Bonapartists in the Borderlands Rafe Blaufarb.2016-11-15 Discusses the ill-fated Vine and Olive Colony within the context of America's westward expansion and the French Revolution Bonapartists in the Borderlands recounts how Napoleonic exiles and French refugees from Europe and the Caribbean joined forces with Latin American insurgents, Gulf pirates, and international adventurers to seek their fortune in the Gulf borderlands. The U.S. Congress welcomed the French to America and granted them a large tract of rich Black Belt land near Demopolis, Alabama, on the condition that they would establish a Mediterranean-style Vine and Olive colony. This book debunks the standard account of the colony, which stresses the failure of the aristocratic, luxury-loving French to tame the wilderness. Instead, it shows that the Napoleonic officers involved in the colony sold their land shares to speculators to finance an even more perilous adventure--invading the contested Texas borderlands between Spain and the U.S. Their departure left the Vine and Olive colony in the hands of French refugees from the Haitian slave revolt. While they soon abandoned vine cultivation,

they successfully recast themselves as prosperous, slaveholding cotton growers and gradually fused into a new elite with newly arrived Anglo-American planters. Rafe Blaufarb examines the underlying motivations and aims that inspired this endeavor and details the nitty-gritty politics, economics, and backroom bargaining that resulted in the settlement. He employs a wide variety of local, national, and international resources: from documents held by the Alabama State Archives, Marengo County court records, and French-language newspapers published in America to material from the War Ministry Archives at Vincennes, the Diplomatic Archives at the Quai d'Orsay, and the French National Archives.
