Laparoscopic Liver, Pancreas, and Biliary Surgery, Textbook and Illustrated Video Atlas Claudius Conrad,Brice Gayet.2017-01-17 Laparoscopic Liver, Pancreas and Biliary Surgery: Textbook and Illustrated Video Atlas is the perfect learning tool for all surgeons managing patients requiring advanced liver, pancreas and biliary surgery minimally invasively. This highly immersive text and video atlas will provide surgeons from trainee to advanced levels of practice, including, general surgeons, hepato-pacreatico-biliary surgeons, transplant surgeons and surgical oncologists, with a step-by-step, multi-media teaching atlas on performing laparoscopic liver surgery, anatomically correct, safely and effectively. The atlas will teach the surgeons to perform anatomic liver resections of each liver segment expertly and logically, and will cover lobectomies, extended resections, advanced laparoscopic pancreas surgery (including Whipple) and other procedures. A special emphasis is placed on reproducibility of excellence in surgical technique. Each video will be supported by outstanding illustrations for each technique and 3D renderings of the relevant anatomy. The educational step-by-step high-definition videos teach everything you need to know, including critical aspects like patient positioning, port placement, dissection and much more. Led by the pioneers in laparoscopic liver, pancreas and biliary surgery, Brice Gayet and Claudius Conrad, the textbook-chapters will be authored by world experts and will contain surgical tips and tricks garnered from their unique experiences, to improve care, management of complications, relevant society guidelines and excellence in oncologic care for patients with hepato-pancreato-biliary cancers.

Reflections on My Life Thomas H. Olbricht.2012-04-25 Thomas H. Olbricht grew up in Churches of Christ, has taught in several of their universities, and has given religious lectures on six continents and in most states in the United States. He has met most leaders in Churches of Christ globally. He has been active in several religious and rhetoric societies and has worked with leaders in all these organizations to bring about changes over the past sixty years. C. Clifton Black and Duane F. Watson wrote about Olbricht, Tom Olbricht possesses a memory of elephantine proportions. Not only does he have at his fingertips the names and places and dates; better than most he understands how the study of rhetoric has flourished among, while cross-pollinating, multiple disciplines in the humanities, classics, English, speech communication, and religion.

Teaching Mindfulness Donald McCown,Diane K. Reibel,Marc S. Micozzi.2011-06-23 The applications and use of mindfulness-based interventions in medicine, mental health care, and education have been expanding as rapidly as the empirical evidence base that is validating and recommending them. This growth has created a powerful demand for professionals who can effectively deliver these interventions, and for the training of new professionals who can enter the fold. Ironically, while the scientific literature on mindfulness has surged, little attention has been paid to the critical who and how of mindfulness pedagogy. Teaching Mindfulness is the first in-depth treatment of the person and skills of the mindfulness teacher. It is intended as a practical guide to the landscape of teaching, to help those with a new or growing interest in mindfulness-based interventions to develop

both the personal authenticity and the practical know-how that can make teaching mindfulness a highly rewarding and effective way of working with others. The detail of theory and praxis it contains can also help seasoned mindfulness practitioners and teachers to articulate and understand more clearly their own pedagogical approaches. Engagingly written and enriched with vignettes from actual classes and individual sessions, this unique volume: Places the current mindfulness-based interventions in their cultural and historical context to help clarify language use, and the integration of Eastern and Western spiritual and secular traditions Offers a highly relational understanding of mindfulness practice that supports moment-by-moment work with groups and individuals Provides guidance and materials for a highly experiential exploration of the reader's personal practice, embodiment, and application of mindfulness Describes in detail the four essential skill sets of the mindfulness teacher Proposes a comprehensive, systematic model of the intentions of teaching mindfulness as they are revealed in the mindfulness-based interventions Includes sample scripts for a wide range of mindfulness practices, and an extensive resource section for continued personal and career development Essential for today's practitioners and teachers of mindfulness-based interventions Teaching Mindfulness: A Practical Guide for Clinicians and Educators brings this increasingly important discipline into clearer focus, opening dialogue for physicians, clinical and health psychologists, clinical social workers, marriage and family therapists, professional counselors, nurses, occupational therapists, physical therapists, pastoral counselors, spiritual directors, life coaches, organizational development professionals, and teachers and professionals in higher education , in short, everyone with an interest in helping others find their way into the benefits of the present moment.

