Cosmos Incorporated Maurice G. Dantec.2008-05-20 The first major English translation of one of France's most admired writers, *Cosmos Incorporated* is a triumph of science fiction—a masterwork of cataclysm, mysticism, and suspense. Fifty years of warfare, disease, and strife have decimated the world's population. Those who remain are motes in the mind of UniWorld, a superstate that monitors humanity via a vast computer metastructure that catalog everything about everyone on the planet—race, religion, genetic codes, even fantasies. Those who have the means escape UniWorld's tight control through the Orbital Ring. Though his memory has been wiped clean and his history fabricated in order to pass through UniWorld's check points, Sergei Diego Plotkin knows his name. And he knows his mission: to murder a man in the city of Grand Junction, a Vegas-like outpost that is home to the private launching pad to the Ring. But this sense of purpose is compromised by random memories that flash through Plotkin's brain. England and Argentina. The shores of Lake Baikal. And something else. Something indescribable. Now Plotkin is about to meet his maker. As his identity and mission incrementally resurface in his conscious mind, and in the presence of an eerily beautiful woman, Plotkin will soon discover that he has come here not just to kill but to be born. . . .

“Like Houellebecq, Dantec takes inspiration from both high and low culture; he is the sort of writer who cites Sun Tzu's *Art of War* and the Stooges' *Search and Destroy* with equal facility.” -The New York Times “DNA is to Dantec what the swan was to romantic poetry: an invitation to dream. . . . This rocker-writer teleports us into the cyberpunk beyonds of literature. Fasten your seatbelts!” -Le Nouvel Observateur

The Marvels Brian Selznick.2015-09-15 Don't miss Selznick's other novels in words and pictures, *The Invention of Hugo Cabret* and *Wonderstruck*, which together with *The Marvels*, form an

extraordinary thematic trilogy! A breathtaking new voyage from Caldecott Medalist Brian Selznick. Two stand-alone stories--the first in nearly 400 pages of continuous pictures, the second in prose--create a beguiling narrative puzzle. The journey begins at sea in 1766, with a boy named Billy Marvel. After surviving a shipwreck, he finds work in a London theatre. There, his family flourishes for generations as brilliant actors until 1900, when young Leontes Marvel is banished from the stage. Nearly a century later, runaway Joseph Jervis seeks refuge with an uncle in London. Albert Nightingale's strange, beautiful house, with its mysterious portraits and ghostly presences, captivates Joseph and leads him on a search for clues about the house, his family, and the past. A gripping adventure and an intriguing invitation to decipher how the two stories connect, *The Marvels* is a loving tribute to the power of story from an artist at the vanguard of creative innovation.

The Reconnection Eric Pearl. 2011-04 Why are prominent doctors and medical researchers all over the world interested in the extraordinary healings reported by the patients of Dr. Eric Pearl? What does it mean when these patients report the sudden disappearance of afflictions such as cancers, AIDS-related diseases, and cerebral palsy? And what does it mean when people who interact with Dr. Pearl report a sudden ability to access this healing energy not just for themselves, but for others, too? What is this phenomenon? Well, you might have to reconsider everything you've read up until now about conventional healing. The "new" frequencies of healing described by Dr. Pearl transcend "technique" entirely and bring you to levels beyond those previously accessible to anyone, anywhere. This book takes you on Dr. Pearl's journey from the discovery of his ability to facilitate healings, to his well-deserved reputation as the instrument through which this process is being introduced to the world. But most important, *The Reconnection* reveals methods you can use to personally master these new healing energies.

Journeys Out of the Body Robert A. Monroe. 2014-11-12 The definitive work on the extraordinary phenomenon of out-of-body experiences, by the founder of the internationally known Monroe Institute. Robert Monroe, a Virginia businessman, began to have experiences that drastically altered his life. Unpredictably, and without his willing it, Monroe found himself leaving his physical body to travel via a second body to locales far removed from the physical and spiritual realities of his life. He was inhabiting a place unbound by time or death. Praise for *Journeys Out of the Body* Monroe's account of his travels, *Journeys Out of the Body*, jam-packed with parasitic goblins and dead humans, astral sex, scary trips into mind-boggling other dimensions, and practical tips on how to get out of your body, all told with wry humor, quickly became a cult sensation with its publication in 1971, and has been through many printings. Whatever their 'real' explanation, Monroe's trips made for splendid reading. —Michael Hutchinson, author of *Megabrain* Robert Monroe's experiences are probably the most intriguing of any person's of our time, with the possible exception of Carlos Castaneda's. —Joseph Chilton Pierce, author of *Magical Child* This book is by a person who's clearly a sensible man and who's trying to tell it like it is. No ego trips. Just a solid citizen who's been 'out' a thousand times now and wants to pass his experiences to others. —The Last Whole Earth Catalog

