Policing and Mental Health John McDaniel, Kate Moss, Ken Pease. 2020-02-25 This book explores the relationship between policing and mental health. Police services around the world are innovating at pace in order to develop solutions to the problems presented, and popular models are being shared internationally. Nevertheless, disparities and perceptions of unfairness remain commonplace. Innovations remain poorly funded and largely unproven. Drawing together the insights of eminent academics in the UK, the US, Australia and South Africa, the edited collection evaluates the condition of mental health and policing as an interlocked policy area, uncovering and addressing a number of key issues which are shaping police responses to mental health. Due to a relative lack of academic texts pertaining to developments in England and Wales, the volume contains a distinct section on relevant policies and practices. It also includes sections on US and Australian approaches, focusing on Crisis Intervention Teams (CITs), Mental Health Intervention Teams (MHITs), stressors and innovations from Boston in the US to Queensland in Australia. Written in a clear and direct style, this book will appeal to students and scholars in policing, criminology, sociology, mental health, cultural studies, social theory and those interested in learning about the condition and trajectory of police responses to mental health.

The Mythology of Crime and Criminal Justice Victor E. Kappeler, Gary W. Potter. 2017-07-18 The social construction of crime is often out of proportion to the threat posed. The media and advocacy groups shine a spotlight on some crimes and ignore others. Street crime is highlighted as putting everyone at risk of victimization, while the greater social harms from corporate malfeasance receive far less attention. Social arrangements dictate what is defined as crime and the punishments for those who engage in the proscribed behavior. Interest groups promote their agendas by appealing to public fears. Justifications often have no basis in fact, but the public accepts the exaggerations and blames the targeted offenders. The net-widening effect of more laws and more punishment catches those least able to defend themselves. This innovative alternative to traditional textbooks provides insightful observations of myths and trends in criminal justice. Fourteen chapters challenge misconceptions about specific crimes or aspects of the criminal justice system. Kappeler and Potter dissect popular images of crimes and criminals in a cogent, compelling, and engaging manner. They trace the social construction of each issue and identify the misleading statistics and fears that form the basis of myths—and the collateral damage of basing policies on mythical beliefs. The authors encourage skepticism about commonly accepted beliefs, offer readers a fresh perspective, and urge them to analyze important issues from novel vantage points.

Stress in Policing Ronald J. Burke. 2016-07-01 Stress in policing remains a serious concern for individual officers, their families, their organizations and society at large. As an editor of the Psychological and Behavioural Aspects of Risk series, Ronald J. Burke brings together the latest research findings and intervention strategies, shown to be effective, by an international group of experts. The contributors comprise of a group of high profile researchers and writers who are experts in their respective fields. This edited collection addresses such issues as: The increased risk of international terrorism Racial profiling Police Culture Police integrity Police suicide Inadequate police training The work of police officers exposes them to sources of stress that increase several risks in terms of their psychological and physical health, their family relationships, physical injuries, emotional trauma, ambiguity about their roles in society. Shift work, and undercover work add additional burdens to officers and their families. Police work also places risks on the communities in which officers serve in terms of officers being inadequately trained to deal with mentally ill citizens.

The Routledge International Handbook of Criminology and Human Rights Leanne Weber, Elaine Fishwick, Marinella Marmo. 2016-08-25 The Routledge International Handbook of Criminology and Human Rights brings together a diverse body of work from around the globe and across a wide range of criminological topics and perspectives, united by its critical application of human rights law and principles. This collection explores the interdisciplinary reach of criminology and is the first of its kind to link criminology and human rights. This text is divided into six sections, each with an introduction and an overview provided by one of the editors. The opening section makes an assessment of the current standing of human rights within the discipline. Each of the remaining sections corresponds to a substantive area of harm prevention and social control which together make up the main core of contemporary criminology, namely: criminal law in practice; transitional justice, peacemaking and community safety; policing in all its guises; traditional and emerging approaches to criminal justice; and penalty, both within and beyond the prison. This Handbook forms an authoritative foundation on which future teaching and research about human rights and criminology can be built. This multi-disciplinary text is an essential companion for criminologists, sociologists, legal scholars and political scientists.

