A Guide to the Global Business Environment

William Kerr, Nicholas Perdikis. 2014-07-01

'I have used the materials contained in this book extensively in a major trade-related capacity, building a technical training program for trade officials and business people in six countries in Southeast Asia to great effect. The book fills an important gap in the existing literature on the subject and links international economic policy to practical hands on international business management. It underlines the importance of understanding the increasingly complex nature of international markets and offers useful options for mitigating their risk.' - Wayne Robinson, Estey Centre for Law and Economics in International Trade, Canada

This MBA textbook provides a guide to the international institutions, both public and private, that exist to regulate and facilitate international business. William Kerr and Nicholas Perdikis explain how international business decision making should take into account the ideas and institutions that make up the international commercial environment, such as why trade theories are important to business; the ways in which governments can restrict trade; the role of international trade rules in reducing risk; the threats that anti-dumping and countervail actions pose; the pros and cons of operating multilaterally; the role of trading houses and the advantages of using private sector institutions to settle international business disputes.

Global Business Nader H. Asgary, Dina Frutos, Bencze, Massood V. Samii, Hossein Varamini. 2021-01-01

The arrival of the COVID-19 pandemic throughout the globe at the end of 2019 turned global business upside down. It forced the closure of many businesses, disrupted global supply chains, reduced travel across borders, and created fear about face-to-face interactions. As the lockdowns in many countries created uncertainty about the future business activities, global business leaders were scrambling to

find new strategies to safely re-establish their business relationships with their stakeholders. The existing historical economic, social, and racial injustice in the American society toward Black, Indigenous, and People of Color was compounded by the COVID-19. This led the movements of the Black Lives Matter to reenergize and become a global phenomenon. The horrific and sad death of George Floyd and many others triggered huge global movements to demand respect for human rights and dignity for all. Additionally, climate change and environmental degradation have caused unprecedented forests fires, more frequent and damaging hurricanes, and migration demand a revived global business book. This third edition of *Global Business: An Economic, Social, and Environmental Perspective* incorporates global business issues related to COVID-19, the economic and social injustice of BIPOC, and environmental degradation where it is appropriate. The reader will understand the impact of these critical global business issues discussed in the book through examples, case studies and thought-provoking discussions. These challenges require businesses, governments, and the active engagement of citizens to succeed. The aim of this book is to bring these issues for discussion and action by these stakeholders. Each chapter includes supplementary PowerPoint slides, Test-Bank, and Teaching notes that are available for instructors only.
