Insurgent Aesthetics Ronak K. Kapadia.2019-10-25 In *Insurgent Aesthetics* Ronak K. Kapadia theorizes the world-making power of contemporary art responses to US militarism in the Greater Middle East. He traces how new forms of remote killing, torture, confinement, and surveillance have created a distinctive post-9/11 infrastructure of racialized state violence. Linking these new forms of violence to the history of American imperialism and conquest, Kapadia shows how Arab, Muslim, and South Asian diasporic multimedia artists force a reckoning with the US war on terror's violent destruction and its impacts on immigrant and refugee communities. Drawing on an eclectic range of visual, installation, and performance works, Kapadia reveals queer feminist decolonial critiques of the US security state that visualize subjugated histories of US militarism and make palpable what he terms "the sensorial life of empire." In this way, these artists forge new aesthetic and social alliances that sustain critical opposition to the global war machine and create alternative ways of knowing and feeling beyond the forever war.

Through the Lens of Cultural Awareness Combat Studies Institute Press,William D Wunderle.2019-07-08 Conducting the Global War on Terrorism (GWOT) and projecting United States (US) influence worldwide has meant an increasing number of US diplomats and military forces are assigned to locations around the world, some of which have not previously had a significant US presence. In the current security environment, understanding foreign cultures and societies has become a national priority. Cultural understanding is necessary both to defeat adversaries and to work successfully with allies.

World Report on Road Traffic Injury Prevention Marjorie Peden.2008-09 Every day thousands of people are killed and injured on our roads. Millions of people each year will spend long weeks in the hospital after severe crashes and many will never be able to live, work or play as they used to do. Current efforts to address road safety are minimal in comparison to this growing human suffering. This report presents a comprehensive overview of what is known about the magnitude, risk factors and impact of road traffic injuries, and about ways to prevent and lessen the impact of road crashes. Over 100 experts, from all continents and different sectors -- including transport, engineering, health, police, education and civil society -- have worked to produce the report. Charts and tables.

Arab Cultural Awareness U. S. Army Training and Doctrine Command.2006-12-04 This handbook is designed to specifically provide the trainer a 'hip pocket training' resource. It is intended for informal squad or small group instruction. The goal is to provide soldiers with a basic overview of Arab culture. It must be emphasized that there is no one Arab culture or society. The Arab world is full of rich and diverse communities, groups and cultures. Differences exist not only among countries, but within countries as well. Caveat: It is impossible to talk about groups of people without generalizing. It then follows that it is hard to talk about the culture of a group without generalizing. This handbook attempts to be as accurate and specific as possible, but inevitably contains such generalizations. Treat these generalizations with caution and wariness. They do provide insight into a culture, but the accuracy and usefulness will depend on the context and specific circumstances.

A History of Saudi Arabia Madawi al-Rasheed.2002-07-11 Saudi Arabia is a wealthy and powerful country which wields influence in the West and across the Islamic world. Yet it remains a closed society. Its history in the twentieth century is dominated by the story of state formation. After the collapse of the Ottoman Empire, Ibn Sa'ud fought a long campaign to bring together a disparate people from across the Arabian peninsula. In 1932 the Kingdom of Saudi Arabia was born. Madawi al-Rasheed traces its extraordinary history from the age of emirates in the nineteenth century, through the 1990 Gulf War, to the present day. She fuses chronology with analysis, personal experience with oral histories, and draws on local and foreign documents to illuminate the social and cultural life of the Saudis. This is a rich and rewarding book which will be invaluable to students, and to all those trying to understand the enigma of Saudi Arabia.