Crisis Communications Kathleen Fearn-Banks. 2016-08-05 Crisis Communications: A Casebook Approach presents case studies of organizational, corporate, and individual crises, and analyzes the communication responses to these situations. Demonstrating how professionals prepare for and respond to crises, as well as how they develop communications plans, this essential text explores crucial issues concerning communication with the news media, employees, and consumers in times of crisis. Author Kathleen Fearn-Banks addresses how to choose the best possible words to convey a message, the best method for delivering the message, and the precise and most appropriate audience, in addition to illustrating how to avoid potential mismanagement. The fifth edition of Crisis Communications includes updated cases that provide wider coverage of international crises and media technologies. It includes a new section on social media in crisis communication scenarios and includes additional comments from social media experts throughout various chapters. New case studies include Police Departments and Community Trust, The Oso Mudslide in Washington, School Shootings: Communications To and For Children, and two additional international case studies - Ebola Strikes Liberia: Firestone Strikes Ebola and Nut Rage and Korean Airlines. Previous case studies no longer in this edition can be found on the book's companion website, which also includes the Instructor's Manual with exercises in crisis responses, guidelines for crisis manual preparation, and other teaching tools:

www.routledge.com/cw/fearn-banks. Looking at both classic and modern cases in real-world situations, Crisis Communications provides students with real-world perspectives and insights for professional responses to crises. It is intended for use in crisis communications, crisis management, and PR case studies courses. Also available for use with this text is the Student Workbook to Accompany Crisis Communications, providing additional discussion questions, activities, key terms, case exercises, and further content for each chapter.

Women Police in Contemporary China Anqi Shen. 2021-11-11 This is the first book to look at women in policing in the mainland of the People's Republic of China. Informed by empirical data as well as rich secondary information drawn from a wide range of published materials, and written by a former police officer in China, this book offers a detailed discussion of key issues concerning women in the Chinese police. Mainly drawing on face-to-face interviews with police officers and student probationers in multiple force areas, Women Police in Contemporary China offers rich insights into women's lives in Chinese policing. The book first discusses how Chinese women were introduced to the male-only organisation and their representation in the Chinese police today. It elaborates women's experiences as female officers in the police and, more specifically, their everyday work, contributions to policing, women police's own perceptions of their roles and positions in the police profession and the gendered challenges and concerns facing them. It also looks at police occupational culture from a gendered lens. This book is illuminating reading for all those engaged in policing studies, gender and justice, policymaking, comparative criminal justice and all those interested in a woman's role in the Chinese police.

Police Socialisation, Identity and Culture Sarah Charman. 2017-11-03 This book reinvigorates the debate about the origins and development of police culture within our changing social, economic and political landscape. An in-depth analysis and appreciation of the police socialisation, identity and culture literature is combined with a comprehensive four-year longitudinal study of new recruits to a police force in England. The result offers new insights into the development of, and influences upon, new police recruits who refer to themselves as a "new breed" of police officer. Adding significantly to the police culture literature, this original and empirically based research also provides valuable insights into the challenges of modern policing in an age of austerity. Scholars of policing and criminal justice, as well as police officers themselves will find this compelling reading.

Police Training and Excessive Force Pete Schauer. 2017-12-15 How rough is too rough? Rodney King is an unfamiliar name for those growing up today, but the ongoing conversation concerning police brutality is one they know all-too well. This collection deep-dives into police training

procedure, what constitutes excessive force, and what happens when the community disagrees with the police and the justice system. Relevant topics covered in this balanced anthology include the 1992 L.A. riots and the 2014 outcry in Ferguson, MO, as well as the choking death of Eric Garner in Staten Island, NY.

The Camera as Actor Amy Cox Hall.2020-11-29 Looking beyond the impact photographs have on the perpetuation and expression of social norms and stereotypes, and the influence of the act of taking a photograph, this new collection brings together international scholars to examine the camera itself as an actor. Bringing the camera back into view, this volume furthers our understanding of how, and in what ways, imaging technology shapes us, our lives, and the representations out of which we fashion knowledge, base our judgments and ultimately act. Through a broad range of case studies, the authors in this collection make the convincing claim that the camera is much more than a mechanical device brought to life by the photographer. This book will be of interest to scholars in photography, visual culture, anthropology and the history of photography.

Understanding Violence Against Women in Africa Francis Onditi,Josephine Odera.2021-08-22 This textbook provides students across Social Sciences, Humanities, Politics, and International Studies with an in-depth understanding of the issues, policies, and strategies for addressing the symptoms and root causes of violence against women (VAW) in sub-Saharan Africa. This text uses the United Nations Security Council's Resolution 1325 (UNSCR 1325) on Women, Peace and Security in Eastern and Southern Africa as a framework to present the causes and impacts of VAW and to trace the journey of sub-Saharan African countries toward gender equality. It also provides an overview of the policy and legislative frameworks that underpin the progress, challenges, and achievements of addressing VAW based on four key pillars: prevention, protection, participation, and relief and recovery. Chapters provide a wealth of knowledge, as the book draws on academic literature; national, regional, and international legislations; and data collected from field research, and makes use of end-of-chapter discussion questions and quick study guides. Students will come away equipped with the tools, resources, and knowledge necessary to address and fix VAW in sub-Saharan Africa and beyond.

