First Day Critter Jitters Jory John. 2020-07-07 First-day-of-school jitters have never been funnier or more reassuring than in this picture book by the New York Times bestselling author Jory John and critically acclaimed illustrator Liz Climo. It's almost the first day of school, and the animals are nervous. Sloth worries about getting there on time, snake can't seem to get his backpack fastened onto his body, and bunny is afraid she'll want to hop around instead of sitting still. When they all arrive at their classroom, though, they're in for a surprise: Somebody else is nervous too. It's their teacher, the armadillo! He has rolled in as a ball, and it takes him a while to relax and unfurl. But by the next day, the animals have all figured out how to help one another through their jitters. School isn't so scary after all.

Diverse Stories Lou Richie's Sixth Grade Class.2006-11 But what I also know is that writing allows students to explore and reveal how they view life based on their frames of references. There is no common theme in the *Diverse Stories: From the Imaginations of Sixth Graders* because the students were allowed to write about whatever they wanted. How refreshing! The stories are equally as unique as the individual writers: some melancholy, some funny, some breathtaking, all fantastic. - Mary B. Morrison, bestselling author of *Nothing Has Ever Felt Like This* This charming collection of short stories shares the talents of Lou Richie's sixth grade students from St. Lawrence O'Toole School in Oakland, California. *Diverse Stories: From the Imaginations of Sixth Graders* was developed as a class project when Richie requested that each student write a short story. Impressed by their creativity and imagination, Richie sought to share their stories with the world. He approached bestselling author Mary B. Morrison about the project, and Morrison offered to fully sponsor the publication of their stories. Through the combined efforts of the students, Morrison, and Richie, *Diverse Stories: From the Imaginations of Sixth Graders* was born.

Teaching Stories Judy Logan.2010-08-10 When nearly everyone else is telling kids no—No, do it this way....No, I don't want to hear what you think....No, sit down and pay attention—Judy Logan says yes, to a child's passions, interests, and hopes. The results have been news-making; her students blossom academically, winning essay contests, prizes, and entrance to the country's best colleges. Armed with a strong sense of who they are and what they think, her students also blossom personally—resisting peer pressure, understanding racial and gender stereotypes, and connecting to the world in which they live. Drawing on over thirty years knee deep in adolescence as a teacher in a public middle school, Judy Logan shows that it is the very vulnerability of adolescence that makes it a time of tremendous opportunity for emotional, intellectual, and social growth. Uniting creativity and compassion, Logan's vivid classroom stories bring into focus for all parents numerous effective strategies for working with adolescents. Above all, Judy Logan is a compelling storyteller who loves and respects her students and the work of learning. Eye-opening and inspirational, the stories she has to tell take the simple human drama of day-to-day classroom life and create an all-embracing vision of the possibilities of public education in America.

A Case for Teaching Literature in the Secondary School Janet Alsup.2015-04-17 Taking a close look at the forces that affect English education in schools—at the ways literature, cognitive science, the privileging of the STEM disciplines, and current educational policies are connected—this timely book counters with a strong argument for the importance of continuing to teach literature in middle and secondary classrooms. The case is made through critical examination of the ongoing culture wars between the humanities and the sciences, recent research in cognitive literary studies demonstrating the power of narrative reading, and an analysis of educational trends that have marginalized literature teaching in the U.S., including standards-based and scripted curricula. The book is distinctive in presenting both a synthesis of arguments for literary study in the middle and high school and sample lesson plans from practicing teachers exemplifying how literature can positively influence adolescents' intellectual, emotional, and social selves.

Executive Functions and Writing Teresa Limpo,Thierry Olive.2021-06-30 Executive functions are a set of cognitive processes we use to act on information, manage resources, and plan and monitor our own behaviour, all with the aim of achieving an end goal. These are skills that develop from infancy. While 'reading' has been extensively studied in psychology literature, 'writing' has been somewhat neglected, despite a lack of capability in this area being linked to poverty and social exclusion. This book is the first comprehensive and state-of-the-art review of the relationship between executive function skills and writing. It explores its role across the lifespan, addressing all groups of writers, from children and those with learning and language difficulties, to adults and

elders. It considers theoretical viewpoints, assessment and methodological issues, and developmental disorders, and closes with insightful commentary chapters that draw future directions for investigating executive functions. Written by internationally recognized scholars in the field, this is a new and innovative contribution which will provide essential reading among researchers, educators, and graduate students interested in understanding the cognitive underpinnings of writing throughout the lifespan

Chivalric Stories as Children's Literature Velma Bourgeois Richmond.2014-09-18 Knights and ladies, giants and dragons, tournaments, battles, quests and crusades are commonplace in stories for children. This book examines how late Victorians and Edwardians retold medieval narratives of chivalry—epics, romances, sagas, legends and ballads. Stories of Beowulf, Arthur, Gawain, St. George, Roland, Robin Hood and many more thrilled and instructed children, and encouraged adult reading. Lavish volumes and schoolbooks of the era featured illustrated texts, many by major artists. Children's books, an essential part of Edwardian publishing, were disseminated throughout the English-speaking world. Many are being reprinted today. This book examines related contexts of Medievalism expressed in painting, architecture, music and public celebrations, and the works of major authors, including Sir Walter Scott, Tennyson, Longfellow and William Morris. The book explores national identity expressed through literature, ideals of honor and valor in the years before World War I, and how childhood reading influenced 20th-century writers as diverse as C. S. Lewis, J. R. R. Tolkien, Siegfried Sassoon, David Jones, Graham Greene, Ian Fleming and John Le Carré.
