**Numbers and Nationhood** Silvana Patriarca.1996-10-03 *Numbers and Nationhood*, first published in 1996, explores the Italian inflection of a Europe-wide phenomenon in the nineteenth century: the rise of statistics as a mode of representation in society. Silvana Patriarca examines the ideologies which informed the copious statistical literature produced between the 1820s, when statistical publications began to proliferate in the Italian states, and the 1870s, when a unified Italy entered a fully positivistic era. Her innovative study illuminates the relationship between the needs of an emerging nation and the uses to which statistics were put, generating a long-lasting image of Italy which nevertheless accentuated its internal territorial divisions. By examining the power of numerical representations, *Numbers and Nationhood* provides a fresh reading of the historiography of Risorgimento Italy and of positivism, bringing to the fore issues of science, ideology, and representation.

**Robespierre** Peter McPhee.2012-03-13 For some historians and biographers, Maximilien Robespierre (1758–94) was a great revolutionary martyr who succeeded in leading the French Republic to safety in the face of overwhelming military odds. For many others, he was the first modern dictator, a fanatic who instigated the murderous Reign of Terror in 1793–94. This masterful biography combines new research into Robespierre's dramatic life with a deep understanding of society and the politics of the French Revolution to arrive at a fresh understanding of the man, his passions, and his tragic shortcomings. Peter McPhee gives special attention to Robespierre's formative years and the development of an iron will in a frail boy conceived outside wedlock and on the margins of polite provincial society. Exploring how these experiences formed the young lawyer who arrived in Versailles in 1789, the author discovers not the cold, obsessive Robespierre of legend, but a man of passion with close but platonic friendships with women. Soon immersed in revolutionary conflict, he suffered increasingly lengthy periods of nervous collapse correlating with moments of political crisis, yet Robespierre was tragically unable to step away from the crushing burdens of leadership. Did his ruthless, uncompromising exercise of power reflect a descent into madness in his final year of life? McPhee reevaluates the ideology and reality of the Terror, what Robespierre intended, and whether it represented an abandonment or a reversal of his early liberalism and sense of justice.

*Religion, Institutions and Society in Ancient Rome* John Scheid.2013-09-16 By opposing sectarian discourses with the universal weapons of history, philology and anthropology, in short, the entire arsenal of science and reason, the history of religions of the past enables us to deflate modern myths, and not only those of others but also our own. It allows us to identify the projection, in the imaginary past, of the “origins” of nationalist, religious or racist fantasies, and to disarm exaggerated interpretations of the sacred texts. Within nations inherited from the 19th century, ancient history can help to deconstruct the representation that nation states sometimes create of their past, by showing that despite their apparent proximity, their “ancestors”, often simply assumed to be so, were as distant from the current society as the inhabitants of the antipodes, and hardly resembled the image assigned to them. It enables us to challenge the “Greek miracle”, the “Roman genius”, the “Germanic superiority”, or the Hegelian dialectic professing that religions and history tend towards Christian monotheism.

**Garibaldi** Lucy Riall.2008-10-20 Giuseppe Garibaldi, the Italian revolutionary leader and popular hero, was among the best-known figures of the nineteenth century. This book seeks to examine his life and the making of his cult, to assess its impact, and understand its surprising success. For thirty years Garibaldi was involved in every combative event in Italy. His greatest moment came in 1860, when he defended a revolution in Sicily and provoked the collapse of the Bourbon monarchy, the overthrow of papal power in central Italy, and the creation of the Italian nation state. It made him a global icon, representing strength, bravery, manliness, saintliness, and a spirit of adventure. Handsome, flamboyant, and sexually attractive, he was worshiped in life and became a cult figure after his death in 1882. Lucy Riall shows that the emerging cult of Garibaldi was initially conceived by revolutionaries intent on overthrowing the status quo, that it was also the result of a collaborative effort involving writers, artists, actors, and publishers, and that it became genuinely and enduringly popular among a broad public. The book demonstrates that Garibaldi played an integral part in fashioning and promoting himself as a new kind of “charismatic” political hero. It analyzes the way the Garibaldi myth has been harnessed both to legitimize and to challenge national political structures. And it identifies elements of Garibaldi’s political style appropriated by political leaders around the world, including Mussolini and Che Guevara.

Fact and Relevance Michael Moïsey Postan.1971-01-02 A collection of fourteen essays in which Professor Postan draws together for the first time his contributions to the debate on historical method, and discusses from a variety of different angles, the inter-relation of history and the social sciences. After making, in his first three essays, a direct statement of his point of view, the author deals with two main aspects of the subject: time sequences and theoretical relevance of facts. He then proceeds to exemplify his point of view more particularly with relation to macro-economics and to certain specific issues within economic history as well as to economic history in general. In the final two chapters, one is on Karl Marx, the other on Hugh Gaitskell, he seeks to describe the intellectual climate in which the debate on methodology was held and in which his opinions on the subject were formed. The essays contained in this book will be of interest to all those involved in the social sciences, economics and history, as well as to those specifically concerned with historical methodology.

