Aid, Ownership and Development John Overton, Warwick E. Murray, Gerard Prinsen, Tagaloa Avataeao Junior Ulu, Nicola Wrighton. 2018-08-06 One of the key principles for effective aid programmes is that recipient agencies exert high degrees of ownership over the agendas, resources, systems and outcomes of aid activities. Sovereign recipient states should lead the process of development. Yet despite this well-recognised principle, the realities of aid delivery mean that ownership is often compromised in practice. *Aid, Ownership and Development* examines this 'inverse sovereignty' hypothesis with regard to the states and territories of the Pacific Island region. It provides an initial overview of different aid 'regimes' over time, maps aid flows in the region, and analyses the concept of sovereignty. Drawing on a rich range of primary research by the authors and contributors, it focuses on the agencies and individuals within the Pacific Islands who administer and apply aid projects and programmes. There is indeed evidence for the inverse sovereignty effect; particularly when island states and their small and stretched bureaucracies have to deal with complex and burdensome donor reporting requirements, management systems, consultative meetings and differing strategic priorities. This book outlines important ways in which Pacific agencies have proved adept not only at meeting these requirements, but also asserting their own priorities and ways of operating. It concludes that global agreements, such as the Paris Declaration on Aid Effectiveness in 2005 and the recently launched Sustainable Development Goals, can be effective means for Pacific agencies to both hold donors to account and also to recognise and

exercise their own sovereignty.

Rethinking Public Strategy Sean Lusk, Nick Birks. 2014-07-23 Strategy is vital to effective and efficient public service delivery as well as successful governance and leadership. This new text provides a concise yet systematic overview of the achievements, downfalls and complexities of public strategy in today's globalized and often market-driven world. It describes the place of strategy in civic societies whose citizens are more interconnected and vocal than ever. It shows that successful strategic planning goes well beyond problem-solving to developing adaptable plans that can evolve as requirements and circumstances change. And it explains why muddling through simply won't work. Emphasizing the importance of applying a variety of techniques to the process of strategy-creation, *Rethinking Public Strategy* reassesses the key factors that can deliver significant improvements in public services and build public value. It looks at why public strategy is distinctive, as well as the principles it has in common with the corporate domain. This text includes numerous case studies from around the globe - from South Africa to Singapore, the USA to Germany, and from China to the Czech Republic - that ground the exposition in real experience. Based on state-of-the-art research by two expert practitioners in the field, it offers an essential guide to the art of strategy in the contemporary public sector, and encourages readers to evaluate critically the various approaches to strategy.

The Law Relating to Financial Crime in the United Kingdom Karen Harrison, Nicholas Ryder. 2016-09-15 Outlining the different types of financial crime and their impact, this book is a user-friendly, up-to-date guide to the regulatory processes, systems and legislation which exist in the

UK. Each chapter has a similar structure and covers individual financial crimes including money laundering, terrorist financing, fraud, insider dealing, market abuse, bribery and corruption and finally tax avoidance and evasion. Offences are summarized and their extent is evaluated using national and international documents. Detailed assessments of financial institutions and regulatory bodies are made and the achievements of these institutions are analysed. Sentencing and policy options for different financial crimes are included and suggestions are made as to how criminal proceeds might be recovered. This second edition has been fully updated and includes a section on cybercrime and a new chapter on tax evasion. Case summaries have also been included in those chapters where a criminal justice route is used by the prosecuting authorities.

The Handbook of Contemporary Cambodia Katherine Brickell, Simon Springer.2016-09-13 Offering a comprehensive overview of the current situation in the country, *The Handbook of Contemporary Cambodia* provides a broad coverage of social, cultural, political and economic development within both rural and urban contexts during the last decade. A detailed introduction places Cambodia within its global and regional frame, and the handbook is then divided into five thematic sections: Political and Economic Tensions Rural Developments Urban Conflicts Social Processes Cultural Currents The first section looks at the major political implications and tensions that have occurred in Cambodia, as well as the changing parameters of its economic profile. The handbook then highlights

the major developments that are unfolding within the rural sphere, before moving on to consider how cities in Cambodia, and particularly Phnom Penh, have become primary sites of change. The fourth section covers the major processes that have shaped social understandings of the country, and how Cambodians have come to understand themselves in relation to each other and the outside world. Section five analyses the cultural dimensions of Cambodia's current experience, and how identity comes into contact with and responds to other cultural themes. Bringing together a team of leading scholars on Cambodia, the handbook presents an understanding of how sociocultural and political economic processes in the country have evolved. It is a cutting edge and interdisciplinary resource for scholars and students of Southeast Asian Studies, as well as policymakers, sociologists and political scientists with an interest in contemporary Cambodia.

