Down on Their Luck David A. Snow, Leon Anderson.1993-02-12 David Snow and Leon Anderson show us the wretched face of homelessness in late twentieth-century America in countless cities across the nation. Through hundreds of hours of interviews, participant observation, and random tracking of homeless people through social service agencies in Austin, Texas. Snow and Anderson reveal who the homeless are, how they live, and why they have ended up on the streets. Debunking current stereotypes of the homeless. *Down on Their Luck* sketches a portrait of men and women who are highly adaptive, resourceful, and pragmatic. Their survival is a tale of human resilience and determination, not one of frailty and disability.

European Rules for Juvenile Offenders Subject to Sanctions Or Measures Council of Europe.2009-01-01 This book deals with the rules that are in force in Europe for juvenile offenders. The aim of the rules is to uphold the rights and safety of juvenile offenders subject to sanctions or measures and to promote their physical, mental and social well-being when subject to community sanctions or measures, or any form of deprivation of liberty. It is based on Recommendation Rec(2008)11 of the Committee of Ministers of the Council of Europe on the European Rules for juvenile offenders subject to sanctions or measures, which was adopted on 5 November 2008. The first part of the book contains the text of the recommendation and is followed by a commentary which explains in finer detail the rules and the points raised by the text. The final section provides an analysis of the national replies to a questionnaire related to the treatment of juvenile offenders. This work will be of interest to human rights scholars, researchers and students of law, criminology and international relations.

An Analysis of the Laws of England William Blackstone.1756

Strafzumessung Kai Ambos.2020 In September 2018 the criminal law section of the 72nd Deutscher Juristentag (DJT, "German Assembly of Jurists") debated the question "Sentencing Guidelines vs. Free Judicial Discretion - Is German Sentencing Law in Need of Reform?" Despite the expert opinion provided by Johannes Kaspar and the accompanying scholarly commentaries, ensuing proposals for fundamental reform met with rejection. The comparative perspective was limited to the US Federal sentencing guidelines. The intention of this volume is therefore, on the one hand, to

draw a more nuanced picture of Anglo-American sentencing law focusing on three legal systems (England/Wales, USA and Canada) accompanied by commentaries from a German perspective; on the other hand, we want to make the German perspective (better) known within the Anglo-American legal world by reproducing important DJT documents in English language. To ensure the widest possible distribution we opted for a bilingual open access publication.

The Twenty-Six Words That Created the Internet Jeff Kosseff.2019-04-15 No provider or user of an interactive computer service shall be treated as the publisher or speaker of any information provided by another information content provider. Did you know that these twenty-six words are responsible for much of America's multibillion-dollar online industry? What we can and cannot write, say, and do online is based on just one law—a law that protects online services from lawsuits based on user content. Jeff Kosseff exposes the workings of Section 230 of the Communications Decency Act, which has lived mostly in the shadows since its enshrinement in 1996. Because many segments of American society now exist largely online, Kosseff argues that we need to understand and pay attention to what Section 230 really means and how it affects what we like, share, and comment upon every day. *The Twenty-Six Words That Created the Internet* tells the story of the institutions that flourished as a result of this powerful statute. It introduces us to those who created the law, those who advocated for it, and those involved in some of the most prominent cases decided under the law. Kosseff assesses the law that has facilitated freedom of online speech, trolling, and much more. His keen eye for the law, combined with his background as an award-winning journalist, demystifies a statute that affects all our lives –for good and for ill. While Section 230 may be imperfect and in need of refinement, Kosseff maintains that it is necessary to foster free speech and innovation. Foundational Texts in Modern Criminal Law Markus D Dubber.2014-08-21 *Foundational Texts in Modern Criminal Law* presents essays in which scholars from various countries and legal systems engage critically with formative texts in criminal legal thought since Hobbes. It examines the emergence of a transnational canon of criminal law by documenting its intellectual and disciplinary history and provides a snapshot of contemporary work on criminal law within that historical and comparative context. Criminal law discourse has become, and will continue to become, more international and comparative, and in this sense global: the long-standing parochialism of criminal law scholarship and doctrine is giving way to a broad exploration of the foundations of modern criminal law. The present book advances this promising scholarly and doctrinal project by making available key texts, including several not previously available in English translation, from the common law and civil law traditions, accompanied by contributions from leading representatives of both systems.

The Faces of Justice and State Authority Mirjan R. Damaska.1991-07-24 A leading legal scholar provides a highly original comparative analysis of how justice is administered in legal systems around the world and of the profound and often puzzling changes taking place in civil and criminal procedure. Constructing a conceptual framework of the legal process based on the link between

politics and justice, Mirjan R. Damaska provides a new perspective that enables disparate procedural features to emerge as fascinating recognizable patterns. His book is a significant work of scholarship . . . full of important insights.—Harold J. Berman

Erziehen und Strafen, Bessern und Bewahren Eva Schumann, Friederike Wapler. 2017 Der vorliegende Band vereinigt die Referate eines am 27. Mai 2016 in Göttingen durchgeführten Workshops zur Entwicklung des Jugendfürsorge- und Jugendstrafrechts in Deutschland. Er beobachtet die Entwicklung dieser Rechtsgebiete in vier politischen Systemen vom Kaiserreich über die Weimarer Republik und den Nationalsozialismus bis in die Bundesrepublik. Auf der Grundlage von sechs Beiträgen werden u.a. das Verhältnis von Strafe und Erziehung, die Radikalisierung des Jugendrechts im Nationalsozialismus sowie die personellen Kontinuitäten und die Fortführung einzelner Diskurse und Ideen über das Jahr 1945 hinaus näher beleuchtet. Mehrere Beiträge beschäftigen sich zudem mit dem umstrittenen Göttinger Strafrechtler Friedrich Schaffstein und seinen Konzepten zum Jugendstrafrecht seit der Mitte der 1930er Jahre sowie ihren Einflüssen auf die jugendstrafrechtliche Diskussion in der Bundesrepublik.

