Zeitschrift für katholische Theologie .2001

Degrees of Belief Franz Huber, Christoph Schmidt-Petri.2008-12-21 This anthology is the first book to give a balanced overview of the competing theories of degrees of belief. It also explicitly relates these debates to more traditional concerns of the philosophy of language and mind and epistemic logic.

Der Geist, die Hoffnung und die Kirche Felix Senn.2009-09-15 Kaum ein Thema des Glaubens ist in den letzten Jahrhunderten in der abendländischen Theologie so stiefmütterlich behandelt worden wie das des Heiligen Geistes. Mit dramatischen Folgen: Nicht nur verengte sich die Sicht der Kirche immer mehr auf die Hierarchie, der allein die Verwaltung des Geistes oblag. Auch die biblische Verortung der Kirche in der Reich-Gottes-Botschaft und -Praxis des Jesus von Nazaret ging mit der

Geistvergessenheit weitgehend verloren - und damit das Dynamische und das Gesellschaftskritische der biblischen Weltansicht insgesamt. Entfernung vom Leben und Hoffen der Menschen, Verlust der prophetischen Kraft des Christentums und weitgehende Entmündigung der Laien waren die Folgen. Deshalb ist es Felix Senns dringliches Anliegen, dem sogenannten dritten Artikel des Glaubensbekenntnisses, nämlich den Traktaten Pneumatologie, Eschatologie und Ekklesiologie, den ihnen gebührenden Platz in der Dogmatik zurückzugeben. Dabei wird in aller Kürze versucht, die Zusammenhänge von Geist Gottes, eschatologischer Hoffnung und kirchlichem Leben neu zu durchdenken.

The Shadow of the Telescope Gunther Buttman.2022-10-27 This first full-length biography of Sir John Herschel tells of a remarkable man who contributed to nearly every branch of astronomy and to half a dozen other sciences as well. The only son of the astronomer Sir William Herschel (founder of stellar astronomy and discoverer of the planet Uranus), he comes vividly to life in descriptions of his personality and his varied achievements. Making admirable use of John Herschel's unpublished correspondence, diaries, and notebooks, the author covers his extensive astronomical observations at Cape Town in South Africa, his pioneering work in photography and in physical optics in Britain, and his unhappy experiences as Master of the Mint - and much more. John Herschel was so attractive and enterprising an individual that his biography will appeal to general readers as well as to professionals - historians of science, astronomers, and scientists in related fields.

A Companion to Philosophy of Religion Charles Taliaferro, Paul Draper, Philip L. Quinn.2010-01-19 In 85 new and updated essays, this comprehensive volume provides an authoritative guide to the philosophy of religion. Includes contributions from established philosophers and rising stars 22 new entries have now been added, and all material from the previous

edition has been updated and reorganized Broad coverage spans the areas of world religions, theism, atheism, , the problem of evil, science and religion, and ethics

Theology and the Philosophy of Science Wolfhart Pannenberg. 1976

Abraham Karl-Josef Kuschel. 1995 In a world of too much hostility, latent or manifest, between Christian and Muslims, Muslims and Jews, and Christians and Jews, and an increase in fundamentalism and extremism, this book presents a new vision for peace between the religions.

The Self and Self-Knowledge Annalisa Coliva. 2012-04-19 A team of leading experts investigate a range of philosophical issues to do with the self and self-knowledge. Self and Self-Knowledge focuses on two main problems: how to account for I-thoughts and the consequences that doing so would have for our notion of the self; and how to explain subjects' ability to know the kind of psychological states they enjoy, which characteristically issues in psychological self-ascriptions. The first section of the volume consists of essays that, by appealing to different considerations which range from the normative to the phenomenological, offer an assessment of the animalist conception of the self. The second section presents an examination as well as a defence of the new epistemic paradigm, largely associated with recent work by Christopher Peacocke, according to which knowledge of our own mental states and actions should be based on an awareness of them and of our attempts to bring them about. The last section explores a range of different perspectives—from neo-expressivism to constitutivism—in order to assess the view that self-knowledge is more robust than any other form of knowledge. While the contributors differ in their specific philosophical positions, they all share the view that careful philosophical analysis is needed before scientific research can be fruitfully brought to bear on the issues at hand. These thought-provoking essays provide such an analysis and greatly deepen our understanding of these central aspects of our mentality.

