Fluent Forever Gabriel Wyner.2014-08-05 NATIONAL BESTSELLER • For anyone who wants to learn a foreign language, this is the method that will finally make the words stick. “A brilliant and thoroughly modern guide to learning new languages.”—Gary Marcus, cognitive psychologist and author of the New York Times bestseller *Gitars Zero* At thirty years old, Gabriel Wyner speaks six languages fluently. He didn’t learn them in school—who does? Rather, he learned them in the past few years, working on his own and practicing on the subway, using simple techniques and free online resources—and here he wants to show others what he’s discovered. Starting with pronunciation, you’ll learn how to rewire your ears and turn foreign sounds into familiar sounds. You’ll retrain your tongue to produce those sounds accurately, using tricks from opera singers and actors. Next, you’ll begin to tackle words, and connect sounds and spellings to imagery rather than translations, which will enable you to think in a foreign language. And with the help of sophisticated spaced-repetition techniques, you’ll be able to memorize hundreds of words a month in minutes every day. This is brain hacking at its most exciting, taking what we know about neuroscience and linguistics and using it to create the most efficient and enjoyable way to learn a foreign language in the spare minutes of your day.

English by the Nature Method Arthur M Jensen.2021-02-23 English by the by Nature Method. The aim of the natural approach is to develop communicative skills, and it is primarily intended to be used with beginning learners.It is presented as a set of principles that can apply to a wide range of learners and teaching situations, and concrete objectives depend on the specific context in which it is used.Terrell outlines three basic principles of the approach: Focus of instruction is on communication rather than its form. Speech production comes slowly and is never forced. Early speech goes through natural stages (yes or no response, one-word answers, lists of words, short phrases, complete sentences.)These principles result in classrooms where the teacher emphasizes interesting, comprehensible input and low-anxiety situations.
