Convulsiones en las puertas de Madrid Roberto Fernández Suárez.2020-02-24 Hace 10 años, en octubre de 2009, se presentó en Colmenar Viejo un libro que, al leerlo, me generó una sensación de tener delante de mí una obra que aportaba cosas muy importantes. El libro era la culminación de varios meses de investigación por parte de dos conocedores de la zona, Fernando Colmenarejo García y Roberto Fernández Suárez. Los primeros proletarios. Los sucesos de la Huelga de Octubre de 1934 en Colmenar Viejo, fue la primera pieza de una gran historia que se estaba fraguando. En aquel momento, en el proceso de elaboración de aquella obra, fue cuando conocí a Roberto. Yo trabajaba en la Fundación Anselmo Lorenzo como archivero y Roberto acudió a consultar fuentes de primera mano a los archivos allí depositados. Por entonces, me encontraba también en plena elaboración de mi tesis doctoral sobre el movimiento obrero en Alcalá de Henares, y al leer las aportaciones de Roberto me daba cuenta de las grandes conexiones que existían entre los dos núcleos de población. Esto venía a confirmar unas de mis tesis, que era la importancia que la historia local (y no el localismo) tiene para la historiografía. Roberto, muy amablemente, me ofreció en aquella ocasión epilogar su obra, cosa que hice con todo el placer del mundo.

Spain at War James Matthews.2019-04-18 Spain's principal and most devastating war during the 20th century was, unusually for most of Europe, an internal conflict. During the Spanish Civil War of 1936 to 1939 two competing armies – the insurgent and counterrevolutionary Nationalist Army and the Republican Popular Army – engaged in a conflict to impose their version of Spanish identity and the right to shape the country's future. In its aftermath, Francoist Spain remained on a war footing for the duration of the Second World War. In spite of the unabated flood of books on the Spanish Civil War and its consequences, historians of Spain in the 20th century have focused relatively little on the interaction of society and culture, and their roles in wartime mobilization. Spain at War addresses this omission through an examination of individual experiences of conflict and the mobilization of society. This edited volume acknowledges the agency of low-ranking individuals and the impact of their choices upon the historical processes that shaped the conflict and its aftermath. In doing so, this new military history provides a more complex and nuanced understanding of Spain's most intense period of wartime cultural mobilization between the years 1936 to 1944 and challenges traditional political accounts of the period.

The New Urban Frontier Neil Smith.2005-10-26 Why have so many central and inner cities in Europe, North America and Australia been so radically revamped in the last three decades, converting urban decay into new chic? Will the process continue in the twenty-first century or has it ended? What does this mean for the people who live there? Can they do anything about it? This book challenges conventional wisdom, which holds gentrification to be the simple outcome of new middle-class tastes and a demand for urban living. It reveals gentrification as part of a much larger shift in the political economy and culture of the late twentieth century. Documenting in gritty detail the conflicts that gentrification brings to the new urban 'frontiers', the author explores the interconnections of urban policy, patterns of investment, eviction, and homelessness. The failure of liberal urban policy and the end of the 1980s financial boom have made the end-of-the-century city a darker and more dangerous place. Public policy and the private market are conspiring against minorities, working people, the poor, and the homeless as never before. In the emerging revanchist city, gentrification has become part of this policy of revenge.

Disremembering the Dictatorship .2021-08-04 Most accounts of the Spanish transition to democracy have been celebratory exercises at the service of a stabilizing rather than a critical project of far-reaching reform. As one of the essays in this volume puts it, the “pact of oblivion,” which characterized the Spanish transition to democracy, curtailed any serious attempt to address the legacies of authoritarianism that the new democracy inherited from the Franco era. As a result, those legacies pervaded public discourse even in newly created organs of opinion. As another contributor argues, the Transition was based on the erasure of memory and the invention of a new political tradition. On the other hand, memory and its etiolation have been an object of reflection for a number of film directors and fiction writers, who have probed the return of the repressed under spectral conditions. Above all, this book strives to present memory as a performative exercise of democratic agents and an open field for encounters with different, possibly divergent, and necessarily fragmented recollections. The pact of the Transition could not entirely disguise the naturalization of a society made of winners and losers, nor could it ensure the consolidation of amnesia by political agents and by the tools that create hegemony by shaping opinion. Spanish society is haunted by the specters of a past it has tried to surmount by denying it. It seems unlikely that it can rid itself of its ghosts without in the process undermining the democracy it sought to legitimate through the erasure of memories and the drowning of witnesses' voices in the cacaphony of triumphant modernization.