Anonymous Skeptics Lance Ashdown.2002 At its deepest, philosophical skepticism questions the sense of language. Skepticism manifests itself in different forms, three of the most powerful being logical, external-world, and religious skepticism. How has philosophy of religion addressed these challenges? The attempt to answer this question leads Lance Ashdown to a consideration of three prominent contemporary philosophers of religion: Richard Swinburne, John Hick, and William Alston. The author shows that these philosophers are indeed open to the criticisms of the three types of skepticism mentioned above. According to Ashdown, they are rightly to be considered as 'anonymous skeptics'. Readers familiar with the work of the theologian Karl Rahner will recognize an echo of his famous doctrine that non-Christian religious believers are really 'anonymous Christians', i.e., Christian believers who do not recognize themselves as such. In a similar way, the philosophers of religion under consideration are skeptics who most certainly would not identify themselves as such. They are anonymous skeptics in the sense that their epistemologies create the very conditions that allow for the severe and, on their own terms, unanswerable challenges of skepticism. At the same time, none of these philosophers thinks that skeptical objections pose a devastating or unanswerable threat to their epistemologies. For example, each of them is an avowed believer in God and is fully aware of the challenge of religious skepticism, yet none believes that skepticism need cause a rational Christian to abandon his or her beliefs. Nevertheless, each of the three philosophers adheres to a philosophical theory that remains open to the devastating critique of Philo in David Hume's essay Dialogue Concerning Natural Religion - who argues at his deepest that talk of God is meaningless.

The Biblical Canons Jean-Marie Auwers,H. J. de Jonge.2003 This volume contains the Proceedings of the 50th Colloquium Biblicum Lovaniense: the 40 contributions, written in English, French and

German, focus on the canons of the Old and New Testament as well as those of the Bible as a whole. The theme is studied from a variety of historical, hermeneutical and biblical-theological points of view. Several contributions discuss the process that resulted in the canonical status of certain writings, or groups of writings, in particular, such as the Book of Psalms, Ezekiel, the Wisdom of Ben Sira, the Pauline corpus, Acts and the gospels.

Marriage and Divorce in Comparative Conflict of Laws Lennart Pålsson.1974

New Heritage Yehuda Kalay,Thomas Kvan,Janice Affleck.2007-11-14 The use of new media in the service of cultural heritage is a fast growing field, known variously as virtual or digital heritage. New Heritage, under this denomination, broadens the definition of the field to address the complexity of cultural heritage such as the related social, political and economic issues. This book is a collection of 20 key essays, of authors from 11 countries, representing a wide range of professions including architecture, philosophy, history, cultural heritage management, new media, museology and computer science, which examine the application of new media to cultural heritage from a different points of view. Issues surrounding heritage interpretation to the public and the attempts to capture the essence of both tangible (buildings, monuments) and intangible (customs, rituals) cultural heritage are investigated in a series of innovative case studies.

Subject guide to German books in print .1986

Christ as Mediator Jon M. Robertson.2007-08-23 This is a new analysis of the theological concept of divine mediation, which was central to the Arian controversy of the early 4th century. Robertson illustrates the variety of perspectives within the debate, as well as showing the theological backdrop of Athanasius' insight on Christ as mediator.

Verantwortet glauben Felix Senn.2018-08-01 Lässt sich der christliche Glaube rational

verantworten? Und wenn ja, mit welchen Argumenten? Kann man glauben lernen? Diesen Fragen geht die Fundamentaltheologie systematisch auf den Grund. Sie fragt nach der Verlässlichkeit der Quellen theologischer Erkenntnis und nach den Fundamenten des Glaubens: nach Religion, Offenbarung und Kirche. Felix Senns gut lesbare Einführung in die Fundamentaltheologie lässt sich vor allem von den Impulsen der Befreiungstheologie inspirieren und will damit die Leserinnen und Leser persönlich und existenziell herausfordern. Das unterscheidet sie von den andern Publikationen zur Fundamentaltheologie im deutschsprachigen Raum. Ein Lehrbuch für alle, die sich auf einen kritischen Suchprozess einlassen und ihren Glauben auf ein tragfähiges Fundament stellen wollen.

Sprachliche Zweifelsfälle Eleonore Schmitt, Renata Szczepaniak, Annika Vieregge .2019-11-19 Sprachliche Zweifelsfälle begegnen uns auf allen Sprachebenen und laden zur Sprachreflexion ein. Aus diesem Grund bieten sie die Möglichkeit des Austausches zwischen Sprachwissenschaft, Sprachdidaktik und Laienlinguistik. Dieser Sammelband widmet sich daher gleichermaßen der linguistischen und sprachdidaktischen Perspektive auf Zweifelsfälle sowie dem Umgang mit Zweifelsfällen in der breiten Öffentlichkeit. Dabei setzt er vier Schwerpunkte: Erstens liegt der Fokus auf einer adäquaten Definition des Gegenstands, zweitens erproben viele Beiträge unterschiedliche Methoden, die zur Identifikation der Zweifelsfälle genauso beitragen wie zur Aufdeckung der sprachreflektorischen und soziolinguistischen Mechanismen, die Zweifel (re-)produzieren. Die Analyse ausgewählter Zweifelsfälle beschränkt sich drittens nicht auf das Deutsche, sondern bringt exemplarisch Zweifelsfälle im Englischen und Katalanischen in die Diskussion ein. Das vierte Anliegen des Bandes ist es, Ansätze zur Implementierung des linguistischen Wissens in den laienlinguistischen Diskurs sowie in die schulische Praxis vorzuschlagen.

