China's Minorities on the Move Robyn Iredale,Naran Bilik,Guo Fei.2015-02-24 The movement of Han Chinese into minority regions has been a long-standing pattern in China. However, China's minorities have taken longer to start moving in significant numbers and have now become part of a social change phenomenon, motivated by economic, social, and political factors. This book looks at how current changes in China are affecting the minority population. The case studies focus on how population shifts and the movement of China's minorities impact such issues as education, ethnic identity, the environment, local economy, labor, and regional development. Han-minority interactions within a number of regions are also examined.

**Terra 2008** Leslie Rainer,Angelyn Bass Rivera,David Gandreau.2011-06-14 Earthen architecture constitutes one of the most diverse forms of cultural heritage and one of the most challenging to preserve. It dates from all periods and is found on all continents but is particularly prevalent in Africa, where it has been a building tradition for centuries. Sites range from ancestral cities in Mali to the palaces of Abomey in Benin, from monuments and mosques in Iran and Buddhist temples on the Silk Road to Spanish missions in California. This volume's sixty-four papers address such themes as earthen architecture in Mali, the conservation of living sites, local knowledge systems and intangible aspects, seismic and other natural forces, the conservation and management of archaeological sites, research advances, and training.

'City of the Future' Mateusz Laszczkowski.2016-08-01 Astana, the capital city of the post-Soviet Kazakhstan, has often been admired for the design and planning of its futuristic cityscape. This anthropological study of the development of the city focuses on every-day practices, official ideologies and representations alongside the memories and dreams of the city's longstanding residents and recent migrants. Critically examining a range of approaches to place and space in anthropology, geography and other disciplines, the book argues for an understanding of space as inextricably material-and-imaginary, and unceasingly dynamic - allowing for a plurality of incompatible pasts and futures materialized in spatial form.

**Degrees of European Belonging** Élisabeth Le.2021-03-15 While we tend to divide the world into Us and Them, a number of grey nuances exist beyond this white and black distinction. The purpose of this book is to address the fuzzy areas between Us and Them through the study of European belonging as it is represented in the French elite daily, *Le Monde*. Corpora collected from 2014 to 2017 are used for case studies in the framework of Discourse Analysis to look at the use of "Europe" in headlines, and the representation of the United Kingdom, Poland, Hungary, Romania, Ukraine, Belarus, and Turkey. The combination of these case studies allows to present a conceptual framework for the representation of Europe by *Le Monde*. However, beyond the study of what belonging to Europe means for *Le Monde*, this book is about the legitimacy of being "in-between", i.e. belonging neither totally to Us nor to Them.

**Government Support to Agricultural Insurance** Olivier Mahul,Charles J. Stutley.2010-03-08 Governments in developing countries have been increasingly involved in the support of agricultural (crop and livestock) insurance programs in recent years. In their attempts to design and implement agricultural insurance, they have sought technical and financial assistance from the international community and particularly from the World Bank. One of the recurrent requests from governments regards international experience with agricultural insurance, not only in developed countries, where in some cases agricultural insurance has been offered for more than a century, but also in middleand low-income countries. Governments are particularly interested in the technical, operational, financial, and institutional aspects of public support to agricultural insurance. 'Government Support to Agricultural Insurance' informs public and private decision makers involved in agricultural insurance about recent developments, with a particular focus on middle- and low-income countries. It presents an updated picture of the spectrum of institutional frameworks and experiences with agricultural insurance, ranging from countries in which the public sector provides no support to those in which governments heavily subsidize agricultural insurance. This analysis is based on a survey conducted by the World Bank s agricultural insurance team in 2008 in 65 developed and developing countries. Drawing on the survey results, the book identifies some key roles governments can play to support the development of sustainable, affordable, and cost-effective agricultural insurance programs.

**On the Universal** Francois Jullien.2014-07-08 François Jullien, the leading philosopher and specialist in Chinese thought, has always aimed at building on inter-cultural relations between China and the West. In this new book he focuses on the following questions: Do universal values exist? Is dialogue between cultures possible? To answer these questions, he retraces the history of the concept of the universal from its invention as an aspect of Roman citizenship, through its neutralization in the Christian idea of salvation, to its present day manifestations. This raises the question of whether the search for the universal is a uniquely Western preoccupation: do other cultures, like China, even have a notion of the universal, and if so, how does it differ from ours? Having considered the meaning of the concept in the East and West, Jullien argues that, if communication between cultures is to be meaningful, facile assumptions of universal values and complacent relativism need to be examined. It follows, therefore, that dialogue between cultures should not begin with issues of identity and difference, but rather by considering divergence and profusion. By no longer simply assuming universality, we allow for greater self-reflection. This wide-ranging and engaging study will be of particular interest to students and scholars of philosophy and of Chinese culture and society. It will also appeal to a wider readership interested in contemporary thought and the challenges of communication between East and West.

