Princesses Wear Pants Savannah Guthrie, Allison

Oppenheim. 2017-09-12 From NBC's TODAY coanchor Savannah Guthrie and educator Allison Oppenheim comes an empowering fairy tale with a twist. In the tradition of *Not All Princesses Dress in Pink* and *Princess in Black*, *Princesses Wear Pants* follows the unflappable Princess Penelope Pineapple, who knows how to get the job done while staying true to herself. Princess Penelope lives in a beautiful palace with a closet full of beautiful dresses. But being a princess is much, much more than beauty. In fact, every morning Princess Penelope runs right past her frilly dresses to choose from her beloved collection of pants! What she wears each day depends on which job she has to do. Will she command the royal air force sporting her sequined flight suit? Will she find her zen in her yoga pants and favorite tee? Or, will she work in the kingdom's vegetable garden with pocketed overalls for all of her tools? Unfortunately for Princess Penelope, not everyone in the Pineapple Kingdom thinks pants are always appropriate princess attire. When the grand Lady Busyboots demands that Princess Penelope must wear a gown to the annual Pineapple Ball, the young royal finds a clever way to express herself. Penelope's courage (and style choices) result in her saving the day! In their debut children's picture book, Savannah Guthrie and Allison Oppenheim team up for a savvy and imaginative story that celebrates fashion and girl power. Perfect for fans of Nickelodeon's *Nella the Princess Knight*, *Princesses Wear Pants* challenges gender stereotypes in the name of individuality, showing girls it's not how they look but what they do that matters.

Mamãe Desobediente Esther Vivas. 2021-12-13 O auge da nova onda feminista é uma oportunidade para trazer à luz pública

todas as opressões, violências e desigualdades que as mulheres sofrem, e a maternidade, como analiso nestas páginas, é um campo coberto de discriminações. Precisamos de um feminismo que abrace a maternidade. A maternidade entendida como o direito de nós, mulheres, a decidirmos sobre o nosso corpo, direito ao aborto, direito a ficarmos grávidas quando desejarmos, direito a decidirmos sobre a gravidez, o parto e o aleitamento, direito a podermos criar e ter vida própria além da criação. Eis aqui essa maternidade feminista e desobediente que tanta falta nos faz.

Maternidades, experiencias y narraciones Diversos autores. 2021-09-19 Este libro es un ejercicio de libertad. La libertad de explorar de forma íntima, sincera y profunda nuestras herstories. Estas narraciones vivenciales y profesionales sirven para mostrar, contar, o llevar al espacio público lo obviado. Uno de los factores comunes del volumen ha sido el colocar el cuerpo y las emociones en el centro de la argumentación y combinar la experiencia vivida con la práctica clínica y académica. Es, en definitiva, un diálogo entre distintos saberes que plantea la maternidad como un fenómeno no reducido a la biología, sino complejo y plural.

La lactancia materna Beatriz Gimeno. 2018-05-17 La lactancia materna no es una cuestión exclusivamente biológica, sino que es también una práctica política. En este trabajo se pone de manifiesto la presión que el sistema patriarcal ha ejercido casi siempre sobre las madres para que den de mamar y la resistencia frente a esta obligatoriedad. Desde la segunda mitad del siglo XX la práctica de la lactancia se hace más complicada y se sitúa en el centro tanto de las políticas neoliberales que buscan acabar con los servicios públicos como de un sector del feminismo que busca resignificarla positivamente. Coincidiendo con esto, la lactancia se convierte también en el centro de una nueva identidad femenina confrontada con la posición de otras madres que no desean dar de mamar. multinacionales, el neoliberalismo, el feminismo, la religión, la ética, el racismo y las clases sociales son cuestiones que inciden en la lactancia materna construyendo una práctica personal y política muy compleja.