The Nazi Persecution of the Churches, 1933-1945 John S. Conway.1997 Conway presents a landmark text on the history of German churches during the Nazi era.

Social Control of Business John Maurice Clark.1926

Moore and Wittgenstein A. Coliva.2010-09-17 Does scepticism threaten our common sense picture of the world? Does it really undermine our deep-rooted certainties? Answers to these questions are offered through a comparative study of the epistemological work of two key figures in the history of analytic philosophy, G. E. Moore and Ludwig Wittgenstein.

Treatise on Critical Reason Hans Albert.2014-07-14 Albert approaches critical rationalism as an alternative to other philosophical standpoints dominant in Germany: the conceptions of the Frankfurt School, hermeneutical thinking as represented by Gadamer, analytic philosophy, and logical empiricism. The author's purpose is to find a way out of the foundationalism of classical philosophy without falling back on the skeptical views so prevalent in today's philosophical thinking. Originally published in 1985. The Princeton Legacy Library uses the latest print-on-demand technology to again make available previously out-of-print books from the distinguished backlist of Princeton University Press. These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions. The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905.

From Quest to Q James McConkey Robinson.2000 On June 30th 1999, James M. Robinson formally retired from his position as Arthur Letts Jr. Professor of Religion at Claremont Graduate University. At this juncture in his life Peeters Publishers is proud to be the publisher of a festschrift, From Quest to Q, dedicated to Robinson, and his monumental contributions to the field of Q studies or the

Sayings Gospel Q. The Festschrift is divided into four sections following an introduction written by Asgeirsson. The first section of the Festschrift entitled From Source to Document opens with a tribute to the jubilee whose very work within the International Q Project has, indeed transformed the hypothetical source into a document using a papyrological model. It is followed by two essays: one on the genre of the document Q and the other on the impact of Old Testament citations or allusions in Q or more specifically the Temptation Story in Q. The second section on Founder and Fashion visits in three essays the questions of the character of Jesus. Whom may he be likened to, what factors in the social environment of the followers of Jesus colored his manners and view of life? In a third section Topos and Topics, four essays deal with diverse theological motifs in Q. From the breaking up of traditional family relationships to the question of the poor, this section also includes the motif of Son of man and the geographical topos, Nazara. The last section, Q in Redaction deals with several aspects of the redaction of Q in the Gospels of Matthew and Luke. Finally, in this section, two essays deal with parallel motifs in Q, the Gospel of Thomas, the Synoptic Gospels, as well as the Gospel of John. The contributors, from Europe and the United States, have all worked within the field of Q Studies and together comprise some of the most prominent names among junior and senior scholars in the field.

Dogma And Preaching Joseph Ratzinger. 2012-03-06 This volume is an unabridged edition of Dogma and Preaching, a work that appeared in a much-reduced form in English, in 1985. The new book contains twice as much material as first English edition. Dogma, for many people, is a bad word. For the well-informed believer, it shouldn't be. Dogmas are truths revealed by God, which should enlighten the minds, guide the choices, and gladden the hearts of Jesus' disciples, including pastors, deacons, and lay teachers. But, as Joseph Ratzinger (Pope Benedict XVI), notes in the

foreword to this book, The path from dogma to proclamation or preaching has become very troublesome. Finding ways to relate the content of the Church's dogmas to everyday life can be challenging for today's preachers and teachers. Some people find the task so daunting that they leave dogma out. As a result, they wind up presenting something other than the Church's faith and speak in their own name, offering perhaps unwittingly merely their own, subjective ideas, rather than the Word of God. In *Dogma and Preaching*, the theologian and priest Joseph Ratzinger provides (1) a theory of preaching for today; (2) application of this theory to some themes for preaching drawn from the Church's dogmas; (3) meditations and sermons based on the liturgical year and the communion of saints; and (4) some thoughts regarding the decade after the Second Vatican and Christianity's seeming irrelevance. Ratzinger insists that sound preaching should rest on three pillars-Dogma, Scripture, and the Church Today, the contemporary situation in which the Church finds herself. He shows that the proper understanding of the Church, her dogmas, the nature of faith, and the contemporary world allow the proclaimer-believer to remain faithful to the Church's mission and life-changing message.

