American Cars, 1973-1980 J. "Kelly" Flory, Jr..2012-11-02 The 1973 oil crisis forced the American automotive industry into a period of dramatic change, marked by stiff foreign competition, tougher product regulations and suddenly altered consumer demand. With gas prices soaring and the economy in a veritable tailspin, muscle cars and the massive "need-for-speed" engines of the late '60s were out, and fuel efficient compacts were in. By 1980, American manufacturers were churning out some of the most feature laden, yet smallest and most fuel efficient cars they had ever built. This exhaustive reference work details every model from each of the major American manufacturers from model years 1973 through 1980, including various "captive imports" (e.g. Dodge's Colt, built by Mitsubishi.) Within each model year, it reports on each manufacturer's significant news and details every model offered: its specifications, powertrain offerings, prices, standard features, major options, and production figures, among other facts. The work is heavily illustrated with approximately 1,300 photographs.

You'll need to select a camper trailer, caravan, or motorhome based on the sort of travel you plan, your budget and your preferences. You'll need to figure out how to outfit your purchase and understand the intricacies of travelling with everything you need to carry. And what is it you need to carry anyway? What else do you need to know? And who can you ask? In How to Choose and Buy an RV, Collyn Rivers breaks down the pros and cons of the various sorts of recreational vehicle. He identifies the key questions you need to ask yourself to work out what you really want and need. He gives clear advice about how to inspect and negotiate for new or used RVs. He discusses extras you'll want before hitting the road and details the rules and regulations you'll need to know before venturing around Australia. You'll need good advice before buying an RV.