Este libro responde a estas y muchas otras preguntas, abarcando gran parte de lo que ocurre durante los primeros años de vida de nuestros hijos. Unos años que en el futuro recordaréis como vuestros mejores años.

ciudadanía que sepa afrontar de forma crítica problemas sociales relacionados con la ciencia y la tecnología. A ellos nos tenemos que enfrentar en materia energética, ambiental, de sostenibilidad, eficiencia en recursos, salud, alimentación, etc. En este sentido, la educación tiene un papel fundamental en la formación de habilidades de pensamiento crítico de la ciudadanía, ya que el alumnado de hoy será el que en las próximas décadas tendrá que ofrecer soluciones a estos retos. Una estrategia didáctica para el desarrollo de habilidades de pensamiento crítico en el contexto de problemas sociocientíficos es el juego de rol, que consiste en una simulación en la que diferentes personajes defienden roles enfrentados en torno a un problema. El juego de rol aúna las ventajas de la gamificación a través de una escenificación en el aula y posibilita una mejor comprensión de los problemas mostrando sus diferentes vertientes: científico-tecnológica, social, política, ambiental, ética, etc. En esta obra se presenta un conjunto amplio de juegos de rol centrados en problemas sociocientíficos para desarrollar habilidades de pensamiento crítico en el aula de ciencias, incidiendo en el diseño, su puesta en práctica y la evaluación. Los juegos de rol se agrupan por temáticas: alimentación y salud, medioambiente, sostenibilidad, y ciencia y sociedad.

Lactivism Courtney Jung.2015-11-24 Breastfeeding has become a moral imperative in 21st century America. Once upon a time, this moral imperative made sense. Breastfeeding was believed to bring multiple health benefits, including increased resistance to many chronic and even fatal diseases, protection against Sudden Infant Death Syndrome (SIDS), improved intelligence, and countless immunities. The irony now, however, is that breastfeeding continues to gain moral force just as scientists are showing that its benefits have been greatly exaggerated. In 2012, the American Academy of Pediatrics and the Center for Disease Control and Prevention declared the failure to breastfeed a public health issue, thus placing bottle-feeding on par with smoking,

obesity, and unsafe sex. Recently, politicians too have launched highly visible breastfeeding initiatives, such as former New York Mayor Michael Bloomberg's well-publicized Latch On campaign. And, meanwhile, women who don't breastfeed their babies have found themselves with a lot of explaining to do. Physicians, public health officials, and other mothers are pressuring them to breastfeed even though the best science shows that the advantages of doing so are minimal at best. What is going on? In *Lactivism*, Courtney Jung offers the most deeply researched and far-reaching critique of the breastfeeding imperative to date. Drawing on a wide range of evidence, from rigorously peer-reviewed scientific research to interviews with physicians, politicians, business interests, activists, social workers, and mothers from across the social and political spectrum, Jung presents an eye-opening account of how a practice that began as an alternative to Big Business has become Big Business itself--

Totes les lactàncies molen Saioa Baleztena, Mireia

Serra. 2023-06-05 Una de les primeres decisions importants que han de prendre les mares i gestants és si donaran el pit. Sovint les expectatives i el desig xoquen amb la realitat. La por, la culpa, la pressió social i la falta d'informació i d'acompanyament físic i emocional provoquen que moltes ho visquin amb frustració. Totes les lactàncies molen és un altaveu de la diversitat de formes de lactància i una crida per reivindicar-les totes. Recull el testimoni de trenta persones que expliquen la seva experiència i, a la vegada, inclou el coneixement de quinze expertes que resolen dubtes i ofereixen algunes claus per ajudar a establir la lactància amb èxit, ja sigui amb el pit, amb llet natural però en diferit o amb llet de fórmula i biberó. Un llibre per trencar mites i silencis que convida totes les persones a viure amb plenitud l'alletament.

El nostre sistema universitari, a més, ha apostat per la introducció de la perspectiva de gènere, de forma transversal, als estudis de Grau i de Postgrau que es duen a terme al país. L'objectiu del Congrés, impulsat per les regidories de Polítiques de Gènere i Universitats conjuntament amb representants dels estudis presents al Campus de Terrassa, ha estat contribuir a visibilitzar i posar en valor les aportacions de dones que treballen en diferents disciplines dels àmbits de la ciència, la tecnologia, la salut i especialment d'aquelles escoles presents al campus de Terrassa Universitària. Així mateix, fomentar l'accés i la participació de les nenes, noies i dones en els àmbits científics i tecnològics i integrar la perspectiva de gènere en totes les esferes de l'àmbit acadèmic i educatiu. Des de l'inici, es va plantejar un Congrés obert a tota la ciutadania, fet que ha provocat que es rebessin més de 65 comunicacions d'arreu de l'estat espanyol, un aforament ple amb gairebé 300 persones assistents, i més de 10 expertes que han moderat els 4 àmbits temàtics que s'han abordat al Congrés. Amb l'edició d'aquestes actes es tanca aquest primer Congrés i ara es posen les bases per tal que, a partir d'aquest, es treballi per al futur.