Parenting Matters National Academies of Sciences, Engineering, and Medicine,Division of Behavioral and Social Sciences and Education,Board on Children, Youth, and Families,Committee on Supporting the Parents of Young Children.2016-11-21 Decades of research have demonstrated that the parent-child dyad and the environment of the family— which includes all primary caregivers—are at the foundation of children's well-being and healthy development. From birth, children are learning and rely on parents and the other caregivers in their lives to protect and care for them. The impact of parents may never be greater than during the earliest years of life, when a child's brain is rapidly developing and when nearly all of her or his experiences are created and shaped by parents and the family environment. Parents help children build and refine their knowledge and skills, charting a trajectory for their health and well-being during childhood and beyond. The experience of parenting also impacts parents themselves. For instance, parenting can enrich and give focus to parents' lives; generate stress or calm; and create any number of emotions, including feelings of happiness, sadness, fulfillment, and anger. Parenting of young children today takes place in the context of significant ongoing developments. These include: a rapidly growing body of science on early childhood, increases in funding for programs and services for families, changing demographics of the U.S. population, and greater diversity of family structure. Additionally, parenting is increasingly being shaped by technology and increased access to information about parenting. *Parenting Matters* identifies parenting knowledge, attitudes, and practices associated with positive developmental outcomes in children ages 0-8; universal/preventive and targeted strategies used in a variety of settings that have been effective with parents of young children and that support the identified knowledge, attitudes, and practices; and barriers to and facilitators for parents' use of practices that lead to healthy child outcomes as well as their participation in effective programs and services. This report makes recommendations directed at an array of stakeholders, for promoting the wide-scale adoption of effective programs and services for parents and on areas that warrant further research to inform policy and practice. It is meant to serve as a roadmap for the future of parenting policy, research, and practice in the United States.

Life as Politics Asef Bayat.2013-05-01 Prior to 2011, popular imagination perceived the Muslim Middle East as unchanging and unchangeable, frozen in its own traditions and history. In *Life as Politics*, Asef Bayat argues that such presumptions fail to recognize the routine, yet important, ways in which ordinary people make meaningful change through everyday actions. First published just months before the Arab Spring swept across the region, this timely and prophetic book sheds light on the ongoing acts of protest, practice, and direct daily action. The second edition includes three new chapters on the Arab Spring and Iran's Green Movement and is fully updated to reflect recent events. At heart, the book remains a study of agency in times of constraint. In addition to ongoing protests, millions of people across the Middle East are effecting transformation through the

discovery and creation of new social spaces within which to make their claims heard. This eye-opening book makes an important contribution to global debates over the meaning of social movements and the dynamics of social change.

Congressional Record United States. Congress.2000 The Congressional Record is the official record of the proceedings and debates of the United States Congress. It is published daily when Congress is in session. The Congressional Record began publication in 1873. Debates for sessions prior to 1873 are recorded in The Debates and Proceedings in the Congress of the United States (1789-1824), the Register of Debates in Congress (1824-1837), and the Congressional Globe (1833-1873)

Introducing Intercultural Communication Shuang Liu,Zala Volcic,Cindy Gallois.2010-11-09 Books on intercultural communication are rarely written with an intercultural readership in mind. In contrast, this multinational team of authors has put together an introduction to communicating across cultures that uses examples and case studies from around the world. The book further covers essential new topics, including international conflict, social networking, migration, and the effects technology and mass media play in the globalization of communication. Written to be accessible for international students too, this text situates communication theory in a truly global perspective. Each chapter brings to life the links between theory and practice and between the global and the local, introducing key theories and their practical applications. Along the way, you will be supported with first-rate learning resources, including: • theory corners with concise, boxed-out digests of key theoretical concepts • case illustrations putting the main points of each chapter into context • learning objectives, discussion questions, key terms and further reading framing each chapter and stimulating further discussion • a companion website containing resources for instructors, including multiple choice questions, presentation slides, exercises and activities, and teaching notes. This book will not merely guide you to success in your studies, but will teach you to become a more critical consumer of information and understand the influence of your own culture on how you view yourself and others.

Handbook of Healthcare in the Arab World Ismail Laher.2021-08-11 This handbook examines health and medical care in the Arab world from a systems biology approach. It features comprehensive coverage that includes details of key social, environmental, and cultural determinants. In addition, the contributors also investigate the developed infrastructure that manages and delivers health care and medical solutions throughout the region. More than 25 sections consider all aspects of health, from cancer to hormone replacement therapy, from the use of medications to vitamin deficiency in emergency medical care. Chapters highlight essential areas in the wellbeing and care of this population. These topics include women's health care, displaced and refugee women's health needs, childhood health, social and environmental causes of disease, health systems and health management, and a wide range of diseases of various body systems. This resource also explores issues related to access and barriers to health delivery throughout the region. Health in the Arab world is complex and rapidly changing. The health burden in the region is distributed unevenly based on gender, location, as well as other factors. In addition, crises such as armed conflicts and an expanding migrant population place additional stress on systems and providers at all levels. This timely resource will help readers better understand all these major issues and more. It will serve as an ideal guide for researchers in various biological disciplines, public health, and regulatory agencies.

