The Thistle And The Drone Akbar Ahmed. 2013-05-15 'A groundbreaking and startling book ... It should be required reading for those working in the media, policy-making and education-and, indeed, for anybody who wishes to understand our tragically polarized world'-Karen Armstrong The United States declared war on terrorism in the wake of the 9/11 attacks. More than ten years later, the results are decidedly mixed. In *The Thistle and the Drone*, Akbar Ahmed reveals a tremendously important yet largely unrecognized adverse effect of these campaigns: they actually have exacerbated the already-broken relationship between central governments and the tribal societies on their periphery. Drawing on forty case studies, this groundbreaking analysis demonstrates that it is the conflict between the centre and the periphery and the involvement of the United States that has fuelled the war on terror. No one is immune to this violence - neither school children, nor congregations in their houses of worship. Battered by military or drone strikes one day and suicide bombers the next, people on the periphery say, 'Every day is like 9/11 for us.'

The Myth of Lasgush Dr Kapurani, Anastas Kapurani. 2004 'That which puzzled and fascinated me whenever I met Lasgush was this sensation of the impossible. It was impossible to get on with him as you did with others. The moment you were at him, or rather, the moment you knocked at his door, suddenly all became another thing. There was another logic, another code, other words, wrapped up in another meaning. .when you went to Lasgush's, it was more than going abroad. You believed you dropped somewhere beyond our time, beyond the everyday way of looking at things. One more step and it looked as if you would cross the borders of life and would find yourself in Dante's nothingness. .He was unpredictable, corrosive like acid, creepy, startling. His laugh was like as if beyond our life, mirthless, and his sadness had no grief. As for his anger, it was such as well, luxurious, cold, whereas his contempt was radiating from afar, as if adorned with silver.' (Kadare, In My Studio. pp 207, 208, 209. My translation) -All this Saussurean lava of meaning has its own matchless 'crater' from where it erupts and reaches us time and again, endlessly. Lasgush's Word has its own individual suspension, chiselled by the hand of a true master. It is breathlessly succinct and, in all probability, on a par with the best ever created. Lasgush says that his Word is: 'Mystery that burns in a thread of lightning.' (My Fiery Tongue)

**Decision By Objectives: How To Convince Others That You Are Right** Ernest Forman, Mary Ann Selly. 2001-12-10 Decision-making is a process of choosing from possible courses of action in order to attain goals and objectives. Nobel laureate Herbert Simon wrote that the whole process of managerial decision-making is synonymous with the practice of management. Decision-making is at the core of all managerial functions. Planning, for example, involves the following decisions: What should be done? When? How? Where? By whom? Other managerial functions, such as organizing, implementing, and controlling, rely heavily on decision-making. *Decision by Objectives* is an invaluable book about the art and science of decision-making. It presents a very practical approach to decision-making that has a sound theoretical foundation, known as the analytic hierarchy process. Intended for both the student and the professional, the book includes approaches to prioritizing, evaluating alternative courses of action, forecasting, and allocating resources. By focusing on objectives rather than alternatives alone, it shows the reader how to synthesize information from multiple sources, analyses, and perspectives. The methods presented have been gaining popularity throughout the world.

*The Transformation of Peace* O. Richmond. 2016-01-08 This book examines the transformation of the discourse and praxis of peace, from its early beginnings in the literature on war and power, to the development of intellectual and theoretical discourses of peace, contrasting this with the development of practical approaches to peace, and examining the intellectual and policy evolution regarding peace.

Appian and Illyricum Marjeta Šašel Kos. 2005

Being Fair, Faring Better Roberta Gatti, Sandor Karacsony, Kosuke Anan, Celine Ferré, Carmen de Paz Nieves, Valerie Morrica, Carmen de Paz, Abil Safir. 2016-02-05 In Central and Eastern European countries, inequalities for Roma families living in marginalized communities start early and are striking. Some of these inequalities reflect hard-wired family circumstances such as being born in poverty. Others reflect lack of opportunities such as limited access to those basic goods and services that are necessary not only for realizing one's potential in life, but also for living with dignity. Gaps between Roma and non-Roma widen over the lifecycle in a way that reinforces and perpetuates disadvantage and translates into significantly unequal outcomes, despite the fact that Roma report having similar aspirations to those of their non-Roma neighbors. Promoting equal opportunities for disadvantaged Roma is not only an imperative for societies that want to call themselves fair, but it is also a smart economic choice, especially in those countries where populations are aging rapidly. Investing early, with a particular emphasis on supporting healthy and cognitive development for disadvantaged Roma children, is likely to go a long way in promoting fair chances. However, leveling the playing field in childhood is likely not enough: disadvantaged Roma continue being exposed to unequal opportunities at key nodes in their lives, such as when pursuing education or when looking for a job. Therefore, it is as important that a broader set of policies address some of the circumstances in which a large share of Roma children grow up, including access to employment and decent living conditions for their families. Implementing interventions that help overcome these interrelated barriers will require strong ownership at the national level, coordinated policies across different ministries and government levels, and an integrated delivery system that is grounded in approaches that are customized to local conditions and implemented in a participatory manner. Good practices in Europe and elsewhere show that inclusion of the most disadvantaged - including many Roma - is possible and the current programming cycle for European Funds represents a unique opportunity to fund such interventions.