From Mutual Observation to Propaganda War Malte Griesse.2014-03-31 The Arab spring, protest movements in the EU, Russia, Turkey or elsewhere, are often labeled as twitter-revolutions. A crucial role is attributed to the new media, coverage of events abroad and ensuing mutual reactions. With the dissemination of print, revolts in early-modern times faced the challenge of a similar media-revolution. This influenced the very face of the events that could become full-fledged propaganda wars once the insurgents had won access to the printing press. But it also had an impact on revolt-narratives. Governments severely persecuted dissident views in such delicate issues as revolts. Observers abroad had no such divided loyalties and were freer to reflect upon the events. Therefore, the book focuses mainly on representations of revolts across borders.

**Conflict, Security and the Reshaping of Society** Alessandro Dal Lago,Salvatore Palidda.2010-07-13 A PDF version of this book is available for free in open access via [www.tandfebooks.com](http://www.tandfebooks.com) as well as the OAPEN Library platform, [www.oapen.org](http://www.oapen.org). It has been made available under a Creative Commons Attribution-Non Commercial-No Derivatives 3.0 license and is part of the OAPEN-UK research project. This book is an examination of the effect of contemporary wars (such as the 'War on Terror') on civil life at a global level. Contemporary literature on war is mainly devoted to recent changes in the theory and practice of warfare, particular those in which terrorists or insurgents are involved (for example, the 'revolution in military affairs', 'small wars', and so on). On the other hand, today's research on security is focused, among other themes, on the effects of the war on terrorism, and on civil liberties and social control. This volume connects these two fields of research, showing how 'war' and 'security' tend to exchange targets and forms of action as well as personnel (for instance, the spreading use of private contractors in wars and of military experts in the 'struggle for security') in modern society. This shows how, contrary to Clausewitz's belief war should be conceived of as a continuation of politics by other means, the opposite statement is also true: that politics, insofar as it concerns security, can be defined as the 'continuation of war by other means'. This book will be of much interest to students of critical security studies, war and conflict studies, terrorism studies, sociology and IR in general. Salvatore Palidda is Professor of Sociology in the Faculty of Education at the University of Genoa. Alessandro Dal Lago is Professor of Sociology of Culture and Communication at the University of Genoa.

Sicily and the Unification of Italy Lucy Riall.1998-03-12 This is the first in-depth analysis of the impact of Italian unification on the hitherto isolated communities of rural Sicily. Traditional explanations of Sicily's instability depict a society trapped by a feudal past. Lucy Riall finds instead that many areas of the island were experiencing a period of rapid modernization, as local government increased their organizational efforts. Beginning with the period prior to the revolution of 1860, Dr Riall shows why successive attempts at political reform failed, and analyses the effects of this failure. She describes the bitter and violent conflict between rival elites and the mounting tide of peasant unrest which together threatened the status quo within the isolated communities of the Sicilian interior. Through an examination of the problems of local government - tax collection, conscription, the organization of policing - and of attempts to suppress peasant disturbances and control crime, she shows that the modernization of the Sicilian countryside both undermined the control of the central government and made the countryside itself more unstable.

*The Moments We Stand* Ashlee Birk,Kathy Campbell.2014-07-30 My name is Ashlee. I am a victim of murder. Through a series of events and by two shots of a gun, I was made a widow at the age of 28, with my youngest child just six weeks old. I am a victim of infidelity. I have felt unlovable. I have felt rejected. I have had days in my life when I wasn't sure if I would ever take a breath again, let alone be able to raise my five children by myself. I have lived in fear. I have felt much heartache. I have felt truly broken to my core. I have carried some heavy burdens...not only of my own, but burdens put upon my shoulders by the death of my husband. I have felt alone. I have felt humiliated. I have been humbled to my knees. I have searched my soul to find my worth in this world, and in the life that was left for me. My world has been totally shattered. I have faced realities I never knew were possible, and found strength within myself to keep up the fight and live every day as if it was on purpose. I have been carried by Angels...both earthly beings and those unseen. I have found that being a victim doesn't mean we have an excuse to stop living. Being a victim means finding a reason for seeking a higher road. I have picked up the pieces left and carried on. I am a mother. We are survivors. In one way or another, we are all victims. There are times in our lives when we are forced to question who we are at our core. When we are presented with a path...we can go this way or we can choose that way. For some, this moment comes when the one person whom we love the most decides we are not enough. This person leave us-at a most vulnerable moment-alone to search within ourselves for who we really are. We are left trying to find who it is that was left behind. Sometimes the person we love dies. Sometimes it is merely an internal battle we are facing...all alone inside our minds. Whatever the situation and wherever you have been...you have been hurt. You have felt alone. You have been abandoned, either by your parents, your lover, your friends, complete strangers, or even yourself. We have all been at that crossroad where all we have left is ourselves. Sometimes these moments of lows have brought you to your knees and caused you to reflect and ponder your relationship with God...and other times they have made you question if He is even there, or if He knows you are alone. Whatever that moment has been for you, it is personal and real. It has defined and refined who you are, who you think you were, and who you want to become. This is my story...the defining moments that have truly brought me to my knees, the times when I've questioned to my core my very existence, and the experiences I've had that have shown me who I really am and who my Heavenly Father still needs me to become. The night of my husband's death was my darkest hour, but also the very moment when I saw firsthand that my Heavenly Father sent Angels on errands for me. He carried me. It was the hour when all my fears and all the pain of this world collided together and He was there...putting back together all the pieces, one step at a time.

