This edition of his last extant work offers a newly edited text with facing English translation. A superb example of the literature of late antiquity, it records in exquisite verse the splendor of the western imperial court and serves as a historical witness to the events and attitudes of the last years of the Roman empire. The introduction and commentary analyze the historical background and, more importantly, Claudian's language, style, imagery, and use of other Greek and Latin sources.

A Tour Through the Whole Island of Great Britain Daniel Defoe. 2005-08-25 Britain in the early

eighteenth century: an introduction that is both informative and imaginative, reliable and entertaining. To the tradition of travel writing Daniel Defoe brings a lifetime's experience as a businessman, soldier, economic journalist and spy, and his Tour (1724-6) is an invaluable source of social and economic history. But this book is far more than a beautifully written guide to Britain just before the industrial revolution, for Defoe possessed a wild, inventive streak that endows his work with astonishing energy and tension, and the Tour is his deeply imaginative response to a brave new economic world. By employing his skills as a chronicler, a polemicist and a creative writer keenly sensitive to the depredations of time, Defoe more than achieves his aim of rendering 'the present state' of Britain.

Punishment and Social Structure Otto Kirchheimer.2017-09-29 Why are certain methods of punishment adopted or rejected in a given social situation? To what extent is the development of penal methods determined by basic social relations? The answers to these questions are complex, and go well beyond the thesis that institutionalized punishment is simply for the protection of society. While today's punishment of offenders often incorporates aspects of psychology, psychiatry, and sociology, at one time there was a more pronounced difference in criminal punishment based on class and economics. Punishment and Social Structure originated from an article written by Georg Rusche in 1933 entitled Labor Market and Penal Sanction: Thoughts on the Sociology of Criminal Justice. Originally published in Germany by the Frankfurt Institute of Social Research, this article became the germ of a theory of criminology that laid the groundwork for all subsequent research in this area. Rusche and Kirchheimer look at crime from an historical perspective, and correlate methods of punishment with both temporal cultural values and economic conditions. The authors

classify the history of crime into three primary eras: the early Middle Ages, in which penance and fines were the predominant modes of punishment; the later Middle Ages, in which harsh corporal punishment and capital punishment moved to the forefront; and the seventeenth century, in which the prison system was more fully developed. They also discuss more recent forms of penal practice, most notably under the constraints of a fascist state. The majority of the book was translated from German into English, and then reshaped by Rusche's co-author, Otto Kirchheimer, with whom Rusche actually had little discussion. While the main body of *Punishment and Social Structure* are Rusche's ideas, Kirchheimer was responsible for bringing the book more up-to-date to include the Nazi and fascist era. *Punishment and Social Structure* is a pioneering work that sets a paradigm for the study of crime and punishment.

The Architecture of Pica Ciamarra Associati Antonietta Iolanda Lima. 2019-04 Since 1970, based in an isolated building situated on the peninsula of Posillipo, Pica Ciamarra Associati (www.pcaint.eu) has acted as a laboratory of architectural and urban design which has gradually incorporated new members and new energies over the time: using a multidisciplinary approach, the roots of the architectural practice lie in the intensive theoretical and practical work begun in the early 1960s by Massimo Pica Ciamarra. Since then the practice has been marked by a continuous relationship with Le Carré Bleu Feuille internationale d'architecture and leading members of the cultural milieu of Team 10: this has led to constant attention to everything that lies beyond form, to the relationship with contexts that also include non-spatial contexts, and to high levels of integration and dialectical discussion. According to Pica Ciamarra Associati, a design transcends the approaches of a single sector, providing simultaneous solutions to contradictory requirements,

combining utopia and practicality. The poetics of the fragment: it mediates between architecture and the urban dimension; some designs also have the aim of becoming absorbed within a context as 'informed fragments'. This monograph is the result of an intensive period of work and consists of two interacting parts. It stems from research into the archive of the studio Pica Ciamarra and conversation with the members of the architectural practice. Organised diachronically, the book tells the long story, unfolding over a period of over fifty years of a team of Neapolitan architects and designers, who have maintained the lively spirit of the practice which is still geared towards the future. The textual and iconographic account tells a story and offers an interpretation that highlight the vibrant atmosphere of the studio, based on a consistency of thought and action, and fuelled by an interest in many different forms of knowledge. The contextualisation of the events related to the studio, as they unfolded over time, is wide-ranging, coherent and connotative. Antonietta Iolanda Lima, professor of history of architecture at the University of Palermo, has always tried, through theory, teaching and design, to disseminate the importance of history which can embracing innovation and tradition to an equal degree, forming a new architectural language. According to her view of architecture, history and design are closely connected, a 'single entity' as is reflected by her career. Since the 1980s, her academic work has gained increasing importance, a way of avoiding narrow sectoral approaches in the training of future architects, offering a holistic stance of the history of architecture and an architecture that contributes to shaping critical thought and a thriving cultural life.

