of space and light. Concise, practical, and inspirational, Landscape Painting focuses on the greatest challenges for the landscape artist, such as:

- Color and Light: Explore color theory as it specifically applies to the landscape, and learn the various strategies painters use to capture the illusion of natural light.
- Selection and Composition: Learn to select wisely from nature's vast panorama. Albala shows you the essential cues to look for and how to find the most promising subject from a world of possibilities. The lessons in Landscape Painting—based on observation rather than imitation and applicable to both plein air and studio practice—are accompanied by painting examples, demonstrations, photographs, and diagrams. Illustrations draw from the work of more than 40 contemporary artists and such masters of landscape painting as John Constable, Sanford Gifford, and Claude Monet.
