Performing the Archive Wolfgang Schneider, Henning Fülle, Christine Henniger. 2018-09-28 Die Studie «Performing the Archive» dokumentiert die Ergebnisse eines ersten Forschungsprojektes, das sich mit der Archivierung Freien Theaters beschäftigt. Seit mehr als 50 Jahren haben sich in Deutschland die Freien Darstellenden Künste als «zweite Säule» der Theaterlandschaft herausgebildet. Die Überlieferung seiner künstlerischen und kulturpolitischen sowie der organisatorischen und administrativen Praxis ist zwar überwiegend noch vorhanden, befindet sich aber weit verstreut, zumeist an den Orten ihrer Entstehung, ist aber unerschlossen und vom Verfall bedroht. Mit der Studie werden konzeptionelle Grundlagen geschaffen, um einen relevanten Bestandteil des kulturellen Erbes zu sichern und zugänglich zu machen. So wie das Freie Theater aus der kritischen Selbstermächtigung und innovativen Selbstorganisation seiner Künstler*innen entstanden ist, haben sich seine organisierten Akteur*innen aus Kulturpolitik und Wissenschaft zusammengetan und mit Unterstützung des Bundes und einiger Bundesländer einen Forschungsprozess für ein Archiv des Freien Theaters initiiert, dessen umfassende Bestandsaufnahme hier vorgelegt wird. Die Studie mit ihren Erkenntnissen, Expertisen und Handlungsempfehlungen zeichnet aus künstlerischer und wissenschaftlicher sowie technologischer und rechtlicher Sicht die strukturellen Konturen eines Archivs des Freien Theaters, das als dezentrale und digitale Wissensplattform die Voraussetzungen sowohl für ein «Performing the Archive» in der Praxis wie auch für kulturpolitische Diskurse zur Weiterentwicklung der

Theaterlandschaft bietet. The study 'Performing the Archives' documents the results of one of the first research projects to examine the archiving of the Free Theatre movement. For over 50 years the free performing arts have constituted a 'second pillar' of the German theatre world. The records of artistic practice, cultural policy and organisational and administrative practice certainly survive in large part, but are widely dispersed, most being in the place of their origin, have not been properly archived and indexed, and are threatened with deterioration. This study lays the conceptual foundations for securing and making available a relevant part of our cultural heritage. Just as the Free Theatre movement grew out of the critical self-empowerment and innovative self-organisation of its artists, organisers in the fields of cultural policy and academia have come together and, with the support of the German Federal Government and of some German states, initiated a research process to create an Free Theatre archive. Its comprehensive survey is presented here. The study, with its insights, expertise and recommendations for action, describes from artistic and academic as well as technological and legal perspectives the structural contours of an archive which, as a decentralised and digital knowledge platform, provides the basis required both for 'Performing the archive' in practice and for cultural-political discourses of the future development of the theatrical landscape.

Relating Events in Narrative, Volume 2 Ludo Verhoeven, Sven Stromqvist. 2004-02-13 *Relating Events in Narrative, Volume 2: Typological and Contextual Perspectives* edited by Sven Strömqvist and Ludo Verhoeven, is the much anticipated follow-up volume to Ruth Berman and Dan Slobin's successful frog-story studies book, *Relating Events in Narrative: A Crosslinguistic Developmental Study* (1994). Working closely with Ruth Berman and Dan Slobin, the new editors have brought together a wide range of scholars who, inspired by the 1994 book, have all used Mercer Mayer's *Frog, Where Are You?* as a basis for their

