

Chevrolet History 1940 1954

Chevy Classics Anthony Young.2012-04-04 This book examines the history and legend surrounding what have become three of the most beloved years in Chevrolet's history. Anthony Young's technical and design history is illustrated by 175 images including black and white factory photos, ads, and Mike Mueller's stunning color photography—a beautiful book for all fans of the classic Tri-Chevys. In the early 1950's, as now, a car was one of the ultimate expressions of American status and independence. And Detroit's Big Three were locked in a continual battle to win the hearts and income of America's car buyers. Until 1955, that is. The Hot One, as Chevy's 1955 ads called it, really was. In one model year, Chevrolet managed to wipe away its stodgy, stovebolt reputation with a new car that was utterly unlike its staid 1954 offering. It was as if Pat Boone had become Elvis Presley overnight.

Chevrolet: 1911-1960 Michael W.R. Davis.2012-08-06 The Chevrolet car and truck business traces its roots back to Michigan's lumber industry in the middle of the 19th century. Lumber mills gave way to carriage and wagon manufacturing and the claim, before motorcars burst on the scene, that Flint was the "vehicle capital of the world." This is the story of how those wagon makers quickly converted to producing automobiles, overtaking automotive pioneer and archrival Ford in sales, and building the Chevrolet brand into the global powerhouse entity it is today. This volume traces the first half (1911-1960) of Chevrolet's 100-year history in photographic detail and provides an unparalleled spotter guide for long-forgotten (or never-known) Chevrolet cars and trucks.

Chevrolet: 1960-2012 Michael W.R. Davis.2012-12-10 Images of America: Chevrolet: 1960-2012 is the second of a two-volume photographic history of Chevrolet, one of the world's best-known automotive brands, symbolized by the bow tie emblem. From 1960 to 2012, the US auto industry and Chevrolet experienced fundamental changes in their products and business plans. In the 50-plus years illustrated here, two basic changes in the marketing of motor vehicles is evident: the rising proportion of trucks among all vehicles sold and the incursion of European and Asian brands into the market. Even though the number of different Chevrolet passenger car models tripled, total car sales for the brand fell. Chevrolet: 1960-2012 relates the year-by-year evolution of the US auto business via what was once the largest-selling make.

Chevrolets of the 1950s David Temple.2018-06-15 As the 1950s dawned, General Motors focused its industrial might on producing revolutionary

rather than evolutionary cars with the ultimate goal to become the clear market leader in the automotive industry. To accomplish this goal, the company designed, developed, and consistently released innovative automotive technology. During the decade, Chevrolet introduced the small-block V-8, automatic transmission, air-conditioning, power steering, and many other innovations that made the cars faster, more comfortable, and safer. All of the pieces had fallen into place. General Motors had astute leadership, a brilliant engineering team, forward-thinking stylists, a massive manufacturing infrastructure, and the capability to produce cutting-edge technology. With unbridled optimism and exuberance to meet the demands of the booming U.S. economy of the 1950s, the company designed, developed, and delivered an unprecedented number of breakthrough technologies, and established the blueprint for the modern automobile. Automotive historian and veteran author David Temple goes behind the scenes to reveal how these technologies were designed, manufactured, and installed on Chevrolet's fine portfolio of cars: the Corvette, 1955-1957 Bel Air, Nomad, Impala, and many more. Inside General Motors, many dedicated and talented leaders who were determined to make Chevrolet cars the best on the market. Vice President of Styling Harley Earl and his team designed the 1952 Corvette concept car for the Motorama show. After receiving numerous accolades, it was rushed into production. Design chief Bill Mitchell used his design acumen and creative vision as he led his team to style the 1955-1957 Bel-Air. Zora Arkus-Duntov worked tirelessly and transformed the Corvette from a touring car into a genuine sports car. Ed Cole and his engineers overcame many challenges to develop the compact, efficient, and powerful Chevy small-block V-8, which continued in production for decades. Chevrolets of the 1950s retraces the design, development, and production of these cars, but it also covers innovative vital components that were installed in them. If you have been looking for the inside story on GM's arguably greatest decade, the models, and the technology it produced, you have found it.

American Car Spotter's Guide, 1940-1965 Tad Burness.1973 This is ... the first book to photographically portray virtually all of the regular production models of U.S. automobiles built between the years 1940 and 1965--Back cover

Classic Chevrolet Dealerships: Selling the Bowtie Jon Robinson. Since its founding in 1912, Chevrolet has weathered the Great Depression, two World Wars, confused markets, and fuel crises to become an American motoring icon. Chevy's success would not have been possible without the network of dealerships that sold and marketed the company's cars and trucks, first to wary customers unconvinced of the new contraptions' practicality, then to nine decades of consumers ranging from cash-strapped, to cash-flush, to confused, to increasingly fuel-conscious. This book examines that network by profiling several longstanding dealerships that have thrived and sometimes just barely survived on the frontlines of the car business. Readers will be entertained by anecdotes of early dealerships that took livestock and crops as trade-ins, coped with and thrived under Chevy's stringent Quality Dealer Program in the 1930s, weathered World War II on the income generated by service departments, and corrected backward engineering of the immediate postwar era. Specific Dealerships featured include: William L. Morris (Fillmore, California); Whitney's (Montesano, Washington); Webster Motors (Cody, Wyoming); Felix (Los Angeles, California); Holz (Janesville, Wisconsin); Smith (Atlanta, Georgia); Mandeville (North Attleboro, Massachusetts); and Culberson-Stowers (Pampas, Texas)

A Pictorial History of Chevrolet 1955-1957 John D. Robertson.1999 The third book in a series of pictorial histories examines the ever-popular Tri-Chevy era -- that three-year span when Chevrolet built cars that have long since become icons of the decade. This history digs into GM archives to reveal the stories behind those successful models, as well as more than 200 advertising and production-line photographs.