Violence in American Society [2 volumes] Chris Richardson.2020-08-11 While many books explore such specific issues as gun violence, arson, murder, and crime prevention, this encyclopedia serves as a one-stop resource for exploring the history, societal factors, and current dimensions of violence in America in all its forms. This encyclopedia explores violence in the United States, from the nation's founding to modern-day trends, laws, viewpoints, and media depictions. Providing a nuanced lens through which to think about violence in America, including its underlying causes, its iterations, and possible solutions, this work offers broad and authoritative coverage that will be immensely helpful to users ranging from high school and undergraduate students to professionals in law enforcement and school administration. In addition to detailed and evenhanded summaries of the key events and issues relating to violence in America, contributors highlight important events, political debates, legal perspectives, modern dimensions, and critical approaches. This encyclopedia also features excerpts from such important primary source documents as legal rulings, presidential speeches, and congressional testimony from scholars and activists on aspects of violence in America. Together, these documents provide important insights into past and present patterns of violent crime in the United States, as well as proposed solutions to those problems.

Interventions, Training, and Technologies for Improved Police Well-Being and Performance Arble, Eamonn Patrick,Arnetz, Bengt B..2021-06-18 The need for evidence-based practice to enhance current and future police training and assessment has never been greater. This need focuses on the procedures and findings of research within the field of police work along with the philosophy guiding these research approaches and commentaries on the methods being used. With many future directions for the science of police training and assessment, the focus on new training techniques and technologies for improving performance is of the utmost importance to find the best current, evidence-based practices for policing. In addition to these practices, understanding the practical realities and challenges of implementing cutting-edge procedures is essential in gaining a holistic view on police well-being and performance. *Interventions, Training, and Technologies for Improved Police Well-Being and Performance* is a critical publication that explores new training methods and technologies. The future of policing is poised to change, making the need for developments in evidence-based practices more important than ever before. New technology and techniques for improving performance and the perception of the police force can guide the policies and practices of law enforcement, trainers and academies, government officials, policymakers, psychologists, psychiatrists, therapists, to a more effective implementation of training and procedures. Including the perspective of police officers within the publication, this text offers insight into an often neglected viewpoint when creating training and policies. This text is also be beneficial for researchers, academicians, and students interested in the new training techniques, technologies, and interventions for police performance and well-being.

The Use and Abuse of Police Power in America Gina Robertiello.2017-05-12 Providing a timely and much-needed investigation of how U.S. law enforcement carries out its public safety and crime fighting mandates, this book is an invaluable resource for students, educators, and concerned citizens. Does America face an epidemic of police officers abusing their powers and disregarding constitutional rights, especially in communities of color? Or are such accusations unfair, especially given the enormous challenges of enforcing the law in 21st-century America? This book provides a unique frame of reference for understanding how some of the issues between the police and the public emerged, identifying events that have shaped current relationships between the police and the public, as well as the public's expectations and perceptions of the police. An authoritative resource for understanding modern law enforcement and its relationship with American communities, this volume addresses subjects including the legal underpinnings of various law enforcement actions and practices; the so-called militarization of police departments; the increased use of force and surveillance to combat crime and terrorism, and to generally keep the peace; and the perspectives of Black Lives Matter activists and other critics of American law enforcement. The entries provide readers with expert analysis of current topics related to the intensifying debate about the American police state; examine the scope of law enforcement issues that have existed for centuries, and explain why they continue to exist; and cover new mandates for exercising police power, enabling readers to critically analyze what is presented to them in the media. Included throughout the book are excerpts from important laws, speeches, reports, and studies pertaining to the subject of the use and abuse of police power in the United States