Studies in the History of the Exact Sciences in Honour of David Pingree Jan P. Hogendijk, Kim Plofker, Michio Yano, Charles Burnett. 2004-02-01 This collection of essays reflects the wide range of David Pingree's expertise in the scientific texts (above all, concerning astronomy and astrology) of Ancient Mesopotamia, Greece, India, Persia, and the medieval Arabic, Hebrew and Latin traditions. Both theoretical aspects and the practical applications of the exact sciences—in time keeping, prediction of the future, and the operation of magic—are dealt with. The book includes several critical editions and translations of hitherto unknown or understudied texts, and a particular emphasis is on the diffusion of scientific learning from one culture to another, and through time. Above all, the essays show the variety and sophistication of the exact sciences in non-Western societies in pre-modern times.

Gods of Flesh, Gods of Stone Joanne Punzo Waghorne, Norman Cutler, Vasudha Narayanan. 1996 Drawing from topics of religion in India such as bhakti, puja rituals, and spirit possessions, these

essays offer a close study of the physical representations of god as the central feature of Hinduism. A valuable tool for students of anthropology and the philosophy and history of religion.

The Book of Prophecies Christopher Columbus, Roberto Rusconi. 2004-04-09 Christopher Columbus returned to Europe in the final days of 1500, ending his third voyage to the Indies not in triumph but in chains. Seeking to justify his actions and protect his rights, he began to compile biblical texts and excerpts from patristic writings and medieval theology in a manuscript known as the Book of Prophecies. This unprecedented collection was designed to support his vision of the discovery of the Indies as an important event in the process of human salvation - a first step toward the liberation of Jerusalem and the Holy Land from Muslim domination. This work is part of a twelve-volume series produced by U.C.L.A.'s Center for Medieval and Renaissance Studies which involved the collaboration of some forty scholars over the course of fourteen years. In this volume of the series, Roberto Rusconi has written a complete historical introduction to the Book of Prophecies, describing the manuscript's history and analyzing its principal themes. His edition of the documents, the only modern one, includes a complete critical apparatus and detailed commentary, while the facing-page English translations allow Columbus's work to be appreciated by the general public and scholars alike.

Marrano as Metaphor Elaine Marks. 1996 When Europeans in the Middle Ages spoke of marranos, they were making a derogatory reference to crypto-Jews--those who publicly converted to and performed as Christians, but who remained secretly faithful to Judaic law. Today, asserts Elaine Marks in *Marrano as Metaphor*, the concept can be used to describe all Jews living in a dominant Christian or Muslim culture, whatever may be their conscious relationship to Judaism. A sweeping examination of the Jewish presence in French literature from the sixteenth century to the present, *Marrano as Metaphor* explores the many shapes and forms in which Jews are perceived, spoken, and written about. Employing a wide spectrum of analytical methods from history, literary theory and psychoanalysis, renowned French scholar Elaine Marks opens new doors in the study of literature. *Marrano as Metaphor* investigates questions of difference and assimilation, of respect and derogation, in a wide range of French literature--from Alain Robbe-Grillet's discussion in his memoirs of his parents' antisemitism to the story of Esther through Jean Racine and Marcel Proust; from efforts to address Jewish issues in the writings of Marguerite Duras and Jean-Paul Sartre to the secular, assimilated Jewish tradition of Jacques Derrida and Helene Cixous. Marks looks closely at strains of antisemitism running through French literature, analyzing such antecedents as the nihilism of the 1880s and its meditation on death and absence.