*The Kosovo crisis and the evolution of a post-Cold War European security* Martin A Smith, Paul Latawski. 2013-07-19 This electronic version has been made available under a Creative Commons (BY-NC-ND) open access license. Analyses the international response to the crisis in Kosovo, and its

broader implications by examining its diplomatic, military and humanitarian features. Unravelling these implications can be challenging as it remains an event replete with paradoxes - the originality of this book's approach lies in its exploration of these paradoxes. The crisis in Kosovo has been a headline grabbing event - a serious study of the implications of the conflict on wider European security issues and institutions is urgently required.

**LEGENDS AND LORE** Jeanette Gray Finnegan Jr..2018-02-22 In Legends and Lore, Luke and Blake continue their adventures on the island. Through the special powers gifted to them by the chief of the Croatoan Indians, the trio encounters the sea god Poseidon who introduces them to their underwater neighbors. Poseidon gives them three dolphins to help the kids explore the mighty Atlantic Ocean. On land, the kids discover an abandoned mansion where they find relics of pirates from long ago.

**Freedom of Expression and the Media** Merris Amos, Jackie Harrison, Lorna Woods.2012-07-26 Freedom of expression - particularly freedom of speech - is, in most Western liberal democracies, a well accepted and long established, though contested constitutional right or principle. Whilst based in ethical, rights-based and political theories such as those of: justice, the good life, personal autonomy, self determination, and welfare, as well as arrangements over legitimate government, pluralism and its limits, democracy and the extent and role of the state, there is always a lack of agreement over what precisely freedom of expression entails and how it should be applied. For the purposes of this book we are concerned with freedom of expression and the media with regard to the current application of legal standards and self-regulation to journalistic practice.

**The Illyrians** John Wilkes.1996-01-09 For more than a thousand years before the arrival of the Slavs in the sixth century AD, the lands between the Adriatic and the river Danube, now Yugoslavia and Albania, were the home of the peoples known to the ancient world as Illyrians. This book, now available in paperback, draws upon the considerable archaeological evidence that has become available since the Second World War to provide an account of the origins, culture, history and legacy of the Illyrians. John Wilkes describes the geography of Illyria and surveys the region in the prehistoric, Greek, Roman and medieval periods. He discusses Illyrian art, material, culture, religion and customs. A chapter examines the Illyrian language, of which little trace survives, and its connection with other Indo-European languages. Professor Wilkes also scrutinizes the linguistic evidence for the Illyrians' relatedness to other peoples - Thracian, Italic, Greek and Celtic. He concludes with a discussion of a possible survival of an Illyrian native culture in the Roman and Byzantine periods.

**Inter-Municipal Cooperation in Europe** Rudie Hulst, André van Montfort.2007-05-11 This book presents an overview of inter-municipal cooperation in eight European countries. Each country study sketches its attendant forms, their institutional design, the tasks and competencies attributed to joint authorities of municipalities and the way inter-municipal cooperation operates in practice. Both performance and democratic aspects of cooperation are recurring topics.

**Patterns of Local Autonomy in Europe** Andreas Ladner, Nicolas Keuffer, Harald Baldersheim, Nikos Hlepas, Pawel Swianiewicz, Kristof Steyvers, Carmen Navarro.2018-10-26 This book considers local autonomy, measured as a multidimensional concept, from a cross-country comparative perspective, and examines how variations can be explained and what their consequences are. It fills a gap in the literature by providing a comprehensive study of the different components of local autonomy across a large number of countries, over time. It offers a theoretically saturated concept to measure local autonomy and applies it to 39 countries, including all 28 EU member states together with Albania, Georgia, Iceland, Liechtenstein, Macedonia, Moldova, Norway, Serbia, Switzerland Turkey and Ukraine, over a period of 25 years (1990-2014).

**Ethnonationalism** Walker Connor.2018-06-05 Walker Connor, perhaps the leading student of the origins and dynamics of ethnonationalism, has consistently stressed the importance of its political implications. In these essays, which have appeared over the course of the last three decades, he argues that Western scholars and policymakers have almost invariably underrated the influence of ethnonationalism and misinterpreted its passionate and nonrational qualities. Several of the essays have become classics: together they represent a rigorous and stimulating attempt to establish a secure methodological foundation for the study of a complicated phenomenon increasingly, if belatedly, recognized as the major cause of global political instability. The book opens by reviewing a wide range of scholarship on ethnonationalism. Connor examines nineteenth-and early twentieth-century debate among British scholars on the viability and desirability of the multinational state, the American nation-building school of thought that dominated the literature on political development in the post-World War II era, and the recent explosion of literature on ethnonationalism. In the second part of the book, he shows how progress in the study of ethnonationalism has been hampered by terminological confusion, an inclination to perceive homogeneity even where heterogeneity thrives, an unwarranted tendency to seek explanation for ethnic conflict in economic differentials, and lack of historical perspective. The book closes with a consideration of the inherent limitations of rational inquiry into the realm of group-identity.