The Wicked Problems of Police Reform in Canada Laura Huey,Lorna Ferguson,Jennifer L. Schulenberg.2022-08-12 This book looks at police reform in Canada, arguing that no significant and sustainable reform can occur until steps are taken to answer the question of 'What exactly do we want police to do?' Adding challenge to this is that setting boundaries on what we expect the police to do requires grappling with the complex social problems we ask them to resolve. In public policy language, these are 'wicked problems' - social or cultural issues frequently seen as intractable. Authors Huey, Ferguson, and Schulenberg, all policing scholars, draw on a unique collection of data to explore these issues: over 20 years of research (2000- 2021) ranging from in-depth interviews, surveys, and field observations to document analysis and systematic social observation. Pooling this data generates a national-level picture of changes in the policing operational environment over these decades. This book focuses on four particular wicked problems (mental health, substance misuse, homelessness, missing persons) with causes and potential preventative treatments that lie primarily outside the criminal justice system and yet continue to be treated as 'policing problems.' Bringing about changes in public policing requires changes in public policy, and these are precisely the types of wicked problems that need innovative policy solutions. This book is suitable for a wide range of audiences within and outside Canada, including law enforcement and community leaders; scholars and policy experts who specialize in policing; students of criminal justice, organizations, and management; and citizen-consumers of information about policing.

Stories of Resilience Marion Brepoels,Nanette Slagmolen,Annika Smit.2016 Thirteen stories, each of which recounts the real-life experiences of a professional working for or with the police force. This collection reveals the vulnerabilities and resilience of people who are passionately committed to their work, and helps to make sense of their daily experiences and concerns. It provides a practical and personal perspective on the human and interpersonal aspects of police professionalism. Using the term 'resilience', we explore the personal and interpersonal aspects of policing, which we have researched and sought to develop through the Professional Resilience Enhancement Programme. The Programme has led to the launch of several new interventions, as well as the improvement of existing interventions. Examples include Mental Strength Training, the 24-7 Police Help Desk, the Suicide Registration Point and Fit@NP. Published alongside this collection of stories is the book *Resilience Investigated* (2010-2015), a description of our current scientific understanding of resilience in police work. The book is the result of five years of research undertaken on the

basis of the Professional Resilience Enhancement Programme agenda. [Subject: Criminology, Policing]

Police Work and Identity Andrew Faull.2017-09-07 This is a book about the men and women who police contemporary South Africa. Drawing on rich, original ethnographical data, it considers how officers make sense of their jobs and how they find meaning in their duties. It demonstrates that the dynamics that lead to police abuses and scandals in transitional and neo-liberalising regimes such as South Africa can be traced to the day-to-day experiences and ambitions of the average police officer. It is about the stories they tell themselves about themselves and their social worlds, and how these shape the order they produce through their work. By focusing on police officers, this book positions the individual in primacy over the organisation, asking what policing looks like when motivated by the pursuit of ontological security in precarious contexts. It acknowledges but downplays the importance of police culture in determining officers' attitudes and behaviour, and reminds readers that most officers' lives are entangled in, and shaped by a range of social, political and cultural forces. It suggests that a job in the South African Police Service (SAPS) is primarily just that: a job. Most officers join the organisation after other dreams have slipped beyond reach, their presence in the Service being almost accidental. But once employed, they re-write their self-narratives and enact carefully choreographed performances to ease managerial and public pressure, and to rationalize their coercive practices. In an era where 'evidence' and 'what works' reigns supreme, and where 'cop culture' is often deemed a primary socializing force, this book emphasises how officers' personal histories, ambitions, and vulnerabilities remain central to how policing unfolds on the street.

Policing Hate Crime Gail Mason,JaneMaree Maher,Jude McCulloch,Sharon Pickering,Rebecca Wickes,Carolyn McKay.2017-03-16 In a contemporary setting of increasing social division and marginalisation, Policing Hate Crime interrogates the complexities of prejudice motivated crime and effective policing practices. Hate crime has become a barometer for contemporary police relations with vulnerable and marginalised communities. But how do police effectively lead conversations with such communities about problems arising from prejudice? Contemporary police are expected to be active agents in the pursuit of social justice and human rights by stamping out prejudice and group-based animosity. At the same time, police have been criticised in over-policing targeted communities as potential perpetrators, as well as under-policing these same communities as victims of crime. Despite this history, the demand for impartial law enforcement requires police to change their engagement with targeted communities and kindle trust as priorities in strengthening their response to hate crime. Drawing upon a research partnership between police and academics, this book entwines current law enforcement responses with key debates on the meaning of hate crime to explore the potential for misunderstandings of hate crime between police and communities, and illuminates ways to overcome communication difficulties. This book will be important reading for students taking courses in hate crime, as well as victimology, policing, and crime and community.