The UFO Annual Morris K. Jessup. 1956 This is the only complete collection of all the important sightings of flying saucers and other unidentified flying objects throughout the world in 1955, written by the most influential UFO researcher of the 1950s, M.K. Jessup. Soon after writing this book, the controversial Jessup was found dead in Florida under mysterious circumstances. This book is an excellent way to understand the climate of fear that prevailed in the mid-1950s concerning the subject of UFOs. Jessup draws on Leonard Stringfield's CRIFO Newsletters and other sources to paint a troubling picture of a battle of the skies. Some of the topics covered include: Clyde Tombaugh's UFO and artificial satellite search, angel hair, moon anomalies, the race to develop a manmade UFO, antigravity research, Lincoln La Paz's investigations into fireballs/guided missiles, Wilbert Smith and Project Magnet, preparations for Operation Deep Freeze and the International Geophysical Year, the Kelly-Hopkinsville incident, the reasons why pilots don't report sightings, an invisible UFO formation, plus an abundance of incidents involving planes, fireballs, UFOs, explosions, dogfights, also explanations of the appearances of atmospheric phenomena and weather balloons (Jessup was a lecturer in Astronomy and Mathematics and a Doctor in Astrophysics). He concludes the book with the first public printing of the entirety of the AFR 200-2 regulation. This is an extremely well-compiled book. Jessup has a great, informal writing style, as if he's chatting with you in person. It is also one of the rarest UFO books in existence, and a must-have for every serious

ufologist.

Private Peaceful Michael Morpurgo.2012-08-24 Private Peaceful relives the life of Private Tommo Peaceful, a young First World War soldier awaiting the firing squad at dawn. During the night he looks back at his short but joyful past growing up in rural Devon: his exciting first days at school; the accident in the forest that killed his father; his adventures with Molly, the love of his life; and the battles and injustices of war that brought him to the front line. Winner of the Blue Peter Book of the Year, Private Peaceful is by the third Children's Laureate, Michael Morpurgo, award-winning author of War Horse. His inspiration came from a visit to Ypres where he was shocked to discover how many young soldiers were court-martialled and shot for cowardice during the First World War. This edition also includes introductory essays by Michael Morpurgo, Associate Director of Private Peaceful production Mark Leipacher, as well as an essay from Simon Reade, adaptor & director of this stage adaptation of Private Peaceful.

Grand Junction Maurice G. Dantec.2009-09-29 Visionary, gripping, sumptuous and tantalizing, Grande Junction is a masterwork of hip, literary science fiction. On October 4, 2057, most electronic devices on Earth are infected and destroyed by unknown viruses, and billions of people dependent on machine interfaces are killed as a result. Twelve years later, the survivors are sunk in a new Dark Age, a grim afterworld in which the only law is the law of the jungle. In the sprawling ruins of Grande Junction, a thriving urban community centered on an abandoned spaceport, civilization is hanging on by its fingernails. In this last fragile outpost of knowledge and reason, hope and faith, a second wave of lethal viruses is unleashed—viruses that attack human beings directly, stripping away language, thought, humanity itself. But it is also here that a young boy, a guitar-playing prodigy named Link de Nova, discovers within himself the power to fight a malevolent entity determined to remake the world in its own bleak image. Now, as the viruses spread and enemies converge on Grande Junction, Link and his friends and protectors, Chrysler Campbell and Yuri McCoy, prepare to fight for the survival of the human race with rifles, radios, and rock 'n' roll.

Blameless in Abaddon James Morrow.2014-07-31 In Towing Jehovah, the discovery of the two-mile-long corpse of God in the mid-Atlantic proved a serious menace to both navigation and to faith. But was God truly dead, as the nihilists and the New York Times believed? In Blameless in Abaddon, His body - comatose yet far from inert - has been hauled from its temporary resting place in the Arctic to Florida, where it has become the Main Attraction at Orlando's Celestial City USA. And now one Martin Candle, a small-time and sore-afflicted judge practicing in Abaddon Township, Pennsylvania, proposes further travels for the Corpus Dei: to the World Court in The Hague, to answer for history's injustices large and small. In his quest to counter the world's great theodicies, Martin embarks on an astonishing odyssey through the mind of the Creator, where Lot's wife proves a most convenient way of adding salt to a margarita glass, early hominids vigorously debate Augustinian doctrine over jasmine tea, and Martin's alter ego, Job, keeps an eternal vigil atop his dung heap. Once the Trial of the Millennium has begun, Martin will understand why Abaddon is another name for Hell. God hunting simply is not a sport for amateurs.