Cyber Conflicts and Small States Lech J. Janczewski, William Caelli.2016-09-17 The probability of a world-wide cyber conflict is small. Yet the probability of forms of cyber conflict, regional or even global, could be argued as being very high. Small countries are usually signatories to military and economic alliances with major world powers but rely heavily on the technical ability of these powers

in protecting their own national interests. They may be considered to be IT 'technology colonies'. Their cyber infrastructure is usually fully imported and their ability to assess it is limited. This book poses the question: to what extent should, or can, a small country prepare itself for handling the broad range of cyber threats? Looking at cyber-warfare, cyber-terrorism, cyber-crime and associated concerns, national experts from New Zealand, Australia, The Netherlands, and Poland present analyses of cyber-defence realities, priorities and options for smaller countries. They show that what is needed is the ability of small nations to be able to define and prepare appropriate responses such as the role of military/law enforcement/business entities, continuity and resilience strategies, incident response and business continuity plans and more for handling nationally-aimed cyber-attacks particularly where these address national critical infrastructures.

Race Rights Reparations Fernne Brennan.2017-07-14 This book considers institutional racism as a problem that exists within modern societies. Its roots lie with the transatlantic slave trade and slavery and the solution involves ridding society of the problem. It is argued here that, first, there needs to be an acceptance of its existence, then developing the tools needed to deal with it and, finally, to implement those tools so that institutional racism can be permanently removed from society. The book has four themes: the first considers the nature of institutional racism, the second theme looks at instances of institutional racism through matters such as deaths in custody and skin lightening, the third considers the concept of reparations and the final area looks at the development of social movements as a way of pushing institutional racism up the political agenda. The development of a social movement is part of a social discourse which would, for example, push mentoring as a form of reparations. There is a need for more research on the manifestations of institutional racism and this book is part of that discourse. It is argued that the legacy of the slave

trade and slavery is continuing and contemporary through the presence of institutional racism in society. This problem has not been addressed through legislation and policies devised to combat racial discrimination. Institutional racism needs to be understood as being located in the processes and procedures of societal institutions.

Who Are You Serving? Cynthia Robertson.2021-10-01 My ten year journey of how I left my religion to learn the truth of my God and His Words. My inspiration for everyone (the readers) to find themselves in the pages of this book and apply it to their journey to a one-on-one relationship with God.

Questions God Asks Us Trevor Hudson.2010-12-15 Instead of always looking for answers in the Bible, Trevor Hudson suggests that we start thinking more carefully about the questions that God asks. God desires a conversational relationship with us, and He shows this desire by asking questions. God also gives greater dignity to us by allowing us to wrestle with the questions rather than if we are simply given answers. Questions God Asks Us presents ten questions - five from the Old and five from the New Testament - which God had asked and is still asking us as well. They include: Where Are You? Where Is Your Brother? What Are You Doing Here? Who Do You Say I Am? Do You Want to Get Well? Why Are You Crying? There is a much greater power to transform us in a question than there is in a straightforward answer - each chapter includes a section with practical suggestions to answer God's question and discover this for yourself. It also includes discussion questions for study groups. Questions God Asks Us is bound in a handy gift format with beautiful full-colour images printed on gloss art paper.

Multinational Enterprises and the Law Peter Muchlinski.2021-02-18 Multinational Enterprises and the Law is the only comprehensive, contemporary, and interdisciplinary account of the

techniques used to regulate multinational enterprises (MNEs) at the national, regional, and multilateral levels. In addition, it considers the effects of corporate self-regulation, and the impact of civil society and community groups upon the development of the legal order in this area. The book has been thoroughly revised and updated for this third edition, making it a definitive reference work for students, researchers, and practitioners of international economic law, business, corporate and commercial law, development studies, and international politics. Split into four parts, the book first deals with the conceptual basis for MNE regulation. It explains the growth of MNEs, their business and legal forms, and the relationship between them and the effects of a globalised economy and society upon the evolution of regulatory agendas in the field. Part II covers the main areas of economic regulation, including the limits of national and regional jurisdiction over MNE activities, controls over, and the liberalisation of, entry and establishment, tax, company and competition law and the impact of intellectual property rights on technology diffusion and transfer. Part III introduces the social dimension of MNE regulation covering labour rights, human rights, and environmental issues. Finally, Part IV deals with the contribution of international investment law to MNE regulation and to the control of investment risks, covering the main provisions found in international investment agreements, their interpretation by international tribunals, and how concerns over these developments are leading to reform proposals.