**Spies for Hire** Tim Shorrock.2008 Reveals the formidable organization of intelligence outsourcing that has developed between the U.S. government and private companies since 9/11, in a report that reveals how approximately seventy percent of the nation's funding for top-secret tasks is now being funneled to higher-cost third-party contractors. 35,000 first printing.

**Ideologies and National Identities** John R. Lampe, Mark Mazower.2004-01-10 Twentieth-century Southeastern Europe endured three, separate decades of international and civil war, and was marred in forced migration and wrenching systematic changes. This book is the result of a year-long project by the Open Society Institute to examine and reappraise this tumultuous century. A cohort of young scholars with backgrounds in history, anthropology, political science, and comparative literature were brought together for this undertaking. The studies invite attention to fascism, socialism, and liberalism as well as nationalism and Communism. While most chapters deal with war and confrontation, they focus rather on the remembrance of such conflicts in shaping today's ideology and national identity.

**Conversion to Islam in the Balkans** Anton Minkov.2004-01-01 By examining available demographic data and petitions submitted by non-Muslims for accepting Islam, this volume convincingly reconstructs the stages of the Islamization process in the Balkans and offers an insight to the motives and factors behind conversion.

**School-community-university Partnerships for a Sustainable Democracy** Matt Hartley, Ted Huddleston.2010 This guide examines how schools and universities can work together with their local communities to promote democracy in society based on the principles of Education for Democratic Citizenship (EDC), a concept developed by the Council of Europe. Partnerships based on this idea foster civic skills and values in citizens and build the civic capacity of communities through the pursuit of collective solutions to local problems. The guide explores the mechanics of such partnerships in practice, describing how they are built and sustained, and what makes them work. Drawing on examples from Europe and the United States of America, the guide is intended for policy makers and practitioners in schools and universities, civil society and community groups, and representatives of public authorities and government bodies on both sides of the Atlantic.

**Scanderbeide** Margherita Sarrocchi.2007-11-01 The first historical heroic epic authored by a woman, Scanderbeide recounts the exploits of fifteenth-century Albanian warrior-prince George Scanderbeg and his war of resistance against the Ottoman sultanate. Filled with scenes of intense and suspenseful battles contrasted with romantic episodes, Scanderbeide combines the action and fantasy characteristic of the genre with analysis of its characters' motivations. In selecting a military campaign as her material and epic poetry as her medium, Margherita Sarrocchi (1560?-1617) not

only engages in the masculine subjects of political conflict and warfare but also tackles a genre that was, until that point, the sole purview of men. First published posthumously in 1623, Scanderbeide reemerges here in an adroit English prose translation that maintains the suspense of the original text and gives ample context to its rich cultural implications.

*Global Activism, Global Media* Wilma De Jong, Martin Shaw, Neil Stammers. 2005 The first four films from the spy franchise starring Tom Cruise as a special agent. In 'Mission Impossible' (1996) Ethan Hunt (Cruise), an IMF (Impossible Mission Force) agent, is hunted by his own organisation after a mission in Prague goes wrong. Going to ground, Hunt enlists the help of two discredited agents to track down the real villain of the piece, a quest that takes him to the heart of CIA operations. In 'Mission Impossible 2' (2000), Impossible Missions Force's Ethan Hunt is charged with tracking down renegade fellow agent Sean Ambrose (Dougray Scott), who has stolen the only known supply of Bellophron - the antidote to man-made virus Chimera. Ethan enlists the help of Ambrose's ex-girlfriend, Nyah Nordoff-Hall (Thandie Newton), and, although the pair have fallen in love, Nyah agrees to return to Ambrose in order to gain information. However, Ambrose now intends to trigger off an epidemic of Chimera in order to sell Bellophron to the highest bidder and when he becomes suspicious of Nyah decides to use her as a guinea pig. In 'Mission Impossible 3' (2006), Hunt confronts the toughest villain he's ever faced - Owen Davian (Philip Seymour Hoffman), an international weapons and information provider with no remorse and no conscience. Hunt assembles his team, his old friend Luther Strickell (Ving Rhames), transportation expert Declan (Jonathan Rhys Meyers), background operative Zhen (Maggie Q) and fresh recruit Lindsey (Keri Russell) - to travel the globe pursuing Davian and rescue Hunt's love, Julia (Michelle Monaghan). In 'Mission Impossible - Ghost Protocol' (2011), when the Kremlin is bombed by terrorists, the IMF is implicated and all its team members instantaneously disavowed by the United States government. Hunt and his new team must go rogue to clear the IMF's name - but are warned that if any one of them is captured during their mission they will be charged as terrorists plotting to incite global nuclear war. Hunt seeks the help of an enigmatic former IMF agent, Brandt (Jeremy Renner), and is surprised to learn how much the shadowy figure knows about his past.
