian Wharf. 2012-05-25 Social policy shapes the daily lives of every Canadian citizen and should reflect the beliefs of a majority of Canadians on just approaches to the promotion of health, safety, and well-being. Too often, those on the front lines—social workers, nurses, and teachers—observe that policies do not work well for the most vulnerable groups in society. In the first part of this new edition of *Canadian Social Policy*, Westhues and Wharf argue that service deliverers have discretion in how policies are implemented, and the exercise of this discretion is how citizens experience policy—whether or not it is fair and reasonable. They show the reader how social policy is made and they encourage active citizenship to produce policies that are more socially just. New material includes an examination of the reproduction of systemic racism through the implementation of human rights policy and a comparative analysis of the policy-making process in Quebec and English Canada. The second part of the book discusses policy issues currently under debate in Canada. Included are new chapters that explore parental leave policies and housing as a determinant of health. All chapters contain newly updated statistical data and research and policy analysis. A reworked section on the process of policy-making and the addition of questions for critical reflection enhance the suitability of the book as a core resource in social policy courses. The final chapter explores how front-line workers in the human services can advocate for change in organizational policies that will benefit the people supported.

European Perspectives on Inclusive Education in Canada

Theodore Michael Christou, Robert Kruschel, Ian Alexander Matheson, Kerstin Merz-Atalik. 2022-06-19 Featuring leading

voices in the field from across Canada and Europe, this edited collection offers empirical analyses of the historical, social, cultural, and legislative determinants of inclusive education in Canadian schools. Covering four thematic areas including the structure, culture, and practices of inclusive education, the volume offers comparative insights from a European perspective, engaging critically with widely held views of Canada as a world leader in inclusive education. Providing rich comparisons with educational systems in Germany, Spain, and Finland, chapters explore in-depth the assessment structures and curricula specific to Canada, as well as educational policy, and explore attitudes and practices in relation to diverse student populations, including refugee and indigenous peoples, and students with special educational needs. This volume will benefit researchers, academics, and educators with an interest in multicultural education, international and comparative education, as well as educational policy more specifically. Those involved with inclusion and special educational needs will also benefit from this volume.

Psychodynamic Psychiatry in Clinical Practice Glen O.

Gabbard. 2014-04-16 It is difficult to improve on a classic, but the fifth edition of *Psychodynamic Psychiatry in Clinical Practice* does

just that, offering the updates readers expect with a deft reorganization that integrates DSM-5® with the author's emphasis on psychodynamic thinking. The individual patient is never sacrificed to the diagnostic category, yet clinicians will find the guidance they need to apply DSM-5® appropriately. Each chapter has been systematically updated to reflect the myriad and manifold changes in the 9 years since the previous edition's publication. All 19 chapters have new references and cutting-edge material that will prepare psychiatrists and residents to treat patients with compassion and skill. The book offers the following features: Each chapter integrates new neurobiological findings with psychodynamic understanding so that clinicians can approach their patients with a truly biopsychosocial treatment plan. Excellent writing and an intuitive structure make complicated psychodynamic concepts easy to understand so that readers can grasp the practical application of theory in everyday practice. The book links clinical understanding to the new DSM-5® nomenclature so that clinicians and trainees can adapt psychodynamic thinking to the new conceptual models of disorders. New coverage of psychodynamic thinking with relation to the treatment of patients on the autism spectrum addresses an increasingly important practice area. Posttraumatic stress and dissociative disorders have been combined to allow for integrated coverage of primary psychiatric disorders related to trauma and stressors. A boon to clinicians in training and practice, the book has been meticulously edited and grounded in the latest research. The author firmly believes that clinicians must not lose the complexities of the person in the process of helping the patient. *Psychodynamic Psychiatry in Clinical Practice, Fifth Edition*, keeps this approach front and center as it engages, instructs, and exhorts the reader in the thoughtful, humane practice of psychodynamic psychiatry.