World Cities Report 2016 UN-HABITAT.2016-07-14 The analysis of urban development of the past twenty years presented in this maiden edition of the World Cities Report shows, with compelling evidence, that there are new forms of collaboration and cooperation, planning, governance, finance and learning that can sustain positive change. The Report unequivocally demonstrates that the current urbanization model is unsustainable in many respects. It conveys a clear message that the pattern of urbanization needs to change in order to better respond to the challenges of our time, to address issues such as inequality, climate change, informality, insecurity, and the unsustainable forms of urban expansion.

Textbook of Cultural Psychiatry Dinesh Bhugra,Kamaldeep Bhui.2018-04-05 Cultural psychiatry deals with the impact of culture on causation, perpetuation and treatment of patients suffering with mental illness. The role of culture in mental illness is increasingly being recognised, and the misconceptions that can occur as a result of cultural differences can lead to misdiagnoses, under or over-diagnosis. This second edition of the Textbook of Cultural Psychiatry has been completely updated with additional new chapters on globalisation and mental health, social media and tele-psychiatry. Written by world-leading experts in the field, this new edition provides a framework for the provision of mental health care in an increasingly globalised world. The first edition of the Textbook of Cultural Psychiatry was commended in the BMA Book Awards in 2008 and was the recipient of the 2012 Creative Scholarship Award from the Society for the Study of Psychiatry and Culture.

Communities in Action National Academies of Sciences, Engineering, and Medicine,Health and Medicine Division,Board on Population Health and Public Health Practice,Committee on Community-Based Solutions to Promote Health Equity in the United States.2017-04-27 In the United States, some populations suffer from far greater disparities in health than others. Those disparities are caused not only by fundamental differences in health status across segments of the population, but also because of inequities in factors that impact health status, so-called determinants of health. Only part of an individual's health status depends on his or her behavior and choice; community-wide problems like poverty, unemployment, poor education, inadequate housing, poor public transportation, interpersonal violence, and decaying neighborhoods also contribute to health inequities, as well as the historic and ongoing interplay of structures, policies, and norms that shape lives. When these factors are not optimal in a community, it does not mean they are intractable: such inequities can be mitigated by social policies that can shape health in powerful ways. Communities in Action: Pathways to Health Equity seeks to delineate the causes of and the solutions to health inequities in the United States. This report focuses on

what communities can do to promote health equity, what actions are needed by the many and varied stakeholders that are part of communities or support them, as well as the root causes and structural barriers that need to be overcome.

Decolonised and Developmental Social Work Raj Yadav.2019-04-01 This is the first book to cover existing debates on decolonising and developmental social work whilst equipping readers with the understanding of how to translate the idea of decolonisation of social work into practice. Using new empirical data and an extensive detail of social, cultural, and political dimensions of Nepal, the author proposes a new model of 'decolonised and developmental social work' that can be applicable to a wide range of countries and cultures. By using interviews with Nepali social workers, this text goes beyond mere theoretical approaches and uniquely positions itself in a way that embraces rigorous bottom-up, grounded theory method. It will also further ongoing debates on globalisation-localisation, universalisation-contextualisation, outsider-insider perspectives, neoliberal-rights and justice oriented social work, and above all, colonisation-decolonisation of social work knowledge and practice. It also promotes solidarity of, and the struggle for, progress for those in the margins of Western social work and development narrative through an emerging theory-praxis of decolonised and developmental social work. Decolonised and Developmental Social Work is essential reading for students, academics, and researchers of social work and development studies, as well as those striving for a decolonial worldview.

World Atlas of Gender Equality in Education Edward B. Fiske.2012-01-01 The education of girls and women is important not only as a matter of respecting a basic human right for half the population but as a powerful force for economic development and achieving social goals such as enhanced health, nutrition and civic involvement. This Atlas presents the latest data from the UNESCO Institute for Statistics on trends in educational access and progression, from pre-primary through tertiary levels and adult literacy, with special attention to the all-important issue of gender equality. These trends are depicted through colour-coded maps that make it easy for readers to visualize global and regional trends and to understand how they are shaped by factors such as national wealth and geographic location. -- P. Women, Business and the Law 2021 World Bank.2021-04-05 Women, Business and the Law 2021 is the seventh in a series of annual studies measuring the laws and regulations that affect women's economic opportunity in 190 economies. The project presents eight indicators structured around women's interactions with the law as they move through their lives and careers: Mobility, Workplace, Pay, Marriage, Parenthood, Entrepreneurship, Assets, and Pension. This year's report updates all indicators as of October 1, 2020 and builds evidence of the links between legal gender equality and women's economic inclusion. By examining the economic decisions women make throughout their working lives, as well as the pace of reform over the past 50 years, Women, Business and the Law 2021 makes an important contribution to research and policy discussions about the state of women's economic empowerment. Prepared during a global pandemic that threatens progress toward gender equality, this edition also includes important findings on government responses to COVID-19 and pilot research related to childcare and women's access to justice.