**Central Asia** Boris Z. Rumer.2015-04-15 The societies of Central Asia are besieged from within and without. The political elites - virtually unchanged despite the transition to independent statehood - battle radical Islamic movements and other oppositional threats that are continuously fueled by economic instability, corruption, environmental deterioration, and the collapse of social services. This survey of political, economic, and social development in Central Asia offers geopolitical context, unparalleled coverage, and analytical depth to our understanding of a region that appears to be rapidly spiraling into crisis.

*Heart's Flower* Esperanza U. Ramirez-Christensen.1994 Shinkei (1406-75), one of the most brilliant poets of medieval Japan, is a pivotal figure in the development of renga (linked poetry) as a serious art. In an age when anyone who wished to signal his denial of mundane concerns or make his way in the world with relative freedom donned the robes of a monk, Shinkei stood out by being a practicing cleric with a temple in Kyoto, the Japanese capital. His priestly duties and his devotion to Buddhist ideals are directly reflected in the intensely pure, lyrical longing for transcendence that is the most notable quality of his sensibility. Shinkei's life and work also provide a vivid portrayal of a tumultuous period of Japanese history that was one of the defining moments of its culture, when Zen Buddhism began to directly influence the arts. The book is in two parts. The first part is a literary biography based primarily on Shinkei's own writings - his critical essays, waka sequences, hokku collections, and commentaries - supplemented by various external sources. What emerges is the compelling portrait of a man who bore witness to the tragic anarchy of his times while clinging to the ideal of poetic practice as a mode of being and access to Buddhist enlightenment. Shinkei became embroiled in the factional struggles preceding the Onin War (1467-77) and died a refugee in what is now Kanagawa. The second part consists of annotated translations of Shinkei's most representative poetry: (1) selected hokku (opening verse of a sequence) and tsukeku (linked pairs of verses), along with Muromachi-period commentaries on them; (2) two 100-verse renga sequences - the first a solo composition from 1467, and the second a collaboration with Sogi and other poet-priests and samurai from 1468; and (3) a selection of one hundred waka poems highlighting Shinkei's most characteristic mode of ineffable remoteness. Throughout, the author's annotations seek to define and clarify the unique genre called linked poetry.

**Cultural Translation in Early Modern Europe** Peter Burke,R. Po-chia Hsia.2007-03-29 This groundbreaking 2007 volume gathers an international team of historians to present the practice of translation as part of cultural history. Although translation is central to the transmission of ideas, the history of translation has generally been neglected by historians, who have left it to specialists in literature and language. This book seeks to achieve an understanding of the contribution of translation to the spread of information in early modern Europe. It focuses on non-fiction: the translation of books on religion, history, politics and especially on science, or 'natural philosophy', as it was generally known at this time. The chapters cover a wide range of languages, including Latin, Greek, Russian, Turkish and Chinese. The book will appeal to scholars and students of the early modern and later periods, to historians of science and of religion, as well as to anyone interested in translation studies.

Engaging Eurasia's Separatist States Dov Lynch.2004 In the wake of the dissolution of the Soviet Union, secessionist forces carved four de facto states from parts of Moldova, Georgia, and Azerbaijan. Ten years on, those states are mired in uncertainty. Beset by internal problems, fearful of a return to the violence that spawned them, and isolated and unrecognized internationally, they survive behind cease-fire lines that have temporarily frozen but not resolved their conflicts with the metropolitan powers. In this, the first in-depth comparative analysis of these self-proclaimed republics, Dov Lynch examines the logic that maintains this uneasy existence and explores ways out of their volatile predicament. Drawing on extensive travel within Eurasia and remarkable access to leading figures in the secessionist struggles, Lynch spotlights the political, military, and economic dynamics--both internal and external--that drive the existence of South Ossetia, Abkhazia, Transnistria, and Nagorno-Karabakh. He also evaluates a range of options for resolving the status of the de facto states before violence returns, and proposes a coordinated approach, spearheaded by the European Union, that balances de facto and de jure independence and sovereignty. Slim but packed with information and insight, this volume also offers instructive lessons about the dynamics of intrastate and ethnic conflict and the merits of autonomy and power sharing in places as diverse as Kosovo, Northern Cyprus, and Chechnya.

