[Wolves](#) Julie Argyle.2022-04-12 An up-close look at the beautiful, yet fierce wolves of the greater Yellowstone area and their fight for survival. In *Wolves: Western Warriors*, the life of the powerful and majestic North American wolf, often considered to be vermin and dangerous, is presented, showing the struggle they have to simply survive in the wild and in a world where many people don't appreciate wolves and often set out to exterminate them. Argyle explores their behavior, their family dynamics, and what it means to be a wolf in the wilderness of the greater Yellowstone area through her stunning photography. She includes information about the reintroduction of wolves to Yellowstone and the ongoing struggle with keeping wolves listed as endangered species, while also offering her personal observations about the Wapiti Lake pack, among others, and several notable individual wolves. The strikingly beautiful images and the information and stories woven throughout the pages of the book showcase this frequently misunderstood, yet completely incredible species. "If you talk to the animals they will talk with you and you will know each other. If you do not talk to them you will not know then and what you do not know, you will not fear. What one fears, one destroys." — Chief Dan George, Tsleil-Waututh Nation, British Columbia, Canada.

A Sand County Almanac Aldo Leopold.1968-12-31 First published in 1949 and praised in *The New York Times Book Review* as a trenchant book, full of vigor and bite, *A Sand County Almanac* combines some of the finest nature writing since Thoreau with an outspoken and highly ethical regard for America's relationship to the land. Written with an unparalleled understanding of the ways of nature, the book includes a section on the monthly changes of the Wisconsin countryside; another part that gathers informal pieces written by Leopold over a forty-year period as he traveled through the woodlands of Wisconsin, Iowa, Arizona, Sonora, Oregon, Manitoba, and elsewhere; and a final section in which Leopold addresses the philosophical issues involved in wildlife conservation. As the forerunner of such important books as Annie Dillard's *Pilgrim at Tinker Creek*, Edward Abbey's *Desert Solitaire*, and Robert Finch's *The Primal Place*, this classic work remains as relevant today as it was forty years ago.

Aldo Leopold's Odyssey, Tenth Anniversary Edition Julianne Lutz Warren.2016-05-24 In 2006, Julianne Lutz Warren (née Newton) asked readers to rediscover one of history's most renowned conservationists. Aldo Leopold's *Odyssey* was hailed by *The New York Times* as a "biography of ideas," making "us feel the loss of what might have followed *A Sand County Almanac* by showing us in authoritative detail what led up to it." Warren's astute narrative quickly became an essential part of the Leopold canon, introducing new readers to the father of wildlife ecology and offering a fresh perspective to even the most seasoned scholars. A decade later, as our very concept of wilderness is changing, Warren frames Leopold's work in the context of the Anthropocene. With a new preface and foreword by Bill McKibben, the book underscores the ever-growing importance of Leopold's ideas in an increasingly human-dominated landscape. Drawing on unpublished archives, Warren traces Leopold's quest to define and preserve land health. Leopold's journey took him from Iowa to Yale to the Southwest to Wisconsin, with fascinating stops along the way to probe the causes of early land settlement failures, contribute to the emerging science of ecology, and craft a new vision for land use. Leopold's life was dedicated to one fundamental dilemma: how can people live prosperously on the land and keep it healthy, too? For anyone compelled by this question, the Tenth Anniversary Edition of Aldo Leopold's *Odyssey* offers insight and inspiration.

Aldo Leopold: A Sand County Almanac & Other Writings on Conservation and Ecology (LOA #238) Aldo Leopold.2013-03-21 A special edition of one of the greatest masterpieces of the environmental movement—plus original photographs and other writings on environmental ethics Since his death in 1948, Aldo Leopold has been increasingly recognized as one of the indispensable figures of American environmentalism. A pioneering forester, sportsman, wildlife manager, and ecologist, he was also a gifted writer whose farsighted land ethic is proving increasingly relevant in our own time. Now, Leopold's essential contributions to our literature—some hard-to-find or previously unpublished—are gathered in a single volume for the first time. Here is his classic *A Sand County Almanac*, hailed—along with Thoreau's *Walden* and Carson's *Silent Spring*—as one of the main literary influences on the modern environmental movement. Published in 1949, it remains a vivid, firsthand, philosophical tour de force. Along with *Sand County* are more than fifty articles, essays, and lectures exploring the new complexities of ecological science and what we would now call environmental ethics. Leopold's sharp-eyed, often humorous journals are illustrated here for the first time with his original photographs, drawings, and maps. Also unique to this collection is a selection of over 100 letters, most of them never before published, tracing his personal and professional evolution and his efforts to foster in others the love and sense of responsibility he felt for the land. LIBRARY OF AMERICA is an independent nonprofit cultural organization founded in 1979 to preserve our nation's literary heritage by publishing, and keeping permanently in print, America's best and most significant writing. The Library of America series includes more than 300 volumes to date, authoritative editions that average 1,000 pages in length, feature cloth covers, sewn bindings, and ribbon markers, and are printed on premium acid-free paper that will last for centuries.