**Healthcare of the Future** T. Bürkle, M. Lehmann, K. Denecke. 2019-04-05 Imagining the healthcare of the future is an interesting exercise, and although nobody can predict precisely what systems might operate in ten year's time, the possibilities which already exist can give us a clue as to how healthcare may be managed by 2030. This book presents papers from the conference Healthcare of the Future, held in Biel/Bienne, Switzerland, on 5 April 2019. The conference reflects some of the results of a two year multi-stakeholder Swiss research program in medical informatics. The research program, which began in 2016, saw 25 stakeholders cooperating for an integrated cross-sectoral treatment pathway with the goal of avoiding communication gaps and information loss among the different participants within the treatment process. The principal goals were to improve and accelerate healthcare processes and empower the patient to play an active and decisive role within their own care process. The project highlighted interaction between caregivers, patients and healthcare institutions based on modern information technology. Topics covered are divided into 4 sections: workflows in healthcare; how does eHealth change the care process; knowledge based IT support; and eHealth and the informed patient, and the book also includes the keynote conference speech on improving the hospital-patient relationship with digital communication. The book will be of interest to all those involved in healthcare whose aim is to improve and accelerate healthcare processes and empower patients to play a more active and decisive role in their own care.

**Capturing Social and Behavioral Domains and Measures in Electronic Health Records** Institute of Medicine, Board on Population Health and Public Health Practice, Committee on the Recommended Social and Behavioral Domains and Measures for Electronic Health Records. 2015-01-08 Determinants of health - like physical activity levels and living conditions - have traditionally been the concern of public health and have not been linked closely to clinical practice. However, if standardized social and behavioral data can be incorporated into patient electronic health records (EHRs), those data can provide crucial information about factors that influence health and the effectiveness of treatment. Such information is useful for diagnosis, treatment choices, policy, health care system design, and innovations to improve health outcomes and reduce health care costs. Capturing Social and Behavioral Domains and Measures in Electronic Health Records: Phase 2 identifies domains and measures that capture the social determinants of health to inform the development of recommendations for the meaningful use of EHRs. This report is the second part of a two-part study. The Phase 1 report identified 17 domains for inclusion in EHRs. This report pinpoints 12 measures related to 11 of the initial domains and considers the implications of incorporating them into all EHRs. This book includes three chapters from the Phase 1 report in addition to the new Phase 2 material. Standardized use of EHRs that include social and behavioral domains could provide better patient care, improve population health, and enable more informative research. The recommendations of Capturing Social and Behavioral Domains and Measures in Electronic Health Records: Phase 2 will provide valuable information on which to base problem identification, clinical diagnoses, patient treatment, outcomes assessment, and population health measurement.

**Oncology Nurse Navigation** Deborah M. Christensen, Cynthia Cantril. 2020 The oncology nurse navigator is one of the few roles in nursing in which an individual nurse is accountable for and invested in providing patient-centered care throughout an entire disease trajectory. **Countercultures and Popular Music** Sheila Whiteley, Jedediah Sklower. 2016-05-13 'Counterculture' emerged as a term in the late 1960s and has been re-deployed in more recent decades in relation to other forms of cultural and socio-political phenomena. This volume provides an essential new academic scrutiny of the concept of 'counterculture' and a critical examination of the period and its heritage. Recent developments in sociological theory complicate and problematise theories developed in the 1960s, with digital technology, for example, providing an impetus for new understandings of counterculture. Music played a significant part in the way that the counterculture authored space in relation to articulations of community by providing a shared sense of collective identity. Not least, the heady mixture of genres provided a socio-cultural-political backdrop for distinctive musical practices and innovations which, in relation to counterculture ideology, provided a rich experiential setting in which different groups defined their relationship both to the local and international dimensions of the movement, so providing a sense of locality, community and collective identity.

