Hong Kong Stephen Vines.1998 On July 1st 1997, China realized its long-standing ambition of resuming sovereignty over Hong Kong. Now the Communist Chinese leadership are dealing with their most public challenge: the enormous task of taking on a society which they both covet and fear, in the aftermath of the financial turmoil which overtook Asia in the fall of 1997. Hong Kong: China's New Colony tells the inside story of how the former British colony came under Chinese rule and how supposedly Communist China is coming to terms with presiding over what has been one of the world's most vibrant capitalist societies. It shows where real power lies in the new Hong Kong and

describes in detail the wheeling and dealing which accompanied the establishment of the new order. Invaluable reading for anyone interested in the Far East, but especially for those who want to do business with the world's potentially biggest market, Hong Kong: China's New Colony answers all of these questions and more in a gripping and compulsively readable account of the future of this most unlikely of marriages. Stephen Vines is one of the best-known correspondents in Hong Kong, where he has lived for more than a decade. He is the Hong Kong correspondent for the Independent, founded a groundbreaking local paper, and broadcasts regularly for the BBC and other radio stations. He is the only Western journalist in Hong Kong to have successfully started a number of businesses with the Chinese, and certainly the only one to have had the Triads threaten him in his own shop.

The Rejection of Consequentialism Samuel Scheffler. 1994-08-11 In contemporary philosophy, substantive moral theories are typically classified as either consequentialist or deontological. Standard consequentialist theories insist, roughly, that agents must always act so as to produce the best available outcomes overall. Standard deontological theories, by contrast, maintain that there are some circumstances where one is permitted but not required to produce the best overall results, and still other circumstances in which one is positively forbidden to do so. Classical utilitarianism is the most familiar consequentialist view, but it is widely regarded as an inadequate account of morality. Although Professor Scheffler agrees with this assessment, he also believes that consequentialism seems initially plausible, and that there is a persistent air of paradox surrounding typical deontological views. In this book, therefore, he undertakes to reconsider the rejection of

consequentialism. He argues that it is possible to provide a rationale for the view that agents need not always produce the best possible overall outcomes, and this motivates one departure from consequentialism; but he shows that it is surprisingly difficult to provide a satisfactory rationale for the view that there are times when agents must not produce the best possible overall outcomes. He goes on to argue for a hitherto neglected type of moral conception, according to which agents are always permitted, but not always required, to produce the best outcomes.

Failed States and Institutional Decay Natasha M. Ezrow, Erica Frantz.2013-07-18 What do we mean by failed states and why is this concept important to study? The “failed states” literature is important because it aims to understand how state institutions (or lack thereof) impact conflict, crime, coups, terrorism and economic performance. In spite of this objective, the “failed state” literature has not focused enough on how institutions operate in the developing world. This book unpacks the state, by examining the administrative, security, judicial and political institutions separately. By doing so, the book offers a more comprehensive and clear picture of how the state functions or does not function in the developing world, merging the failed state and institutionalist literatures. Rather than merely describing states in crisis, this book explains how and why different types of institutions deteriorate. Moreover, the book illustrates the impact that institutional decay has on political instability and poverty using examples not only from Africa but from all around the world.

Pay No Heed to the Rockets Marcello Di Cintio.2018-05 Across Palestine, from the Allenby Bridge and Ramallah, to Jerusalem and Gaza, Marcello Di Cintio has met with writers, poets, librarians, booksellers and readers, finding extraordinary stories in every corner. Stories of how revolutionary writing was smuggled from the Naqab Prison; stories from the Gallery Café, whose opening three thousand creative intellectuals gathered to celebrate; and the lost generations of stories contained within the looted books that sit in Israel's National Library. *Pay No Heed to the Rockets* offers a window into the cultural heritage of Palestine, revealing a humanity often unreported. Paying homage to the memory of literary giants like Mahmoud Darwish and Ghassan Kanafani and the contemporary authors whom they continue to inspire, this evocative journey shares both the anguish and inspiration of Palestine today--Back cover.

Wonderful Feels Like This Sara Lövestam. 2017-04-06 A feel-good story of an unconventional friendship between an old retired jazz musician and a young girl who is trying to find her place in the world. What can a bullied teenager learn from an old man spending his days in a retirement home? For a start, she'll learn that it ain't got a thing, if it ain't got that swing... Passing by a retirement home on her way from yet another awful day at school, she hears a familiar song playing through an open window. An old man is playing her musical idol Povel Ramel - a quirky jazz musician from the 1940s - and it sparks a new stage of her life. The man's name is Alvar and just like Steffi, he has a huge interest in music. Before long he starts telling her his story. In his youth, as the Second World War tore across Europe, he travelled to Stockholm. Young, innocent and quite naive, Alvar began his life in the big city, struggling to become a famous jazz musician. Or at least someone who was in a band. Or at the very least someone who could dance the jitterbug and talk to girls. Intrigued and inspired by Alvar's story, Steffi spends more and more time at the retirement home, learning about jazz and forgetting about school. She begins to realize that she doesn't have to be the Steffi other people know; instead, as Alvar did, she can recreate herself through music.

Remembering the Future Wendy M. Grossman,Wendy Grossman.1997 The computer industry is young and still changing fast. The 'information revolution' has already made a major impact on our lives, perhaps comparable with that of the industrial revolution, but the fast and furious pace of developments has left little time for reflection or for looking back on what has happened. Why did the industry develop the way it did? What were the hopes, dreams and aspirations of the people involved? Who got it right and - equally interesting - who got it spectacularly wrong? Remembering the Future provides a fascinating insight into the growth of the computer industry during the past few years, through a series of in-depth interviews with the very people responsible for building it.

The Book of Promethea Häl_ne Cixous.1991-01-01 In writing *Le Livre de Promethea* Häl_ne Cixous set for herself the task of bridging the immeasurable distance between love and language. She describes a love between two women in its totality, experienced as both a physical presence and a sense of infinity. The result is a stunning example of *Pécriture* feminine that won kudos when published in France in 1983. Its translation into English by Betsy Wing will extend the influence of a writer already famous for her novels and contributions to feminist theory. In her introduction Betsy Wing notes the contemporary emphasis on fictions of presence. Cixous, in *The Book of Promethea*, works to repair the separation between fiction and presence, trying to chronicle a very-present love without destroying it in the writing.

So Happy It Hurts Anneliese Mackintosh.2018-07-26 Ottila McGregor is thirty years old and has decided it's time to sort her life out. She's going to quit drinking, stop cheating and finally find true happiness. Easy, right? Of course not. For a start, there's Grace, her best friend, who believes self-improvement is for people in their forties. Next there's Mina, her sister, who is mentally ill, and it might be Ottila's fault. And then there's Thales, the Greek guy who works in the hospital cafeteria. He's probably the best, most dangerous person Ottila's ever met. To make sense of it all, Ottila keeps a scrapbook of everything: emails, receipts, tickets, letters, her therapy transcripts, a boyfriend's note rescued from the bin... The result is an infectious one-off of a novel that makes you wince and laugh in equal measure, and which asks the question: what does it take to be so happy it hurts?
