Interiors Beyond Architecture Deborah Schneiderman,Amy Campos.2018-01-19 \*\*\*Winner of the 2019 IDEC Book Award\*\*\* Interiors Beyond Architecture proposes an expanded impact for interior design that transcends the inside of buildings, analysing significant interiors that engage space outside of the disciplinary boundaries of architecture. It presents contemporary case studies from a historically nuanced and theoretically informed perspective, presenting a series of often-radical propositions about the nature of the interior itself. Internationally renowned contributors from the UK, USA and New Zealand present ten typologically specific chapters including: Interiors Formed with Nature, Adaptively Reused Structures, Mobile Interiors, Inhabitable art, Interiors for Display and On Display, Film Sets, Infrastructural Interiors, Interiors for Extreme Environments, Interior Landscapes, and Exterior Interiors.

Qualitative Research for Occupational and Physical Therapists Christine Carpenter,Melinda Suto.2008-02-04 Qualitative Research for Occupational and Physical Therapists is a practical guide for students and professionals in rehabilitation intended to encourage their active engagement with this major approach to research design and implementation. Carpenter and Suto address the specific needs of the therapy professions by examining the unique challenges of conducting qualitative research in community and institutional rehabilitation settings. Whilst grounded in contemporary literature, the book puts theory into action with examples of research and a demonstration of how such studies have directly influenced rehabilitation practice. The book covers the entire research process from the initial preparation through to implementing, interpreting, disseminating, and ensuring the quality of qualitative research.

The Physical Tourist John S. Rigden,Roger H Stuewer.2009-05-29 Travelers differ.At one extreme are random travelers who see what they accidentally bump into.At the other extreme are the lock-step travelers who follow a banner (or a red umbrella) and look when and where a voice tells them to look. Between these extremes are the guide-book travelers who identify the whereabouts of those sites that interest them and they plan their sightseeing accordingly. If a traveler's interests are captivated by the arts, guide books can be very helpful. For example, the table of contents of a current guide book for travelers going to G- many has sections on architecture, art, literature, music and cinema.The index gives page references for famous writers, musicians, and artists.Yet, while Germany was a dominate force in physical science during the 19th and into the 20th centuries and while the names and photos of prominent German physical scientists who worked in this period are sprinkled through the pages of textbooks, only one scientist is mentioned by name:Albert Einstein is identified as the most famous citizen of Ulm.

Money Well Spent Frances Heywood,Joseph Rowntree Foundation.2001 Money well spent is the first large-scale study of the outcomes of public expenditure of 250 million a year on housing adaptations in England and Wales. This cutting-edge research is the result of a unique partnership between housing and occupational therapy professionals and researchers. It presents, for the first time, evidence about the effectiveness of housing adaptations for older people and disabled people of all ages nationally. Based on interviews with disabled people, including children and their parents, in seven local authorities in England and Wales, the report includes: evidence about how housing adaptations improve the health, quality of life and opportunities for disabled people and their families, and can contribute to preventative strategies;proposals, based on user views and professional observations, of ways in which housing adaptations may be made more effective still;information useful in determining best value and budget allocation in health, housing and social services.. Money well spent will provoke debate around, and increase understanding of a valuable service that helps to deliver a whole raft of current policy objectives.

**Art, the Sublime, and Movement** Amanda du Preez.2022-01-31 This book is a critical interdisciplinary approach to the study of contemporary visual culture and image studies, exploring ideas about space and place and ultimately contributing to the debates about being human in the digital age. The upward and downward pull seem in a constant contest for humanity's attention. Both forces are powerful in the effects and affects they invoke. When tracing this iconological history, Amanda du Preez starts in the early nineteenth century, moving into the twentieth century and then spanning the whole century up to contemporary twenty-first century screen culture and space travels. Du Preez parses the intersecting pathways between Heaven and Earth, up and down, flying and falling through the concept of being "spaced out". The idea of being "spaced out" is applied as a metaphor to trace the visual history of sublime encounters that displace Earth, gravity, locality, belonging, home, real life, and embodiment. The book will be of interest to scholars working in art history, visual culture, media and cultural studies, phenomenology, digital culture, mobility studies, and urban studies.