Living Banaras Bradley R. Hertel, Cynthia Ann Humes.1993-01-01 By focusing on contemporary popular religious traditions, the book represents a substantial contribution to the study of modern religious practices in Banaras, holy city of India. This book offers in-depth, ethnographic views of many contemporary popular religious practices that have, for the most part, received little attention by scholars. Topics covered include the Ramlila celebrations, devotion to Hanuman, and goddess

worship, and the way that Banarsi Boli, the local dialect of Banaras, supports its users in their identification with the sacred city.

Ritual, State and History in South Asia van den Hoek.2023-11-27 The contributions in this Festschrift extend over the whole range of Indian civilization: in the first part the earlier stages of Indian history spanning the period from the Indus civilization up to medieval times, and in the second part the more recent history of South Asia.

French Lessons Alice Kaplan.2018-04-19 “[A] cultural odyssey, a brave attempt to articulate the compulsions that drove [Kaplan] to embrace foreignness in order to become truly herself.” —The Washington Post Book World Brilliantly uniting the personal and the critical, *French Lessons* is a powerful autobiographical experiment. It tells the story of an American woman escaping into the French language and of a scholar and teacher coming to grips with her history of learning. In spare, midwestern prose, by turns intimate and wry, Kaplan describes how, as a student in a Swiss boarding school and later in a junior year abroad in Bordeaux, she passionately sought the French “r,” attentively honed her accent, and learned the idioms of her French lover. When, as a graduate student, her passion for French culture turned to the elegance and sophistication of its intellectual life, she found herself drawn to the language and style of the novelist Louis-Ferdinand Celine. At the same time, she was repulsed by his anti-Semitism. At Yale in the late 70s, during the heyday of deconstruction she chose to transgress its apolitical purity and work on a subject “that made history impossible to ignore”: French fascist intellectuals. Kaplan’s discussion of the “de Man affair” —the discovery that her brilliant and charismatic Yale professor had written compromising articles for the pro-Nazi Belgian press—and her personal account of the paradoxes of deconstruction are among the most compelling available on this subject. *French Lessons* belongs in the company of Sartre’s *Words* and the memoirs of Nathalie Sarraute, Annie Ernaux, and Eva Hoffman. No book so engrossingly conveys both the excitement of learning and the moral dilemmas of the intellectual life.

Notebooks Paul Valéry.2000 The Cahiers/Notebooks of Paul Valéry are a unique form of writing. They reveal Valéry as one of the most radical and creative minds of the twentieth century, encompassing a wide range of investigation into all spheres of human activity. His work explores the arts, the sciences, philosophy, history and politics, investigating linguistic, psychological and social issues, all linked to the central questions, relentlessly posed: 'what is the human mind and how does it work?', 'what is the potential of thought and what are its limits?' But we encounter here too, Valéry the writer: exploratory, fragmentary texts undermine the boundaries between analysis and creativity, between theory and practice. Neither journal nor diary, eluding the traditional genres of writing, the Notebooks offer lyrical passages, writing of extreme beauty, prose poems of extraordinary descriptive power alongside theoretical considerations of poetics, ironic aphorisms and the most abstract kind of analysis. The concerns and the insights that occupied Valéry's inner voyages over more than 50 years remain as relevant as ever for the contemporary reader: for the Self that is his principal subject is at once singular and universal.

Germes de Vie de l'Astral (de l'Espace) Ernest Bosc.1913

Cairo, Jerusalem and Damascus David S. Margoliouth.2010-01-01 A delightful artifact of the fascination with the Middle East that gripped the Western intelligentsia in the early 20th century, this charming 1907 work is a showcase for the lovely paintings of renowned English artist WALTER TYRWHITT (1859-1932). The paintings include scenes in the ancient cities of Cairo, Jerusalem, and Damascus. The accompanying text, by English scholar DAVID SAMUEL MARGOLIOUTH-a professor of Arabic at Oxford University-is based on original sources from the region and the works of other celebrated historians, and serves as an enchanting primer to the history of these storied cities. Hard to find in print today, this replica edition makes a wonderful gift for fans of English art and armchair travelers alike. Author David S. Margoliouth (1858-1940), a professor of Arabic at Oxford University, worked from primary Arabic texts and omitted all anecdotes that are obviously or most probably fabulous, resulting in a clear-headed history of a highly contentious moment in time.