Police Misconduct Cliff Roberson.2017-02-17 This book explores the different types of police misconduct including the use of excessive force. It also explores what types of officers become involved in illegal misconduct, steps jurisdictions may take to prevent such problems, and discusses who should police the police. Also included is a historical analysis of police misconduct, discussions on the legal restrictions designed to prevent police misconduct, and steps that the jurisdiction may take to limit their liability. Ancillary material is available with course adoption.

Police Use of Force Michael J. Palmiotto.2016-08-05 Police use of force has been a major concern for police departments and citizens in the United States since the 1840s, when police first started carrying guns. Starting with a historical introduction, Police Use of Force presents readers with critical and timely issues facing police and the communities they serve when police encounters turn violent. Dr. Palmiotto offers in-depth coverage of the use of force, deadly force, non-lethal weapons, militarization of policing, racism and profiling, legal cases, psychology, perception and training, and violence prevention. Police Use of Force also investigates many case studies, both famous (Rodney King) and contemporary (Ferguson, MO). Essential reading for both criminal justice professionals and academics, this text places police conflict within a complex, modern context, inviting cogent conversation in the classroom and the precinct.

Why the Police Should be Trained by Black People Natasha C. Pratt-Harris.2022-04-25 Why the Police Should be Trained by Black People aligns scholarly and community efforts to address how Black people are policed. It combines traditional models commonly taught in policing courses, with new approaches to teaching and training about law enforcement in the U.S. all from the Black lens. Black law enforcement professionals (seasoned and retired), scholars, community members, victims, and others make up the contributors to this training textbook written from the lens of the Black experience. Each chapter describes policing based on the experience of being Black in the US, with concern about the life and life chances for Black people. With five sections readers will be able to: Describe the history and theory of law enforcement, policing, and society in Black communities Critically address how law enforcement and the nature of police work intertwine with race-based societal and governmental norms and within law enforcement administration and management Understand the variation in pedagogy, recruitment, selection, and training that has impacted the experience of police officers, including Black police officers, and Black people in the US Explore the role of law enforcement as crime control and crime prevention agents as it relates to policing in Black communities and for Black people Address issues related to race and use of force, misconduct, the law, ethics/values Assess research, contemporary issues, and the future of law enforcement and policing, especially related to policing of Black people. Why the Police Should be Trained by Black People brings pedagogical and scholarly responsibility for policing in Black communities to life, revealing that police involved violence, community violence, and relative lived experiences do not exist in a vacuum. Written with students in mind, it is essential reading for those enrolled in policing courses including criminology, criminal justice, sociology, or social work, as well as those undertaking police academy and in-service police training.

Corruption, Sustainable Development and Security Challenges in Africa Kempe Ronald Hope, Sr..2023-09-07 This book sheds light on Africa's development performance and dynamics arising from the interface between corruption and sustainable development on the one hand and the challenges that poses for peace, security and stability. Corruption also contributes to the spread of terrorism and violent extremism. Pervasive corruption networks often include politicians, civil servants working at all levels of state institutions, representatives of the private sector and members of crime syndicates. The consequences of corruption are detrimental in many aspects, such as undermining governments' ability to serve public interests and eroding public trust in democratic processes. Presenting empirical evidence, the book explains why corruption and the looting of staggering amounts of national assets undermine the achievement of the Sustainable Development Goals (SDGs) and has a negative impact on peace, stability, security, the rule of law, gender equality, the environment and human rights. This makes the book a must-read for students, researchers and scholars of political science, international relations, and economics in general, as well as African studies, development studies, and security sector studies in particular, covering issues and themes on corruption, governance, socio-economic sustainable development, public administration and management, policing in an international context, police reform, and security sector reform. It will also serve as a helpful resource for policy-makers interested in a better understanding of the connection between corruption, sustainable development, and security challenges in Sub-Saharan Africa.

Higher Education and Police Colin Rogers,Bernhard Frevel.2018-02-14 This edited collection is concerned with the ideas, challenges, demands and framework of conditions behind police education from an international perspective. Whilst not directly concerned with a classical comparison of education concepts from different countries, the broad range of international contributors consider issues such as professionalization programmes, how higher education programmes influence police organizations, as well how higher education influences police practice in a global context. Examining a wide array of countries from Germany to China and Brazil to show the flawed nature of an education system based purely upon an approach concerned with police officer numbers, the editors of this book argue for the need for greater scientific education among police around the world to meet contemporary developments. A timely and well-informed study, this book meets a crucial gap in the literature and will serve as an important contribution to existing work on policing, crime prevention, and theoretical criminology.