*Gunpowder & Galleys* John Francis Guilmartin.2003 Lauded as one of the finest books in the field of naval history, this comprehensive account of sixteenth century galley warfare includes detailed descriptions of all major actions in the Mediterranean and around the Arabian peninsula. First published in 1974 and recently revised the work is packed with technological insights into the strategy and tactics of galley warfare between the Ottoman Empire and its Spanish and Portuguese opponents. Among the many facets author John Guilmartin discusses are how the strategic

considerations in gallery warfare are substantially different from those in campaigns involving galleons or ships of the line, why the 1571 victory at Lepanto failed to have any-long term strategic consequences, and how the arquebus and musket proved more suitable for action aboard ship than the crossbow or Turkish composite bow. This updated edition also includes new research into the orders of battle and ballistics, gunnery, and cannon founding.

**Socialism of Fools** Michele Battini.2016-04-05 In *Socialism of Fools*, Michele Battini focuses on the critical moment during the Enlightenment in which anti-Jewish stereotypes morphed into a sophisticated, modern social anti-Semitism. He recovers the potent anti-Jewish, anticapitalist propaganda that cemented the idea of a Jewish conspiracy in the European mind and connects it to the atrocities that characterized the Jewish experience in the nineteenth and twentieth centuries. Beginning in the eighteenth century, counter-Enlightenment intellectuals and intransigent Catholic writers singled out Jews for conspiring to exploit self-sustaining markets and the liberal state. These ideas spread among socialist and labor movements in the nineteenth century and intensified during the Long Depression of the 1870s. Anti-Jewish anticapitalism then migrated to the Habsburg Empire with the Christian Social Party; to Germany with the Anti-Semitic Leagues; to France with the nationalist movements; and to Italy, where Revolutionary Syndicalists made anti-Jewish anticapitalism the basis of an alliance with the nationalists. Exemplified best in the Protocols of the Elders of Zion, the infamous document that leaked Jewish plans to conquer the world, the Jewish-conspiracy myth inverts reality and creates a perverse relationship to historical and judicial truth. Isolating the intellectual roots of this phenomenon and its contemporary resonances, Battini shows us why, so many decades after the Holocaust, Jewish people continue to be a powerful political target.

*A Classical Tour Through Italy and Sicily* Sir Richard Colt Hoare.1819 After the death of his wife, antiquarian Sir Richard Colt Hoare (1758-1838) left his only child in England and embarked on a series of journeys through continental Europe in pursuit of 'novelty, pleasure and information' in order to assuage his grief. At the end of the 1780s he deliberately diverged from the more conventional tourist trail in favour of a route through the then less-documented areas of Italy and down into Sicily, using classical authors as his guides. This work, first published in 1819, draws heavily on his daily journal entries to elucidate areas and points of interest that he felt had been overlooked in previous guides to Italy. Quotations from Horace, Tacitus and Pliny pertaining to ancient sites and practices are frequently included in Hoare's narrative, and he meticulously recreates the journey from Rome to Brundisium described by Horace in his Satires.

*History of Law and Other Humanities.Views of the legal world across the time* Valerio Massimo Minale, Virginia Amorosi.2019-07-09 The collection of essays presented here examines the links forged through the ages between the realm of law and the expressions of the humanistic culture. We collected thirty-five essays by international scholars and organized them into sections of ten chapters based around ten different themes. Two main perspectives emerged: in some articles the topic relates to the conventional approach of law and/in humanities (iconography, literature, architecture, cinema, music), other articles are about more traditional connections between fields of knowledge (in particular, philosophy, political experiences, didactics). We decided not to confine authors to one particular methodological framework, preferring instead to promote historiographical openness. Our intention was to create a patchwork of different approaches, with each article drawing on a different area of culture to provide a new angle to the history being told. The variety of authorial nationalities gives the collection a multicultural character and the breadth of the chronological period it deals with from antiquity to the contemporary age adds further depth of insight. As the element that unites the collection is historiographical interpretation, we wanted to bring to the fore its historical depth. Thus for every chapter we organized the articles in chronological order according to the historical context covered. Looking at the final outcome, it was interesting to learn that more often than not the connection between law and humanities is not simply a relation between a specific branch of the law and a single field of the humanities, but rather a relation that could be developed in many directions at once, involving different fields of knowledge, and of arts and popular culture. We are grateful to Luigi Lacchè for his contribution to this collection. His essay outlines the coordinates of the law and humanities world, laying out the instruments necessary for an understanding of the origins of a complex methodology and the different approaches that exist within it. This project is the result of discussions that took place during the XXIII Forum of the Association of Young Legal Historians held in Naples in the spring of 2017. The book was made possible thanks to the advice and support of Cristina Vano. The Editors
