definitive, simple and completely awesome explanation of the mythology and meaning within the 27 stars of ancient Indian astrology! If you are an astrologer or a fan of astrology, you will be transformed by Vic's radically clear and straightforward explanations of Sanskrit, Vedic mythology, and mastery of intuitive symbolism. If you are a lover of India and her culture, you will delight in these deep revelations and rare expositions of familiar gods like Vishnu, not-so-familiar gods like Varuna, and nearly forgotten gods like Ajaikapat. If you are a spiritual seeker, you will discover the origin of the universe, the meaning of life, and essential clues in the eternal quest for the fountain of youth. The 160 pages of this book are abundantly replete with exact references and footnotes to satisfy the scholars among you. The book is dripping with dramatic storytelling, filled with philosophy as clear and deep as a Himalayan lake, and precisely presents the perfectly useful astrological symbolism of the divine stars. * * If there is anything Vedic and spiritual about Hindu astrology, then this is the book that can teach us about it. Vic leads us into the wonderful depths of Vedic wisdom by relating the myths connected with each of the 27 lunar mansions and their deities. Using this approach, this book goes considerably deeper than other Jyotish textbooks I have seen. Warmly recommended, even to non-astrologers! Timing of Events Through Dasha & Transit S.K. Sawhney.

This book deals with the determination of method of timing of events through dasha and transit. The horoscope and related divisional charts can simply give an indication about the auspicious and inauspicious probabilities on the basis of the study of house, house lord and significator whereas the timing of an event cannot be calculated without understanding the impact of major period & transit in operation so for getting timing of events in one's life, we use Dasha and transits. Dasha tells which planet is affecting the native at a particular time, whereas transit tells us which natal planet is vibrating because of the transiting planet. A combined result of Dasha and transit gives us the behavior of the native at a particular time. In nutshell the Horoscope and concerned divisional charts only indicate the promise in the horoscope, negative or positive, according to the position of house, house lord, significator, concerned house from the significator. But the time of fructification of event is indicated by the Dasha/Anterdasha of different planets. If a good dasha is in operation, the native will get good results according to the

significations of the concerned dasha nath and its lordship in the horoscope. For determining the timing of events for various events such as education, profession, marriage, children, acquiring of vehicle, land and property, foreign travels, each subject is discussed in detail in different chapters. The principles to identify the timing of events are given with illustrations / examples.

Role of Nakshatra in Astrology Raj Kumar. The stars or Nakshtras have fascinated most of us during our childhood. During hurly-burly of adulthood, they seemed to be put in background, but come back to centre stage again once we settle down in life and concept of Almighty/ destiny dawns on us. Nakshtras are said to be the abodes into which the fruits of our past labour or Karma is transferred and stored. Thus, Nakshtras distribute the outgrowth of Karma according to the theory of cause and effect. We should look more and more into them and try and identify ourselves with our own Nakshtra to understand ourselves and people around us better. The deity, nature, working style, caste, sex, Yoni, Gunas, Tatwa, Tridosh, body parts, lord of Nakshtra and its Pada, Muhurats, longevity, profession, diseases/ health, marriage, children & relationships and remedial measures for afflicted/ ill placed Nakshtra are unique for each individual and his Nakshtra. This book takes us through a sojourn of cosmic path of 27 Nakshtras. The author hopes this journey is interesting, knowledgeable and satisfying.

Fundamentals of Astrology M. Ramakrishna Bhat.2013-01-01

Astrology is both Science and Art. Hence only the talented can appreciate and understand it. Rightly Visnugupta declares that nobody other than a sage can master the ocean-like science of astrology. The great Varahamihira declares, No sin will creep into a place that is sanctified by the presence of a true astrologer. No person who studies and divines the course of destiny will ever be found in hell but will reside permanently in the world of Brahman. This book brings to the fore not only the rationality of astrology but also the nature and structure of the correct knowledge that our forefathers possessed regarding the predictable influences of planets on human beings, and gives a spiritual bias to astrology. The reader is taken step by step in this work from the rudiments Viz., the distribution of constellations in the Zodiacal belt which is divided into twelve Signs, and the planetary hierarchy, through

the method of calculating the ascendant and other houses of a natal chart, assessment of the strengths, influences, aspects, affliction, mutual relations etc., of the planets, to the final stage of reading the brighter and darker sides of the subject's life, his chances of success and failure, their periods, ingress of the soul into the mortal coil and exit there from as well as its departure to other worlds according to its karma. In this book, an attempt has been made to give a good account of the science of astrology, with a view to making the reader a good and true astrologer. It also shows that astrology does not make a man a fatalist, helpless automation in the hands of a merciless Fate. It should, on the other hand, help him to take to self-exertion and self-help. This hoary lore, according to the author, is to be practised not for selfish ends but to guide the needy and the distressed, to remove the cause of their suffering and to turn their attention towards God.

Prediction through Dasha System S.C. Kursija. Prediction through Dasha System is the chief objective of Predictive Astrology. Maharshi Parashar has mentioned 43 types of Dashas in his Brihat Parashar Hora Shastra. Here in this book the Vimshottari Dasha has been mentioned elaborately in particular, which is used extensively. Besides, the Ashtottari and Yogini Dashas have also been narrated briefly. Vimshottari Dasha system is based on constellation. This system is used throughout India and recognized by all. It is based on the lordship of planet. The native can have result according to the house of which the planet is the lord. So, it is essential to know the Karakatva of the house and the merit of the lord of it. The book has been composed keeping in view the problems of the students of All India Federation of Astrologers' Societies on the inspiration of Mr. Arun Kumar Bansal. This book explains the method of prediction on the basis of Dasha in any easy to understand manner. A learned astrologer has to make study of the three different parts of a horoscope - 1.

Yoga, the combination of planets and Lords, 2. Period-sub-period i.e. dasha, 3. Gochar that is, transit. All the three parts are the supplements of each other. Yoga is most important among all the three parts. Period-sub-period i.e. dasha may prove to be futile if there is no Yoga in a horoscope. For example, Period-sub-period that of Lord of fifth house or of Karaka planet cannot bless a native with a child if there is no Santan Yoga in his horoscope. Likewise, Gochar too cannot do anything if there is no Yoga in a horoscope. So, all the three parts are essential to have the result.

Encyclopedia of Vedic Astrology: Remedies Shanker Adawal.

There are large number of books available in the public domain which talks about various remedial methods that could be followed. Also there are groups of people who talk about the benefits of yoga, mantra, yantra and allied topics, each of which has a scientific logic as is the case with the manuscripts left behind by the Rishis. As we all are aware, there are planets which by their interaction, govern our destiny. My belief, developed during the study of this science, is that destiny depends on four major things in equal proportion. These are; our previous karma, the place where we are staying, the people with whom we interact and our own efforts. These are the four parameters and within each comes the important of a large gamut of activities. There is a complex equation that is a matter of study and research which, like any other science, gets deciphered and known. I therefore believe that chart at the time of birth, coupled with the year's horoscope and the time at which the query is being asked, have to be co-related and a vector from them gives the correct analysis of the query. Similarly, as each planet is associated with a colour and the colours are in turn related to vibrations - a complex phenomenon by itself; the various mantras, colour therapy and other remedies have relevance.