The Cube and the Face Georges Didi-Huberman. 2015 This monograph of French art theorist and philosopher Georges Didi-Huberman centers around a single sculpture: Alberto Giacometti's Cube from 1934 (Kunsthaus Zurich), possibly his most peculiar and atypical creation, being his only abstract sculptural work within a wider oeuvre, which consistently had the exploration of reality as its main objective. By conducting a meticulous formal analysis of the sculpture, and consulting sketches, etchings, other sculptural works and texts of Giacometti originating from 1932 to 1935, the formative years of Cube, Didi-Huberman unwinds a net of questions, hypotheses, and historical contextualizations in which he envelops his investigation to unfold for the reader a wide spectrum of new perspectives. Cube, as it turns out, marks an exception. It is a self-containing work, barred from any stylistic kinship and functions prismatically at the same time, delineates Giacometti's transition from his surrealist to his realist phase and thus contains in nuce principles which underlie his entire aesthetic understanding: the relation of the body to geometry, the problem of dimensionality, the separation between face and skull, the question of the portrait, which, in regards to this sculpture,

prompts Didi-Huberman to develop the new notion of an abstract anthropomorphism . Referencing the works of Freud, Bataille, Leiris and Carl Einstein, which had a lasting influence on Giacometti as well, this study presents the reader with an exuberant plurality of methodological approaches and readings. Out of a newly arising sensibility for a formal analysis, Didi-Huberman develops his very own anthropological perspective on the notion of the image.

Elevated to the Papacy amid the historical backdrop of turmoil and revolution in Italy and Europe, he was also to play a central role in the drama of the Risorgimento that led to the creation of a united Italy. The Archive as a Productive Space of Conflict Markus Miessen, Yann Chateigne. 2012-09-07

What are the processes that enable archives to become productive? Conventional archives tend to be defined through the content-specific accumulation of material, which conforms to an existing order or narrative. They rarely transform their structure. In contrast to this model of archival practice and preservation, the conflictual archive has an open framework in which it actively transforms itself, allowing for the creation of new and surprising relationships. Illustrating how spaces of knowledge can be devised, developed, and designed, this archive reveals itself as a space in which documents and testimonies open up a stage for productive dispute and struggle. Exploring nontraditional archives, such as those of Harald Szeemann, Hans Ulrich Obrist, Sitterwerk, and the publishing house Merve, *The Archive as a Productive Space of Conflict* offers new perspectives on archival practice, interrogating whether archives need spatial permanence, and, if so, which design framework should be applied for the archive to take on more than a singular form of existence. The research project is a collaboration between the Karlsruhe University of Art and Design and the Geneva School of Art and Design (HEAD - Genève). Power to Bloom Nassrine Reza.2018-11-12 Power To Bloom is unlike any book you've read before. It is a gem reminiscent of Krishnamurti and Hafiz, but with its own punch of emerging wisdom and clarity. Nassrine has what I can only call the overt audacity to challenge dozens of our cherished notions about how to manage our minds and emotions. She offers short 'insight units' pointing toward a direct inner path to the foundational life-knowledge within each of us. While reading these insight units from start to finish, you'll find that a spontaneous process of awakening is stimulated, helping you to unveil what you really are - John Selby The book has been structured in seven parts. Each part explores a special perspective regarding the natural consciousness through which life

fully blossoms. While reading these pages, your ingrained identification with who you think you are will begin to dissolve naturally, allowing you to experience your original state. Biography : Nassrine was brought up in Switzerland with her Iranian father and Russian mother. Recognized at an early age with the ability to instantly perceive a person's medical condition, Nassrine regularly works with patients and groups, sharing her insights into human nature and fulfillment. For the last decade she's traveled the world leading seminars, conferences and retreats. In 2002 she came forth with a new method for enhanced healing and wellbeing called Nutri-Emotion, focusing on the natural correlations and interactions of water, emotions and physical health. Collaborating with psychologists and doctors, in 2014 she published her first book (in her native tongue of French) called Nutri-Emotion, A New Way of Healing and Self-Realization. In 2016 she published her bestselling book The Power of Acceptance - being reborn in a single instant, which has been very successful in French-speaking countries.