El conejo escuchó Cori Doerrfeld.2022-03-22 The Spanish paperback edition of the New York Times bestselling picture book about empathy and kindness, sure to soothe aches big and small. When something sad happens, Taylor doesn't know where to turn. All the animals are sure they have the answer. The chicken wants to talk it out, but Taylor doesn't feel like chatting. The bear thinks Taylor should get angry, but that's not quite right either. One by one, the animals try to tell Taylor how to act, and one by one they fail to offer comfort. Then the rabbit arrives. With its spare, poignant text translated into Spanish by Andrea Montejo and irresistibly sweet illustrations, *El conejo escuchó* is about how to comfort and heal the people in your life, by taking the time to carefully, lovingly, gently listen.

Lactivism Courtney Jung.2015-11-24 Social scientist and mother Courtney Jung explores the ever-expanding world of breastfeeding advocacy, shining a new light on the diverse communities who compose it, the dubious science behind it, and the pernicious public policies to which it has given rise. Is breast really best? Breastfeeding is widely assumed to be the healthiest choice, yet growing evidence suggests that its benefits have been greatly exaggerated. New moms are pressured by doctors, health officials, and friends to avoid the bottle at all costs—often at the expense of their jobs, their pocketbooks, and their well-being. In *Lactivism*, political scientist Courtney Jung offers the most deeply researched and far-reaching critique of breastfeeding advocacy to date. Drawing on her own experience as a devoted mother who breastfed her two children and her expertise as a social scientist, Jung investigates the benefits of breastfeeding and asks why so many people across the political spectrum are passionately invested in promoting it, even as its health benefits have been persuasively challenged. What emerges is an eye-opening story about class and race in America, the big business of breastfeeding, and the fraught politics of contemporary

Palabra de madre Ibone Olza.2022-02-24 ¿Qué es ser madre?

Palabra de madre parte de la historia personal de la autora, como madre y como profesional de la sanidad y activista, para plantear sus contradicciones e indecisiones en torno a la experiencia maternal, así como su desconcierto acerca de cómo los sistemas de salud de nuestra sociedad han ignorado y boicoteado la sabiduría reunida en relación con ella. «Me gustaría comprender qué clase de madre he sido. Captar, aunque sea de manera fugaz, el núcleo de mi experiencia maternal. Y así, de paso, comprender mejor la experiencia maternal en su sentido más amplio: la de todas las madres. Empecé a ser consciente de la profunda escisión, de cómo los sistemas de salud han ignorado a las madres y negado sus experiencias y conocimientos, y de cómo la ausencia de ese conocimiento maternal ha dado lugar a una ciencia sesgada y en muchos casos dañina. Todo ese conocimiento basado en la evidencia científica se estrella a diario contra la realidad de una sociedad heredera de décadas y siglos de desprecio hacia la maternidad.» Así, las circunstancias personales de cada madre, a menudo tortuosas y adversas, adquieren otro matiz cuando las analizamos desde lo histórico-social. «Mis circunstancias... Tendré que volver sobre ellas para lo que me propongo: comprender a la madre que fui y a la que ahora soy, con la esperanza de que tal vez sirva para entender y cuidar mejor al resto de las madres». Sobre Palabra de madre: «Todas las madres nos merecemos este libro. Porque todas sin excepción necesitamos estas palabras balsámicas para aplacar las soledades de la maternidad contemporánea. Ibone Olza nos regala un espejo de vivencias, luchas, intuiciones, dudas y cicatrices, que de tan propias se convierten en colectivas. Este libro viene a politizar la culpa endémica (y algunas otras heridas) que se nos inculca desde una sociedad profundamente maternofóbica. Y lo hace con toda la potencia de la ternura, la empatía radical y una catártica escritura». Silvia Nanclares, autora de Quién quiere ser madre «

