The Fast Track Program for Children at Risk Conduct Problems Prevention Research Group, Karen L. Bierman, John D. Coie, Kenneth A. Dodge, Mark T. Greenberg, John E. Lochman, Robert J. McMahon, Ellen E. Pinderhughes.2019-10-30 The authors conducted a prevention program called Fast Track, consisting of multicomponent, home-school prevention activities carried out with at-risk children from first to 10th grades over a 10-year period, to prevent serious antisocial behavior and youth violence and achieve positive social, emotional, and academic outcomes. They describe the research that informed the design of the program as part of their Conduct Problems Prevention Research Group, how the study was implemented, and outcomes up to 20 years later. They discuss the context for youth violence prevention in the US; the developmental and intervention research that informed the design of the program; the study design and the children and families who participated in it; interventions and impacts in elementary, middle, and high school years; early adult outcomes of the program; implications for developmental theory and research on the prevention of violence; and how communities can address the problem of future violence by focusing on high-risk young children.--Provided by publisher.

The Report: Abu Dhabi 2015 Oxford Business Group.2016-05-09 Hydrocarbons revenues still form the bulk of Abu Dhabi's GDP and while falling prices are a concern, the emirate has been moving steadily towards its economic diversification targets in line with Abu Dhabi Economic Vision 2030. The past 10 years has seen the non-oil sector expand strongly on the back of business-friendly

government policies, as a result of which non-oil sector growth now outpaces that of the oil sector. Outside of hydrocarbons, construction and manufacturing represent the biggest GDP contributors in the emirate, with the construction sector poised to enter a period of renewed expansion and manufacturing identified as a key area for future growth, leveraging the emirate's natural resources, growing downstream capabilities and strategic location. Elsewhere Abu Dhabi's financial sector continues to assert itself and the expected 2015 launch of Abu Dhabi Global Market, the UAE's second financial free zone, is expected to boost activity in the sector. Meanwhile visitor numbers to Abu Dhabi continue to rise, with around 3.5m arrivals in 2014, up 25% on the previous year. This growth is expected to continue as major infrastructure upgrades continue apace. These include the expansion of Abu Dhabi International Airport and the development of the 1200-km wide Etihad rail project.

Wastiary Michael Picard, Albert Brenchat-Aguilar,Timothy Carroll,Jane Gilbert,Nicola Miller.2023-07-03 *Wastiary*, or *Bestiary of Waste*, is a creative exercise that occupies letters, numbers, and symbols of Western academic language to compose a list of 35 short entries on the uncomfortable but pressing topic of waste in the contemporary world. The collection is richly illustrated with artwork, photography, collage and mixed media. The book is a heterodox compendium of 'beasts of waste', playfully re-imagining the medieval treatise on various kinds of animal. It conveys the message that various forms of waste and pollution have achieved a beast-like or untameable quality, at times pungently transferring to considerations of 'the human', or humans treated as waste.