Shutting the Door to the Kingdom of God Eric Michael Wilson.2022-08-20 This book uses the New World Translation of the Holy Scriptures to prove that all the teachings of Jehovah's Witnesses concerning the Last Days and the good news of salvation are unscriptural. The author, an elder of Jehovah's Witnesses for 40 years, shares the results of the last ten years of his research into such Watch Tower teachings as the 1914 invisible presence of Christ, the overlapping generation doctrine, the failed prophecies of 1925 and 1975, the fact that the Governing Body had evidence long ago showing that 607 BCE was not the date of the Babylonian exile, and most important of all, the abundant evidence that the salvation hope offered to the JW Other Sheep is a Rutherford invention wholly without support in Scripture. He also shares his experience on how Witnesses who continue to believe in Jehovah and Jesus can move beyond JW.org without sacrificing their faith. This is a must-read for any Jehovah's Witness who is a seeker of truth and unafraid to put his or her beliefs to the test.

Arctic Human Development Report Joan Nymand Larsen,Gail Fondahl.2015-02-18 The goals of the second volume of the AHDR - Arctic Human Development Report: Regional Processes and Global Linkages - are to provide an update to the first AHDR (2004) in terms of an assessment of the state of Arctic human development; to highlight the major trends and changes unfolding related to the various issues and thematic areas of human development in the Arctic over the past decade; and, based on this assessment, to identify policy relevant conclusions and key gaps in knowledge, new and emerging Arctic success stories. The production of AHDR-II on the tenth anniversary of the first

AHDR makes it possible to move beyond the baseline assessment to make valuable comparisons and contrasts across a decade of persistent and rapid change in the North. It addresses critical issues and emerging challenges in Arctic living conditions, quality of life in the North, global change impacts and adaptation, and Indigenous livelihoods. The assessment contributes to our understanding of the interplay and consequences of physical and social change processes affecting Arctic residents' quality of life, at both the regional and global scales. It shows that the Arctic is not a homogenous region. Impacts of globalization and environmental change differ within and between regions, between Indigenous and non-Indigenous northerners, between genders and along other axes.

Policies and Politics in Malaysian Education Cynthia Joseph.2017-11-22 This book draws on elements of critical social theory, research on globalization, neo liberalism and education, and Malaysian Studies to understand the interplay of globalization, nationalism, cultural politics and ethnicized neoliberalism in shaping the educational reforms in Malaysia. Using the Malaysia Education Blueprint 2013-2025 (MEB) as a case study, a catalyst and a context, this collection critically explores some of the complex historical and contemporary push-pull politics and factors shaping Malaysia's education system, its reform and the experience of Malaysians - and others - within it. The authors in this volume focus on the interplay of neoliberalism, nationalism, ethnic and cultural politics in shaping the educational reforms in Malaysia. Their work captures and seeks to understand the enduring, though changing, hierarchy of access and differentiated rights to educational, social and economic resources and opportunities experienced by different individuals and collectives, including those involved in the neoliberal enterprise of international education. It looks at how inequities have been re-configured in different educational spaces in Malaysia, and at how these inequities have been addressed through reform policies and practices. The book will be a shaper and critical contributor to the assessment of the Malaysian Education Blueprint and related policies. It will also have wider relevance globally as a critical approach to policy discussion.

Jehovah's Witnesses George D. Chryssides.2022-01-27 What would happen if I accepted an

invitation to Bible Study from Jehovah's Witnesses? What would attending a Kingdom Hall meeting involve? And if I invited door-knocking Witnesses into my home? This book introduces Jehovah's Witnesses without assuming prior knowledge of the Watch Tower organization. After outlining the Society's origins and history, the book explains their key beliefs and practices by taking the reader through the process of the seeker who makes initial contact with Witnesses, and progresses to take instruction and become a baptized member. The book then explores what is involved in being a Witness - congregational life, lifestyle, rites of passage, their understanding of the Bible and prophetic expectations. It examines the various processes and consequences of leaving the organization, controversies that have arisen in the course of its history, and popular criticisms. Discussion is given to the likelihood of reforms within the organization, such as its stance on blood transfusions, the role of women and new methods of meeting and evangelizing in response to the COVID-19 pandemic.

