Army Strategic Planning Guidance 2013 .2013-05-03 In Jan. 2012, Sec. of Defense Leon E. Panetta issued Sustaining U.S. Global Leadership: Priorities for 21st Century Defense. Key elements of that new strategic guidance were a rebalancing to the Asia-Pacific region while maintaining our commitment to partners in and around the Middle East. It also emphasized developing innovative ways to achieve security objectives, such as combined exercises and other means of building partner capacity and interoperability, and an increased use of rotational presence overseas. The 2012 Army Strategic Planning Guidance (ASPG) provided the initial vision for how the Army could best support the new strategic guidance. The 2013 ASPG is a refinement of that vision, incorporating a year's worth of study, analysis, and experience. Though in Afghanistan the Army is proceeding to transfer security responsibility to the Afghan National Security Forces, the fight there is not yet finished. The Army has already begun preparing to meet the demands of the rebalance to the Asia-Pacific region and the emphasis on building partner capacity and shaping the security environment as directed by the new Defense strategic guidance. These changes must be made carefully, however, in this time of decreasing budgets. Figures. This is a print on demand report.

Weapon Systems Handbook .2020-05-03 July 2019 Printed in BLACK AND WHITE The Army's Weapon Systems Handbook was updated in July 2019, but is still titled Weapon Systems Handbook 2018. We are printing this in black and white to keep the price low. It presents many of the acquisition programs currently fielded or in development. The U.S. Army Acquisition Corps, with its 36,000 professionals, bears a unique responsibility for the

oversight and systems management of the Army's acquisition lifecycle. With responsibility for hundreds of acquisition programs, civilian and military professionals collectively oversee research, development and acquisition activities totaling more than \$20 billion in Fiscal Year 2016 alone. Why buy a book you can download for free? We print this so you don't have to. We at 4th Watch Publishing are former government employees, so we know how government employees actually use the standards. When a new standard is released, somebody has to print it, punch holes and put it in a 3-ring binder. While this is not a big deal for a 5 or 10-page document, many DoD documents are over 400 pages and printing a large document is a time-consuming effort. So, a person that's paid \$25 an hour is spending hours simply printing out the tools needed to do the job. That's time that could be better spent doing mission. We publish these documents so you can focus on what you are there for. It's much more cost-effective to just order the latest version from Amazon.com. Since there are thousands of pages, you need to be very well versed with the site to get the exact content you are looking for.