Death Representations in Literature Adriana Teodorescu.2015-01-12 If the academic field of death studies is a prosperous one, there still seems to be a level of mistrust concerning the capacity of literature to provide socially relevant information about death and to help improve the anthropological understanding of how culture is shaped by the human condition of mortality. Furthermore, the relationship between literature and death tends to be trivialized, in the sense that death representations are interpreted in an over-aestheticized manner. As such, this approach has a propensity to consider death in literature to be significant only for literary studies, and gives rise to certain persistent clichés, such as the power of literature to annihilate death. This volume overcomes such stereotypes, and reveals the great potential of literary studies to provide fresh and accurate ways of interrogating death as a steady and unavoidable human reality and as an ever-continuing socio-cultural construction. The volume brings together researchers from various countries - the USA, the UK, France, Poland, New Zealand, Canada, India, Germany, Greece, and Romania - with different academic backgrounds in fields as diverse as literature, art history, social studies, criminology, musicology, and cultural studies, and provides answers to questions such as: What are the features of death representations in certain literary genres? Is it possible to speak of an homogeneous vision of death in the case of some literary movements? How do writers perceive, imagine, and describe their death through their personal diaries, or how do they metabolize the death of the "significant others" through their writings? To what extent does the literary representation of death refer to the extra-fictional, socio-historically constructed "Death"? Is it moral to represent death in children's literature? What are the differences and similarities between representing death in literature and death representations in other connected fields? Are metaphors and literary representations of death forms of death denial, or, on the contrary, a more insightful way of capturing the meaning of death?

The Rationale of Verse Edgar Allen Poe.2018-06-16 The Rationale of Verse Paperback - February 1, 2015 by Edgar Allan Poe The Rationale of Verse is an essay by Edgar Allan Poe. Edgar Allan Poe (born Edgar Poe; January 19, 1809 - October 7, 1849) was an American author, poet, editor, and literary critic, considered part of the American Romantic Movement. Best known for his tales of mystery and the macabre, Poe was one of the earliest American practitioners of the short story, and is generally considered the inventor of the detective fiction genre. He is further credited with contributing to the emerging genre of science fiction. He was the first well-known American writer to try to earn a living through writing alone, resulting in a financially difficult life and career. Born in Boston, he was the second child of two actors. His father abandoned the family in 1810, and his mother died the following year. Thus orphaned, the child was taken in by John and Frances Allan, of Richmond, Virginia. Although they never formally adopted him, Poe was with them well into young adulthood. Tension developed later as John Allan and Edgar repeatedly clashed over debts, including those incurred by gambling, and the cost of secondary education for the young man. Poe attended the University of Virginia for one semester but left due to lack of money. Poe quarreled with Allan over the funds for his education and enlisted in the Army in 1827 under an assumed name. It was at this time his publishing career began, albeit humbly, with an anonymous collection of poems, *Tamerlane and Other Poems* (1827) We are delighted to publish this classic book as part of our extensive Classic Library collection. Many of the books in our collection have been out of print for decades, and therefore have not been accessible to the general public. Ils s'appellent Ayrton, Marie-France, Pascal et Christophe. Je me suis alors vite ravisée en réalisant que derrière le silence assourdissant de leur absence, retentissait en réalité l'écho fort et puissant de leur amour et de leur présence, plus que jamais éclatante à nos côtés. En découvrant ou en redécouvrant l'histoire de leur âme, j'ai aussi compris une partie de la mienne, mais aussi de celle de ceux qui les ont aimés de près ou de loin. C'est pour cette raison qu'à travers ce livre, j'ai volontairement accepté de mettre ma robe de numérologue de côté pour vous faire découvrir le monde qu'ils m'ont permis d'explorer au cours de ces parenthèses hors du temps... À travers les sublimes voyages astraux qu'il m'a été permis de faire à leurs côtés, j'ai redécouvert un monde prospère, mais j'ai aussi compris des choses fondamentales pour avancer. Venez, je vous emmène... Format : 15x23

Facing Postmodernity Max Silverman.2012-10-12 Facing Postmodernity explains French cultural theory by grounding it in the politics of the issues facing France today such as: * the breaking of the city * racism * the crisis of culture * new citizenship. It discusses some of the major responses to postmodernity by contemporary French thinkers, both the very well known -Lyotard, Levinas, Derrida - and those who will be less familiar to a non-French audience. In doing so, it addresses the questions central to the postmodern debate whatever country it takes place in; questions of history, of representation, identity and community.