Green Jobs for Sustainable Development Ana-Maria Boromisa, Sanja Tišma, Anastasya Raditya Ležaić. 2015-06-26 A 'green economy' must be built on 'green jobs' - the kind of employment that is low carbon, intended to reduce energy use and expected to restore environmental quality. But attempts to define exactly what a 'green job' is have led to varied and often contradictory answers. There are many unresolved questions including whether we consider jobs in the nuclear fuel industry to be green jobs? Or is a worker at a glass making company which supplies the glass for the solar photovoltaic industry doing a green job given that glass making is a 'dirty' industry? This book deals with the relationship between green concepts (green jobs, green economy, green growth) and sustainable development. It examines to which extent creation of green jobs supports overall economic development as opposed to creation of elitist jobs and greenwashing. In order to do so, general conceptual frameworks for green jobs, green economy, green growth and green policy are presented as well as their implementation in ten countries selected among the Group of Twenty. The selection includes advanced (the European Union, the United States of America, Australia, Canada, Republic of Korea, Japan) and developing countries (Mexico, China, Turkey and Brazil). The analysis presented in this book shows that although green concept is well-intentioned, its implementation depends on local circumstances - economic, political and social. Developed countries perceive green growth as a way to create new markets and demand, while developing countries rely more on labor intensive growth and less expensive green jobs. Thus, greening the economy does not diminish

differences between rich and poor. This book is suitable for those who study and work in Ecological Economics, Sustainable Development and Labor Economics.

Rivals in Arms Alice Pannier.2020-10-22 As the UK leaves the European Union and as the multilateral order is increasingly under stress, bilateral security links are more important than ever. Among such relationships, the UK-France partnership has become particularly critical in the past decades. Alice Pannier's *Rivals in Arms* reveals the history of the growing special partnership between Europe's two leading military powers in the twenty-first century. Using an innovative analytical framework rooted in theories of cooperation and negotiation, this book exposes the challenges the two countries have faced to develop, equip, and employ their military capabilities together. Through a decade-long study, Pannier highlights how France and the UK have endeavoured to make their partnership more effective and resistant to domestic and international shifts, including Brexit. Building on more than one hundred interviews with key stakeholders and unmatched access to primary sources, *Rivals in Arms* takes the reader behind the scenes, investigating the complicated but crucial defence relationship between France and the UK - a relationship that is critical to the future of Euro-Atlantic security.

Geo-Design Steffen Nijhuis,Sisi Zlatanova,Eduardo Dias,Frank van der Hoeven,Stefan van der

Spek.2016-12-01 Geo-Design. Advances in bridging geo-information technology and design bring together a wide variety of contributions from authors with backgrounds in urban planning, landscape architecture, education and geo-information technology presenting the latest insights and applications of geo-design. Geo-Design is here understood as a hybridization of the concepts “Geo” - representing the modeling, analytical and visualization capacities of GIS, and “Design” - representing spatial planning and design, turning existing situations into preferred ones. Through focusing on interdisciplinary design-related concepts and applications of GIS international experts share their recent findings and provide clues for the further development of geo-design. This is important since there is still much to do. Not only in the development of geo-information technology, but especially in bridging the gap with the design-disciplines. The uptake on using GIS is still remarkably slow among landscape architects, urban designers and planners, and when utilized it is often restricted to the basic tasks of mapmaking and data access. Knowledge development and dissemination of applications of geodesign through research, publications, and education, therefore, remain key factors. This publication draws upon the insights shared at the Geodesign Summit Europe held at Delft University of Technology in 2014. All contributions in the book are double-blind reviewed by experts in the field.

The United Kingdom's Defence After Brexit Rob Johnson, Janne Haaland Matlary. 2018-09-25 This new work examines how the European states, the United Kingdom and the United States will approach the defence and Security of Europe in the medium and long-term. It is often assumed that Brexit, the United Kingdom's departure from the political and commercial European Union, would affect defence and security profoundly, but the basis of that assumption is rarely analysed. Bringing together a panel of specialists from Europe, the UK, the EU, and the United States, this volume

evaluates the relative position they play in Europe's defence in the era of Brexit. It examines the arguments, challenges, and problems in European defence, and tests them against the residual commitment, cohesion, and capabilities of the states concerned, including Anglo-French military co-operation, the silent Anglo-German partnership, the US-UK Special Relationship, and the emergent Northern Group.

I am Jesus (not the Christ)...so are you the saved Chimezie Okonkwo.2015-06-02 'I am Jesus (not the Christ)...so are you the saved' is a very complex message to attempt to convey to any audience (particularly by a student of the Holy Scriptures) but Chimezie Okonkwo is an author endowed by God with such exceptional talents and gifts on inspirational/motivational titles and is devoted to taking on the complexities in the Christian doctrine and detailing/exposing them to the locked mind, thereby engaging his readers with the realities of his messages strongly embedded in the word of God and some personal testimonies. In this book he identifies with clear understanding the divine nature of the different meanings attached to the name of Jesus and beautifully narrates them both from a natural (physical as man) and equally from a supernatural (Spiritual as God) perspective. From the natural (physical) realm Okonkwo narrates Jesus as the 'man of God' who walks the earth bearing witness of the glorious gospel and from the supernatural (Spiritual) realm through discernment Okonkwo identifies Jesus as the 'God of man' who will come (again) to judge the living and the dead. Jesus Christ being both man and God fulfils this character thereby satisfying both personalities observed in this masterpiece. Okonkwo exploits his ideas from God in depth through this endeavour and does it exceptionally well indeed.