**Uptime Elements Implementation Guide** .2021-11-22 Many public and private sector organizations around the world have initiated a reliability and asset management program to drive efficiencies, mitigate risks and manage the asset throughout the entire lifecycle. However, it's well known that more than seventy percent of those implementations fail to become a long-term sustainable solution, and some of them never get off the ground!The development and implementation of a reliability and asset management program most often focuses on the technical aspects of the journey and not the cultural journey itself. The journey is filled with challenges, barriers, difficult decisions, successes and failures. How does one understand these items and how should they be approached in advance of the journey?The Uptime® Elements Implementation Virtual Special Interest Group (vSIG) was assembled to analyze the reliability and asset management program journey to glean and present the wisdom,advice and recommendations of those who have made the journey utilizing the five domains of the Uptime Elements. Contributors to this implementation guide have made the journey, and thusgained experience in developing, implementing and/or operating a reliability and asset management program. They've experienced the ups and downs, the successes and failures and the barriers and challenges, and have the change management experience required to create valuable and sustainable reliability and asset management solutions.The output of this vSIG has resulted in this Uptime Elements Implementation Guide. This guide is all about the cultural journey, not the technical details.

**Transylvanian Sunrise** Radu Cinamar,Peter Moon.2009-05-27 Written by Peter Moon and Radu Cinamar, a highly placed Romanian intelligence operative, this book heralds the most remarkable archaeological find in the annals of Mankind. Unbeknownst to most, there is an ancient sphinx located in the Bucegi Mountains of Romania. In 2003, the Pentagon discovered, through the use of satellite technology, an anomaly beneath this ancient sphinx. Through the highest levels of Freemasonry, the Pentagon was able to secure an alliance with the most secret department of the Romanian Intelligence Service which is known as Department Zero. Together, the Romanians and the Americans utilised the Pentagon's secret technology to penetrate a hidden chamber beneath the sphinx which was otherwise inaccessible to humans. What was discovered eventually was a holographic Hall of Records left by an advanced civilisation near three mysterious tunnels leading into the Inner Earth. The book chronicles the discovery of these modern day artefacts which represent the dawn of a new era for Mankind. Peter Moon is brought into the fold through his friend, Dr David Anderson, the mysterious scientist who founded the Time Travel Research Center on Long Island and also maintains a similar facility in Romania. Recognising that such satellite technology would had to have utilised Dr Anderson's proprietary space-time technology for maintaining satellites in orbit, Peter Moon pursues these matters further and accepts Dr Anderson's invitation to Romania where he visits the Romanian Sphinx and learns of a mysterious association between the mysterious time travel scientist and Radu Cinamar.

**Inside** Kevin O'Malley.2004 The year is 1961, the place, Ireland. Inside a monastery is Brendan O'Kane who, at thirteen years of age, has been recruited into the Irish Christian Brothers. Does he have a true vocation? The recurring doubt causes him sleepless nights. Furthermore, he is confused about his awakening sexuality, repressed totally as it is by the Catholic Church in Ireland of the sixties and by his vow of chastity. Years later, he is faced with a momentous decision: he must decide once and for all if the price he has paid has really been worth it . . . INSIDE will strike a chord with many who grew up in the fifties and sixties, who remember the smells of the classroom and dancehall in those pre-deodorant days, the taste of fried bread and the sounds of the hymns and popular songs of the era - not to mention the swish of the leather strap. INSIDE is a must for those who have had their own experience of the Brothers - or who may have heard about them in recent news stories worldwide - and who would like to know what made them tick, what made them so successful in their heyday, and what made some of them, at least, dysfunctional. Other works on a similar theme: THE BOYS OF ST VINCENT'S (Canadian tv docudrama), THE DEVIL'S PLAYGROUND (Australian film), THE CHRISTIAN BROTHERS (Australian one-man-play), and from Ireland, STATES OF FEAR (tv documentary), GIVE UP YER AULD SINS (animation), THE MAGDALENE SISTERS (film) and SONG FOR A RAGGY BOY (novel and film).