Round River Aldo Leopold, Luna Bergere Leopold.1972 To those who know the charm of Aldo Leopold's writing in *A Sand County Almanac*, this collection from his journals and essays will be a new delight. The journal entries included here were written in camp during his many field trips--hunting, fishing, and exploring--and they indicate the source of ideas on land ethics found in his longer essays. They reflect as well two long canoe trips in Canada and a sojourn in Mexico, where Leopold hunted deer with bow and arrow. The essays presented here are culled from the more contemplative notes which were still in manuscript form at the time of Leopold's death in 1948, fighting a brush fire on a neighbor's farm. *Round River* has been edited by Leopold's son, Luna, a geologist well-known in the field of conservation. It is also charmingly illustrated with line drawings by Charles W. Schwartz. All admirers of Leopold's work--indeed, all lovers of nature--will find this book richly rewarding.

[Saving Tarboo Creek](#) Scott Freeman.2018-01-24 When the Freeman family decided to transform a drainage ditch into a stream that could again nurture salmon, they knew the task would be formidable but the rewards plentiful. *Saving Tarboo Creek* artfully blends the story of the family's efforts with profound lessons about how we can live more constructive, fulfilling, and natural lives by engaging with the land rather than exploiting it. Based on the land ethic passionately promoted by Susan Leopold Freeman's grandfather, Aldo Leopold, in his influential book *A Sand County Almanac*, this timely tribute to our natural environment and the urgent

need to protect it is destined to be another inspiring classic.

A Sand County Almanac Aldo Leopold.1986-12-12 The environmental classic that redefined the way we think about the natural world--an urgent call for preservation that's more timely than ever. "We can place this book on the shelf that holds the writings of Thoreau and John Muir."--San Francisco Chronicle These astonishing portraits of the natural world explore the breathtaking diversity of the unspoiled American landscape--the mountains and the prairies, the deserts and the coastlines. Conjuring up one extraordinary vision after another, Aldo Leopold takes readers with him on the road and through the seasons on a fantastic tour of our priceless natural resources, explaining the destructive effects humankind has had on the land and issuing a bold challenge to protect the world we love.

Aldo Leopold's Shack Nancy Nye Hunt.2011 This charming children's book tells the tale of an extraordinary family's efforts to restore a worn-out Wisconsin farm during the Depression and the 1940s. Noted conservationist Aldo Leopold--along with his wife, Estella, and their five children and two dogs--spent most weekends and vacations living and working at the Sand County farm they called the Shack, which is now a national historic landmark. Leopold's time there led to his foundational work of environmental writing, A Sand County Almanac, which was based on the scientific observations recorded in his family's "Shack journals." Drawing from these journals, historic family photographs, and interviews, and writing from the perspective of Leopold's daughter Nina, Nancy Nye Hunt captures here the spirit of this famous family's experiences on the land.

Aldo Leopold and the Ecological Conscience Richard L. Knight,Susanne Riedel.2002-04-11 In Aldo Leopold and an Ecological Conscience ecologists, wildlife biologists, and other professional conservationists explore the ecological legacy of Aldo Leopold and his A Sand County Almanac and his contributions to the environmental movement, the philosophy of science, and natural resource management. Twelve personal essays describe the enormous impact he has had on each author, from influencing the daily operations of the U.S. Fish and Wildlife Service and the creation of a land-use ethics guide for Forest Service personnel, to much needed inspiration for continuing on in today's large, complex and often problematic world of science. Here is Aldo Leopold as a mentor, friend, and companion and an affirmation of his hope that science will continue to be practiced in the cause of conservation.

Think Like a Mountain Aldo Leopold.2021-08-26 In twenty short books, Penguin brings you the classics of the environmental movement. In this lyrical meditation on America's wildlands, Aldo Leopold considers the different ways humans shape the natural landscape, and describes for the first time the far-reaching phenomenon now known as 'trophic cascades'. Over the past 75 years, a new canon has emerged. As life on Earth has become irrevocably altered by humans, visionary thinkers around the world have raised their voices to defend the planet, and affirm our place at the heart of its restoration. Their words have endured through the decades, becoming the classics of a movement. Together, these books show the richness of environmental thought, and point the way to a fairer, saner, greener world.