Silvopastoral Systems in Southern South America Pablo Luis Peri,Francis Dube,Alexandre Varella.2016-03-02 This multi-authored volume contains peer-reviewed chapters from leading researchers and professionals in silvopastoral systems topic in Southern South America (Argentina, Chile and South Brazil). It is a compendium of original research articles, case studies, and regional overviews and summarizes the current state of knowledge on different components and aspects (pasture production, animal production, trees production, carbon sequestration, conservation) of silvopastoral systems in native forests and tree plantations. The main hypothesis of the book is that farmers have integrated tree and pasture/grassland species in their land use systems to reach higher production per unit of land area, risk avoidance, product diversification, and sustainability. These production systems also impact positively in main ecosystem processes. Management of these productive systems, Policy and Socioeconomic Aspects provide great opportunities and challenges for farmers and policy makers in our region. The book is unique on this subject in Southern South America and constitutes a valuable reference material for graduate students, professors, scientists and extensionists who work with silvopastoral systems.

Technological Slavery (Large Print 16pt) Theodore J. Kaczynski,David Skrbina.2011-02 Theodore Kaczynski saw violent collapse as the only way to bring down the techno-industrial system, and in more than a decade of mail bomb terror he killed three people and injured 23 others. One does not need to support the actions that landed Kaczynski in supermax prison to see the value of his essays disabusing the notion of heroic technology while revealing the manner in which it is destroying the planet. For the first time, readers will have an uncensored personal account of his anti-technology

philosophy, including a corrected version of the notorious "Unabomber Manifesto," Kaczynski, s critique of anarcho-primitivism, and essays regarding "the Coming Revolution."

1917. LA REVOLUCIÓN RUSA CIENTO AÑOS DESPUÉS Juan Andrade, Fernando Hernández Sánchez.2017-11-21 La Revolución rusa fue el acontecimiento más trascendental del siglo xx. El asalto al Palacio de Invierno de Petrogrado en octubre de 1917 fue vivido como la materialización inesperada de una utopía largamente perseguida: la de la ocupación del poder por parte del proletariado y la construcción de una nueva sociedad sin clases. El acontecimiento espoleó conciencias, amplió el horizonte de expectativas de las clases populares e inspiró revoluciones y regímenes políticos por todo el mundo. También desató el pánico y la reacción virulenta de sus posibles damnificados y la hostilidad de quienes, aun simpatizado con su arranque, no compartieron su devenir. A radiografiar este magno acontecimiento y sus consecuencias -políticas, sociales y culturales-, la evolución del mundo surgido de ella y el mito y la memoria de la revolución en la actualidad se consagra 1917. La Revolución rusa cien años después, una visión poliédrica, diversa y coral, de la revolución y el siglo que engendró. Juan Andrade, Josep Fontana, Leopoldo A. The Face Of Battle John Keegan.2011-08-31 The Face of Battle is military history from the battlefield: an imperishable account of the direct experience of individuals at 'the point of maximum danger'. It examines the physical conditions of fighting, the particular emotions and behaviour generated by battle, as well as the motives that impel soldiers to stand and fight rather than run away. In this stunningly vivid reassessment of three battles, John Keegan conveys their reality for the participants, whether facing the arrow cloud of Agincourt, the levelled muskets of Waterloo or the steel rain of the Somme.