The Global and Social Consequences of the COVID-19 Pandemic

Gottfried Schweiger.2022-06-30 This book directly addresses the social and economic consequences of the COVID-19 pandemic. It does so by focusing on both the immediate effects during the pandemic and the lockdowns, as well as the issues related to the long-term social consequences that are likely to result from the economic crisis in the coming years. To date, most philosophical essays and books have focused on the health aspects of the pandemic, and in particular on the fields of medical ethics and public health ethics. Containing a truly international and interdisciplinary group of scholars, a unique and global perspective is offered on the rarely discussed social and economic consequences of the pandemic. This book is of great interest to academic philosophers, but also to researchers from the social sciences.

Militant Lactivism? Charlotte Faircloth.2013-03-01 Following networks of mothers in London and Paris, the author profiles the narratives of women who breastfeed their children to full term, typically a period of several years, as part of an 'attachment parenting' philosophy. These mothers talk about their decision to continue breastfeeding as 'the natural thing to do': 'evolutionarily appropriate', 'scientifically best' and 'what feels right in their hearts'. Through a theoretical focus on knowledge claims and accountability, the author frames these accounts within a wider context of 'intensive parenting', arguing that parenting practices - infant feeding in particular - have become a highly moralized affair for mothers, practices which they feel are a critical aspect

of their 'identity work'. The book investigates why, how and with what implications some of these mothers describe themselves as 'militant lactivists' and reflects on wider parenting culture in the UK and France. Discussing gender, feminism and activism, this study contributes to kinship and family studies by exploring how relatedness is enacted in conjunction to constructions of the self. *Breastwork* Alison Bartlett.2005 Breastwork delivers an original and personal approach to a near-universal practice and doesn't shy from controversy or controversial topics, such as sexual desire and breastfeeding. It features a broad range of illustrations from Renaissance paintings of mother and child (Madonna del Latte) to Jerry Hall breastfeeding on the cover of Vanity Fair and Kate Langbroek breastfeeding on The Panel to a banned New Zealand health poster of a man breastfeeding at work.

Pero, una vez conquistado el derecho a no ser madres, tenemos pendiente reapropiarnos de la experiencia materna. Ya va siendo hora de que reivindicemos la maternidad como una tarea imprescindible y común, y rompamos el silencio acerca del embarazo, el parto, la pérdida gestacional, la lactancia y el cuidado. entenderse sen a perda da transmisión directa da experiencia de ser nai, acrecentada por dous feitos de alta incidencia en Galicia: o decrecemento progresivo da natalidade e o atraso da idade á que as mulleres teñen o seu primeiro fillo. Estes factores contribúen a explicar a transferencia dunha serie de modelos extraídos do mundo do traballo no réxime neoliberal ás tarefas da crianza. Explorar os novos dispositivos parentais, e as súas implicacións colectivas, é o principal obxectivo deste ensaio, que entra en diálogo con clásicos da literatura feminista, ao tempo que tenta explorar os límites da dimensión confesional do xénero.

Octavio Salazar Benítez.2018-12-19 Este libro supone un sólido punto de apoyo para comprender en profundidad adónde nos están conduciendo las nuevas tecnologías de la reproducción en un mundo gobernado por el patriarcado y el capitalismo en su versión neoliberal. Un mundo en que, como siempre, quienes tienen poder suficiente no está dispuestos a tolerar ningún límite a sus deseos. A costa de quien sea y como sea.La función de las mujeres como contenedores reproductivos viene de un largo pasado patriarcal, del poder de los padres. Hoy, sencillamente, estamos asistiendo a una nueva versión del uso de mujeres como “vasijas vacías” para la reproducción. Reproducción de la carga genética de personas que, por razones varias, o pueden o no quieren gestar en sus cuerpos. Estamos hablando de lo que se denomina “gestación subrogada”, “madres sustitutorias” o el nuevo mercado de “vientres de alquiler”. Estas denominaciones como se podrá ver a lo largo del libro no son indiferentes, están determinadas por una posición moral y política ante el caso.... Del prólogo de Ana de Miguel

