L'OPEP : passé, présent et perspectives Abdelkader Sid Ahmed.1979-12-31T23:00:00+01:00 Au défi que constitue, pour la majeure partie des pays membres de l'OPEP, l'épuisement proche de leurs ressources, s'ajoute le défi auquel se trouvent confrontés ces pays désireux de promouvoir une économie diversifiée et autonome en un laps de temps record. Ces pays n'ont-ils pas trop présumé de leurs forces, ainsi que de la volonté sincère de leurs partenaires du monde industrialisé de les aider dans la réalisation de cet objectif. L'expérience de ces dernières années, montre que la poursuite de cet objectif bute, souvent, sur un certain nombre d'obstacles, qui limitent grandement la capacité d'absorption interne. De ce fait, l'injection massive de liquidités dans ces économies, en vient à créer de nouveaux problèmes, qui s'ajoutent aux obstacles structurels découlant du sous-développement. L'inflation et les distorsions économiques et sociales qui en résultent, défavorisent les investissements productifs et, de façon générale, l'effort au profit des investissements et des comportements d'ordre spéculatifs. La croyance implicite est, en effet, que tout peut s'acheter dont le temps. D'où, le plus souvent, un ralentissement du rythme de croissance de l'économie, et le gaspillage de ressources rares, d'autant plus rares qu'elles sont épuisables. Ce gaspillage profite, essentiellement, aux économies industrialisées, qui récupèrent de ce fait une partie de la rente pétrolière. C'est qu'il existe une logique économique particulière aux économies de rente, comme en témoignent les cas historiques de l'Espagne et du Portugal. Le développement des pays producteurs suppose, en définitive, le dépassement de cette logique.

U.S. Marines In Vietnam: The Landing And The Buildup, 1965 Dr. Jack Shulimson,Maj. Charles M. Johnson.2016-08-09 This is the second volume in a series of chronological histories prepared by the Marine Corps History and Museums Division to cover the entire span of Marine Corps involvement in the Vietnam War. This volume details the Marine activities during 1965, the year the war escalated and major American combat units were committed to the conflict. The narrative traces the landing of the nearly 5,000-man 9th Marine Expeditionary Brigade and its transformation into the III Marine Amphibious Force, which by the end of the year contained over 38,000 Marines. During this period, the Marines established three enclaves in South Vietnam's northernmost corps area, I Corps, and their mission expanded from defense of the Da Nang Airbase to a balanced strategy involving base defense, offensive operations, and pacification. This volume continues to treat the activities of Marine advisors to the South Vietnamese armed forces but in less detail than its predecessor volume, U.S. Marines in Vietnam, 1954-1964; The Advisory and Combat Assistance Era.

Glosario Del Banco Mundial World Bank.1996 This edition of the World Bank has been revised and expanded by the Terminology Unit in the Languages Services Division of the World Bank in collaboration with the English, Spanish, and French Translation Sections. The Glossary is intended to assist the Bank's translators and interpreters, other Bank staff using French and Spanish in their work, and free-lance translator's and interpreters employed by the Bank. For this reason, the Glossary contains not only financial and economic terminology and terms relating to the Bank's procedures and practices, but also terms that frequently occur in Bank documents, and others for which the Bank has a preferred equivalent. Although many of these terms, relating to such fields as agriculture, education, energy, housing, law, technology, and transportation, could be found in other sources, they have been assembled here for ease of reference. A list of acronyms occurring frequently in Bank texts (the terms to which they refer being found in the Glossary) and a list of international, regional, and national organizations will be found at the end of the Glossary.

Fair Food Oran B. Hesterman.2012-06-05 Our food system is broken, and it's endangering what's most precious to us: our environment, our health, our soil and water, and our future. In recent years, a host of books and films have compellingly documented the dangers. But advice on what to do about them largely begins and ends with the admonition to "eat local" or "eat organic." Longtime good food pioneer Oran Hesterman knows that we can't fix the broken system simply by changing what's on our own plates: the answer lies beyond the kitchen. In Fair Food he shares an inspiring and practical vision for changing not only what we eat, but how food is grown, packaged, delivered, marketed, and sold. He introduces people and organizations across the country who are already doing this work in a number of creative ways, and provides a wealth of practical information for readers who want to get more involved.

David Vizard's How to Port and Flow Test Cylinder Heads David Vizard.2012 Porting heads is an art and science. It takes a craftsman's touch to shape the surfaces of the head for the optimal flow characteristics and the best performance. Porting demands the right tools, skills, and application of knowledge. Few other engine builders have the same level of knowledge and skill porting engine heads as David Vizard. All the aspects of porting stock as well as aftermarket heads in aluminum and cast-iron constructions are covered. Vizard goes into great depth and detail on porting aftermarket heads. Starting with the basic techniques up to more advanced techniques, you are shown how to port iron and aluminum heads as well as benefits of hand and CNC porting. You are also shown how to build a high-quality flow bench at home so you can test your work and obtain professional results. Vizard shows how to optimize flow paths through the heads, past the valves, and into the combustion chamber. The book covers blending the bowls, a basic porting procedure, and also covers pocket porting, porting the intake runners, and many advanced procedures. These advanced procedures include unshrouding valves, porting a shortside turn from the floor of the port down toward the valve seat, and developing the ideal port area and angle. All of these changes combine to produce optimal flow velocity through the engine for maximum power.