Language, Cognition and Gender Alan Garnham, Jane Oakhill, Lisa von Stockhausen, Sabine Sczesny. 2016-08-08 Gender inequality remains an issue of high relevance, and controversy, in society. Previous research shows that language contributes to gender inequality in various ways: Gender-related information is transmitted through formal and semantic features of language, such as the grammatical category of gender, through gender-related connotations of role names (e.g., manager, secretary), and through customs of denoting social groups with derogatory vs. neutral names. Both as a formal system and as a means of communication, language passively reflects culture-specific social conditions. In active use it can also be used to express and, potentially, perpetuate those conditions. The questions addressed in the contributions to this Frontiers Special Topic include: • how languages shape the cognitive representations of gender • how features of

languages correspond with gender equality in different societies • how language contributes to social behaviour towards the sexes • how gender equality can be promoted through strategies for gender-fair language use These questions are explored both developmentally (across the life span from childhood to old age) and in adults. The contributions present work conducted across a wide range of languages, including some studies that make cross-linguistic comparisons. Among the contributors are both cognitive and social psychologists and linguists, all with an excellent research standing. The studies employ a wide range of empirical methods: from surveys to electro-physiology. The papers in the Special Topic present a wide range of complimentary studies, which will make a substantial contribution to understanding in this important area.

Jehovah's Witnesses and the Secular World Zoe Knox. 2018-01-29 This book examines the historic tensions between Jehovah's Witnesses and government authorities, civic organisations, established churches and the broader public. Witnesses originated in the 1870s as small, loose-knit groups calling themselves Bible Students. Today, there are some eight million Witnesses worldwide, all actively engaged in evangelism under the direction of the Watch Tower Society. The author analyses issues that have brought them global visibility and even notoriety, including political neutrality, public ministry, blood transfusion, and anti-ecumenism. It also explores anti-Witness discourse, from media portrayals of the community as marginal and exotic to the anti-cult movement. Focusing on varied historical, ideological and national contexts, the book argues that Witnesses have had a

defining influence on conceptions of religious tolerance in the modern world.

Britain's Secret Wars T. J. Coles.2016-05-09 In a devastating analysis, T. J. Coles reveals the true extent of Britain's covert foreign policy that supports war, conflict and oppression around the world. Unbeknownst to the broad population, the Shadow State sponsors a 'new world order' that allies Britain with America's quest for global power - what the Pentagon calls 'Full Spectrum Dominance'. Coles documents how British operatives have interfered in Syria, Libya, Iraq, Iran and Yemen with the aim of deposing unwanted regimes. In doing so, they have helped create extensive terrorist networks across the Middle East, reviving previously-failing Jihadist groups such as ISIL, which has now transformed into an international terror franchise. In addition to waging clandestine wars in the Middle East, the secret services have used the military to run drugs by proxy in Colombia, train death squads in Bangladesh, and support instability in Ukraine, where NATO's strategic encroachment on Russia is drawing the world closer to terminal nuclear confrontation. Coles unearths Britain's involvement in the recent ethnic cleansing of Tamil civilians by the Sri Lankan government, the invasion of Somalia by Somali and Ethiopian warlords, and Indonesia's atrocities in Papua. He also exposes the extensive use of drones for murder and intimidation across the Middle East and elsewhere.

European Integration and Space Policy Thomas Hoerber,Antonella Forganni.2020-12-21 This

volume addresses developments in European space policy and its significance for European integration, using discourse theory as a framework. It seeks to address the developments in European space policy by examining several sensitive security questions linked in general with space activities, on the one hand, and the interplay between space policy and security policy in the European Union (EU) on the other. The book argues that defence and security matters should be studied for a better understanding of space projects in their historical, political, economic, legal and social context. The volume seeks to answer the following key questions: • What can space policy contribute to European identity formation and the integration process? • What are the interests of member states/EU institutions in space? • How is space policy perceived by European institutions, and how have they been engaged in the policy process to promote activity in space? • In which ways is the EU engaged in space, in terms of policy areas, e.g. foreign policy, industrial policy, security and defence policies? • What is the impact of institutions on the policy-making process in European space policy? This book will be of interest to students of EU policy, space policy, discourse studies and International Relations in general.