Breastfeeding Patricia Stuart-Macadam.2017-09-29 Breastfeeding is a biocultural phenomenon: not only is it a biological process, but it is also a culturally determined behavior. As such, it has important implications for understanding the past, present, and future condition of our species. In general, scholars have emphasized either the biological or the cultural aspects of breastfeeding, but not both. As biological anthropologists the editors of this volume feel that an evolutionary approach combining both aspects is essential. One of the goals of their book is to incorporate data from diverse fields to present a more holistic view of breastfeeding, through the inclusion of research from a number of different disciplines, including biological and social/cultural anthropology, nutrition, and medicine. The resulting book, presenting the complexity of the issues surrounding very basic decisions about infant nutrition, will fill a void in the existing literature on breastfeeding.

The Nature of Birth and Breast-feeding Michel Odent.1992 The Nature of Birth and Breastfeeding has as its premise that in order to gain a truer understanding of the human experience, we must examine the way other mammals function during birth, breastfeeding, and parenting. Odent points out some customary procedures that becloud the approaches to childbirth in Western society. On the one hand, privacy and minimal intervention are key to the ideal birth environment, yet hospitals and the advent of high-tech obstetrics often dictate the opposite, with a result of higher cesarean and morbidity rates. Odent uncovers another irony - the proven need of mother and infant to receive support for an extensive period of breastfeeding may actually be endangered by the nuclear monogamous family structure.

Ante un contexto sombrío, se ofrece un panorama sobre medicina preventiva y otras alternativas. La salud es nuestro bien máspreciado, y lo ponemos todos los días en manos de otros: médicos, sanatorios, obras sociales, prepagas, laboratorios y farmacéuticas. ¿Pero cómo sabemos que recibimos el diagnóstico correcto? ¿Qué formación tiene ese médico que nos atiende? ¿Por qué existe tanta burocracia en las obras sociales y en las empresas de medicina prepaga? ¿Qué hay detrás de los valores del colesterol, que cambian constantemente? ¿Cómo se ocupa el Estado de la salud de todos? Después de años de investigación, Soledad Ferrari cuenta -sin dejar afuera su propia experiencia- cómo funciona el sistema de salud argentino, cómo estamos expuestos a la sobredosis de medicina y cuál es el negocio que se esconde, por ejemplo, detrás de la leche de fórmula y de las campañas contra el cáncer. Además, presenta posibilidades alternativas de prevención y cuidado en el marco de la medicina tradicional.

Esa nueva piel Eugenia Tobal.2022-05-01 «Un testimonio sin imposturas, sin falsos paraísos, sin espejismos. Eugenia Tobal recorre su propia historia, la de su embarazo, su gestación, su parto. E incluye el duelo, esa contradictoria lucha entre la vida y la muerte que nunca imagino vivir de forma tan prematura». Sonia Fides «Dos meses después del nacimiento de Ema, mi madre murió, así que mi soñada y flamante maternidad coincidió con un duelo que en este momento presiento eterno. Sin

embargo, qué mejor homenaje puedo brindarles a mi madre y a mi hija que reunir las tres en Esa nueva piel, prolongando el encuentro entre las tres, escribiendo nuestro linaje con palabras que van a perdurar en el tiempo». Así anuncia Eugenia Tobal el paisaje de su obra. El dolor por la pérdida de su madre y la felicidad por el nacimiento de su primera hija están presentes en cada página con la sutileza de una banda sonora, una melodía suave, honesta, sensible, que resuena por detrás de cada tema que el libro aborda. La propuesta de Esa nueva piel es demoler mitos y despejar ese suelo tan movedizo que pisamos en la maternidad y, sobre todo, vivirla sin culpas, sin miedos y con la verdad. Para ello, la autora no solo comparte su experiencia personal, sino que además les da voz a especialistas y a otras mujeres que llegaron a ser madres de diferentes maneras. La voz emotiva, íntegra y delicada de Tobal fluye en cada página, avanza, valiente, por los territorios más espinosos -la maternidad, la muerte, el nacimiento, el duelo- y nos invita a celebrar la vida mirándola siempre de frente.
