Booktastik has free and discounted books on its website, and you can follow their social media accounts for current updates. "Buy" them like any other Google Book, except that you are buying them for no money. Since Centsless Books tracks free ebooks available on Amazon, there may be times when there is nothing listed. If that happens, try again in a few days. It's disappointing that there's no convenient menu that lets you just browse freebies. Instead, you have to search for your preferred genre, plus the word 'free' (free science fiction, or free history, for example). It works well enough once you know about it, but it's not immediately obvious. Therefore, the book and in fact this site are services themselves. Get informed about the \$this\_title.
