A Linguistic History of Arabic Jonathan Owens.2006-05-11 A Linguistic History of Arabic presents a reconstruction of proto-Arabic by the methods of historical-comparative linguistics. It challenges the traditional conceptualization of an old, Classical language evolving into the contemporary Neo-Arabic dialects. Professor Owens combines established comparative linguistic methodology with a careful reading of the classical Arabic sources, such as the grammatical and exegetical traditions. He arrives at a richer and more complex picture of early Arabic language history than is current today and in doing so establishes the basis for a comprehensive, linguistically-based understanding of the history of Arabic. The arguments are set out in a concise, case by case basis, making it accessible to students and scholars of Arabic and Islamic culture, as well as to those studying Arabic and historical linguists.

Adjective Classes R. M. W. Dixon, Alexandra Y. Aikhenvald. 2004-09-16 This book shows that every language has an adjective class and examines how these vary in size and character. The opening chapter considers current generalizations about the nature and classification of adjectives and sets out the cross-linguistic parameters of their variation. Thirteen chapters then explore adjective classes in languages from North, Central and South America, Europe, Africa, Asia, and the Pacific. Studies of well-known languages such as Russian, Japanese, Korean and Lao are juxtaposed with the languages of small hunter-gatherer and slash-and-burn agriculturalist groups. All are based on fine-grained field research. The nature and typology of adjective classes are then reconsidered in the conclusion. This pioneering work shows, among other things, that the grammatical properties of the adjective class may be similar to nouns or verbs or both or neither; that some languages have two kinds of adjectives, one hard to distinguish from nouns and the other from verbs; that the adjective class can sometimes be large and open, and in other cases small and closed. The book will interest scholars and advanced students of language typology and of the syntax and semantics of adjectives. Each book in this series focuses on an aspect of language that is of current theoretical interest and for which there has not previously or recently been any full-scale cross-linguistic study. The series is for typologists, fieldworkers, and theory developers at graduate level and above. The books will be suited for use as the basis for advanced seminars and courses. The subjects of next three volumes will be serial verb constructions, complementation, and grammars in contact.

The Rejection of Consequentialism Samuel Scheffler. 1994-08-11 In contemporary philosophy, substantive moral theories are typically classified as either consequentialist or deontological. Standard consequentialist theories insist, roughly, that agents must always act so as to produce the best available outcomes overall. Standard deontological theories, by contrast, maintain that there are some circumstances where one is permitted but not required to produce the best overall results, and still other circumstances in which one is positively forbidden to do so. Classical utilitarianism is the most familiar consequentialist view, but it is widely regarded as an inadequate account of morality. Although Professor Scheffler agrees with this assessment, he also believes that consequentialism seems initially plausible, and that there is a persistent air of paradox surrounding typical deontological views. In this book, therefore, he undertakes to reconsider the rejection of consequentialism. He argues that it is possible to provide a

rationale for the view that agents need not always produce the best possible overall outcomes, and this motivates one departure from consequentialism; but he shows that it is surprisingly difficult to provide a satisfactory rationale for the view that there are times when agents must not produce the best possible overall outcomes. He goes on to argue for a hitherto neglected type of moral conception, according to which agents are always permitted, but not always required, to produce the best outcomes.

Tom Clancy's The Division Alex Irvine.2019-03-14 Le nouveau best-seller d'Ubisoft adapté en roman ! Quand tout s'effondre, notre mission commence. Plusieurs mois déjà se sont écoulés depuis qu'un virus mortel, libéré à New York en plein Black Friday, a causé une épidémie mondiale dévastatrice. Pour les Etats-Unis, l'heure est à la reconstruction : les survivants s'organisent en communautés pour tenter de retrouver un semblant de vie normale. Dans un pays sans gouvernement, aux infrastructures en ruines, la civilisation est sur le point de vaciller. Aurelio Diaz est l'un de ces hommes. Lancé sur les traces de l'un de ses camarades, dont l'inexplicable trahison a causé la mort de nombreux innocents, il croise le chemin d'April Kelleher, une simple citoyenne pleine de ressources qui a quitté New York pour s'aventurer dans un Midwest en proie au chaos. La jeune femme espère y découvrir les raisons du meurtre de son mari et trouver, s'il existe, un vaccin contre la redoutable épidémie. Yvain Chretien de Troyes.1987-09-10 The twelfth-century French poet Chrétien de Troyes is a major figure in European literature. His courtly romances fathered the Arthurian tradition and influenced countless other poets in England as well as on the continent. Yet because of the difficulty of capturing his swift-moving style in translation, English-speaking audiences are largely unfamiliar with the pleasures of reading his poems. Now, for the first time, an experienced translator of medieval verse who is himself a poet provides a translation of Chrétien's major poem, Yvain, in verse that fully and satisfyingly captures the movement, the sense, and the spirit of the Old French original. Yvain is a courtly romance with a moral tenor; it is ironic and sometimes bawdy; the poetry is crisp and vivid. In addition, the psychological and the socio-historical perceptions of the poem are of profound literary and historical importance, for it evokes the emotions and the values of a flourishing, vibrant medieval past.

The Making of Modern Colombia David Bushnell.1993-02-09 Colombia's status as the fourth largest nation in Latin America and third most populous—as well as its largest exporter of such disparate commodities as emeralds, books, processed cocaine, and cut flowers—makes this, the first history of Colombia written in English, a much-needed book. It tells the remarkable story of a country that has consistently defied modern Latin American stereotypes—a country where military dictators are virtually unknown, where the political left is congenitally weak, and where urbanization and industrialization have spawned no lasting populist movement. There is more to Colombia than the drug trafficking and violence that have recently gripped the world's attention. In the face of both cocaine wars and guerrilla conflict, the country has maintained steady economic growth as well as a relatively open and democratic government based on a two-party system. It has also produced an impressive body of art and literature. David Bushnell traces the process of state-building in Colombia from the struggle for independence, territorial consolidation, and reform in the nineteenth century to economic development and social and political democratization in the twentieth. He also sheds light on the modern history of Latin America as a whole.

Passive Sentences in English and Portuguese Milton Mariano Azevedo.1980 This study analyzes passive sentences in English and Portuguese which result from a post-semantic transformation applied when a noun, which does not play the semantic role of actor, is chosen as syntactic subject. Choice between a passive and its non-passive or active counterpart reflects differences in the distribution of information in the sentence as regards the relative importance of the latter's constituents for communication. Such distribution is analyzed in terms of Prague school theory, especially that involving the notions of communicative dynamism and the distribution of theme and rheme. The book concludes with a contrastive analysis of English and Portuguese passive sentence patterns which serves as the basis for observations on the teaching of Portuguese passives to native speakers of English.

This trail leads him to April Kelleher, a resourceful civilian who traveled out of New York into a troubled American Midwest.