Reframing Police Education and Freedom in America Martin Alan Greenberg,Beth Allen Easterling.2023-09-15 This book untangles the components of police education and advocates a robust community-based training model with significant civilian oversight. The recommended approach recognizes that the citizenry needs to be included in the provision of basic police education, for it is they who must both support and be served by

their police. The police must be role models for society, demonstrating that freedom and rights come with obligations, both to the community as a whole and to individuals in need within that community. Ultimately, the quality of police training and the public's safety depend not only on the leadership of police executives as well as the quality of educational institutions and police candidates but also on the building of a community's trust in its police. The issues of police recruitment, education, and retention have greater consequence in an era when protests and other signs of negativity surround law enforcement. Several incidents, including, most notably, George Floyd's murder by police, have sparked new training initiatives regarding police de-escalation and community engagement. At the same time, the proliferation of gun violence and a contentious political climate have led some officers to refrain from undertaking proactive types of policing. In this context, reform of the police education system is urgent. This book examines police training at all levels of government—local, regional, state, and federal. In addition, citizen participation programs, including the role of the media and programs for furthering law-related education (LRE), are highlighted. The proposed police education model recognizes that ordinary members of the American public need to contribute to the provision of basic police education, for it is they who must both support and be served by their police. The focus is on teaching a guardian style of policing at the local level. Police education would combine higher education, necessary practical proficiencies, and intensive field experiences through a gradual level of greater responsibility—likely extending over a 2-plus-year period for trainees with less than a year of previous college credits. This book will be of interest to a wide range of audiences such as law enforcement professionals and trainers, including those in executive development programs in police departments; community leaders, scholars, and policy experts who specialize in policing; concerned citizens; and students of criminal justice, especially those interested in police organization and management, criminal justice policy, and the historical development of police.

The Making of a Police Officer Tore Bjørgo, Marie-Louise Damen. 2020-02-17 Does a more academic type of police education produce new police officers that are reluctant to patrol the streets? What is the impact of gender diversity and political orientation on a police students' career aspirations and attitudes to policing? These are some of the questions addressed by this longitudinal project, following police students in seven European countries. The unique data material makes it possible to explore a wide range of topics relevant to the future development of policing, police education and police science more generally. Part I presents an overview of the different goals and models of police education in the seven participating countries. Part II describes what type of student is attracted to police education, taking into consideration educational background, political orientation and career aspirations. Part III shows the social impact of police education by examining students' orientations towards emerging competence areas; students' career aspirations; and students' attitudes concerning trust, cynicism and legalism. The overall results show that police students are strikingly similar across different types of police education. Students in academic institutions are at least as interested in street patrolling as students in vocational training institutions. Gender and recruitment policies matters more in relation to career preferences than education models. The national context plays a more important role than the type of police education system. Written in a clear and direct style, this book will appeal to students and scholars in policing, criminology, sociology, social theory and cultural studies and those interested in how police education shapes its graduates.

A Feminist Critique of Police Stops Josephine Ross. 2020-12-17 If you've dreamed of walking free of sexual harassment, you will understand why it's time to end stop-and-frisk policing.

Global Responses to Domestic Violence Eve S. Buzawa, Carl G. Buzawa. 2017-06-19 This volume addresses the varied response to domestic violence in a comparative, international context. The chapters are laid out in a consistent format, to cover: the nature of the domestic violence problem, theoretical explanations, the criminal justice response, as well as health care and social service interventions in each country. The intent of the book is to provide an introduction to the attitudes and responses to domestic violence in various regions, to provide meaningful comparisons and share information on best practices for different populations and regions. There are considerable variations to domestic violence approaches across cultures and regions. In some places, it is considered a "private" or "family" matter, which can help it perpetuate. At the same time, the United States' approach to domestic violence has been criticized by some as being too focused on the criminal justice system, rather than other types of interventions which aim to keep families intact. This comprehensive work aims to highlight innovative approaches from several regions, important cultural sensitivities and concerns, and provide analysis to identify the strengths and weakness of various approaches. This work will be of interest to researchers in criminology and criminal justice, as well as related fields who deal with domestic violence and violence against women, including sociology and social work, and international justice. Practitioners and policymakers will also find it informative.