Debating Sharia Anna Korteweg, Jennifer Selby. 2012-05-03 When the Islamic Institute of Civil Justice announced it would begin offering Sharia-based services in Ontario, a subsequent provincial government review gave qualified support for religious arbitration. However, the ensuing debate inflamed the passions of a wide range of Muslim and non-Muslim groups, garnered worldwide attention, and led to a ban on religiously based family law arbitration in the province. Debating Sharia sheds light on how Ontario's Sharia debate of 2003-2006 exemplified contemporary concerns regarding religiosity in the public sphere and the place of Islam in Western nation states. Focusing

on the legal ramifications of Sharia law in the context of rapidly changing Western liberal democracies, *Debating Sharia* approaches the issue from a variety of methodological perspectives, including policy and media analysis, fieldwork, feminist examinations of the portrayals of Muslim women, and theoretical examinations of religion, Sharia, and the law. This volume is an important read for those who grapple with ethnic and religio-cultural diversity while remaining committed to religious freedom and women's equality.

Finding the Truth in the Courtroom Henry Otgaar,Mark L. Howe.2018 'Finding the Truth in the Courtroom' combines the science behind deception and memory and their relation in court. Hence, this book shows how such testimonies can be riddled with deception and/or memory errors, how to detect them, and what you can against them.

International Criminal Evidence Richard May,Marieke Wierda.2021-10-25 This book provides practitioners, scholars and students with an in-depth analysis of the law of evidence before international criminal tribunals. It treats subjects such as admissibility; hearsay; identification evidence; forensic and documentary evidence. It also discusses procedural issues arising from fair trial rights, state cooperation, witness protection, and the compulsive powers of the court. The main focus of this work is the practice of the United Nations ad hoc International Criminal Tribunals for

the former Yugoslavia and Rwanda. However, it traces the developments of the law of evidence back to the trials conducted by the Allied powers after the Second World War. The authors also discuss the future of the law in this field, with comments on the projected implementation of the Statute and the Rules of Procedure of the permanent International Criminal Court. They conclude with some general remarks on trends in international criminal evidence that will be helpful to international tribunals, mixed tribunals (such as those proposed for Sierra Leone and Cambodia), and national courts alike. European Fundamental Rights and Freedoms Dirk Ehlers.2007-01-01 The ever increasing relevance of European law which involves replacement or supplementation of and interaction with national law not only affects the states in Europe but also, and foremost, the citizens. The rights of the citizens in

Europe are protected by the European Fundamental Rights and Freedoms. The aim of this textbook is to grasp and illustrate the meaning of these rights and to integrate it into a coherent system. For this purpose the book not only deals with the pertinent law of the European Union and the European Community, but also with the European Convention for the Protection of Human Rights and Fundamental Freedoms which, too, is becoming more and more important.

Wildlife Trafficking Gian Ege, Andreas Schloenhardt, Christian Schwarzenegger. 2020-10-09 Wildlife trafficking threatens the existence of many plant and animal species and accelerates the destruction of wildlife, forests, and other natural resources. It contributes to environmental degradation, destroys unique natural habitats, and deprives many countries and their populations of scarce renewable resources. Nevertheless, preventing and suppressing the illegal trade in wildlife, animal parts, and plants is presently not a priority in many countries and it remains overlooked and poorly researched. The chapters included in this volume address causes, characteristics, and actors of wildlife trafficking, analyse detection methods, and explore different international and national legal frameworks. Green March, Black September (RLE Israel and Palestine) John K. Cooley.2015-05-22 In March 1968 Palestinian guerrillas and Jordanian troops combined forces to respond to Israeli raids into Jordan, provoking visions of new unity and future military success. Yet by September 1970 mounting friction between the Palestinian guerrillas in Jordan and King Hussein's regime came to a head with the hijackings at Dawson's Field and the defeat by Jordan's forces of the Palestinians. The savagery of the fighting and the bitter consequences for the Palestinian guerrillas gave this month the name Black September: a name that was to reappear ominously in months to come. Who are the Palestinians? Many people only became aware of their existence because of terrorism, particularly the Black September operation at the Munich Olympics. Yet the Palestinians are at the very heart of the Middle East problem, and this book, first published in 1973, tells their story. The core of the book describes the emergence of the various guerrilla groups, joined by Palestinians hopeful of regaining lost land and lost dignity, and the ideologies and differences of the groups. There are personal interviews with some of the main leaders, and other chapters examine the relationships and interaction between the Palestinian groups and the Soviet bloc, the Chinese, the Third World, the West, and most important, the Israelis themselves.