research. The new book, which is divided into two parts, features a broad linguistic and cultural diversity. Contributions focusing on crosslinguistic perspectives make up the first part of the book. This part is concluded by Dan Slobin with an analysis and overview discussion of factors of linguistic typology in frog-story research. The second part offers a variety of theoretical and methodological perspectives, all dealing with contextual variation of narrative construction in a wide sense: variation across medium/modality (speech, writing, signing), genre variation (the specific frog story narrative compared to other genres), frog story narrations from the perspective of theory of mind, and from the perspective of bilingualism and second language acquisition. Several of the contributions to the new book manuscript also deal with developmental perspectives, but, in distinction to the 1994 book, that is not the only focused issue. The second part is initiated by Ruth Berman with an analysis of the role of context in developing narrative abilities. The new book represents a rich overview and illustration of recent advances in theoretical and methodological approaches to the crosslinguistic study of narrative discourse. A red thread throughout the book is that crosslinguistic variation is not merely a matter of variation in form, but also in content and aspects of cognition. A recurrent perspective on language and thought is that of Dan Slobin's theory of thinking for speaking, an approach to cognitive consequences of linguistic diversity. The book ends with an epilogue by Herbert Clark, Variations on a Ranarian Theme.

Martin Sand explores the problems of responsibility at the early, visionary stages of technological development. He discusses the increasingly dominant concept of innovation and outlines how narratives about the future are currently used to facilitate technological change, to foster networks, and to raise public awareness for innovations. This set of activities is under increasing scrutiny as a form of “visioneering”. The author discusses intentionality and freedom as important, albeit fuzzy, preconditions for being responsible. He distinguishes being from holding responsible and explores this distinction’s effects on the problem of moral luck. Finally, he develops a virtue ethical framework to discuss visioneers’ and innovators’ responsibilities.

The Spectrum of Psychotic Disorders Daryl Fujii,Iqbal Ahmed.2007-03-08 The spectrum of psychotic disorders encompasses as many as 25 different etiologies, ranging from the primary psychoses through those secondary to medical conditions, drugs and medications, and sensory impairments. This 2007 book provides a one-stop, comprehensive review of these disorders and gives quick comparisons for diagnostic decision-making to help with difficult differential diagnoses. Every chapter is uniformly structured to show comparisons between each disorder of presentation, course, and underlying neuropathology. Evidence for each etiology is also rated, indicating the confidence level the reader can place in the current findings. The international team of authors also examines data supporting a unitary neurobiological model of psychosis and the hypothesis that psychosis is a neurobiological syndrome similar to aphasia or apraxia. This book represents a paradigm shift in understanding, classifying and diagnosing these disorders, providing directions for future research and treatment. It will be of great interest to

psychiatrists and neuroscientists alike.

Bible as Notepad Liv Ingeborg Lied,Marilena

Maniaci.2018-09-10 The present volume provides a comparative look at the contents and layout features of secondary annotations in biblical manuscripts across linguistic traditions. Due to the privileged focus on the text in the columns, these annotations and the practices that produced them have not received the scholarly attention they deserve. The vast richness of extant verbal and figurative notes accompanying the biblical texts in the intercolumns and margins of the manuscript pages have thus been largely overlooked. The case studies gathered in this volume explore Jewish and Christian biblical manuscripts through the lens of their annotations, addressing the various relationships between the primary layer of text and the secondary notes, and exploring the roles and functions of annotated manuscripts as cultural artifacts. By approaching biblical manuscripts as potential notepads, the volume offers theoretical reflection and empirical analyses of the ways in which secondary notes may shed new light on the development and transmission of text traditions, the shifting engagement with biblical manuscripts over time, as well as the change of use and interpretation that may result from the addition of the notes themselves.

Studies on the History of the Reformation in Hungary and

Transylvania Katalin Péter.2018-10-01 Katalin Peter offers is a vigorous and stimulating reassessment of the history of the Protestant Reformation in Hungary. The Reformation has traditionally been explained in terms of theology, the corruption of the church, and the roles of princes. Katalin Peter shifts the context of study of the Reformation in Hungary to a bottom-up examination of the social dynamics of religious change, producing a lively narrative of the experiences and reactions of contemporary actors - including rural town and village communities, local priests and landlords - to evangelical ideas.

Through a close reading of church visitation records, common men and women emerge on the pages of the book both as the agents of religious change and as the defenders of the old faith, while local priests, as Peter, had to adapt to lay demands. A comparative analysis of the position and actions of landlords as church patrons in all three parts of contemporary Hungary – the kingdom under Habsburg rule, the Ottoman-vassal Principality of Transylvania, and Ottoman Hungary – leads to the conclusion that patrons did not interfere in local religious change, since this change did not interfere with the distribution of power. In addition to this radically new narrative of the social dynamics of the early Reformation in Hungary, Peter engages in the long-standing debates concerning the roles of the Protestant Reformation in intellectual culture, and she illuminates the scopes and limits of the confessional cultures that emerged in its wake. The book brings together a coherent body of work that began to be published in the 1990s and until now has only been available in Hungarian.