Sold on Radio Jim Cox.2008-09-18 How was it that America would fund its nascent national radio services? Government control and a subscription-like model were both considered! Soon an advertising system emerged, leading radio into its golden age from the 1920s to the early 1960s. This work, divided into two parts, studies the commercialization of network radio during its golden age. The first part covers the general history of radio advertising. The second examines major radio advertisers of the period, with profiles of 24 companies who maintained a strong presence on the airwaves. Appendices provide information on 100 additional advertisers, unusual advertisement formats, and a glossary. The book has notes and a bibliography and is fully indexed.

Development, Social Change and Environmental Sustainability Sumarmi,Nanda Harda Pratama Meiji,Joan Hesti Gita Purwasih,Abdul Kodir,Edo Han Siu Andriesse,Dorina Camelia Ilies,Ken Miichi.2021-06-17

Nowadays, the concept of SDGs (Sustainable Development Goals) is starting to replace the concept of MDGs (Millennium Developmental Goals). It is a global goal adopted by all United Nations member states. It emphasizes the idea that the development of every country can only be achieved by balancing other factors such as social, economic, and environmental sustainability. It is already clear how sustainable development works with environmental ethics and management. However, there are still issues regarding the sustainable development and human well-being. Sustainable development should focus on finding a way for society to meet their present needs for the long term without sacrificing the ability of future generations to meet their needs. This international seminar provides research results and literature regarding the topic of sustainable development concept, the dynamics of sustainable development and social change, and environmental sustainability. The international seminar, entitled 1st International Conference on Contemporary Sociology and Educational Transformation, listed speakers from several countries providing an overview on human and environmental resilience. This book contains a selection of papers presented at the conference.

Weaver's Wisdom . Satguru Sivaya Subramuniyaswami, a living legend, yoga master and author of *Merging with Siva*, recognized the immense value of the Tirukural in 1949 as a young seeker in Sri Lanka. Decades later, he instructed two of his swamis to translate it from classical Tamil into American English, and had an renowned artist in South India illustrate the 108 chapters. Here is the fruit of those efforts, the gentle, profound world of Asian ethics and simple humanness. Yet, *Weaver's Wisdom's* universality makes it a book you can share with anyone. It contains fortune cookies you can snack on before sleep or at anytime. Its charming wit and common sense will uplift and inspire you and your whole family.

Multi-point Cooperative Communication Systems: Theory and Applications Ming Ding,Hanwen Luo.2013-03-15 *Multi-point Cooperative Communication Systems: Theory and Applications* mainly discusses multi-point cooperative communication technologies which are used to overcome the long-standing problem of limited transmission rate caused by the inter-point interference. Instead of combating the interference, recent progress in both academia and industrial standardizations has evolved to adopt the philosophy of “exploiting” the interference to improve the transmission rate by cooperating among multiple points. This book addresses the multi-point cooperative communication system systematically giving the readers a clear picture of the technology map and where the discussed schemes may fit. This book includes not only the theories of the paradigm-shifting multi-point cooperative communication, but also the designs of sub-optimal cooperative communication schemes for practical systems. Ming Ding is a senior researcher at Sharp Laboratories of China; Hanwen Luo is a professor at Shanghai Jiao Tong University.

Agrobacterium: From Biology to Biotechnology Tzvi Tzfira,Vitaly Citovsky.2007-12-25 *Agrobacterium* is a plant pathogen which causes the “crown-gall” disease, a neoplastic growth that results from the transfer of a well-defined DNA segment (“transferred DNA”, or “T-DNA”) from the bacterial Ti (tumor-inducing) plasmid to the host cell, its integration into the host genome, and the expression of oncogenes contained on the T-DNA. The molecular machinery, needed for T-DNA generation and transport into the host cell and encoded by a series of chromosomal (chv) and Ti-plasmid virulence (vir) genes, has been the subject of numerous studies over the past several decades. Today, *Agrobacterium* is the tool of choice for plant genetic engineering with an ever expanding host range that includes many commercially important crops, flowers, and tree species. Furthermore, its recent application for the genetic transformation of non-plant species, from yeast to cultivated mushrooms and even to human cells, promises this bacterium a unique place in the future of biotechnological applications. The book is a comprehensive volume describing *Agrobacterium's* biology, interactions with host species, and uses for genetic engineering.

