Having these details right on the blog is what really sets FreeBooksHub.com apart and make it a great place to visit for free Kindle books. The Online Books Page features a vast range of books with a listing of over 30,000 eBooks available to download for free. subjects or serials. On the other hand, you can also browse through news, features, archives & indexes and the inside story for information. Since it's a search engine, browsing for books is almost impossible. The closest thing you can do is use the Authors dropdown in the navigation bar to browse by authors—and even then, you'll have to get used to the terrible user interface of the site overall. Most free books on Google Play are new titles that the author has self-published via the platform, and some classics are conspicuous by their absence; there's no free edition of Shakespeare's complete works, for example.