The Crisis of the 14th Century Martin Bauch, Gerrit Jasper Schenk. 2019-12-16 Pre-modern critical interactions of nature and society can best be studied during the so-called Crisis of the 14th Century. While historiography has long ignored the environmental framing of historical processes and scientists have over-emphasized nature's impact on the course of human history, this volume tries to describe the at times complex modes of the late-medieval relationship of man and nature. The idea of 'teleconnection', borrowed from the geosciences, describes the influence of atmospheric circulation patterns often over long distances. It seems that there were 'teleconnections' in society, too. So this volume aims to examine man-environment interactions mainly in the 14th century from

all over Europe and beyond. It integrates contributions from different disciplines on impact, perception and reaction of environmental change and natural extreme events on late Medieval societies. For humanists from all historical disciplines it offers an approach how to integrate written and even scientific evidence on environmental change in established and new fields of historical research. For scientists it demonstrates the contributions scholars from the humanities can provide for discussion on past environmental changes.

Summa Theologica Part II ("Secunda Secundae") (Annotated Edition) St. Thomas Aquinas.2012 This is the extended and annotated edition including * an extensive biographical annotation about the author and his life The Summa Theologiæ (Latin: Compendium of Theology or Theological Compendium; also subsequently called the Summa Theologica or simply the Summa, written 1265–1274) is the best-known work of Thomas Aquinas (c.1225–1274), and although unfinished, one of the classics of the history of philosophy and one of the most influential works of Western literature. It is intended as a manual for beginners in theology and a compendium of all of the main theological teachings of the Church. It presents the reasoning for almost all points of Christian theology in the West. The Summa's topics follow a cycle: the existence of God; Creation, Man; Man's purpose; Christ; the Sacraments; and back to God. (courtesy of wikipedia.com). This is part 2-2, 'Secunda Secundae'. In a chain of acts of will, man strives for the highest end. They are free acts, insofar as man has in himself the knowledge of their end (and therein the principle of action). In that the will wills the end, it wills also the appropriate means, chooses freely and completes the consensus. Whether the act be good or evil depends on the end. The human reason pronounces judgment concerning the character of the end; it is, therefore, the law for action. Human acts,

however, are meritorious insofar as they promote the purpose of God and his honor. By repeating a good action, man acquires a moral habit or a quality which enables him to do the good gladly and easily. This is true, however, only of the intellectual and moral virtues (which Aquinas treats after the manner of Aristotle); the theological virtues are imparted by God to man as a disposition, from which the acts here proceed; while they strengthen, they do not form it. The disposition of evil is the opposite alternative. An act becomes evil through deviation from the reason, and from divine moral law. Therefore, sin involves two factors: its substance (or matter) is lust; in form, however, it is deviation from the divine law. Contents: • Treatise on the theological virtues (qq. 1 to 46) • Treatise on the cardinal virtues (qq. 47 to 170) • Treatise on prudence (qq. 47 to 56) • Treatise on justice (qq. 57 to 122) • Treatise on fortitude and temperance (qq. 123 to 170) • Treatise on gratuitous graces (qq. 171 to 182) • Treatise on the states of life (qq. 183 to 189)

German books in print .2000

Global Ethic Hans Kng, Karl-Josef Kuschel. 1993-12-01 Presents the text of the 'Declaration' and a commentary on its evolution and significance.... The message of this book is very timely. -The Leading Edge>

In the Space of Reasons Wilfrid Sellars. 2007 Sellars (1912-1989) was, in the opinion of many, the most important American philosopher of the second half of the twentieth century. This collection, coedited by Sellars's chief interpreter and intellectual heir, should do much to elucidate and clearly establish the significance of this difficult thinker's vision for contemporary philosophy.

Wittgenstein O. K. Bouwsma, Ludwig Wittgenstein. 1986-01-01 Remarkable how well Bouwsma understood Wittgenstein's approach to philosophical problems and how intelligently he was able to recount Wittgenstein's discussions. The bits about sensation are especially good. And the asides

about the other philosophers--e.g. Dewey, Russell, Anscombe--are, while not frivolous, gossipy and titillating. --Riley Wallihan, Western Oregon University

Das Patristische Prinzip Andreas Merkt.2015-12-22 The patristic principle demands that theological quarrels be settled by resorting to the church fathers. This volume presents the first comprehensive reflexion on the historical evolution of the present crisis of this ancient theological principle. Focusing on the theory of the consensus quinquesaecularis, the author surveys the development of patristic authority from the 16th to the 20th centuries and relates it to other problems of the Church in modern times such as the crisis of tradition, the conflict between ecclesiastical authority and academic theology, and ecumenism. The concluding chapter tackles the question whether a renewal of the patristic principle is possible and feasible today.

