The Colonial Contest for the Nigerian Region, 1884-1900 Olayemi Akinwumi.2002 This book examines German participation in the colonial contest for Nigeria during the scramble for and partition of Africa at the end of the nineteenth Century. It focuses on the activities of some German individuals and organisations that were actively engaged in the struggle to acquire the Nigerian region as a colony for Germany. There are two reasons for this failure: one, lack of consistent colonial policy during Bismarck's era and two, the Opposition of the Royal Niger Company. The only success recorded in Nigeria was in Adamawa and Borno. Germany got some parts of these emirates as a result of the determination of the Royal Niger Company, supported by the British government, to deny the French any access to the navigable part of the two major rivers. Germany retained control of this region until the outbreak of the First World War.

The African Affairs Reader Nic Cheeseman,Lindsay Whitfield,Carl Death.2017-05-19 African Affairs is the top journal in African Studies and has been for some time. This book draws together some of the most influential, important, and thought provoking articles published in its pages over the last decade. In doing so, it collates essential cutting-edge research on Africa and makes it easily available for students, teachers, and researchers alike. The African Affairs Reader is broken down into four sections that cover some of the biggest themes and questions facing the continent today, including: the African State, the Political Economy of Development, Africa's Relationship with the World, and Elections, Representation & Democracy. Within each section, articles deal with some of the most significant recent trends and events, such as the prospects for democratization in Ghana and Nigeria, the factors underpinning Rwanda's economic success, the rise of political corruption in South Africa, the spread of the drugs trade, the struggle against gender based violence, and the growing influence of China. Each section is introduced by a new purpose-written essay by the journal's editors that explains the evolution of the wider debate, highlights key contributions, and suggests new ways in which the discussion can be taken forward. Taken together, the essays and articles included in the volume provide both a coherent introduction to the study of Africa and a compelling commentary on the current state of play on the continent.

Routledge Handbook of Organizational Change in Africa Franca Ovadje,Samuel Aryee.2018-08-06 Although change management and therefore effective adaptation to environmental complexity is considered a uniquely human cultural activity, the extensive change management literature is largely based on the experiences of organizations in the advanced economies of the West. As the economies of African countries become increasingly open, African organizations will need to be agile in order to adapt and grow in a dynamic, global environment. Currently, there is a dearth of contextualized knowledge on change management within Africa, but this handbook aims to address this by bringing together a wide range of experts to explore organizational change and change management from an African context. The handbook adopts a multidisciplinary (historical, philosophical, processual, and strategic) perspective as well as empirical accounts of change management. It addresses such issues as: What are the external and internal pressures for change? What is the content and process of change management? What are the essentials of effective change management? How can change management be theorized from an African perspective? What sort of leadership can best align with change

management demands in an African context? How do organizations build internal change management capability? It is hoped that answers to these questions contained in the handbook will provide a contextualized understanding of change management which African organizations and scholars can leverage to respond to the threats and opportunities inherent in their increasingly dynamic environment. The handbook should constitute an essential reference for academics, researchers, and advanced students of change management, development studies, and African studies, as well as practitioners.

Corruption, harassment and injustice. Unlawful conduct of the Nigerian police towards civilians Odey Robert.2017-03-03 Polemic Paper from the year 2017 in the subject Sociology - Law, Delinquency, Abnormal Behavior, grade: A.1, , language: English, abstract: It is quite regrettable that police personnel had for long dropped their core duties for the unusual. Corruption is synonymous with them. Civilians beget undue intimidation, harassment, extortion, injustice and jungle justice, molestation, wanton killing and all sorts of plagues from the police. The police have become irresponsible, extremely corrupt and a nuisance. They treat the poor differently from the rich. What is quite most shocking is the fact that all bids to sanitise the Nigerian Police Force have been futile. This makes one wonder whether the personnel have become above the law, or whether there are no practical measures to address the scourging issues from the police to civilians as well as the society as a whole. These and more have been attested by several studies, scholars and our respondents. Worried by the above issues, which constitute plagues to civilians and the society at a large, this paper rises to examine the plagues, and rouse the attention of the government, police authorities and all to halt these rising issues. It calls on the government and police authorities in particular to permanently check these issues through efficacious and operational legislations against any unethical and unprofessional acts of police personnel, sparing no defaulters. It also recommends that the Police Acts should be reviewed. The conflict theory of crime and the neo-Marxist political economy approach ground the study. The study concludes that police plagues are on the increase because the excesses of police personnel are yet to be checked appropriately and duly. The non-participant observation and intuition are the primary sources employed, while textual materials like journals, textbooks, monographs, serials, newspapers, magazines and the internet constitute the secondary sources.

Alternative Development Strategies in SubSaharan Africa Frances Stewart,Sanjaya Lall,Samuel M. Wangwe.1992-06-18 The World Bank and the IMF dominate policy-making in Africa today. This book considers the consistency between their adjustment policies and long-run development needs, with an analysis of country experience. An alternative development strategy is proposed.

Digest of Commercial Laws of the World N. Stephan Kinsella,Paul E. Comeaux.1998 Digest of Commercial Laws of the World is a practitioner-oriented compilation of expert commentary written by lawyers who practice in each of the 39 jurisdictions covered. Each country's chapter is consistently structured around 22 points of comparison - from foreign trade to real estate to competition and antitrust laws. In addition, valuable sample forms and original articles are included, as are the full text versions of important international treaties, agreements,and rules of international organizations that govern cross-border commercial transactions.956 pages of forms representing 25 countries are contained in these volumes and over 300 more pages of forms have been added in 2005. Contact information for each chapter author is provided so that they may be reached directly for further information.Updated approximately eight times per year.

The Report: Nigeria 2013 Oxford Business Group.2013-12-04 As the single most populous nation in Africa, Nigeria recently overtook South Africa as the largest economy on the continent. Natural resources, oil and gas in particular, comprise the country's single largest revenue-earner but the 170m person economy also has seen significant activity in recent years into the industrial, financial, telecoms and - as of 2013 - power sectors. Hydrocarbons reserves have traditionally attracted the vast majority of domestic and foreign investment in Nigeria. Oil production capacity has remained at roughly 2.5m barrels per day (bpd) since the start of 2000, although output fell to 2.2m bpd on average in 2012. Still, the country has long operated below its true potential and government efforts in recent years have sought to increase local value addition, by boosting refining capacity and minimising theft and bunkering. The country's banking sector has been through a significant shake-up as well, resulting in a far healthier and more robust financial industry, while reforms in the telecoms and agricultural sectors have strengthened medium-term prospects.

Concepts, Cases, and Regulations in Financial Fraud and Corruption Rafay, Abdul.2023-03-07 During the last few decades, financially and technologically corrupt practices, such as financial and technological crimes, frauds, forgeries, scandals, and money laundering, have been monitored in many countries around the globe. There is a general lack of awareness regarding these issues among various stakeholders including researchers and practitioners. Concepts, Cases, and Regulations in Financial Fraud and Corruption considers all aspects of financial and technological crimes, frauds, and corruption in individual, organizational, and societal experiences. The book also discusses the emergence and practices of financial crimes, frauds, and corruption during the last century and especially in the current technological advancement. Covering key topics such as financing, ethical leadership, tax evasion, and insider trading, this premier reference source is ideal for computer scientists, business owners, managers, researchers, scholars, academicians, practitioners, instructors, and students.
