Lollypops to Cigarettes ABHISHEK @B.2020-10-31 This story is about Abhinav's 39s years of
growing up. About his many Firsts such as, first, stand up on the bench, first school concert, first
peek into the girl's toilet, first love, first touch, first kiss, first sex, first vodka, and the first tiff with
Dad. It's also about his many Lasts. Last day in school, last time in the college canteen, last meeting
with his first girlfriend, last drink in Oly pub, last lollypop, and his last meeting with Dad. Abhinav,
better known as Abhi, is an ordinary man. He grew up well before the millennials hit the world. It
looks surprising today, but he grew up without smartphones, What's App, Facebook, Play Stations,
Ola cab, or Pay Pals. The gadgets and apps would have changed from then to now, the world would
have enriched many folds, but the definition of growing up probably remains the same. From an
infant to adulthood - the means are different, the destination never changed. The book is about how
we all grew every day - from lollypops to cigarettes - a journey we all went through. So similar is our
journey with Abhi's and yet so different. If YOU are an ordinary man who grew up in the eighties
decade, you can undoubtedly relate yours and Abhi's journey at some corner or the other. So, sit
back, relax, and take a walk into your memory lane.

Phil, Ph.D (Economics).2022-10-09 A close interrelationship between management and economics had led to the development of managerial economics. Economic analysis is required for various concepts such as demand, profit, cost, and competition. In this way, managerial economics is considered as economics applied to “problems of choice” or alternatives and allocation of scarce resources by the firms. Managerial economics is a discipline that combines economic theory with managerial practice. It helps in covering the gap between the problems of logic and the problems of policy. The subject offers powerful tools and techniques for managerial policy making. It is in this context, a textbook on introduction to the subject of Managerial Economics is presented to the students of Management program. The book contains the syllabus from basics of the subjects going into the intricacies of the subjects. All the concepts have been explained with relevant examples and diagrams to make it interesting for the readers. An attempt is made here by the experts to assist the students by way of providing case based study material as per the curriculum with non-commercial considerations. However, it is implicit that these are exam-oriented Study Material and students are advised to attend regular class room classes in the Institute and utilize reference books available in the library for In-depth knowledge. We owe to many websites and their free contents; we would like to specially acknowledge contents of website www.wikipedia.com and various authors whose writings formed the basis for this book. We acknowledge our thanks to them. At the end we would like to say that there is always a room for

improvement in whatever we do. We would appreciate any suggestions regarding this study material from the readers so that the contents can be made more interesting and meaningful. MANAGERIAL ECONOMICS DEBABRATA DATTA. 2017-04-01 *Managerial Economics*, also known as business economics or Applied Microeconomics, helps in dealing with business decisions and management units effectively. This book discusses the theories and applications of Managerial Economics with the help of its various quantitative techniques like operations research, mathematical programming, game theory for strategic decisions, and other computational methods. Divided into 8 sections and 24 chapters, the book shows how conveniently one can find a solution to the business problems, such as Risk analysis, Production analysis, Pricing, Budgeting, Sales promotion and so on with Managerial Economics tools. Section I analyses the economic behaviour of the consumers; Section II discusses producers' behaviour and issues related to the production; Sections III, IV and V talk about markets and firms and their types. The concluding Sections VI, VII and VIII delve on the application part of Economics in human resource management, finance, marketing and strategy. The chapters are well-supported with the cases, figures and important facts.

The book is equipped with pedagogical aids in the form of Summary, Glossary, Important Terms, Numerical Problems and Multiple Choice Questions. Intended for the postgraduate students of Management, the book will be equally beneficial for the practising Managers.