Exploratory Data Analysis with MATLAB Wendy L. Martinez,Angel R. Martinez,Jeffrey Solka.2017-08-07 Praise for the Second Edition: The authors present an intuitive and easy-to-read book. ... accompanied by many examples, proposed exercises, good references, and comprehensive appendices that initiate the reader unfamiliar with MATLAB. —Adolfo Alvarez Pinto, International Statistical Review Practitioners of EDA who use MATLAB will want a copy of this book. ... The authors have done a great service by bringing together so many EDA routines, but their main accomplishment in this dynamic text is providing the understanding and tools to do EDA. —David A Huckaby, MAA Reviews Exploratory Data Analysis (EDA) is an important part of the data analysis process. The methods presented in this text are ones that should be in the toolkit of every data scientist. As computational sophistication has increased and data sets have grown in size and complexity, EDA has become an even more important process for visualizing and summarizing data before making assumptions to generate hypotheses and models. Exploratory Data Analysis with MATLAB, Third Edition presents EDA methods from a computational perspective and uses numerous examples and applications to show how the methods are used in practice. The authors use MATLAB code, pseudo-code, and algorithm descriptions to illustrate the concepts. The MATLAB code for examples, data sets, and the EDA Toolbox are available

First CHAMP Mission Results for Gravity, Magnetic and Atmospheric Studies Christoph Reigber,Hermann Lühr,Peter Schwintzer.2012-09-07 In 1995, the German Space Agency DARA selected the CHALLENGING Minisatellite Payload (CHAMP) mission for development under a special support programme for the space industry in the new states of the unified Germany, with the Principal Investigator and his home institution GFZ Potsdam being ultimately responsible for the success of all mission phases. After three years of spacecraft manufacturing and testing, the satellite was injected successfully into its final, near circular, almost polar and low altitude (450 km) orbit from the cosmodrome Plesetsk in Russia on July 15, 2000. After a nine month commissioning period during which all spacecraft systems and instruments were checked, calibrated and validated, the satellite has been delivering an almost uninterrupted flow of science data since May 2001. Since this date, all science data have been made available to the more than 150 selected co-investigator teams around the globe through an international Announcement of Opportunity. The scientific goals of the CHAMP mission are to gain a better understanding of dynamic processes taking place in the Earth's interior and in the space near Earth. These goals can be achieved by improved observation of the Earth's gravity and magnetic fields and their time variability with high-performance on-board instrumentation and by exploring the structure of the Earth's atmosphere and ionosphere through radio occultation measurements.

Brazil International Monetary Fund.2012-07-31 The paper discusses the stability of Brazil's financial system, which is diversified and shows sustained economic progress. Fiscal and monetary policies have been aimed to improve bank reserves, and foreign exchange intervention has been streamlined to curb volatility in the exchange market. These measures have been effective in achieving the immediate targets, maintaining macroeconomic stability, and ensuring adequate financial sector buffers. However, there are indications of emerging strains in some sectors and asset classes.

Model-Based Engineering of Collaborative Embedded Systems Wolfgang Böhm,Manfred Broy,Cornel Klein,Klaus Pohl,Bernhard Rumpe,Sebastian Schröck.2020-12-14 This Open Access book presents the results of the Collaborative Embedded Systems (CrEST) project, aimed at adapting and complementing the methodology underlying modeling techniques developed to cope with the challenges of the dynamic structures of collaborative embedded systems (CESs) based on the SPES development methodology. In order to manage the high complexity of the individual systems and the dynamically formed interaction structures at runtime, advanced and powerful development methods are required that extend the current state of the art in the development of embedded systems and cyber-physical systems. The methodological contributions of the project support the effective and efficient development of CESs in dynamic and uncertain contexts, with special emphasis on the reliability and variability of individual systems and the creation of networks of such systems at runtime. The project was funded by the German Federal Ministry of Education and Research (BMBF), and the case studies are therefore selected from areas that are highly relevant for Germany's economy (automotive, industrial production, power generation, and robotics). It also supports the digitalization of complex and transformable industrial plants in the context of the German government's Industry 4.0 initiative, and the project results provide a solid foundation for implementing the German government's high-tech strategy Innovations for Germany in the coming years.

Modern Diesel Technology Robert N. Brady.1996 Through a carefully-maintained building block approach, this text offers an easy-to-understand guide to automotive, truck, and heavy equipment diesel engine technology in a single, comprehensive volume. Text focus is on state-of-the-art technology, as well as on the fundamental principles underlying today's technological advances in service and repair procedures. Industry accepted practices are identified; and, readers are encouraged to formulate a sound understanding of both the why and the how of modern diesel engines and equipment. Thorough, up-to-date treatment of diesel technology encompasses major advancements in the field , especially recent developments in the use of electronics in heavy-duty trucks, off-highway equipment, and marine applications. The text's primary focus is on state-of- the-art electronic fuel injection systems such as those being used by such manufacturers as Caterpillar, Cummins, Detroit Diesel, Volvo, and Mack. A systematic, structured organization helps readers learn step-by-step, beginning with engine systems, and working logically through intake/exhaust, cooling, lubrication, and fuel injection systems, highlighting major changes in today's modern engines.