The Primal Place Robert Finch.2007-05-09 From acclaimed author and naturalist Robert Finch, a richly detailed observance of Cape Cod's seemingly vanished natural and human past, as it clings to its present landscape. This is a voyage of discovery, a personal odyssey into the nature of a single Cape Cod neighborhood. It is a rich portrait, beautifully drawn, of a landscape and a community whose essential character lies in their penetrating interface with the sea. But it is also an individual quest, a journey of the heart and mind in which the author seeks entrance, or rather re-entrance into that vast living maze stretching out beyond my lines of sight.

The River of the Mother of God Aldo Leopold.1992-12-01 His name is inextricably linked with a single work, A Sand County Almanac, a classic of natural history literature and the conservationist's bible. This book brings together the best of Leopold's essays.

Game Management Aldo Leopold.1987-03-13 With this book, published more than a half-century ago, Aldo Leopold created the discipline of wildlife management. Although A Sand Country Almanac is doubtless Leopold's most popular book, Game Management may well be his most important. In this book he revolutionized the field of conservation.

For the Health of the Land Aldo Leopold.2012-07-16 Aldo Leopold's classic work A Sand County Almanac is widely regarded as one of the most influential conservation books of all time. In it, Leopold sets forth an eloquent plea for the development of a land ethic -- a belief that humans have a duty to interact with the soils, waters, plants, and animals that collectively comprise the land in ways that ensure their well-being and survival. For the Health of the Land, a new collection of rare and previously unpublished essays by Leopold, builds on that vision of ethical land use and develops the concept of land health and the practical measures landowners can take to sustain it. The writings are vintage Leopold -- clear, sensible, and provocative, sometimes humorous, often lyrical, and always inspiring. Joining them together are a wisdom and a passion that transcend the time and place of the author's life. The book offers a series of forty short pieces, arranged in seasonal almanac form, along with longer essays, arranged chronologically, which show the development of Leopold's approach to managing private lands for conservation ends. The final essay is a never before published work, left in pencil draft at his death, which proposes the concept of land health as an organizing principle for conservation. Also featured is an introduction by noted Leopold scholars J. Baird Callicott and Eric T. Freyfogle that provides a brief biography of Leopold and places the essays in the context of his life and work, and an afterword by conservation biologist Stanley A. Temple that comments on Leopold's ideas from the perspective of modern wildlife management. The book's conservation message and practical ideas are as relevant today as they were when first written over fifty years ago. For the Health of the Land represents a stunning new addition to the literary legacy of Aldo Leopold.

Not on My Watch Alexandra Morton.2021-03-23 NATIONAL BESTSELLER Alexandra Morton has been called the Jane Goodall of Canada because of her passionate thirty-year fight to save British Columbia's wild salmon. Her account of that fight is both inspiring in its own right and a roadmap of resistance. Alexandra Morton came north from California in the early 1980s, following her first love--the northern resident orca. In remote Echo Bay, in the Broughton Archipelago, she found the perfect place to settle into all she had ever dreamed of: a lifetime of observing and learning what these big-brained mammals are saying to each other. She was lucky enough to get there just in time to witness a place of true natural abundance, and learned how to thrive in the wilderness as a scientist and a single mother. Then, in 1989, industrial aquaculture moved into the region, chasing the whales away. Her fisherman neighbours asked her if she would write letters on their behalf to government explaining the damage the farms were doing to the fisheries, and one thing led to another. Soon Alex had shifted her scientific focus to documenting the infectious diseases and parasites that pour from the ocean farm pens of Atlantic salmon into the migration routes of wild Pacific salmon, and then to proving their disastrous impact on wild salmon and the entire ecosystem of the coast. Alex stood against the farms, first representing her community, then alone, and at last as part of an uprising that built around her as ancient Indigenous governance resisted a province and a country that wouldn't obey their own court rulings. She has used her science, many acts of protest and the legal system in her unrelenting efforts to save wild salmon and ultimately the whales--a story that reveals her own doggedness and bravery but also shines a bright light on the ways other humans doggedly resist the truth. Here, she brilliantly calls those humans to account for the sake of us all.