Eschatology Pope Benedict XVI, Joseph Ratzinger.2007-10 Originally published in English in 1988, Joseph Ratzinger's Eschatology remains internationally recognized as a leading text on the last things—heaven and hell, purgatory and judgment, death and the immortality of the soul. This highly anticipated second edition includes a new preface by Joseph Ratzinger/Pope Benedict XVI and a supplement to the bibliography by theologian Peter A. Casarella. Eschatology presents a balanced perspective of the doctrine at the center of Christian belief—the Church's faith in eternal life. Recognizing the task of contemporary eschatology as to marry perspectives, so that person and community, present and future, are seen in their unity, Joseph Ratzinger brings together recent emphasis on the theology of hope for the future with the more traditional elements of the doctrine. His book has proven to be as timeless as it is timely.

Defending Substitution Simon Gathercole.2015-05-19 In recent decades, the church and academy have witnessed intense debates concerning the concept of penal substitution to describe Christ's

atonement sacrifice. Some claim it promotes violence, glorifies suffering and death, and amounts to divine child abuse. Others argue it plays a pivotal role in classical Christian doctrine. Here world-renowned New Testament scholar Simon Gathercole offers an exegetical and historical defense of the traditional substitutionary view of the atonement. He provides critical analyses of various interpretations of the atonement and places New Testament teaching in its Old Testament and Greco-Roman contexts, demonstrating that the interpretation of atonement in the Pauline corpus must include substitution.

The Nature of Executive Work Emilio Matthaei.2010-05-10 Emilio Matthaei presents igniting insights from studying senior executives of global organizations. In so doing, he gives a powerful view to what executives really do, how long they work, where they work, what media they use, and with whom they interact.

Handbuch der Fundamentaltheologie: Traktat theologische Erkenntnislehre mit Schlussteil Reflexion auf Fundamentaltheologie .2000

Reviewing **Handbuch Der Fundamentaltheologie 4 Bde Bd 2 Trak**: Unlocking the Spellbinding Force of Linguistics

In a fast-paced world fueled by information and interconnectivity, the spellbinding force of linguistics has acquired newfound prominence. Its capacity to evoke emotions, stimulate contemplation, and stimulate metamorphosis is really astonishing. Within the pages of "**Handbuch Der Fundamentaltheologie 4 Bde Bd 2 Trak**," an enthralling opus penned by a very acclaimed

wordsmith, readers embark on an immersive expedition to unravel the intricate significance of language and its indelible imprint on our lives. Providing publishers with the highest quality, most reliable and cost effective editorial and composition services for 50 years. We're the first choice for publishers' online services. Services are book available in the USA and worldwide and we are one of the most experienced book distribution companies in Canada, We offer a fast, flexible and effective book distribution service stretching across the USA & Continental Europe to Scandinavia, the Baltics and Eastern Europe. Our services also extend to South Africa, the Middle East, India and S. E. AsiaIf

your books aren't from those sources, you can still copy them to your Kindle. To move the ebooks onto your e-reader, connect it to your computer and copy the files over. In most cases, once your computer identifies the device, it will appear as another storage drive. If the ebook is in the PDF format and you want to read it on your computer, you'll need to have a free PDF reader installed on your computer before you can open and read the book. For other formatting issues, we've covered everything you need to convert ebooks. Much of its collection was seeded by Project Gutenberg back in the mid-2000s, but has since taken on an identity of its own with the addition of thousands of self-published works that have been made available at no charge. Kindle Buffet from Weberbooks.com is updated each day with the best of the best free Kindle books available from Amazon. Each day's list of new free Kindle books includes a top recommendation with an author profile and then is followed by more free books

that include the genre, title, author, and synopsis. You can search and download free books in categories like scientific, engineering, programming, fiction and many other books. No registration is required to download free e-books. There are plenty of genres available and you can search the website by keyword to find a particular book. Each book has a full description and a direct link to Amazon for the download. For all the Amazon Kindle users, the Amazon features a library with a free section that offers top free books for download. Log into your Amazon account in your Kindle device, select your favorite pick by author, name or genre and download the book which is pretty quick. From science fiction, romance, classics to thrillers there is a lot more to explore on Amazon. The best part is that while you can browse through new books according to your choice, you can also read user reviews before you download a book.