Police Code of Silence in Times of Change Sanja Kutnjak Ivković, Jon Maskály, Ahmet Kule, Maria Maki Haberfeld. 2022 This book explores the contours of the code of silence and provides policy recommendations geared toward creating an environment less conducive for police misconduct. It responds to the recent calls for police reform, in the wake of the perceived illegitimacy of police actions and the protection that the code of silence seems to provide to the police officers who violate the official rules. Using a case study of a medium-sized U.S. police agency, this book employs the lens of police integrity theory to provide empirically grounded explanations of the code of silence. It examines the potential effects of organizational factors and the attitudes of individual police officers on their willingness to adhere to the code of silence in cases of police corruption, the use of excessive force, interpersonal deviance, and organizational deviance. The book focuses on the following factors that could influence the police code of silence in the times of change: The impact of organizational rule dissemination, discipline, and disciplinary fairness on the scope of the code of silence The role organizational justice plays in shaping police officer willingness to report misconduct The effect that police officers' self-legitimacy has on their decisions to adhere to the code The influence of peer culture on individual police officer amenability to maintain the code The relationship between officers' views of themselves, the organization, and the community on their willingness to report misconduct .

Australian Policing Philip Birch, Michael Kennedy, Erin Kruger. 2020-11-29 This edited collection brings together leading academics, researchers, and police personnel to provide a comprehensive body of literature that informs Australian police education, training, research, policy, and practice. There is a strong history and growth in police education, both in Australia and globally. Recognising and reflecting on the Australian and New Zealand Policing Advisory Agency (ANZPAA) education and training framework, the range of chapters within the book address a range of 21st-century issues modern police forces face. This book discusses four key themes: Education, training, and professional practice: topics include police education, ethics, wellbeing, and leadership Organisational approaches and techniques: topics include police discretion, use of force, investigative interviewing, and forensic science Operational practices and procedures: topics include police and the media, emergency management, cybercrime, terrorism, and community management Working with individuals and groups: topics include mental health, Indigenous communities, young people, hate crime, domestic violence, and working with victims Australian Policing: Critical Issues in 21st Century Police Practice draws together theoretical and practice debates to ensure this book will be of interest to those who want to join the police, those who are currently training to become a police officer, and those who are currently serving. This book is essential reading for all students, scholars, and researchers engaged with policing and the criminal justice sector.

Police Administration Gary W. Corder. 2016-03-02 This national best-selling text examines police administration from multiple perspectives: a systems perspective (emphasizing the interrelatedness among units and organizations); a traditional, structural perspective (administrative principles, management functions, and the importance of written guidelines); a human behavioral perspective (the human element in organizations); and a strategic management perspective (communications and information systems, performance evaluation, strategies and tactics, and prevailing and promising approaches to increasing effectiveness of police agencies). Coverage of management functions and organizational principles is streamlined while providing a stronger emphasis on diversity principles and on developing police agencies as learning organizations. A concluding chapter covers contemporary issues, including community engagement, collaboration, globalization, racial profiling, mass media, cybercrime, terrorism and homeland security. Case studies based on real-life events invite students to practice managing the conflicting circumstances, and Modern policing blog posts offer news and developments in the policing world.

Exploring Police Integrity Sanja Kutnjak Ivković, M. R. Haberfeld. 2019-11-09 This work provides an innovative new look at police ethics, including

results from an updated version of the classic Police Integrity Questionnaire, including new social and technological advances. It aims to push the study of police research further, expanding on and testing police integrity theory and methodology, the relationship between community and integrity, and the influence of multiculturalism and globalization on policing and community attitudes. This work brings together experienced scholars who have used the police integrity theory and the accompanying methodology to measure police integrity in eleven countries, and provide advance and sophisticated explorations of the topic. Organized into three thematic sections, it explores the testing methodology for international comparisons, insights into police-community relations, and explores police subcultures. This innovative book will be of interest to researchers in criminology & criminal justice, particularly with an interest in policing, as well as related fields such as sociology, public policy, and comparative law.

De-escalating Threat: The Psychophysiology of Police Decision Making Judith Andersen, Eamonn Patrick Arble, Peter Ian Collins. 2020-07-08

Police and the Unarmed Black Male Crisis Sharon E. Moore, A. Christson Adedoyin, Michael A. Robinson. 2018-10-25 Presenting both historical and contemporary discussions and coverage, this book provides an in-depth and critical analysis of police brutality and the killing of unarmed black males in the United States of America. Within the book, contributors cover five key areas: the historical context and contemporary evidence of police brutality of unarmed black people in the USA; the impact of police aggression on blacks' well-being; novel strategies for prevention and intervention; the advancement of a cordial relationship between police and black communities; and how best to equip the next generation of scholars and professionals. Each contributor provides a simple-to-understand, thought-provoking, and creative recommendation to address the perennial social ill of police brutality of black males, making this book an excellent resource for students, scholars and professionals across disciplinary spectrums. This book was originally published as a special issue of the Journal of Human Behavior in the Social Environment.