Bridging Two Realms John Holland. 2018-02-27 There could be many reasons why you're drawn to this book — or perhaps synchronicity had a part to play in that this book somehow found you! Are you looking for answers as to what happens to your loved ones after they've passed? Perhaps you're wondering what you should do after having had your own psychic experience. Whether you're a student of psychic studies or a practicing medium, a believer or a skeptic, or someone who is bereaved as a result of a loss, this book was written to provide you with all the answers to your questions about the Other-Side. In *Bridging Two Realms*, renowned psychic medium John Holland offers one of the clearest pictures anyone could have of the Spirit World. He draws on his decades of personal experiences with Spirit, and includes inspirational stories and real-life case studies, to help you pursue the unfoldment of your own spiritual abilities safely and wisely. His hope is to help the bereaved by giving them comfort and

inspiration in knowing that there really is life after physical death. There is evidence of the Spirit World and what happens in those spiritual realms. Your loved ones are just a thought away, and you can still communicate with them. They're still close, and they often try to reach out to us to lend their love and support.

Ultimately, you will learn that mediumship is not just about connecting to the Spirit World; it's just as much about helping and healing the living. There are spiritual bridges that can be built to connect to your loved ones who have passed, as well as the most important bridge of all: the bridge to your own spirit.

important factor for the success of any software project. In the context of systematic design and construction, solid software architecture ensures the fulfilment of quality requirements such as expandability, flexibility, performance, and time-to-market. Software architects reconcile customer requirements with the available technical options and the prevailing conditions and constraints. They ensure the creation of appropriate structures and smooth interaction of all system components. As team players, they work closely with software developers and other parties involved in the project. This book gives you all the basic know-how you need to begin designing scalable system software architectures. It goes into detail on all the most important terms and concepts and how they relate to other IT practices. Following on from the basics, it describes the techniques and methods required for the planning, documentation, and quality management of software architectures. It details the role, the tasks, and the work environment of a software architect, as well as looking at how the job itself is embedded in company and project structures. The book is designed for self-study and covers the curriculum for the Certified Professional for Software Architecture - Foundation Level (CPSA-F) exam as defined by the International Software Architecture Qualification Board (iSAQB).

Rolleimoments - Komponieren mit Licht Thomas Güttler, Ulrich Dorn. 2019-04-01 Dieses Buch richtet sich in erster Linie an Fotografen, die ihre Bilder bewusst gestalten wollen. Die Verwendung von optischen Filtern mutet im Zeitalter der digitalen Bildbearbeitung altmodisch an, sie ist es aber nicht! Der gezielte Einsatz von Licht und Lichtmengen im Bild lässt sich nur über eine präzise Selektion steuern, bevor die Information über den Sensor festgehalten wird. Polarisationsfilter (CPL), Graufilter (ND) und Grauverlaufsfilter (GND) waren und sind die Werkzeuge der professionellen Landschafts- und der Cityscape-Fotografie. Thomas Güttler, leidenschaftlicher Fotograf und Geschäftsführer des Traditionsunternehmens ROLLEI, ging im Winter, Frühjahr

und Sommer 2017 auf eine Reise über vier Kontinente und besuchte 15 Sehnsuchtsziele, um diese einnehmend und höchst emotional ins Bild zu setzen. Dabei erzählt er von seinen Erlebnissen als Fotograf und erklärt im Detail, wie seine Aufnahmen entstanden sind. Thomas Güttler trifft auf seinen Reisen die Weltklasse-Fotokünstler Paul Reiffer, Adam Schallau und Zhou Wanping, die ebenfalls zu Wort kommen. Dieses Buch ist nicht nur ein fantastischer Bildband, es ist zudem ein handfestes Fachbuch zum Thema Fotografie mit optischen Fotofiltern mit den Themenschwerpunkten Langzeitbelichtung, Lichtstimmung und Filtertechnik.

