Raising Racists Kristina DuRocher.2011-05-06 White southerners recognized that the perpetuation of segregation required whites of all ages to uphold a strict social order -- especially the young

members of the next generation. White children rested at the core of the system of segregation between 1890 and 1939 because their participation was crucial to ensuring the future of white supremacy. Their socialization in the segregated South offers an examination of white supremacy from the inside, showcasing the culture's efforts to preserve itself by teaching its beliefs to the next generation. In *Raising Racists: The Socialization of White Children in the Jim Crow South*, author Kristina DuRocher reveals how white adults in the late nineteenth and early twentieth centuries continually reinforced race and gender roles to maintain white supremacy. DuRocher examines the practices, mores, and traditions that trained white children to fear, dehumanize, and disdain their black neighbors. *Raising Racists* combines an analysis of the remembered experiences of a racist society, how that society influenced children, and, most important, how racial violence and brutality shaped growing up in the early-twentieth-century South.

The Musical Gift Jim Sykes.2018-08-31 The Musical Gift tells Sri Lanka's music history as a story of giving between humans and nonhumans, and between populations defined by difference.

Author Jim Sykes argues that in the recent past, the genres we recognize today as Sri Lanka's esteemed traditional musics were not originally about ethnic or religious identity, but were gifts to gods and people intended to foster protection and/or healing.

Noting that the currently assumed link between music and identity helped produce the narratives of ethnic difference that drove Sri Lanka's civil war (1983-2009), Sykes argues that the promotion of connected music histories has a role to play in post-war reconciliation. The Musical Gift includes a study of how NGOs used music to promote reconciliation in Sri Lanka, and it

contains a theorization of the relations between musical gifts and commodities. Eschewing a binary between the gift and identity, Sykes claims the world's music history is largely a story of entanglement between both paradigms. Drawing on fieldwork conducted widely across Sri Lanka over a span of eleven years--including the first study of Sinhala Buddhist drumming in English and the first ethnography of music-making in the former warzones of the north and east--this book brings anthropology's canonic literature on the gift into music studies, while drawing on anthropology's recent ontological turn and the new materialism in religious studies.

Sons of Assumption: A History of a French Parochial High

School in Massachusetts Nancy Rocheleau.2015-09-30 Sons of Assumption explores the rich history of Assumption High School, then later Assumption Prep, which prepared boys for the priesthood for almost sixty-five years before closing in 1970. With classes taught in French, it was not uncommon for Canadian and French families to entrust the school to turn their sons into godly men. In their own words, the graduates describe their feelings of homesickness, struggles with discipline, and how their experiences allowed them to succeed in their careers. The author doesn't just provide a careful retelling of the graduates' experiences, she also delves into the history of Worcester, Massachusetts, and how the school's buildings that its alumni hold so dear have since been repurposed. As a distinctive and proud Franco-American Catholic boarding school, Assumption High offered its pupils an education that was rigorous, religious,

educators, camp directors, and counselors who participated in the organized camp movement. This classic, highly regarded volume has now been thoroughly updated to provide a 21st-century view of the trends, philosophies, and practices of organized camping. The Eighth Edition retains the overarching emphasis on leadership skills and program activities and ideas, updating their treatment with the latest research on positive youth development and outcomes-based programming. New chapters discuss trends in organized camping, efforts to expand opportunities for camp participation, and strategies to increase physical activity among children and youth. Substantially revised topics include modern behavior management tools and techniques, leadership strategies, problem solving, group processes, and the importance of research and evaluation. Throughout, the authors infuse the discussion with a leave no trace conservation ethic that promotes ways to enjoy the outdoors in a responsible, sustainable manner. The essence of organized camping has remained the same throughout its 150-year history: democratic, group living in the outdoors supported by competent, well-trained leaders. The latest edition of *Camp Counseling* celebrates that essence in every chapter, illuminated by more than 120 new photographs as well as numerous illustrations and boxed exhibits. Moreover, extensive, annotated resource lists in every chapter provide countless opportunities to explore topics in greater depth.

R. E. Olds and Industrial Lansing Michael Rodriguez.2004-06-29 Upon the dedication of a new Capitol building in 1879, the city of Lansing was just beginning to emerge from the swampy wilderness of its recent past. As industry began to take root along the banks of the Grand River, Ransom Eli Olds brought his father's motor shop to national prominence with advancements in gasoline and steam engines, and then horseless carriages. By the early 20th century, Oldsmobile became the world's first mass producer of automobiles and Olds had moved on to found a second car company, making Lansing the first Auto City. Through

these efforts, Olds rose to become one of the nation's greatest industrialists and entrepreneurs. Using primary documents and historical images, this book traces the industrial history of the Capital City within the context of one of the 20th century's greatest entrepreneurs, R.E. Olds.

Life and Death on Mt. Everest Sherry B. Ortner.2020-03-31 The Sherpas were dead, two more victims of an attempt to scale Mt. Everest. Members of a French climbing expedition, sensitive perhaps about leaving the bodies where they could not be recovered, rolled them off a steep mountain face. One body, however, crashed to a stop near Sherpas on a separate expedition far below. They stared at the frozen corpse, stunned. They said nothing, but an American climber observing the scene interpreted their thoughts: Nobody would throw the body of a white climber off Mt. Everest. For more than a century, climbers from around the world have journ-eyed to test themselves on Everest's treacherous slopes, enlisting the expert aid of the Sherpas who live in the area. Drawing on years of field research in the Himalayas, renowned anthropologist Sherry Ortner presents a compelling account of the evolving relationship between the mountaineers and the Sherpas, a relationship of mutual dependence and cultural conflict played out in an environment of

mortal risk. Ortner explores this relationship partly through gripping accounts of expeditions--often in the climbers' own words--ranging from nineteenth-century forays by the British through the historic ascent of Hillary and Tenzing to the disasters described in Jon Krakauer's *Into Thin Air*. She reveals the climbers, or sahibs, to use the Sherpas' phrase, as countercultural romantics, seeking to transcend the vulgarity and materialism of modernity through the rigor and beauty of mountaineering. She shows how climbers' behavior toward the Sherpas has ranged from kindness to cruelty, from cultural sensitivity to derision. Ortner traces the political and economic factors that led the Sherpas to join expeditions and examines the impact of climbing on their traditional culture, religion, and identity. She examines Sherpas' attitude toward death, the implications of the shared masculinity of Sherpas and sahibs, and the relationship between Sherpas and the increasing number of women climbers. Ortner also tackles debates about whether the Sherpas have been spoiled by mountaineering and whether climbing itself has been spoiled by commercialism.

To understand the competing ideologies that underlie this switching between languages, this book looks at the language situation from multiple perspectives. Part A reviews the social and political forces that have propelled English through its life cycle in the Philippines from the 1898 arrival of Admiral Dewey to the 1998 election of Joseph Estrada. Part B looks at the social support for English in Metro Manila and the provinces with a focus on English teachers and their personal and public use of English.