Mea Cuba Guillermo Cabrena Infante.1995-10-31 Quirky, unpredictable, often hilarious, Infante's book tells us much about the effect of the Cuban revolution on Cuban literature. - Publishers Weekly With bitter irony, the author tells a story sadly repeated during this century. A dictatorship that silences the intellectuals, a regime that lies and kills, and a propaganda war that has yet to end. One of the best compilations of documents on recent Cuban history.

The Xavante in Transition Carlos E. A. (Jr.) Coimbra, Nancy M. Flowers, Francisco M. Salzano, Ricardo V. Santos.2010-04-23 The Xavante in Transition presents a diachronic view of the long and complex interaction between the Xavante, an indigenous people of the Brazilian Amazon, and the surrounding nation, documenting the effects of this interaction on Xavante health, ecology, and biology. A powerful example of how a small-scale society, buffeted by political and economic forces at the national level and beyond, attempts to cope with changing conditions, this study will be important reading for demographers, economists, environmentalists, and public health workers. . . . an integrated and politically informed anthropology for the new millennium. Narrativa posmoderna española Ana María Spitzmesser.1999 Este libro se concentra en la relación entre el fenómeno cultural conocido como posmodernismo y la novela española de la última década del siglo XX. La investigación gira en torno a los cuatro autores más significantes de este período y concluye la existencia del paradigma común del desengaño ante las limitaciones de la democracia española surgida después de cuatro décadas de brutal dictadura, a la vez que explora la compleja interacción entre ciertas premisas básicas posmodernas y los textos literarios ofrecidos.

General Franco's Last Battle: The long and unpredictable agony of General Franco José Luis Palma.2015-06-22 The youngest member of the medical team that treated General Francisco Franco during his long final agony tells the story of the turbulent days between the 15th of October and the 20th of November 1975. This is a non-fiction novel of great literary and historical value. As the author says in the book, 'with the passage of time I have convinced myself that Franco died because of his own doctors. I think we exhausted him too much, gave him too many orders - for a hard person, for a dictator, it must be unbearable.'

Franco, caudillo militar Salvador Fontenla Ballesta.2019-11-13 La figura de Francisco Franco ha sido sometida a decenas de estudios biográficos desde distintas perspectivas —social, cultural, familiar y, sobre todo, política— pero han sido pocas las ocasiones en las que ha sido analizada desde el punto de vista estratégico-militar. Salvador Fontenla, uno de los máximos expertos en la historia militar española del siglo xx, investiga con rigor y excepcional capacidad de análisis las operaciones en el campo de batalla en las que participó Franco, desde Alhucemas a Ifni, pasando por la Guerra Civil, poniendo el acento en su personalidad castrense, sus dotes de mando y su visión táctica. Una biografía fundamental que desmitifica tópicos y aborda su carrera en los campos de batalla y su larga vida de servicio activo en el ejército.

El artículo 27 de la Constitución Manuel Menor.2018-04-23 Hablar del artículo 27 de la Constitución, después de cuarenta años, tiene sentido porque el problema fundamental es si podemos seguir hablando de pacto educativo. Supuestamente, a su amparo se han producido once leyes orgánicas, y

como consecuencia varias reformas y contrarreformas que han resultado antagónicas y, en ocasiones, anticonstitucionales. La cuestión es por qué es tan difícil consensuar políticas educativas que respeten la universalización de una buena educación con la libertad de enseñanza. Especialistas con mucha dedicación a los problemas pendientes, algunos de ellos siempre eludidos o postergados, aportan un análisis historiográfico que los hilvana desde las raíces del sistema educativo español hace más de 160 años. La voz de representantes de la comunidad educativa pone el contrapunto de los obstáculos con que tropieza la vida escolar cotidiana. El panorama resultante recuerda, por más de un motivo, al que en vísperas de 1789 pintaron los Cuadernos de quejas. El lector verá si ese nombre es el apropiado para lo vivido desde sus años escolares.

