*Mallparks* Michael T. Friedman. 2023-07-15 In *Mallparks*, Michael T. Friedman observes that as cathedrals represented power relations in medieval towns and skyscrapers epitomized those within industrial cities, sports stadiums exemplify urban American consumption at the turn of the twenty-first century. Grounded in Henri Lefebvre and George Ritzer's spatial theories in their analyses of consumption spaces, *Mallparks* examines how the designers of this generation of baseball stadiums follow the principles of theme park and shopping mall design to create highly effective and efficient consumption sites. In his exploration of these contemporary cathedrals of sport and consumption, Friedman discusses the history of stadium design, the amenities and aesthetics of stadium spaces, and the intentions and conceptions of architects, team officials, and civic leaders. He grounds his analysis in case studies of Oriole Park at Camden Yards in Baltimore; Fenway Park in Boston; Dodger Stadium in Los Angeles; Nationals Park in Washington, DC; Target Field in Minneapolis; and Truist Park in Atlanta.

**DC Jazz** Maurice Jackson, Blair A. Ruble. 2018-06-01 The familiar history of jazz music in the United States begins with its birth in New Orleans, moves upstream along the Mississippi River to Chicago, then by rail into New York before exploding across the globe. That telling of history, however, overlooks the pivotal role the nation's capital has played for jazz for a century. Some of the most important clubs in the jazz world have opened and closed their doors in Washington, DC, some of its greatest players and promoters were born there and continue to reside in the area, and some of the institutions so critical to national support of this uniquely American form of music, including Congress, the Smithsonian Institution, the Kennedy Center, the Library of Congress and the Historical Society of Washington, D.C., are rooted in the city. Closer to the ground, a network of local schools like the Duke Ellington High School for the Performing Arts, jazz programs at the University of the District of Columbia and Howard University, churches, informal associations, locally focused media, and clubs keeps the music alive to this day. Noted historians Maurice Jackson and Blair Ruble, editors of this book, present a collection of original and fascinating stories about the DC jazz scene throughout its history, including a portrait of the cultural hotbed of Seventh and U Streets, the role of jazz in desegregating the city, a portrait of the great Edward Duke Ellington's time in DC, notable women in DC jazz, and the seminal contributions of the University of District of

Columbia and Howard University to the scene. The book also includes three jazz poems by celebrated Washington, DC, poet E. Ethelbert Miller. Collectively, these stories and poems underscore the deep connection between creativity and place. A copublishing initiative with the Historical Society of Washington, DC, the book includes over thirty museum-quality photographs and a guide to resources for learning more about DC jazz.

**DC Sports** Chris Elzey,David K. Wiggins.2015-07-15 Washington, DC, is best known for its politics and monuments, but sport has always been an integral part of the city, and Washingtonians are among the country's most avid sports fans. *DC Sports* gathers seventeen essays examining the history of sport in the nation's capital, from turn-of-the-century venues such as the White Lot,

Griffith Stadium, and DC Memorial Stadium to Howard-Lincoln Thanksgiving Day football games of the roaring twenties; from the surprising season of the 1969 Washington Senators to the success of Georgetown basketball during the 1980s. This collection covers the field, including public recreation, high-school athletics, intercollegiate athletics, professional sports, sports journalism, and sports promotion. A southern city at heart, Washington drew a strong color line in every facet of people's lives. Race informed how sport was played, written about, and watched in the city. In 1962, the Redskins became the final National Football League team to integrate. That same year, a race riot marred the city's high-school championship game in football. A generation later, race as an issue resurfaced after Georgetown's African American head coach John Thompson Jr. led the Hoyas to national prominence in basketball. DC Sports takes a hard look at how sports in one city has shaped culture and history, and how culture and history inform sports. This informative and engaging collection will appeal to fans and students of sports and those interested in the rich history of the nation's capital.

**Cancer Control Opportunities in Low- and Middle-Income Countries** Institute of Medicine, Board on Global Health, Committee on Cancer Control in Low- and Middle-Income Countries.2007-02-26 Cancer is low or absent on the health agendas of low- and middle-income countries (LMCs) despite the fact that more people die from cancer in these countries than from AIDS and malaria combined. International health organizations, bilateral aid agencies, and major foundations—which are instrumental in setting health priorities—also have largely ignored cancer in these countries. This book identifies feasible, affordable steps for LMCs and their international partners to begin to reduce the cancer burden for current and future generations. Stemming the growth of cigarette smoking tops the list to prevent cancer and all the other major chronic diseases. Other priorities include infant vaccination against the hepatitis B virus to prevent liver cancers and vaccination to prevent cervical cancer. Developing and increasing capacity for cancer screening and treatment of highly curable cancers (including most childhood malignancies) can be accomplished using resource-level appropriateness as a guide. And there are ways to make inexpensive oral morphine available to ease the pain of the many who will still die from cancer.