Volunteer Police, Choosing to Serve Ross Wolf, Carol Borland Jones. 2018-05-11 Volunteer Police, Choosing to Serve provides an in-depth comparison between volunteer policing in the United States and in the United Kingdom, and explores the shared past and similar—yet sometimes divergent—evolution of special constables, auxiliaries, and reserves. It discusses the history of volunteer policing, contemporary authority, functions, and training. The book also examines part-time, auxiliary, and special constable policing roles around the globe. The text contains original research comparing British and American volunteer police, and concludes with a discussion of the future of volunteer policing in the UK and US contexts.

A City Divided: Race, Fear and the Law in Police Confrontations David A. Harris. 2020-01-10 A City Divided tells the story of the case involving 18-year-old Jordan Miles and three Pittsburgh police officers. David Harris, a resident of Pittsburgh and the Sally Ann Semenko Chair at the University of Pittsburgh School of Law, describes what happened, explaining how a case that began with a young black man walking around the block in his own neighborhood turned Pittsburgh inside out, resulted in two investigations of the police officers and two federal trials. Harris, who has written, published and conducted research at the intersection of race, criminal justice and the law for almost thirty years, explains not just what happened but why, what the stakes are and, most importantly, what we must do differently to avoid these public safety catastrophes.

On the Principles of Social Gravity [Revised Edition] Tobore Tobore .2020-10-06 "On the Principles of Social Gravity" proposes a radical new way of thinking about social systems. It explains that all social systems -institutions created of and for human beings e.g. healthcare system, family, military etc., - are held together or governed by nine principles or rules. Using these principles, it examined the problems facing the US healthcare system, criminal justice system, social security, student debt crisis, tax policies, immigration, the political system, and the United Nations. Then, provided novel and unique solutions to them. It expands on the meaning of social entropy and explains how it affects all social systems. It explains new terms like social gravity, de-entropification, primary and secondary contributors, negative and positive homogeneity, positive and negative homogenous group, homogenization, etc. that many readers will find enlightening and very interesting. It is a book that is likely to spark national and even global discussions about many of the institutions we have created. It's originality and usefulness makes it very likely that it will find a wide audience and many of its terms may become popular in the wider society. Since anyone could use the same principles developed in this book to understand and solve the problems with any social system, it will be useful for adoption in the university, for researchers and professors in the social sciences.

Investigating Corruption in the Afghan Police Force Singh, Danny. 2020-08-05 Based on unprecedented empirical research conducted with lower levels of the Afghan police, this unique study assesses how institutional legacy and external intervention, from countries including the UK and the US, have shaped the structural conditions of corruption in the police force and the state. Taking a social constructivist approach, the book combines an in-depth analysis of internal political, cultural and economic drivers with references to several regime changes affecting policing and security, from the Soviet occupation and Mujahidin militias to Taliban religious police. Crossing disciplinary boundaries, Singh offers an invaluable contribution to the literature and to anti-corruption policy in developing and conflict-affected societies.

International Handbook of Disaster Research Amita Singh. 2023-11-04 This handbook is a comprehensive source of information, analysis and directions in disaster studies. It goes beyond the oft-explored issues of management and science related to the topic and explores policies, governance, law and decision-making combined with the processes of implementation and enforcement, all the while integrating the latest science and technology updates related to the topic, such as artificial intelligence and early warning systems. It brings together studies which relate to sociology, politics and institutional economics, which work under the impact of resource availability, issues of leadership and international laws. Disasters are trans-boundary and disaster studies are trans-disciplinary. It is this aspect which would form the fulcrum of contributions and present a new, refreshing and innovative design for the handbook. The transformatory pedagogy which started with the Hyogo Framework for action 2005-2015 and The Sendai Framework for Disaster Risk Reduction 2015-2030 outlines seven clear targets and four priorities for action to prevent new and reduce existing disaster risks. The four priority areas around which the book would revolve are (i) Understanding disaster risk; (ii) Strengthening disaster risk governance to manage disaster risk; (iii) Investing in disaster reduction for resilience and; (iv) Enhancing disaster preparedness for effective response, and to Build Back Better in recovery, rehabilitation and reconstruction.
