Stiff: The Curious Lives of Human Cadavers Mary Roach.2004-05-17 Beloved, best-selling science writer Mary Roach's "acutely entertaining, morbidly fascinating" (Susan Adams, Forbes) classic, now with a new epilogue. For two thousand years, cadavers - some willingly, some unwittingly - have been involved in science's boldest strides and weirdest undertakings. They've tested France's first guillotines, ridden the NASA Space Shuttle, been crucified in a Parisian laboratory to test the authenticity of the Shroud of Turin, and helped solve the mystery of TWA Flight 800. For every new surgical procedure, from heart transplants to gender confirmation surgery, cadavers have helped make history in their quiet way. "Delightful—though never disrespectful" (Les Simpson, Time Out New York), Stiff investigates the strange lives of our bodies postmortem and answers the question: What should we do after we die? "This quirky, funny read offers perspective and insight about life, death and the medical profession. . . . You can close this book with an appreciation of the miracle that the human body really is." —Tara Parker-Pope, Wall Street Journal "Gross, educational, and unexpectedly sidesplitting." —Entertainment Weekly

Honky Dalton Conley.2023-09-05 This vivid memoir captures how race, class, and privilege shaped a white boy's coming of age in 1970s New York—now with a new epilogue. "I am not your typical middle-class white male," begins Dalton Conley's Honky, an intensely engaging memoir of growing up amid predominantly African American and Latino housing projects on New York's Lower East Side. In narrating these sharply observed memories, from his little sister's burning desire for cornrows to the shooting of a close childhood friend, Conley shows how race and class inextricably shaped his life—as well as the lives of his schoolmates and neighbors. In a new afterword, Conley, now a well-established senior sociologist, provides an update on what his informants' respective trajectories tell us about race and class in the city. He further reflects on how urban areas have (and haven't) changed over the past few decades, including the stubborn resilience of poverty in New York. At once a gripping coming-of-age story and a brilliant case study illuminating broader inequalities in American society, Honky guides us to a deeper understanding of the cultural capital of whiteness, the social construction of race, and the intricacies of upward mobility.

RAF Wings over Florida Will Largent.2020-08-01 From 1941 through 1945, British cadets in the Royal Air Force trained in the United States through the Lend-Lease Act, President Roosevelt's ingenious plan to help beleaguered Great Britain while maintaining the semblance of neutrality. This book tells the saga of two Florida training fields during this turbulent time. In their own words, British pilots tell of their Florida experiences. Many of them still in their late teens, away from home for the first time, pale and thin from years of rationing, these young men encountered immense challenges and overwhelming generosity during their training in Florida. Now retired, these former pilots still smell the scent of orange blossoms when they glance through the log books they kept while flying their Stearmans and Harvards over Florida citrus groves. They fondly remember the times when they buzzed over the homes of their Florida "families" to let them know to expect them for Sunday dinner. More than fifty years later, their stories still resonate with universal emotions: fear of failure, love of country, camaraderie, romantic love, and the pain of tragic deaths. Their stories also remind the American reader of a unique time in our history, when, poised on the brink of war, the United States reached out to help a country in distress.

River Teeth David James Duncan.2012-01-11 In his passionate, luminous novels, David James Duncan has won the devotion of countless critics and readers, earning comparisons to Harper Lee, Tom Robbins, and J.D. Salinger, to name just a few. Now Duncan distills his remarkable powers of observation into this unique collection of short stories and essays. At the heart of Duncan's tales are characters undergoing the complex and violent process of transformation, with results both painful and wondrous. Equally affecting are his nonfiction reminiscences, the river teeth of the title. He likens his memories to the remains of old-growth trees that fall into Northwestern rivers and are sculpted by time and water. These experiences—shaped by his own river of time—are related with the art and grace of a master storyteller. In River Teeth, a uniquely gifted American writer blends two forms, taking us into the rivers of truth and make-believe, and all that lies in between.

Hell's Angels Hunter S. Thompson.2012-08-01 Gonzo journalist and literary roustabout Hunter S. Thompson flies with the angels—Hell’s Angels, that is—in this short work of nonfiction. “California, Labor Day weekend . . . early, with ocean fog still in the streets, outlaw motorcyclists wearing chains, shades and greasy Levis roll out from damp garages, all-night diners and cast-off one-night pads in Frisco, Hollywood, Berdoo and East Oakland, heading for the Monterey peninsula, north of Big Sur. . . The Menace is loose again.” Thus begins Hunter S. Thompson’s vivid account of his experiences with California’s most notorious motorcycle gang, the Hell’s Angels. In the mid-1960s, Thompson spent almost two years living with the controversial Angels, cycling up and down the coast, reveling in the anarchic spirit of their clan, and, as befits their name, raising hell. His book successfully captures a singular moment in American history, when the biker lifestyle was first defined, and when such countercultural movements were electrifying and horrifying America. Thompson, the creator of Gonzo journalism, writes with his usual bravado, energy, and brutal honesty, and with a nuanced and incisive eye; as *The New Yorker* pointed out, “For all its uninhibited and sardonic humor, Thompson’s book is a thoughtful piece of work.” As illuminating now as when originally published in 1967, *Hell’s Angels* is a gripping portrait, and the best account we have of the truth behind an American legend.