**Necessary and Unnecessary Utopias** Leo Panitch,Colin Leys.1999-12-01 The Socialist Register is compulsory reading for people who refuse to be resigned to the idea that there can be no alternative to our unacceptable society. --Daniel Singer, author of *Whose Millennium?* When mainstream commentators talk about the future, they tend to predict dire doomsday apocalypses or spin wild techno-fantasies. In spite of their radically hi-tech edge, these futuristic scenarios usually assume that current social structures will persist. *Necessary and Unnecessary Utopias* points toward a very different way of thinking about the future. While rejecting schematic blueprints, this book reasserts the need for a bold and revolutionary social imagination, one aimed at saner ways of living and more rational ways of organizing society. Taking up such vital topics as work and its structure, democracy and the state, localism and internationalism, relations between the sexes, and technology and its social uses, *Necessary and Unnecessary Utopias* makes the case that a socialist vision of the future remains not only realistic but necessary. More than one dozen internationally celebrated scholars, including Terry Eagleton, Frigga Haug, Johanna Brenner, Kate Soper, Carl Boggs, and Norman Geras, are

contributors.

**The Limits of Partnership** Angela E. Stent.2015-03-29 A gripping account of U.S.-Russian relations since the end of the Soviet Union The Limits of Partnership is a riveting narrative about U.S.-Russian relations from the Soviet collapse through the Ukraine crisis and the difficult challenges ahead. It reflects the unique perspective of an insider who is also recognized as a leading expert on this troubled relationship. American presidents have repeatedly attempted to forge a strong and productive partnership only to be held hostage to the deep mistrust born of the Cold War. For the United States, Russia remains a priority because of its nuclear weapons arsenal, its strategic location bordering Europe and Asia, and its ability to support—or thwart—American interests. Why has it been so difficult to move the relationship forward? What are the prospects for doing so in the future? Is the effort doomed to fail again and again? What are the risks of a new Cold War? Angela Stent served as an adviser on Russia under Bill Clinton and George W. Bush, and maintains dialogues with key policymakers in both countries. Here, she argues that the same contentious issues—terrorism, missile defense, Iran, nuclear proliferation, Afghanistan, the former Soviet space, the greater Middle East—have been in every president's inbox, Democrat and Republican alike, since the collapse of the USSR. Stent vividly describes how Clinton and Bush sought inroads with Russia and staked much on their personal ties to Boris Yeltsin and Vladimir Putin—only to leave office with relations at a low point—and how Barack Obama managed to restore ties only to see them undermined by a Putin regime resentful of American dominance and determined to restore Russia's great power status. The Limits of Partnership calls for a fundamental reassessment of the principles and practices that drive U.S.-Russian relations, and offers a path forward to meet the urgent challenges facing both countries. This edition includes a new chapter in which Stent provides her insights about dramatic recent developments in U.S.-Russian relations, particularly the annexation of Crimea, war in Ukraine, and the end of the Obama Reset.

**Leadership and the Rise of Great Powers** Yan Xuetong.2020-12-22 A leading foreign policy thinker uses Chinese political theory to explain why some powers rise as others decline and what this means for the international order Why has China grown increasingly important in the world arena while lagging behind the United States and its allies across certain sectors? Using the lens of classical Chinese political theory, Leadership and the Rise of Great Powers explains China's expanding influence by presenting a moral-realist theory that attributes the rise and fall of great powers to political leadership. Yan Xuetong shows that the stronger a rising state's political leadership, the more likely it is to displace a prevailing state in the international system. Yan shows how rising states like China transform the international order by reshaping power distribution and norms, and he considers America's relative decline in international stature even as its economy, education system, military, political institutions, and technology hold steady. Leadership and the Rise of Great Powers offers a provocative, alternative perspective on the changing dominance of states.

When you click on My Google eBooks, you'll see all the books in your virtual library, both purchased and free. You can also get this information by using the My library link from the Google Books homepage. The simplified My Google eBooks view is also what you'll see when using the Google Books app on Android. Once you've found a book you're interested in, click Read Online and the book will open within your web browser. You also have the option to Launch Reading Mode if you're not fond of the website interface. Reading Mode looks like an open book, however, all the free books on the Read Print site are divided by chapter so you'll have to go back and open it every time you start a new chapter.