Families Maureen Baker, Patricia Albanese. 2004-12 With Families: Changing Trends in Canada, Maureen Baker's aim has always

been to create a Canadian textbook in family studies for post-secondary students, which incorporates an interdisciplinary, historical, comparative and mainly structural perspective, but which is inclusive of various theoretical perspectives. Now a market-leader that is widely adopted for the first course in Sociology of the Family, the NEW 5th Edition of Families: Changing Trends in Canada introduces four new contributors to the text, giving the text more balance while also allowing the book to benefit from some young, up-and-coming scholars in the field. Revised to ensure up-to-date coverage of key issues in accordance with its high academic reputation, the fifth edition of Families: Changing Trends in Canada reflects the evolving nature of the family by paying increased attention to gay, lesbian and multicultural issues.

Social Anthropology Edward Hecican. 2012-01-15 This is the first introductory text that focuses on social anthropological research using Canadian examples and perspectives. In this groundbreaking new book, Edward Hecican provides undergraduate students with a solid background on the theoretical and applied aspects of anthropology, while exploring the rich history of the discipline in a Canadian context. In ten concise chapters, readers are introduced to the basic conceptual building blocks of introductory anthropology in a refreshingly succinct and engaging way. With a strong focus on Canadian theory, this book includes discussion of evolutionism, feminist anthropology, marriage and the family, and political economy.

About Canada: Health and Illness, 2nd ed. Dennis

Raphael. 2017-01-13T00:00:00Z Most Canadians believe that their experiences of health and illness are shaped by genetics, medical care and lifestyle choices. Governments, the media and disease associations reinforce this perception by pointing to medical

research and a healthy lifestyle as the keys to health. About Canada: Health and Illness tells a different story. In this new, updated edition, Dennis Raphael shows that living and working conditions, income, employment and quality of education, as well as access to food, housing and social services — the social determinants of health — are what dictate the health of Canadians. And these social determinants are shaped by the public-policy decisions of Canadian governments. Whether you stay healthy or become ill has more to do with policies, laws and regulations than genetics or lifestyle. Over the past thirty years, policymakers — operating under the influence of neoliberalism — have threatened health by allowing the growth of corporate power, which has led to growing inequality in these social determinants of health. This book is a wake-up call to Canadians. Public pressure needs to be put on elected representatives to create policies that are in the interest of the majority of Canadians, not just the wealthy.

Package - The Family Dynamic Margaret Ward, Marc Bélanger. 2014-03-07 The Family Dynamic: Canadian Perspectives provides a comprehensive, down-to-earth, current overview of the constellations of family forms in Canada in the twenty-first century. It broadens students' understanding of the pluralism of family forms in Canada by including lived experiences in the form of first-person narratives at the beginning of every chapter and real case studies at the end of each chapter, helping future human service workers, social workers, early childhood educators, child and youth care workers, and sociologists understand the wide range of family issues with which they will come into contact. Uniquely, this text paints a vivid picture of family life in this moment in time through comprehensible, straightforward, conversational language that captures students' imaginations as they explore family forms beyond their own.

Promoting the Health of Older Adults Irving Rootman, Peggy Edwards, Mélanie Levasseur, Frances Grunberg. 2021-07-28

Taking a unique look at health promotion and aging in Canada, this edited collection uses the action framework in the Ottawa Charter for Health Promotion to explore the factors and issues related to the health of older adults. The book is organized around the five action areas for health promotion: building healthy public policy, creating supportive environments, strengthening community action, developing personal skills, and reorienting health and social services. Adhering to the holistic

approach that health in older age involves physical, mental, emotional, and social well-being, this comprehensive collection covers a wide range of interventions that are designed to benefit and protect the aging population's health, quality of life, rights, and dignity, while building intergenerational solidarity and collaboration. Readers will learn about aging from a health promotion perspective; the context, environment, and issues related to older adults in Canada; as well as best practices in health promotion, public health, and the care of older adults. Promoting the Health of Older Adults is an invaluable resource for both graduate and undergraduate students in gerontology, health promotion, nursing, social work, and related fields.

FEATURES - Considers the implications of the COVID-19 pandemic for health promotion and aging - Provides an up-to-date profile of older adults in Canada and current/future trends in aging and health, including the use of new technologies and policies and practices in health promotion, public health, and other disciplines - Includes a wealth of pedagogical features, such as learning objectives, critical thinking questions, a glossary, and online supplementary materials