Women's Rights in the Middle East and North Africa Sanja Kelly,Julia Breslin.2010-07-16 Freedom House's innovative publication Women's Rights in the Middle East and North Africa: Progress Amid Resistance analyzes the status of women in the region, with a special focus on the gains and setbacks for women's rights since the first edition was released in 2005. The study presents a comparative evaluation of conditions for women in 17 countries and one territory: Algeria, Bahrain, Egypt, Iran, Iraq, Jordan, Kuwait, Lebanon, Libya, Morocco, Oman, Palestine (Palestinian Authority and Israeli-Occupied Territories), Qatar, Saudi Arabia, Syria, Tunisia, United Arab Emirates, and Yemen. The publication identifies the causes and consequences of gender inequality in the Middle East, and provides concrete recommendations for national and international policymakers and implementers. Freedom House is an independent nongovernmental organization that supports democratic change, monitors freedom, and advocates for democracy and human rights. The project has been embraced as a resource not only by international players like the United Nations and the World Bank, but also by regional women's rights organizations, individual activists, scholars, and governments worldwide. Women's rights in each country are assessed in five key areas: (1) Nondiscrimination and Access to Justice; (2) Autonomy, Security, and Freedom of the Person; (3) Economic Rights and Equal Opportunity; (4) Political Rights and Civic Voice; and (5) Social and Cultural Rights. The methodology is based on the Universal Declaration of Human Rights, and the study results are presented through a set of numerical scores and analytical narrative reports.

State of Disrepair Kori N. Schake.2013-09-01 Kori Schake shows how the deficiencies in focus, education, and programmatic proficiency impede the work of the State Department and suggests how investing in those areas could make the agency significantly more successful at building stable and prosperous democratic governments around the world. She explains why, instead of burdening the US military with yet another inherently civilian function, work should focus on bringing those agencies of the government whose job it is to provide development assistance up to the standard of success that our military has achieved. Schake presents a vision of what a successful State Department should look like and seeks to build support for creating it—a State Department that makes possible the projection of US civilian power as well as US military force.

Shame 4.0 Claude-Hélène Mayer,Elisabeth Vanderheiden,Paul T. P. Wong.2021-07-21 This edited volume provides new perspectives on how shame is experienced and transformed within digital worlds and Industry 4.0. The editors and authors discuss how individuals and organisations can constructively transform shame at work, in professional and private contexts, and with regard to socio-cultural lifestyle changes, founded in digitalisation and Industry 4.0. The contributions in this volume enable researchers and practitioners alike to unlock the topic of shame and its specifics in the highly dynamic and rapidly changing times to explore this emotion in depth in connection with remote workplaces, home office, automated realities and smart systems, or digitalised life- and working styles. By employing transdisciplinary and transcultural perspectives, the volume further discusses shame in the context of new lifestyles, religion, gender, sexual suppression, mental illness, and the nature of citizenship. Researchers, practitioners and students in the fields of industrial and organisational psychology, positive psychology, organisational studies, future studies, health and occupational science and therapy, emotion sciences, management, leadership and human resources will find the contributions highly topical, insightful and applicable to practice. Fresh, timely, thought-provoking with each turn of the page, this impressive volume explores shame in today's world. Moving beyond the simple "guilt is good; shame is bad" perspective, authors from diverse disciplines examine adaptive and maladaptive aspects of shame in the context of contemporary issues (e.g., social media use, COVID-19) via multiple cultural and social lenses. Aply named, Shame 4.0 is a treasure trove of rich ideas ripe for empirical study - a blueprint for the next generation of research on this complex and ubiquitous emotion. Bravo! --June Tangney, PhD, University Professor and Professor of Psychology, George Mason University, USA Uncovering Shame - To a much greater extent than other emotions like anger, grief, and fear, until recently most shame in modern societies has been hidden from sight. The text you see in this book is one of the steps that is being taken to make it more visible and therefore controllable. -- Thomas Scheff, Prof. Emeritus Department of Sociology, UCSB, Santa Barbara, Ca.