La publicación de un texto sobre este patrimonio es la mejor forma de lograr ciudadanos activos, sensibles y comprometidos con su entorno, con la defensa de la herencia de nuestros antepasados y del planeta Tierra, y partícipes de un futuro para la convivencia y el desarrollo armónico de todos los seres humanos. Como muchas investigaciones han corroborado, los modelos generales y abstractos no son útiles para el profesorado, pues para ser eficaces se requieren propuestas didácticas específicas. Es por ello por lo que los aspectos del patrimonio tratados en este libro se trabajan de forma aplicada y, por tanto, se refieren a contextos locales concretos -en este caso a la Comunidad de Madrid, que es el entorno directo de los autores-. Sin embargo, todas las técnicas que se describen, así como los medios y métodos que se proponen son extrapolables a otros entornos ya sean españoles, europeos o latinoamericanos y las propuestas servirán de ejemplificación de cómo trabajar por proyectos con el patrimonio cercano a cada profesor. Las propuestas didácticas expuestas están avaladas por las investigaciones realizadas por el profesorado del Departamento de Didácticas Específicas de la Facultad de Formación de Profesorado y Educación de la Universidad Autónoma de Madrid (UAM). Esta publicación será una útil herramienta de trabajo para el profesorado de las Facultades de Educación, los alumnos de los Grados de Educación Infantil y Educación Primaria y de los Másteres de Educación Secundaria y Obligatoria (MESOB) en sus distintas especialidades, así como para los maestros en ejercicio. Todos ellos encontrarán propuestas didácticas innovadoras en los campos de las Didácticas de las Ciencias Sociales, las Ciencias Experimentales y las Matemáticas.

De las Olimpiadas de Barcelona a la Ley de Memoria Histórica Emilio Ramón García. 2007 Partiendo de la base de que la literatura es hija de la sociedad que la ve nacer, este libro pretende, analizando novelas históricas escritas en España en los últimos años -años en los que la recuperación de la memoria histórica se ha convertido en tema candente- arrojar un poco de luz sobre la situación social actual al tiempo que deja abiertos algunos interrogantes.

Exhuming Franco Sebastiaan Faber. 2024-02-15 Through dozens of interviews, intensive reporting, and deep research and analysis, Sebastiaan Faber sets out to understand what remains of Francisco Franco's legacy in Spain today. Faber's work is grounded in heavy scholarship, but the book is an engaging, accessible introduction to a national conversation about fascism. Spurred by the disinterment of the dictator in 2019, Faber finds that Spain is still deeply affected—and divided—by the dictatorial legacies of Francoism. This new edition, with additional interviews and a new introduction, illuminates the dangers of the rise of right-wing nationalist revisionism by using Spain as a case study for how nations face, or don't face, difficult questions about their past.

Madwoman of Gandoca Anacristina Rossi. 2006 La Loca de Gandoca caused a national outcry in Costa Rica when it was published in 1992. It blew the whistle on a secret plot by government officials and private investors to develop the Gandoca-Manzanilla Wildlife Refuge, which is one of the most biologically diverse sites in the world and supposedly protected by the Costa Rican constitution. The novel is the largely autobiographical account of Anacristina Rossi's attempt to save the refuge from destruction.

El general Franco Carlos Fernández, Carlos Fernández Santander. 2005 Esta es una biografía del general Franco en que se encontrarán muchas cosas nuevas y distintas que Carlos Fernández ha sabido recoger de documentos y testimonios poco o nada conocidos. Una biografía que busca sobre todo ahondar en la verdad humana del Caudillo y de su entorno, y que es en este aspecto única. Estas páginas nos muestran el perfil real del personaje que fue Franco, con su mediocridad y su astucia, desvelan la rapacidad de sus familiares y ponen al descubierto la miseria moral e intelectual de una sociedad entera (la extensa antología de elogios que ha reunido el autor nos obliga a sonrojarnos en un acto de vergüenza colectiva). Si la primera versión de este libro fue considerada como una de las mejores biografías de Franco por críticos tan poco sospechosos de antifranquismo como Stanley G. Payne, ésta, completamente renovada y ampliada, habrá de convertirse en referencia obligada para todos cuantos quieran conocer, no sólo la figura de Francisco Franco, sino la triste realidad de la España de su tiempo.