Paul Perceived Karl Olav Sandnes.2018-09-25 An epicenter in present-day Pauline scholarship is the issue of the Law. The interpretation of this contentious issue started before Paul's letters and found its way into them by his citing how others perceived of his theology, and in Paul rendering rumors and criticism, and also interacting with them. To this reception-oriented perspective belong also punitive actions taken against Paul by synagogues. As a reception of Paul, Acts is included, leaving a more complex picture than argued by advocates of Paul within Judaism. Thus Karl Olav Sandnes uncovers the first interpretation or reception of Paul's view on Torah. It is limited in its scope, but provides a critical and necessary view on common trends in Pauline scholarship. Paul's decentering of the Torah was considered endangering for morality, for Jews and Gentiles alike. Perceptions of Paul's theology must be accounted for in Pauline studies.

Beyond 'Gifted' and 'Ungifted' Heinrich Jacoby.2018-05-03 This is a copy of an introductory course Jacoby gave in 1945. Jacoby and the members of the group are concerned during twenty-four sessions with the knowledge and realization of ones own capabilities to unfold the individual potential to become a human being that is interested in the evolution of humankind. Jacobys work is based on asking appropriate questions and appropriate behavior as a key to unfold the human beings capacities.

Transcendence and the Secular World Ingolf U. Dalferth.2018-07

On theological grounds, Ingolf U. Dalferth argues the case for taking a critical stance towards the current leave-taking of secularization and the fashionable proclamation of a new post-secular religious epoch. Right from the start, the Christian faith has made a decisive contribution to the secularization of the world, the criticism of religion, religions and religiosity. Christian faith is concerned with God's presence in all areas of life, often beyond the usual religious forms and in distinction towards them. The orientation towards this ultimate presence and therefore towards antecedent transcendence in the immanence of a secular world leaves the alternative between religious and non-religious life behind. In this work, the author examines the new distinctions which this Christian life orientation demands.

Martyred for the Church Justin Buol.2018-09-21

In this study, Justin Buol analyzes the writings connected with the deaths of Ignatius of Antioch, Polycarp of Smyrna, and Pothinus of Lyons in light of earlier accounts of the noble deaths of military, political, and religious leaders from Greco-Roman literature and the Bible, which record benefits accruing to a group on account of its leader's death. The author argues that the accounts of these three bishops' martyrdoms draw upon those prior models in order to portray the bishops as dying to unite, protect, and strengthen the Church, oppose false teaching and apostasy, and solidify the teaching role of the episcopal office. Finally, by providing a foundation for Irenaeus to argue for apostolic succession, these second-century bishop martyrs also help form a lasting contribution to the growth of episcopal power.

Biblical Theology of the New Testament Peter

Stuhlmacher.2018-08-16 First English edition of an iconic work of German scholarship Since its original publication in German, Peter Stuhlmacher's two-volume *Biblische Theologie des Neuen Testaments* has influenced an entire generation of biblical scholars and theologians. makes this important work of New Testament theology available in English for the first time. Following an extended discussion of the task of writing a New Testament theology, Stuhlmacher explores the development of the Christian message across the pages of the Gospels, the writings of Paul, and the other canonical books of the New Testament. The second part of the book examines the biblical canon and its historical significance. A concluding essay by Bailey applies Stuhlmacher's approach to specific texts in Romans and 4 Maccabees.

The Minimal Self Rupert Glasgow.2017-06-13 'Self' is a term that is much used but often poorly understood or over-hastily dismissed. In *The Minimal Self* R.D.V. Glasgow seeks to unearth the underlying nature of selfhood. Glasgow's approach is based upon the notion of 'intrinsic reflexivity', which manifests itself in three fundamental forms: self-maintenance, self-reproduction and self-containment. Through a conceptual analysis of selfhood, Glasgow aims to ascertain what distinguishes full forms of minimal selfhood from entities such as genes and viruses that are merely selfish or self-like. The idea is to establish the logical prerequisites for the transition from a world bereft of selfhood to one populated by selves like us. Minimal selfhood thus provides a bridge linking philosophy, biology and other disciplines that have previously failed to coincide in their understanding of what a self is.