A Sand County Almanac Aldo Leopold.2020-03-25 Few books have had a greater impact than *A Sand County Almanac*, which many credit with launching a revolution in land management. Written as a series of sketches based principally upon the flora and fauna in a rural part of Wisconsin, the book, originally published by Oxford in 1949, gathers informal pieces written by Leopold over a forty-year period as he traveled through the woodlands of Wisconsin, Iowa, Arizona, Sonora, Oregon, Manitoba, and elsewhere; a final section addresses the philosophical issues involved in wildlife conservation. Beloved for its description and evocation of the natural world, Leopold's book, which has sold well over 2 million copies, remains a foundational text in environmental science and a national treasure.

Aldo Leopold's Odyssey Julianne Lutz Newton.2006-11 A household icon of the environmental movement, Aldo Leopold (1887-1948) may be the most quoted conservationist in history. *A Sand County Almanac* has sold millions of copies and his lyrical writings are venerated for their perceptions about land and how people might live in concert with the whole community of life. Using a fresh study of Leopold's unpublished archival materials, Julianne Lutz Newton retraces the intellectual journey that generated such passion and intelligence.

Stories from the Leopold Shack Estella B. Leopold.2016-05-13 In 1934, conservationist Aldo Leopold and his wife Estella bought a barn - the remnant of a farm - and surrounding lands in south-central Wisconsin. The entire Leopold clan - five children in all - worked together to put into practice Aldo's land ethic, which involved ecological restoration and sustainability. In the process, they built more than a pleasant weekend getaway; they established a new way of relating to nature. In 1948, *A Sand County Almanac* was published, and it has become a beloved and foundational text of the conservation movement. Decades later, Estella B. Leopold, the youngest of the Leopold children - she was eight when they bought the land - now reflects on the Shack, as they called the repurposed barn, and its inhabitants, and recalls with clear-eyed fondness the part it played in her and her siblings' burgeoning awareness of nature's miracles, season by season. In *Stories from the Leopold Shack: Sand County Revisited*, she unforgettably recalls the intensity of those days: the taste of fresh honey on sourdough pancakes; the trumpeting arrival of migrating Canada geese; the awesome power of river ice driven by currents - and each description is accompanied by stunning photographs by her brother, A. Carl Leopold. As the Leopolds worked to restore degraded farmland back to its original prairie and woods, they noted and celebrated all of the flora and fauna that came to share the Shack lands. As first evoked in *A Sand County Almanac*, and now revisited in *Stories from the Leopold Shack*, the Leopold family's efforts of ecological restoration were among the earliest in the United States, and their work, collectively and individually, continues to have a profound impact on land management and conservationism. All of Aldo and Estella Leopold's children went on to become distinguished scientists and to devote themselves to a life of conservation; their work continues through the Aldo Leopold Foundation. Estella B. Leopold book offers a voyage back to the place where it all began.

The Land Pyramid as Philosophy and Structure in Aldo Leopold's "Sand County Almanac" Susanne Hefekäuser.2012-07-05 Seminar paper from the year 2007 in the subject American Studies - Literature, grade: 1,0, Johannes Gutenberg University Mainz (Department of English and Linguistics), course: Nature Writing, language: English, abstract: The essays which compose Aldo Leopold's *A Sand County Almanac* and *Sketches Here and There* have been written in a time span of over thirty years, some dating back to the 1910's. Therefore, the work could rather be seen as a collection of essays than a monographic book. Additionally, Leopold writes about such a diversity of places and species, that the work as a whole seems to be very fragmented. However, this style of composition is not as randomized as it seems at first glance. Instead, as a whole, the essays of *A Sand County Almanac* form the structure of an ecosystem with interdependent parts supporting and challenging each other. In this paper, I will first explore Leopold's own definition of an ecosystem as he describes it in the subchapter "The Land Pyramid". Then, I will demonstrate that *A Sand County Almanac* mirrors the complex structures of such a system.

Project Gutenberg (named after the printing press that democratized knowledge) is a huge archive of over 53,000 books in EPUB, Kindle, plain text, and HTML. You can download them directly, or have them sent to your preferred cloud storage service (Dropbox, Google Drive, or Microsoft OneDrive). You can search for free Kindle books at Free-eBooks.net by browsing through fiction and non-fiction categories or by viewing a list of the best books they offer. You'll need to be a member of Free-eBooks.net to download the books, but membership is free. Free-Ebooks.net is a platform for independent authors who want to avoid the traditional publishing route. You won't find Dickens and Wilde in its archives; instead, there's a huge array of new fiction, non-fiction, and even audiobooks at your fingertips, in every genre you could wish for. There are many similar sites around, but Free-Ebooks.net is our favorite, with new books added every day. Better to search instead for a particular book title, author, or synopsis. The Advanced Search lets you narrow the results by language and file extension (e.g. PDF, EPUB, MOBI, DOC, etc).