**Leading Organizational Development and Change** Riann Singh, Shalini Ramdeo. 2020-07-08 This textbook covers the fundamentals of organizational development and change (ODC) theory while offering a comprehensive, structured, and systematic approach to guide change management strategies at the organization level. **The 48 Laws of Power** Robert Greene.2000-09-01 Amoral, cunning, ruthless, and instructive, this multi-million-copy New York Times bestseller is the definitive manual for anyone interested in gaining, observing, or defending against ultimate control - from the author of *The Laws of Human Nature*. In the book that *People* magazine proclaimed "beguiling" and "fascinating," Robert Greene and Joost Elffers have distilled three thousand years of the history of power into 48 essential laws by drawing from the philosophies of Machiavelli, Sun Tzu, and Carl Von Clausewitz and also from the lives of figures ranging from Henry Kissinger to P.T. Barnum. Some laws teach the need for prudence ("Law 1: Never Outshine the Master"), others teach the value of confidence ("Law 28: Enter Action with Boldness"), and many recommend absolute self-preservation ("Law 15: Crush Your Enemy Totally"). Every law, though, has one thing in common: an interest in total domination. In a bold and arresting two-color package, *The 48 Laws of Power* is ideal whether your aim is conquest, self-defense, or simply to understand the rules of the game.

**Pediatric Neurology** James F Bale Jr,Joshua L Bonkowsky,Francis M Filloux,Gary L Hedlund,Paul D Larsen,Denise C. Morita.2011-12-15 Recognizing patterns of disease can be the first step to successful management of the child with a neurological problem; this is emphasized by the authors throughout the book. Their concise, precise account reflects the remarkable recent advances in pediatric neurology and related disciplines, while stressing the fundamentals of clinical examination and history taking in reaching an accurate diagnosis. The book begins with a detailed discussion of neurological examination techniques and the basic formulation of differential diagnoses and management, using neuroradiology, electrophysiology, cerebrospinal fluids, genetic and metabolic testing. The second section of the book follows a problem-based approach, just as diseases present in the real world. It employs practical, symptom- and sign-based strategies for virtually all conditions encountered by the practitioner. The final section on neurological emergencies recognizes that such conditions present first to someone other than a pediatric neurologist. This new color handbook is illustrated throughout by a wealth of top-quality clinical photos and imaging, and is of interest to pediatric neurologists, general pediatricians, primary care physicians and emergency physicians, in training and practice.

**The Politics of Fossil Fuel Subsidies and Their Reform** Harro van Asselt.2018-08-31 Fossil fuel subsidies strain public budgets, and contribute to climate change and local air pollution. Despite widespread agreement among experts about the benefits of reforming fossil fuel subsidies, repeated international commitments to eliminate them, and valiant efforts by some countries to reform them, they continue to persist. This book helps explain this conundrum, by exploring the politics of fossil fuel subsidies and their reform. Bringing together scholars and practitioners, the book offers new case studies both from countries that have undertaken subsidy reform, and those that have yet to do so. It explores the roles of various intergovernmental and non-governmental institutions in promoting fossil fuel subsidy reform at the international level, as well as conceptual aspects of fossil fuel subsidies. This is essential reading for researchers and practitioners, and students of political science, international relations, law, public policy, and environmental studies. This title is also available as Open Access.

**Strategic Public Relations Leadership** Anne Gregory,Paul Willis.2022-07-22 Public relations professionals are operating in an increasingly challenging and complex environment. Pressures from outside the organisation include new accountabilities, empowered stakeholders, increased public cynicism and a new communication landscape. Internally, there are increasing demands to demonstrate a strategic contribution, alongside a requirement to coach and counsel senior managers exposed to these environmental pressures. This revised and updated edition provides a framework to enable public relations professionals to clearly articulate and demonstrate their own contribution to organisational effectiveness, while also setting out the specific capabilities public relations leaders must exhibit to operate at the highest levels of the organisation. This edition further develops the pioneering approach to integrating thinking around public relations, leadership, and strategy. It has been updated comprehensively to address contemporary developments and introduce new research and fresh perspectives from the authors. New to this edition are insights from Chief Executives on what they expect from public relations leaders and a comprehensive set of capabilities which scope the demanding role of professionals at the top of their game. Concise and practical, this textbook is suitable for MBA and other postgraduate and executive education qualifications in Public Relations and Corporate Communications - especially for those students who wish to pursue a successful career as a professional public relations specialist, able to operate strategically at the top of successful organisations.