Mobility and Exile at the End of Antiquity Dirk Rohmann,Jörg Ulrich,Margarita Vallejo Gírvés.2018 This volume explores how forced movement and exile of clerics developed over time and ultimately came to shape interactions between the late-antique Roman Empire, the Byzantine, post-Roman, and early medieval worlds. It investigates the politics and legal mechanics of ecclesiastical exile, the locations associated with life in exile, both in literary sources and in material culture, as well as the multitude of strategies which ancient and early medieval authors, and the exiles themselves, employed to create historical

narratives of banishment. The chapters are revised versions of papers given at international conferences held at the Martin-Luther-University Halle-Wittenberg, the German Historical Institute London, and the University of Alcalá in 2016 and 2017.

Minimal Selfhood and the Origins of Consciousness Rupert Glasgow.2018-07-10 In *Minimal Selfhood and the Origins of Consciousness*, R.D.V. Glasgow seeks to ground the logical roots of consciousness in what he has previously called the 'minimal self'. The idea is that elementary forms of consciousness are logically dependent not, as is commonly assumed, on ownership of an anatomical brain or nervous system, but on the intrinsic reflexivity that defines minimal selfhood. The aim of the book is to trace the logical pathway by which minimal selfhood gives rise to the possible appearance of consciousness. It is argued that in specific circumstances it thus makes sense to ascribe elementary consciousness to certain predatory single-celled organisms such as amoebae and dinoflagellates as well as to some of the simpler animals. Such an argument involves establishing exactly what those specific circumstances are and determining how elementary consciousness differs in nature and scope from its more complex manifestations.

VanDoodewaard, Scott Sealy. 2018 This is a study on Reformed theological debates during the »Long Eighteenth Century« in Britain and New England. By »Long« a period that goes beyond 1700-1799 is in view. This examination begins just before the eighteenth century by looking at the Neonomian-Antinomian debate in the 1690s. This is followed by the Marrow Controversy in Scotland in the eighteenth century. After that, the authors address the ecclesiological debates between George Whitefield and the Erskines. The doctrine of free choice concerning Edwards and his departure from classical Reformed orthodoxy is highlighted next, followed by reflections on the Edwardseans and the atonement. Returning to Britain again, the volume provides a study on hyper-Calvinism, and on eschatological differences among key figures in the eighteenth century. More specific debates in particular Baptist circles are noted, including the battle over Sandemanianism and the Trinitarian battles fought by Andrew Fuller and others. Returning to ecclesiology, a discussion on the subscription controversy in Philadelphia in the early eighteenth century and an analysis of the debate about the nature of »revival« in New England close this volume.

Here is an updated version of the \$domain website which many of our East European book trade customers have been using for some time now, more or less regularly. We have just introduced certain upgrades

and changes which should be interesting for you. Please remember that our website does not replace publisher websites, there would be no point in duplicating the information. Our idea is to present you with tools that might be useful in your work with individual, institutional and corporate customers. Many of the features have been introduced at specific requests from some of you. Others are still at preparatory stage and will be implemented soon. Between the three major ebook formats—EPUB, MOBI, and PDF—what if you prefer to read in the latter format? While EPUBs and MOBIs have basically taken over, reading PDF ebooks hasn't quite gone out of style yet, and for good reason: universal support across platforms and devices. The Online Books Page: Maintained by the University of Pennsylvania, this page lists over one million free books available for download in dozens of different formats. Note that some of the "free" ebooks listed on

Centsless Books are only free if you're part of Kindle Unlimited, which may not be worth the money. The time frame a book is available as a free download is shown on each download page, as well as a full description of the book and sometimes a link to the author's website. Learn more about using the public library to get free Kindle books if you'd like more information on how the process works. Feedbooks is a massive collection of downloadable ebooks: fiction and non-fiction, public domain and copyrighted, free and paid. While over 1 million titles are available, only about half of them are free.