The book features: Backpacking Bird Watching Boating Camping Exploring Hiking Horseback Riding Mountain Biking Skiing Diving & Snorkeling and a myriad of other outdoor recreational opportunities! Two of the Okanagan area's most experienced and knowledgeable outdoors writers, British Columbians Murphy Shewchuk and Judie Steeves not only give you the information on where to go and how to get there, but have added the detail and background colour that helps the reader with the question why.

**New Code of Estimating Practice** The Chartered Institute of Building.2018-05-29 The essential, authoritative guide to providing accurate, systematic, and reliable estimating for construction projects—newly revised Pricing and bidding for construction work is at the heart of every construction business, and in the minds of construction consultants' poor bids lead to poor performance and nobody wins. New Code of Estimating Practice examines the processes of estimating and pricing, providing best practice guidelines for those involved in procuring and pricing construction works, both in the public and private sectors. It embodies principles that are applicable to any project regardless of size or complexity. This authoritative guide has been completely rewritten to include much more contextual and educational material as well as the code of practice. It covers changes in estimating practice; the bidding process; the fundamentals in formulating a bid; the pre-qualification process; procurement options; contractual arrangements and legal issues; preliminaries; temporary works; cost estimating techniques; risk management; logistics; resource and production planning; computer-aided estimating; information and time planning; resource planning and pricing; preparation of an estimator's report; bid assembly and adjudication; pre-production planning and processes; and site production. Established standard for the construction industry, providing the only code of practice on construction estimating Prepared under the auspices of the Chartered Institute of Building and endorsed by a range of other professional bodies Completely rewritten since the 7th edition, to include much more contextual and educational material, as well as the core code of practice New Code of Estimating Practice is an important book for construction contractors, specialist contractors, quantity surveyors/cost consultants, and for students of construction and quantity surveying.

**33 Snowfish** Adam Rapp.2011-04-12 Adam Rapp's brilliant and haunting story will break your heart. But then his words will mend it. . . . Absolutely unforgettable. - Michael Cart On the run in a stolen car with a kidnapped baby in tow, Custis, Curl, and Boobie are three young people with deeply troubled pasts and bleak futures. As they struggle to find a new life for themselves, it becomes painfully clear that none of them will ever be able to leave the past behind. Yet for one, redemption is waiting in the unlikeliest of places. With the raw language of the street and lyrical, stream-of-consciousness prose, Adam Rapp hurtles the reader into a world of lost children, a world that is not for the faint of heart. Gripping, disturbing, and starkly illuminating, his hypnotic narration captures the voices of two damaged souls - a third speaks only through drawings - to tell a story of alienation, deprivation, and ultimately, the saving power of compassion.

**The Buy Nothing, Get Everything Plan** Liesl Clark,Rebecca Rockefeller.2021-01-12 In the spirit of *The Gentle Art of Swedish Death Cleaning* and *The Joy of Less*, experience the benefits of buying less and sharing more with this accessible 7-step guide to decluttering, saving money, and creating community from the creators of the Buy Nothing Project. In their island community, friends Liesl Clark and Rebecca Rockefeller discovered that the beaches of Puget Sound were spoiled by a daily influx of plastic items and trash washing on shore. From pens and toothbrushes to toys and straws, they wondered, where did it all come from? Of course, it comes from us—our homes, our backyards, our cars, and our workplaces. And so, a rallying cry against excess stuff was born. In 2013, they launched the first Facebook Buy Nothing Project group in their small town off the coast of Seattle, and they never expected it to become a viral sensation. Today there are thousands of Buy Nothing groups all over the world, boasting more than a million members, and 5,000 highly active volunteers. Inspired by the ancient practice of gift economies, where neighbors share and pool resources,The Buy Nothing, Get Everything Plan introduces an environmentally conscious 7-step guide that teaches us how to buy less, give more, and live generously. At once an actionable plan and a thought-provoking exploration of our addiction to stuff, this powerful program will help you declutter your home without filling landfills, shop more thoughtfully and discerningly, and let go of the need to buy new things. Filled with helpful lists and practical suggestions including 50 items you never need to buy (Ziploc bags and paper towels) and 50 things to make instead (gift cards and salad dressing), The Buy Nothing, Get Everything Plan encourages you to rethink why you shop and embrace a space-saving, money-saving, and earth-saving mindset of buying less and sharing more.