Direct Action Ann Hansen.2001 *Direct Action* chronicles the thrilling fast-paced action of the Guerrilla group that blew up the political activist scene of the 80's. Hansen and her Anarchist group *Direct Action* were responsible for numerous dramatic political acts, including the bombing of the Litton Systems plant in Toronto. After legal protest actions failed to stop Litton from making guidance systems for Cruise missiles, *Direct Action* defended the Earth, explosively. Additionally, Hansen with other radical feminists showed the Red Hot Video chain just how hot their illegal films depicting rape could become after being firebombed. Ann Hansen served seven years in prison and is now quite at home in Vancouver with her three horses, three dogs, one cat and a bird.

FM Richard Neer.2001-12-18 It was all so honest, before the end of our collective innocence. Top Forty jocks screamed and yelled and sounded mightier than God on millions of transistor radios. But on FM radio it was all spun out for only you. On a golden web by a master weaver driven by fifty thousand magical watts of crystal clear power . . . before the days of trashy, hedonistic dumbspeak and disposable three-minute ditties . . . in the days where rock lived at many addresses in many cities. -from *FM* As a young man, Richard Neer dreamed of landing a job at WNEW in New York—one of the revolutionary FM stations across the country that were changing the face of radio by rejecting strict formatting and letting disc jockeys play whatever they wanted. He felt that when he got there, he’d have made the big time. Little did he know he’d have shaped rock history as well. *FM: The Rise and Fall of Rock Radio* chronicles the birth, growth, and death of free-form rock-and-roll radio through the stories of the movement’s flagship stations. In the late sixties and early seventies—at stations like KSAN in San Francisco, WBCN in Boston, WMMR in Philadelphia, KMET in Los Angeles, WNEW, and others—disc jockeys became the gatekeepers, critics, and gurus of new music. Jocks like Scott Muni, Vin Scelsa, Jonathan Schwartz, and Neer developed loyal followings and had incredible influence on their listeners and on the early careers of artists such as Bruce Springsteen, Genesis, the Cars, and many others. Full of fascinating firsthand stories, *FM* documents the commodification of an iconoclastic phenomenon, revealing how counterculture was coopted and consumed by the mainstream. Richard Neer was an eyewitness to, and participant in, this history. *FM* is the tale of his exhilarating ride.

South St. Paul Lois A. Glewwe.2015-12-07 Incorporated in 1887, South St. Paul grew rapidly as the blue-collar counterpart to the bright lights and sophistication of its cosmopolitan neighbors Minneapolis and St. Paul. Its prosperous stockyards and slaughterhouses ranked the city among America's largest meatpacking centers. The proud city fell on hard economic times in the second half of the twentieth century. Broad swaths of

empty buildings were razed as an enticement to promised redevelopment programs that never happened. In 1990, South St. Paul began to chart out its own successful path to renewal with a pristine riverfront park, a trail system and a business park where the stockyards once stood. Author and historian Lois A. Glewwe brings the story of the city's revival to life in this history of a remarkable community.

A Certain Age Rudolf Mrázek.2010-04-16 *A Certain Age* is an unconventional, evocative work of history and a moving reflection on memory, modernity, space, time, and the limitations of traditional historical narratives. Rudolf Mrázek visited Indonesia throughout the 1990s, recording lengthy interviews with elderly intellectuals in and around Jakarta. With few exceptions, they were part of an urban elite born under colonial rule and educated at Dutch schools. From the early twentieth century, through the late colonial era, the national revolution, and well into independence after 1945, these intellectuals injected their ideas of modernity, progress, and freedom into local and national discussion. When Mrázek began his interviews, he expected to discuss phenomena such as the transition from colonialism to postcolonialism. His interviewees, however, wanted to share more personal recollections. Mrázek illuminates their stories of the past with evocative depictions of their late-twentieth-century surroundings. He brings to bear insights from thinkers including Walter Benjamin, Bertold Brecht, Le Corbusier, and Marcel Proust, and from his youth in Prague, another metropolis with its own experience of passages and revolution. Architectural and spatial tropes organize the book. Thresholds, windowsills, and sidewalks come to seem more apt as descriptors of historical transitions than colonial and postcolonial, or modern and postmodern. Asphalt roads, homes, classrooms, fences, and windows organize movement, perceptions, and selves in relation to others. *A Certain Age* is a portal into questions about how the past informs the present and how historical accounts are inevitably partial and incomplete.
